The Black Count

Born to a black slave mother and a fugitive white French nobleman in present-day Haiti, Alex Dumas was briefly sold into bondage but then made his way to Paris where he was schooled as a sword-fighting member of the French aristocracy.

The Black Count

Who was the real Count of Monte Cristo? In this extraordinary biography, Tom Reiss traces the almost unbelievable life of the man who inspired not only Monte Cristo, but all three of the Musketeers: the novelist's own father.

The Black Count by Tom Reiss | A 15-minute Summary & Analysis

The Black Count by Tom Reiss | A 15-minute Summary & Analysis Preview: The Black Count is the Pulitzer Prize winning biography written by author Tom Reiss. The book traces the life of Thomas-Alexandre Davy de la Pailleterie, also known as Alexandre Dumas, a black general who fought in the French Revolution. The narrative is told through historical documents as well as writings of Dumas' son, the novelist Alexandre Dumas, who wrote The Three Musketeers and The Count of Monte Cristo. Dumas was born in 1762 in the Saint-Domingue French sugar colony, modern day Haiti. His father, Alexandre Antoine Davy de la Pailleterie, was a French nobleman who became a marquis. After establishing a Jeremie coffee plantation in the 1750s, he purchased a slave named Marie Cessette and they had four children together. Antoine sold his wife and children into slavery, but pawned his favorite son, Dumas, and, in August of 1776, redeemed him. Dumas and Antoine moved to Saint-Germain-en-Laye, a small city west of Paris... PLEASE NOTE: This is an unofficial summary

Black Count: glory, revolution, betrayal and real count of Monte Cristo

In 1799, however, Dumas left Egypt when Napoleon wanted him to remain with the army. This plunged Dumas deeply into the dungeon of Napoleon's disfavor. Later he was literally imprisoned in southern Italy until 1801. "Napoleon never forgave Dumas," Gallaher notes, "and even continued to punish his wife and children after his death."

A thrilling page-turner of epic proportions, Tom Reiss's panoramic bestseller tells the true story of a Jew who transformed himself into a Muslim prince in Nazi Germany. Lev Nussimbaum escaped the Russian Revolution in a camel caravan and, as "Essad Bey," became a celebrated author with the enduring novel Ali and Nino as well as an adventurer, a real-life Indiana Jones with a fatal secret. Reiss pursued Lev's story across ten countries and found himself caught up in encounters as dramatic and surreal—and sometimes as heartbreaking—as his subject's life.

The Count of Monte Cristo Complete and Unabridged Edition: 4 Volumes in 1 (All Four Volumes in One)

In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "The Black Count: Glory, Revolution, Betrayal, and the Real Count of Monte Cristo." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

The Orphan Master's Son

The Orientalist unravels the mysterious life of a man born on the border between West and East, a Jewish man with a passion for the Arab world. Tom Reiss first came across the man who called himself 'Kurban Said' when he went to the ex-USSR to research the oil business on the Caspian Sea, and discovered a novel instead. Written on the eve of the Second World War, Ali and Nino is a captivating love story set in the glamorous city of Baku, Azerbaijan's capital. The novel's depiction of a lost cosmopolitan society is enthralling, but equally intriguing is the identity of the man who wrote it. Who was its supposed author? And why was he so forgotten that no one could agree on the simplest facts about him? For five years, Reiss tracked Lev Nussimbaum, alias Kurban Said, from a wealthy Jewish childhood in Baku, to a romantic adolescence in Persia on the run from the Bolsheviks, and an exile in Berlin as bestselling author and self-proclaimed Muslim prince. The result is a thoroughly unexpected picture of the twentieth-century - of the origins of our ideas about race and religious self-definition, and of the roots of modern fanaticism.

100 Common Misconceptions about the Black Count

Long before the word Super Star was coined, Saint-Georges was the original. Many people throughout history have been famous for one reason or another. Many have made great contributions to civilization and left great legacies. Their paintings and sculptures we still admire. Their discoveries have made our lives better; their music we still play and sing, but no one in history was as talented in so many areas as Saint-Georges. For a time, he was the greatest fencer in the world. He was an exceptional violinist and along with his teacher, Gossec, he pioneered the composition of the String Quartet. Even Mozart came to Paris to study this new form of music. Saint-Georges was an unequaled equestrian, an exceptional marksman and an elegant dancer. The wealthy copied the way he dressed, and the common people admired him as he walked through the streets, and whispered his name. He was a true Renaissance man and a super star in the Paris of King Louis XVI and Marie Antoinette. What is even more remarkable was the fact that he was a mulatto.

