"What's Next in Love and Sex is a comprehensive examination of contemporary academic findings relating to all matters of the mind, body, and heart in the modern world. Written by one of the pioneers of love and sex research, Dr. Hatfield, along with her colleagues Dr. Purvis and Dr. Rapson, this book uses contemporary scientific findings to provide an updated and relevant explanation for why we do the things we do when we're in love, searching for love, making love, or attempting to keep a faltering relationship together. No other book will give young people such an in-depth scientific understanding of contemporary love and sex while still providing a light-hearted, accessible, and entertaining read."--

What's Next in Love and Sex

Avicenna (Ibn S+n) greatly influenced later medieval thinking about the earth and the cosmos, not only in his own civilization, but also in Hebrew and Latin cultures. The studies presented in this volume discuss the reception of prominent theories by Avicenna from the early 11th century onwards by thinkers like Averroes, Fahraddin ar-Razi, Samuel ibn Tibbon or Albertus Magnus. Among the topics which receive particular attention are the definition and existence of motion and time. Other important topics are covered too, such as Avicenna's theories of vacuum, causality, elements, substantial change, minerals,

floods and mountains. It emerges, among other things, that Avicenna inherited to the discussion an acute sense for the epistemological status of natural science and for the mental and concrete existence of its objects. The volume also addresses the philological and historical circumstances of the textual tradition and sheds light on the translators Dominicus Gundisalvi, Avendauth and Alfred of Sareshel in particular. The articles of this volume are presented by scholars who convened in 2013 to discuss their research on the influence of Avicenna's physics and cosmology in the Villa Vigoni, Italy.

In the world of books and literature, "hype" is associated with bestsellerism - the books that sell the most, are read by vast numbers, and constantly talked about in media and staff rooms. Often, it is the success in itself that generates an interest because popularity begets popularity. Quite often though, a hyped bestseller is met with a skeptic criticism of poor language, a badly constructed plot, a predictable story line, or all three. The bestseller phenomenon is sometimes conceived as a threat against "real" literature. Research into the creation, reception, and meaning of bestsellers is utterly scarce and *Hype: Bestsellers and Literary Culture* is an important contribution to the understanding of the literature read by the masses. Popular literature plays an important role in the lives of millions of readers, offering entertainment, social commentary, and alternate perspectives on everyday life. This volume brings together such diverse issues as the creation of hype, the role and the meaning of the author in the present-day media landscape, changes in the book trade, and the relationship between bestsellers and research into them. Further articles give an historical overview on postapocalyptic stories, desert romances and the role of the authors. This book offers new knowledge on a subject that is increasingly popular within university curricula. Although the anthology is a work of academic research the texts are of equal interest to general readers.

"The Publishing Business is an illustrated guide to the book publishing process from writer to reader, passing through the essential publishing activities performed in editorial, rights, design, production, sales and marketing departments. International examples from across the industry, from children's books to academic monographs, demonstrate key responsibilities at each stage of the publishing process and how the industry is adapting to digital culture. This 3rd edition has been updated with more on the role of self-publishing, independent publishers, audio books, the rise of poetry and non-fiction and how the industry is facing up to challenges of sustainability, inclusivity and diversity"--

The Arabic, Hebrew and Latin Reception of Avicenna's Physics and Cosmology

The thesis shows that the Song of Songs can be read as a circular sequence of sub-poems, that follow logically from one another if they are understood as contributing to two main points, made in a woman's voice. The woman urges men to take romantic initiative to be committed exclusively and for life, and urges women three times to wait until they are approached by such men. If this reading is the best explanation of the text of the Song, then the Song is a unified work centered on a woman singing about human romantic love from a woman's perspective.

This book traces the global circulation of cultures and ideologies from the technological and democratic revolutions of the long nineteenth century to liberal and neoliberal modernity. Focussing on moments of coerced (colonial and postcolonial) and voluntary contact rather than national boundaries, the author draws attention to the global scope of literatures and geopolitical commodities as actants in world affairs, as in processes of liberalization, democratization, and trade, but also to the distinctiveness of each local environment at its moments of transculturation. Based in extensive experience in collaborative, multilingual, interdisciplinary networks, the book synthesizes existing theoretical scholarship, provides original case studies of world-historical Victorian and modern writers, and articulates a new interdisciplinary methodology for literary studies in a global context. It will be of interest to Victorianists, modernists, comparatists, political theorists, translators, and scholars of world literatures, world ecology, and globalization.

The Sociology of Literature is a pithy primer on the history, affordances, and potential futures of this growing field of study, which finds its origins in the French Enlightenment, and its most salient expression as a sociological pursuit in the work of Pierre Bourdieu. Addressing the epistemological premises of the field at present, the book also refutes the common criticism that the sociology of literature does not take the text to be the central object of study. From this rebuttal, Gisèle Sapiro, the field's leading theorist, is able to demonstrate convincingly one of the greatest affordances of the discipline: its in-built methods for accounting for the roles and behaviors of agents and institutions (publishing houses, prize committees, etc.) in the circulation and reception of texts. While Sapiro emphasizes the rich interdisciplinary nature of the approach on display, articulating the way in which it draws on literary history, sociology, postcolonial studies, book history, gender studies, and media studies, among others, the book also stands as a defense of the sociology of literature as a discipline in its own right.

'Packed with passion ... a love story full of charm, music and soul-mates ... a classic E L James combo of the sweet and erotic with the perfect ending for romantics. I think it's her best by far!' - Milly Johnson, *The Sun* _____ The thrilling new romance from E L James, author of the phenomenal #1 bestselling *Fifty Shades* trilogy London, 2019. Life has been easy for Maxim Trevelyan. With his good looks, aristocratic connections, and money, he's never had to work and he's rarely slept alone. But all that changes when tragedy strikes and Maxim inherits his family's noble title, wealth, and estates, and all the responsibility that entails. It's a role he's not prepared for and one that he struggles to face. But his biggest challenge is fighting his desire for an unexpected, enigmatic young woman who's recently arrived in England, possessing little more than a dangerous and troublesome past. Reticent, beautiful, and musically gifted, she's an alluring mystery, and Maxim's longing for her deepens into a passion that he's never experienced and dares not name. Just who is Alessia Demachi? Can Maxim protect her from the malevolence that threatens her? And what will she do when she learns that he's been hiding secrets of his own? From the heart of London through wild, rural Cornwall to the bleak, forbidding beauty of the Balkans, *The Mister* is a roller-coaster ride of danger and desire that leaves the reader breathless to the very last page.

IBPS Clerk Grade Exam Guide 2016

Africa is the birthplace of humanity and civilization. And yet people generally don't want to accept the scientific impression of Africa as the birthplace of human civilization. The skeptics include Africans themselves, a direct result of the colonial educational systems still in place across Africa, and even those Africans who acquire Western education, particularly in the humanities, have been trapped in the symptomatology of epistemic peonage. These colonial educational systems have overstayed their welcome and should be dismantled. This is where African agency comes in. Agential autonomy deserves an authoritative voice in shaping the curricular direction of Africa. Agential autonomy implicitly sanctions an Afrocentric approach to curriculum development, pedagogy, historiography, literary theory, indigenous language development, and knowledge construction. Science, technology, engineering, mathematics? information and communications technology (STEM-ICT) and research and development (R&D) both exercise foundational leverage in the scientific and cultural discourse of the kind of African Renaissance Cheikh Anta Diop envisaged. "Mr. Francis Kwarteng has written a book that looks at some of the major distortions of African history and Africa's major contributions to human civilization. In this context, Mr. Kwarteng joins a long list of thinkers who roundly reject the foundational Eurocentric epistemology of Africa in favor of an Afrocentric paradigm of Africa's material, spiritual, scientific, and epistemic assertion. Mr. Kwarteng places S.T.E.M. and a revision of the humanities at the center of the African Renaissance and critiques Eurocentric fantasies about Africa and its Diaspora following the critical examples of Cheikh Anta Diop, Ama Mazama, Molefi Kete Asante, Abdul Karim Bangura, Theophile Obenga, Maulana Karenga, Mubabingo Bilolo, Kwame Nkrumah, Ivan Van Sertima, W.E.B. Du Bois, and several others. Readers of this book will be challenged to look at Africa through a critical lens." Ama Mazama, editor/author of *Africa in the 21st Century: Toward a New Future* "There are countless books about the evolution of European intellectual thought but scarcely any that captures the