The Orientalist

This vintage book contains the second volume of Alexandre Dumas's famous adventure novel, "The Count of Monte Cristo". Set in early nineteenth century France during the time of the Bourbon Restoration, it tells the story of a man's wrongful imprisonment, his escape, and his indefatigable quest for revenge. A masterful tale of hope, justice, vengeance, mercy, and forgiveness, "The Count of Monte Cristo" is rightfully one of the most famous novels of all time, and deserves a place on every bookshelf. Alexandre Dumas (1802-1870) was a famous French writer. He is best remembered for his exciting romantic sagas, including "The Three Musketeers" and "Chicot the Jester". Despite making a great deal of money from his writing, Dumas was almost perpetually penniless thanks to his extravagant lifestyle. His novels have been translated into nearly a hundred different languages, and have inspired over 200 motion pictures. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing this antiquarian book now in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author.

The French Revolution has primarily been understood as a national event that also had a lasting impact in Europe and in the Atlantic world. Recently, historiography has increasingly emphasized how France's overseas colonies also influenced the contours of the French Revolution. This volume examines the effects of both dimensions on the reorganization of spatial formats and spatial orders in France and in other societies. It departs from the assumption that revolutions shatter not only the political and economic old regime order at home but, in an increasingly interdependent world, also result in processes of respatialization. The French Revolution, therefore, is analysed as a key event in a global history that seeks to account for the shifting spatial organization of societies on a transregional scale.

The Count of Monte Cristo - Vol II. (In Five Volumes)

A sweeping, illustrated history of Europe--a continent whose imperial ambitions, internal clashes, and existential threats are as vital today as they were during the conquests of Alexander the Great. In just a few hundred years, a modest peninsula off the northwest corner of Asia has seen the rise and fall of several empires; served as the crucible for scientific dynamism, cultural innovation, and economic revolution; and witnessed cataclysms and bloodshed that have almost destroyed it several times over. This is Europe: a continent whose identity emerged not so much by virtue of geographic or ethnic continuity, but by a long and storied struggle for power. Studded with infamous figures--from Caesar to Charlemagne and Machiavelli to Marx--Simon Jenkins's history of Europe travels briskly from the Roman Empire, the Dark Ages, and the Reformation through the French Revolution, the World Wars, and the fall of the USSR. What emerges in this thrilling and expansive telling is a continent as defined by its continually clashing cultural identities and violent crises as it is by its tireless drive for a society based on the consent of the governed -- which holds true right up to the present day.

This carefully crafted ebook: "THE BLACK TULIP (Historical Adventure Novel)" is formatted for your eReader with a functional and detailed table of contents. The story begins with the 1672 lynching of the Dutch Grand Pensionary Johan de Witt and his brother Cornelis by a wild mob of their own countrymen, considered by many as one of the most painful episodes in Dutch history, described by Dumas with a dramatic intensity. The city of Haarlem, Netherlands, has set a prize of *f*100, 000 to the person who can grow a black tulip, sparking competition between the country's best gardeners to win the money, honor and fame. Only the city's oldest citizens remember the Tulip Mania thirty years prior, and the citizens throw themselves into the competition. The young and bourgeois Cornelius van Baerle has almost succeeded but is suddenly thrown into the Loevestein prison... Alexandre Dumas, père (1802-1870) was a French writer whose works have been translated into nearly 100 languages and he is one of the most widely read French authors. His most famous works are *The Count of Monte Cristo* and *The Three Musketeers*.

The Black Count

"The Roman poet Horace (65-8 BC) has long been read as a wise and pragmatic guide to living a good life. Writing at the very moment when Rome was transitioning from a republic to an empire, Romans found the advice in his poems appealing: live quietly and non-extravagantly amid the excesses of a materialistic society, avoid extreme emotions of any kind as psychologically damaging, place a value on friendship of all kinds, do not be afraid of death, and most famously live every day to the full as tomorrow may never come (*carpe diem*). But above all else, Horace advocated a life of contentment and self-sufficiency"--

THE BLACK TULIP (Historical Adventure Novel)