pioneering contributions of Africans since the beginning of recorded knowledge in Kemet, a.k.a. Ancient Egypt. Well, that long drought has ended with the publication of Kwarteng's *An Intellectual Biography of Africa: A Philosophical Anatomy of Advancing Africa the Diopian Way*. Prepare to be educated." Milton Allimadi, author of *Manufacturing Hate: How Africa Was Demonized in the Media*

These sheets should be useful to anybody who writes pub quizzes or a quiz for a charity fund-raising event, or they can be used as a bank of questions, or even just to challenge yourself. They are designed to be photocopied as a written quiz and hence they have spaces for the answers and team names. There are 80 sheets with an average of about 25 questions on each, that's over 2000 questions. They are called 'Half Time Quiz' because you can use them for the written part of the quiz which is usually handed in at 'half time' or the interval for marking. This is the part of the quiz that can take much longer to compile.

An Intellectual Biography of Africa

On the shrouded corpse hung a tablet of green topaz with the inscription- 'I am Shaddad the Great. I conquered a thousand cities; a thousand white elephants were collected for me; I lived for a thousand years and my kingdom covered both east and west, but when death came to me nothing of all that I had gathered was of any avail. You who see me take heed, for Time is not to be trusted.' Dating from at least a millennium ago, this is the earliest known collection of Arabic stories, surviving in a single, ragged manuscript in a library in Istanbul. Some found their way into *The Arabian Nights* but most have never been read in English before. Tales of the Marvellous and News of the Strange has monsters, lost princes, jewels beyond price, a princess turned into a gazelle, sword-wielding statues and shocking reversals of fortune. To read these stories today is an extraordinary experience - they were designed to enchant and delight a society almost fantastically distant from our own and now, centuries later, they can be marvelled at in all their strangeness. 'Superb translation . . . erudite introduction . . . a revelation - a real classic of popular literature . . . endlessly diverting and inventive, (giving) a unique insight into a now-lost elegant, courtly and tolerant Arab world.' William Dalrymple *Sunday Times* 'Offers a gateway to a different world of language and ideas, florid, wildly descriptive and are a powerful reminder of the human need for story . . . irresistible.' *Independent* 'This book is an astonishment . . . a profound oddity, but an absolutely intriguing one.' *Scotland on Sunday* 'Instantly appealing (with) headlong narrative drive . . . like a Medieval *Fifty Shades of Grey* . . . above all, fun.' *Guardian*

Fifty Shades Darker

Rick Rylance addresses the debate over the public value of literary studies, from antiquity to the present day. He offers an account of the foundational issue of 'the public good' and explores the disciplinary integrity of literary study.

QUIZSHEETS

In the early part of the twentieth century, migrants made their way from rural homes to cities in record numbers and many traveled west. Los Angeles became a destination. Women flocked to the growing town to join the film industry as workers and spectators, creating a "New Woman." Their efforts transformed filmmaking from a marginal business to a cosmopolitan, glamorous, and bohemian one. By 1920, Los Angeles had become the only western city where women outnumbered men. In *Go West, Young Women*, Hilary A. Hallett explores these relatively unknown new western women and their role in the development of Los Angeles and the nascent film industry. From Mary Pickford's rise to become perhaps the most powerful woman of her age, to the racist moral panics of the post-World War I years that culminated in Hollywood's first sex scandal, Hallett describes how the path through early Hollywood presaged the struggles over modern gender roles that animated the century to come.

Tales of the Marvellous and News of the Strange

'Honest, revealing insight into the bestselling book of all time.' Bear Grylls 'A stimulating and accessible survey of history's most influential book.' Tom Holland, historian and author of *Dominion* 'Personal and profound; informative and practical. If you want to experience the Bible as a rich source of guidance and hope, this book is for you.' Simon Thomas, former Sky Sports and Blue Peter presenter When we make sense of the Bible, the Bible makes sense of us. The political, social and cultural upheaval of our times can leave us feeling bewildered and wondering where to turn for trustworthy guidance. As unlikely as it may seem, could the Bible provide ancient wisdom that helps us flourish today? Join Andrew Ollerton as he explores the storyline of Scripture, connecting six major biblical events with six definitive human needs: for meaning, freedom, peace, community, love and for an ultimate home. In short, digestible chapters, Andrew reveals how the Bible story makes sense of our human story. Discover for yourself a limitless source of guidance and hope in the face of so much uncertainty. Underpinned by a depth of scholarship, the book is non-technical in style, making it accessible for the widest possible readership - including Christians and seekers interested in the Bible. The book will also provide a model for Bible communicators and church leaders wishing to engage more deeply with the relevance of the Bible in our cultural moment. Contains discussion questions for small groups, as well as suggested Bible readings and reflection questions to accompany each chapter. The structure of the book makes it ideal to read as a Lent course. This book has been chosen for the National Big Church Read in January 2022.

Literature and the Public Good

Featuring leading scholars in their fields, this book examines receptions of ancient and early modern literary works from around the world (China, Japan, Ancient Maya, Ancient Mediterranean, Ancient India, Ancient Mesopotamia) that have circulated globally across time and space (from East to West, North to South, South to West). Beginning with the premise of an enduring and revered cultural past, the essays go on to show how the circulation of literature through translation and other forms of reception in fact long predates modern global society; the idea of national literary canons have existed just over a hundred years and emerged with the idea of national educational curricula. Highlighting the relationship of culture and politics in which canons are created, translated, promulgated, and preserved, this book argues that such nationally-defined curricula were challenged by critics and writers in the wake of the Second World War.

The celebrated text on the history of the book, completely revised, updated and expanded The revised and updated edition of *The Companion to the History of the Book* offers a global survey of the book's history, through print and electronic text. Already well established as a standard survey of the historiography of the book, this new, expanded edition draws on a decade of advanced scholarship to present current research on paper, printing, binding, scientific publishing, the history of maps, music and print, the profession of authorship and lexicography. The text explores the many approaches to the book from the early clay tablets of Sumer, Assyria and Babylonia to today's burgeoning electronic devices. The expert contributions delve into such fascinating topics as archives and paperwork, and present new chapters on Arabic script, the Slavic, Canadian, African and Australasian book, new

textual technologies, and much more. Containing a wealth of illustrative examples and case studies to dramatize the exciting history of the book, the text is designed for academics, students and anyone interested in the subject.

So why do people think they can write a book just because they've read some? It is a mystery which has puzzled best-selling author GEORGE EAST for many years, and one which he addresses in this amusing, entertaining and, most importantly, very informative guide.

Companion to the History of the Book

Tackles a human problem we all share the fate of the earth and our role in its future Confident that your personal good deeds of environmental virtue will save the earth? The stories we encounter about the environment in popular culture too often promote an imagined moral economy, assuring us that tiny acts of voluntary personal piety, such as recycling a coffee cup, or purchasing green consumer items, can offset our destructive habits. No need to make any fundamental structural changes. The trick is simply for the consumer to buy the right things and shop our way to a greener future. It's time for a reality check. Ecopiety offers an absorbing examination of the intersections of environmental sensibilities, contemporary expressions of piety and devotion, and American popular

culture. Ranging from portrayals of environmental sin and virtue such as the eco-pious depiction of Christian Grey in *Fifty Shades of Grey*, to the green capitalism found in the world of mobile-device “carbon sin-tracking” software applications, to the socially conscious vegetarian vampires in *True Blood*, the volume illuminates the work pop culture performs as both a mirror and an engine for the greening of American spiritual and ethical commitments. Taylor makes the case that it is not through a framework of grim duty or obligation, but through one of play and delight, that we may move environmental ideals into substantive action.