No one predicted success for Henry Ward Beecher at his birth in 1813. The blithe, boisterous son of the last great Puritan minister, he seemed destined to be overshadowed by his brilliant siblings—especially his sister, Harriet Beecher Stowe, who penned the century's bestselling book *Uncle Tom's Cabin*. But when pushed into the ministry, the charismatic Beecher found international fame by shedding his father's Old Testament–style fire-and-brimstone theology and instead preaching a New Testament–based gospel of unconditional love and healing, becoming one of the founding fathers of modern American Christianity. By the 1850s, his spectacular sermons at Plymouth Church in Brooklyn Heights had made him New York's number one tourist attraction, so wildly popular that the ferries from Manhattan to Brooklyn were dubbed "Beecher Boats." Beecher inserted himself into nearly every important drama of the era—among them the antislavery and women's suffrage movements, the rise of the entertainment industry and tabloid press, and controversies ranging from Darwinian evolution to presidential politics. He was notorious for his irreverent humor and melodramatic gestures, such as auctioning slaves to freedom in his pulpit and shipping rifles—nicknamed "Beecher's Bibles"—to the antislavery resistance fighters in Kansas. Thinkers such as Emerson, Thoreau, Whitman, and Twain befriended—and sometimes parodied—him. And then it all fell apart. In 1872 Beecher was accused by feminist firebrand Victoria Woodhull of adultery with one of his most pious parishioners. Suddenly the "Gospel of Love" seemed to rationalize a life of lust. The cuckolded husband brought charges of "criminal conversation" in a salacious trial that became the most widely covered event of the century, garnering more newspaper headlines than the entire Civil War. Beecher survived, but his reputation and his

causes—from women's rights to progressive evangelicalism—suffered devastating setbacks that echo to this day. Featuring the page-turning suspense of a novel and dramatic new historical evidence, Debby Applegate has written the definitive biography of this captivating, mercurial, and sometimes infuriating figure. In our own time, when religion and politics are again colliding and adultery in high places still commands headlines, Beecher's story sheds new light on the culture and conflicts of contemporary America.

A revelatory biography of the American master as told through the lens of his greatest novel. Henry James (1843–1916) has had many biographers, but Michael Gorra has taken an original approach to this great American progenitor of the modern novel, combining elements of biography, criticism, and travelogue in re-creating the dramatic backstory of James's masterpiece, *Portrait of a Lady* (1881). Gorra, an eminent literary critic, shows how this novel—the scandalous story of the expatriate American heiress Isabel Archer—came to be written in the first place. Traveling to Florence, Rome, Paris, and England, Gorra sheds new light on James's family, the European literary circles—George Eliot, Flaubert, Turgenev—in which James made his name, and the psychological forces that enabled him to create this most memorable of female protagonists. Appealing to readers of Menand's *The Metaphysical Club* and McCullough's *The Greater Journey*, *Portrait of a Novel* provides a brilliant account of the greatest American novel of expatriate life ever written. It becomes a piercing detective story on its own.

Portrait of a Novel: Henry James and the Making of an American Masterpiece

A truly amazing 18th century life restored to history - Tsar's godson and nobleman, Russian Bluebeard, engineer of genius - who began life in an African village. When Major-General Gannibal died in 1781 in his eighties, he could look back on a long and successful life. He was the godson of Peter the Great, the Empress Elizabeth had given him nobility, thousands of acres, villages of serfs. His French education and a natural gift for mathematics had led him to fame as a fireworks expert and the architect of a string of fortifications from the Arctic Circle to China. As a husband he was a provincial Bluebeard,

but his descendants would include the great poet Pushkin and a bevy of British aristocrats. Yet Abram Petrovich Gannibal had been born in very different circumstances. He was a black African, perhaps from Ethiopia, perhaps from modern Chad, sold as a child into slavery. In a brilliant biography Hugh Barnes who has tracked Gannibal's footsteps across three continents restores an extraordinary life to history.