The River of No Return

After taking an Islamic Studies course in Boston, G. Willow Wilson quietly found herself adopting the tenets of the religion as her own. This intellectual and emotional exercise created a unique challenge; how could she reconcile a devout and conservative lifestyle with the highly secular society in which she was raised? Taking a leap of faith, Wilson accepted a position to teach English in Cairo, where her guide to the bustling city was a student of astrophysics named Omar. Led by his passions, she discovered a young and moderate nationalist movement that promoted both tolerance and the celebration of identity. Omar's ideas and experiences reflected her own search for meaning and in the tangled thicket of their differences and their similarities, an unlikely romance blossomed. Although Wilson immersed herself in Islamic culture - learning Arabic, worshipping as a Muslim and adopting a veil - she never rejected her Western identity. Drawing together the values of both cultures, she began to move in the world as a liberal and outspoken Muslim woman, a curious mixture of East and West. *The Butterfly Mosque* is a riveting personal account, an investigation into what it means to have faith in our broken society. It is a rare and important insight into the evolving relationship between the boundaries of contemporary religion and culture.

Fifty Shades of Domination

"For Miranda, it all started as an eight-year old girl, struggling to come to terms with the trauma of discovering that her beloved 'mummy and daddy' were in fact her grandparents and her real mother was the woman she had always known as her elder sister. Miranda would go on to develop into a teenage 'wild-child', experimenting with sexual tastes that, from the start, involved her domination over her

boyfriend. The bright but wilful teenager ended up leaving her grandparents home at just 16. Miranda was homeless, penniless and alone. A stint as a receptionist in a 'working-girls' flat yielded enough cash to begin scraping together her education, but Miranda soon realised that her own sexual tastes were well-suited to satisfy the vast demand of submissive men seeking out a dominant woman. In *Fifty shades of domination*, Miranda candidly and humorously relates tales from twenty years worth of men, women and couples who have visited her dungeon chambers for fetish fun. At turns erotic, funny and searingly honest, this is not a book about sex for money; this is the story of a life in fetish fashion, deep psychological role-playing and the repressed passions that lie just beneath the surface of us all." --Publisher description.

Fifty Shades of Black and Blue

Memoirs of a Dominatrix, in every sordid detail....

Hard-Core Romance

From its beginnings in Twilight fan-fiction to its record-breaking sales as an e-book and paperback, the story of the erotic romance novel Fifty Shades of Grey and its two sequels is both unusual and fascinating. Having sold over seventy million copies worldwide since 2011, E. L. James's lurid series about a sexual ingénue and the powerful young entrepreneur who introduces her to BDSM sex has ingrained itself in our collective consciousness. But why have these particular novels—poorly written and formulaic as they are—become so popular, especially among women over thirty? In this concise, engaging book, Eva Illouz subjects the Fifty Shades cultural phenomenon to the serious scrutiny it has been begging for. After placing the trilogy in the context of best-seller publishing, she delves into its remarkable appeal, seeking to understand the intense reading pleasure it provides and how that resonates with the structure of relationships between men and women today. Fifty Shades, Illouz argues, is a gothic romance adapted to modern times in which sexuality is both a source of division between men and women and a site to orchestrate their reconciliation. As for the novels' notorious depictions of bondage, discipline, and sadomasochism, Illouz shows that these are as much a cultural fantasy as a sexual one, serving as a guide to a happier romantic life. The Fifty Shades trilogy merges romantic fantasy with self-help guide—two of the most popular genres for female readers. Offering a provocative explanation for the success and popularity of the Fifty Shades of Grey novels, Hard-Core Romance is an insightful look at modern relationships and contemporary women's literature.

Shades of Pleasure

For fans of Fifty Shades of Grey, New York Times bestselling author Tawny Taylor presents Shades of Pleasure: Five Stories of Domination and Submission. (Previously published as Blackmailed) Pleasing Him Britt Olsen is shocked when the man who bought her house, the gorgeous Andre Cruz-Romero, shows up at her front door a week after closing. Ironically, an innocent mistake, and then, later that night, the luck of the draw, has brought them together twice in one night. And now, Britt has her chance to get to know the enigmatic man who has inspired a fantasy or two, or more. But she is both shocked and thrilled to learn about Andre's extreme erotic tastes when she heads to a bondage dungeon with her friend. Drawn to

Britt's charm, intelligence and sharp wit, Andre is unable to resist the temptation to invite the innocent Britt to his home for a private session. And once Andre has Britt in his arms, he has no intention of letting her go. He will be the man to introduce her to the decadent pleasures of submitting. And she might teach him a thing or two about pleasure as well... (Previously published as Master, May I?) Ties that Bind Some ties can never be severed. Illusion. A word shaded with nuance, making the men who practice it-the masters-enigmas. Particularly when they magically materialize from the shadows of a woman's past. It's been fifteen years. No longer the tormented young men Blair knew and loved so long ago, Damon and Trey still know how to touch her heart, how to draw out her secrets, and how to bring her to the edge of ecstasy. Blair has two weeks to unravel the ties that have bound the three of them together. Two weeks to solve the mysteries veiled by her seductive masters' illusions. And two weeks to surrender to the smoldering desires burning in her body as she submits to their darkest demands. (Previously published as Masters of Illusion) Enslaved by Sin I have a secret--a deliciously wicked secret. Care to guess what it is? I'll give you a hint. I get hot and wet just thinking about it. Are you ready to curl up with a naughty book and step into my world of dark erotic fantasy? Over two hundred years ago, the Master of Sin welcomed guests to Castle Greh, inviting them to taste decadent carnal pleasures every night. Now, some claimed the castle was haunted by the dark prince and his many lovers. She was about to learn the truth... About the castle. About the Master. And about her darkest desires.

Fifty Shades of Wrong

No one will argue that E.L. James' book Fifty Shades of Grey isn't a worldwide phenomenon and isn't provocative and sensational. But there are numerous reports that common everyday housewives and other perfectly reasonable women decided after reading that best-selling novel to go directly to their local sex shops, purchase some basic bondage equipment, then come home and present it to their husbands and boyfriends and suggest what sections of the little book they should read so their men could act out their favorite parts. So is a little bondage play really something to worry about? Ted Perver, a man that acted as a dominant, who engaged in the BDSM sexual subculture with various submissive women for a period of ten years, has something to say and his story is provocative in its own right but it's not a glorification of bondage but is instead a warning. And Ted Perver knows what he's talking about. Find out for yourself. Try Fifty Shades of Wrong!

I,m Yours

This story was written to arouse, excite, and entertain you. The Fifty Shades of Grey trilogy is great for the long, erotic novel, but this story compacts the fun by taking out all the extra drama, and generates those intense sexual feelings faster. It is for those busy individuals who don't have time to commit to reading a novel, but still like a juicy erotic story with an alluring plot. Desire, Domination, and Dreams has adult sexual situations, suspense, and kinkiness that will excite, ignite, and delight you!

Desire, Domination, and Dreams

Mock Ritual in the Modern Era explores the complex interrelations between ritual and mockery, the latter of which is not infrequently the unofficial face of claims to rationality. McGinnis and Smyth consider how the mocking and parodying of ritual often associated with modern rationalism may itself become ritualized, and other ways in which supposedly sham ritual may survive its "outing." This volume traces the evolution of "mock ritual" in various forms throughout the modern era, as found in literary, historical, and anthropological texts as well as encyclopedias, newspapers, and films. Mock Ritual in the Modern Era places famous eighteenth- and nineteenth-century authors in dialogue with contemporary popular culture, from Diderot, Sterne, and Flaubert to the TV shows Survivor and Judge Judy, and from Voltaire to the Charlie Hebdo tragedy of 2015. Ritualistic and mock ritualistic aspects of comedy and ridicule are considered along with those, notably, of sexuality, medicine, art, education, and justice.