At the Trough

"Germany 1990, a world where young men in old SS uniforms regard the Holocaust as a nostalgic myth, play concentration-camp board games, firebomb refugee shelters, and network with old war criminals to plot a new Reich. Most shockingly, their plans and propaganda - Holocaust denial literature and bomb manuals - come primarily from white-power extremists in Boston, California, and Nebraska. This is the world of the neo-Nazis, told through the story of their former leader." "Ingo Hasselbach, the "Führer of the East," grew up as the son of members of the Communist elite in the looking-glass world of the German Democratic Republic. Rebelling against the state, he found himself spending his adolescence in and out of prisons. His avuncular old cellmate, the former Gestapo chief of Dresden, persuaded him that a world Jewish conspiracy was bringing ruin and division to Germany. Upon Hasselbach's release from prison in 1988, he founded the country's first neo-Nazi political party." "For the next five years, he led a violent extremist group: street fighting, indoctrinating young members, and plotting terrorist attacks. But as Hasselbach confronted the fruits of his labor - the firebombed bodies of refugees, the anguished faces of the survivors - a profound change occurred within him: He began to doubt. Secretly, Hasselbach began to investigate the Holocaust revisionism he and his Kamerads propagated, and he finally learned the truth about the murder of the Jews - and about the lie he had been living. He no longer wanted to live a life of hate. He decided to get out." "In 1993 he publicly renounced the neo-Nazi movement and dedicated his life to dissuading German youths from following his dark path. He began lecturing to student groups and in Jewish community centers and trying to open a dialogue about race relations in Germany. His Kamerads initiated their dialogue by sending Hasselbach a mail bomb. Pursued by death threats, he now lives in hiding."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The Son of Monte-Cristo by Jules Lermina by Alexandre Dumas - Delphi Classics (Illustrated)

Ninety-Three (Quatrevingt-treize) is the last novel by the French writer Victor Hugo. Published in 1874, shortly after the bloody upheaval of the Paris Commune, the novel concerns the Revolt in the Vendée and Chouannerie – the counter-revolutionary revolts in 1793 during the French Revolution. It is divided into three parts, but not chronologically; each part tells a different story, offering a different view of historical general events. The action mainly takes place in Brittany and in Paris. Ayn Rand greatly praised this book (and Hugo's writing in general), acknowledged it as a source of inspiration, and even wrote an introduction to one of its English-language editions.

Gannibal

In the late 1630s, Andrea Stuart's earliest known maternal ancestor set sail from England, lured by the promise of the New World, to settle in Barbados where he fell by chance into the lucrative life of a sugar plantation owner. With George Ashby's first crop, the cane revolution was underway and would go on to transform the Caribbean into an archipelago of riches, establishing a thriving worldwide industry that bound together ambitious white entrepreneurs and enslaved black workers. As it grew, this sweet colonial trade fuelled the Enlightenment and financed the Industrial Revolution, but it also had more direct, less palatable consequences for the individuals caught up in it, consequences that still haunt the author's past. In this unique personal history, Andrea Stuart follows the thread of her own family's involvement with sugar through successive generations, telling a story of insatiable greed and forbidden love, of abuse and liberation.

2013 Pulitzer Prize Finalist New York Times Ten Best Books of 2012 "Riveting... The Patriarch is a book hard to put down." – Christopher Buckley, The New York Times Book Review In this magisterial new work The Patriarch, the celebrated historian David Nasaw tells the full story of Joseph P. Kennedy, the founder of the twentieth century's most famous political dynasty. Nasaw—the only biographer granted unrestricted access to the Joseph P. Kennedy papers in the John F. Kennedy Presidential Library—tracks Kennedy's astonishing passage from East Boston outsider to supreme Washington

insider. Kennedy's seemingly limitless ambition drove his career to the pinnacles of success as a banker, World War I shipyard manager, Hollywood studio head, broker, Wall Street operator, New Deal presidential adviser, and founding chairman of the Securities and Exchange Commission. His astounding fall from grace into ignominy did not come until the years leading up to and following America's entry into the Second World War, when the antiwar position he took as the first Irish American ambassador to London made him the subject of White House ire and popular distaste. *The Patriarch* is a story not only of one of the twentieth century's wealthiest and most powerful Americans, but also of the family he raised and the children who completed the journey he had begun. Of the many roles Kennedy held, that of father was most dear to him. The tragedies that befell his family marked his final years with unspeakable suffering. *The Patriarch* looks beyond the popularly held portrait of Kennedy to answer the many questions about his life, times, and legacy that have continued to haunt the historical record. Was Joseph P. Kennedy an appeaser and isolationist, an anti-Semite and a Nazi sympathizer, a stock swindler, a bootlegger, and a colleague of mobsters? What was the nature of his relationship with his wife, Rose? Why did he have his daughter Rosemary lobotomized? Why did he oppose the Truman Doctrine, the Marshall Plan, the Korean War, and American assistance to the French in Vietnam? What was his relationship to J. Edgar Hoover and the FBI? Did he push his second son into politics and then buy his elections for him? In this pioneering biography, Nasaw draws on never-before-published materials from archives on three continents and interviews with Kennedy family members and friends to tell the life story of a man who participated in the major events of his times: the booms and busts, the Depression and the New Deal, two world wars and a cold war, and the birth of the New Frontier. In studying Kennedy's life, we relive with him the history of the American Century.