Forbidden Ritual (Mills & Boon Spice Briefs) (10 Shades of Seduction Series)

This edited volume is an inquiry into the representation of intimate relationships in a diverse array of media including cinema, arts, literature, picture books, advertising and popular music. It examines artistic portrayal of intimate relationships as a subversion of the boundaries between the representable and the non-representable, the real and the surreal, the visceral and the ideal, the embodied and the abstracted, the configured and transfigured. The essays focus on artistic mediation of intimacy in diverse relationships, including heterosexual, same-sex, familial, sibling', political, and sadomasochistic. The collection offers new interdisciplinary and multicultural perspectives on current trends in the study of popular representations of intimacy; representations that affect and formulate people's most personal inspirations, desires, angsts, dreams and nightmares in an increasingly alienated, industrialized world.

The Mammoth Book of Erotic Romance and Domination

Twenty-first century media has increasingly turned to provocative sexual content to generate buzz and stand out within a glut of programming. New distribution technologies enable and amplify these provocations, and encourage the branding of media creators as "provocateurs" known for challenging sexual conventions and representational norms. While such strategies may at times be no more than a profitable lure, the most probing and powerful instances of sexual provocation serve to illuminate, question, and transform our understanding of sex and sexuality. In *Provocateurs and Provocations*, award-winning author Maria San Filippo looks at the provocative in films, television series, web series and videos, entertainment industry publicity materials, and social media discourses and explores its potential to create alternative, even radical ways of screening sex. Throughout this edgy volume, San Filippo reassesses troubling texts and divisive figures, examining controversial strategies—from "real sex" scenes to scandalous marketing campaigns to full-frontal nudity—to reveal the critical role that sexual provocation plays as an authorial signature and promotional strategy within the contemporary media landscape.

Grind

Those who don't believe in miracles should take a look at what brought Dakota Johnson from obscurity to the pinnacle of stardom as Anastasia Steele in the motion picture *Fifty Shades of Grey*. But who is Dakota Johnson? A surprisingly accomplished and driven actress. This is not some celebrity kid given a plum role because of her connections to old-world Hollywood. In *The Real Steele: The Unauthorized Biography of Dakota Johnson* you'll see how she went from a life of tranquility and, yes, privilege at the feet of superstar parents Don Johnson and Melanie Griffith, to a determination to succeed that has led her down many paths. First there was a career as an international model, then to growing recognition in a string of successful studio and independent films and, finally, to her big break in *Fifty Shades of Grey*, Johnson has proven a literal force of nature, always moving forward and always using a natural sense

of positive energy to dissuade the naysayers who would line up to take her down. Through exclusive interviews with childhood friends and acting coaches, Marc Shapiro has put Johnson's life and times, much like the actress herself, in a straightforward and always enticing biography.

Planet of the Bugs

One day I was a husband, the next day I had been regressed to an adolescent boy: submissive to my wife Chrisalice, and her lifelong friend--and mentor in domination--Bella. I fell off a cliff?I jumped?I was pushed? I don't know: free fall is free fall, however it starts. But gravity is . . . relentless. If there's an initial feeling that you're flying? A kind of freedom? A kind of exhilaration? You quickly learn that--whatever you started out thinking--you are, most assuredly, NOT in control. And . . . how--or if, or when--you land? THAT'S not under your control either. You accept that or you don't.Gravity doesn't care. My wife sung me songs as I nursed at simply every part of her body: gratitude and correction, threats and promises, poems of passion about the pleasure she would reap and the services I would perform, dutifully lapping the leavings of superior men from any and every crevice or surface of her body with which she chose to gift them, that she might permit me to clean. I spent more and more time deprived, restricted, cut off, teased and denied, painfully swollen and leaky; more than once: I came in my sleep, something that hadn't happened to me since adolescence, before I was enlightened regarding the benefits--the absolute necessity!--of masturbation. Where would this end?Well that was close to preordained--wasn't it? Once you "take the leap," the question isn't whether or not "the ground" is in your future; the only question is the speed--the angle, the violence, the damage you will suffer--when that inevitable collision takes place. [Includes age play, oral sex, and pegging; cream pie eating; references to cuckolding]