The heartbreaking story of college athlete Madison Holleran, whose life and death by suicide reveal the struggle of young people suffering from mental illness today in this #1 New York Times Sports and Fitness bestseller **Instant New York Times Bestseller** #1 New York Times Monthly Sports and Fitness bestseller If you scrolled through the Instagram feed of 19-year-old Maddy Holleran, you would see a perfect life: a freshman at an Ivy League school, recruited for the track team, who was also beautiful, popular, and fiercely intelligent. This was a girl who succeeded at everything she tried, and who was only getting started. But when Maddy began her long-awaited college career, her parents noticed something changed. Previously indefatigable Maddy became withdrawn, and her thoughts centered on how she could change her life. In spite of thousands of hours of practice and study, she contemplated transferring from the school that had once been her dream. When Maddy's dad, Jim, dropped her off for the first day of spring semester, she held him a second longer than usual. That would be the last time Jim would see his daughter. *WHAT MADE MADDY RUN* began as a piece that Kate Fagan, a columnist for *espnW*, wrote about Maddy's life. What started as a profile of a successful young athlete whose life ended in suicide became so much larger when Fagan started to hear from other college athletes also struggling with mental illness. This is the story of Maddy Holleran's life, and her struggle with depression, which also reveals the mounting pressures young people, and college athletes in particular, face to be perfect, especially in an age of relentless connectivity and social media saturation.

The Memoirs of Alexandre Dumas (Père)

A gothic tale of deception, murder and mystery set in Victorian England. On a bleak, wintry morning in Victorian England, Dr Ned Courtine arrives in the sleepy cathedral town of Thurchester for a reunion with his former university friend, Austin Fickling. Over 20 years have passed since they last saw each other, and Fickling appears anxious and gaunt, ravaged by a strange, existential guilt. In order to deflect Courtine's questions from himself, Fickling recounts the story of Thurchester's ghost, William

Burgoyne, once a royalist and treasurer of the cathedral who was murdered in the aftermath of the Civil War. The macabre tale of murder and deception captures Courtine's imagination, and he finds himself unknowingly drawn into a world of haunting evil. A masterpiece of Victorian suspense as well as a dazzling meditation on human passions, *THE UNBURIED* is a murder mystery that lingers - even after all has been resolved.

In *Managing African Portugal*, Kesha Fikes shows how the final integration of Portugal's economic institutions into the European Union (EU) in the late 1990s changed everyday encounters between African migrants and Portuguese citizens. This economic transition is examined through transformations in ideologies of difference enacted in workspaces in Lisbon between the mid-1990s and the early 2000s. Fikes evaluates shifts in racial discourse and considers how both antiracism and racism instantiate proof of Portugal's European "conversion" and modernization. The ethnographic focus is a former undocumented fish market that at one time employed both Portuguese and Cape Verdean women. Both groups eventually sought work in low-wage professions as maids, nannies, and restaurant-kitchen help. The visibility of poor Portuguese women as domestics was thought to undermine the appearance of Portuguese modernity; by contrast, the association of poor African women with domestic work confirmed it. Fikes argues that we can better understand how Portugal interpreted its economic absorption into the EU by attending to the different directions in which working-poor Portuguese and Cape Verdean women were routed in the mid-1990s and by observing the character of the new work relationships that developed among them. In *Managing African Portugal*, Fikes pushes for a study of migrant phenomena that considers not only how the enactment of citizenship by the citizen manages the migrant, but also how citizens are simultaneously governed through their uptake and assumption of new EU citizen roles.

Texas Jack

A lyrical exploration of love and loss, this book centers on several generations of women in a bucolic southern Black township as they live with and sometimes surrender to madness. The Goode-Brown family, led by matriarch and pillar of the community Minnie Mae, is plagued by old secrets and embarrassment over mental illness and illegitimacy. Meanwhile, single mother Francine Clark is haunted by her dead, lightning-struck husband and forced to fight against both the moral judgment of the community and her own rebellious daughter, Mona. The residents of Opulence struggle with vexing relationships to the land, to one another, and to their own sexuality. As the members of the youngest generation watch their mothers and grandmothers pass away, they live with the fear of going mad themselves and must fight to survive. The author offers up Opulence and its people in lush, poetic detail. It is a world of magic, conjuring, signs, and spells, but also of harsh realities that only love - and love that's handed down - can conquer.
