#### What to Do for Uncle Sam

Excerpt from What to Do for Uncle Sam: A First Book of Citizenship The United States Bureau of Education lays emphasis upon the part of the schools in training for citizenship. It urges a new teaching of the subject, beginning with the home, going on to the school, and from there into community relations. The Government asks, also, that work in civics be begun in the elementary schools. The work should embody less of the details of governmental agencies, but focus instead upon the child's own community obligations and activities. Following this thought, and taking up the program of community civics outlined by the Bureau of Education, I have written What to Do for Uncle Sam, a first book in patriotism and citizen ship. At the end of each chapter I have placed questions and suggestions which establish a contact between the classroom and community life. #### Uncle Sam at Home

Excerpt from Uncle Sam at Home I've heard that you have a fence round England to keep people from falling overboard during the night," said one of Uncle Sam's boys to me, with that exasperating deliberation with which the family is wont to administer a take-down. I had been dilating on the grandeurs of the British Empire, "whose morning drumbeat, following the sun and keeping company with the hours, circles the earth in one continuous and unbroken strain of martial airs," whose argosies crowd every port, and whose flag, unfurled in a hundred lands, is everywhere the symbol of constitutional liberty. As I swelled with patriotic pride, this was the pin with which the representative

of the biggest nation on earth pricked me. It is anomalous that in caricatures Uncle Sam is invariably represented as lean and gaunt, while John Bull appears as a stout, burly giant. #### On Uncle Sam's Water Wagon

Excerpt from On Uncle Sam's Water Wagon: 500 Recipes for Delicious Drinks, Which Can Be Made at Home The acceptance of the Eighteenth Amendment to the Constitution of the United States by the Legislatures of every State but three means that, after a stated date, the manufacture and sale of intoxicating liquors is totally prohibited throughout the United States, and all territory subject to it. Many people, especially in the East, and in New York State particularly, apparently did not awaken to the fact that this great movement was sweeping the country, until the Amendment had been passed. There has been bitter protest against what is claimed to have been the hasty forcing through of a social ordinance such as this, by a group of fanatics, contrary to the real wishes of the majority of the people. #### Uncle Sam at Home

Excerpt from Uncle Sam's Emancipation: Earthly Care, a Heavenly Discipline; And Other Sketches His lively sense Of the comic elements in every thing, breaks out on the most unlikely occasions. One dark night, as he was driving home with His wife and Mrs. Stowe in the carriage, the whole party was upset over a bank about fifteen feet high. They had no sooner extricated themselves from the wreck, than Mrs. Beecher and Mrs. Stowe, who were unhurt, returned thanks for their providential escape. Speak for yourselves, said the doctor, who was feeling his bruises I have got a good many hard bumps, any how. Excerpt from Home Life in America An artist knows instinctively how many details may be obliterated, and his treatment made more direct and convincing thereby. If circumscribed ability has made this picture of American home life more the work of a photographer than an artist, it is only to be hoped that in the interest of truth I have not left too many lines in the face of Uncle Sam. #### John Bull, Uncle Sam and Johnny Crapaud

Excerpt from Hero Tales of the Far North When a man knocks at Uncle Sam's gate, craving admission to his house, we ask him how much money he brings, lest he become a hindrance instead of a help. If now we were to ask what he brings, not only in his pocket, but in his mind and in his heart, this stranger, what ideals he owns, what company he kept in the country he left that shaped his hopes and ambitions, might it not, if the answer were right, be a help to a better mutual understanding between host and guest? For the Mayflower did not hold all who in this world have battled for freedom of home, of hope, and of conscience. The struggle is bigger than that. Excerpt from Sizing Up Uncle Sam: Vestpocket Essays (Not Especially Serious) On the United States For the past three years I have been writing little bundles of words on various themes ranging from Hope to Hash and from Cabbages to Kings. George Matthew Adams, the Syndicate Man, is really the one to blame because he made me do it, but if the reader forgives him, so do I. Among the thousand-odd subjects upon which I have written, very many have pertained to the United States, its glories and peculiarities, due to the fact that I am seven teen-tenths American myself. I have decided to bale up a collection of these so that the reader may soak up, at one sitting, incredible amounts of information regarding his native land. #### John Bull, Uncle Sam and Johnny Crapaud

Excerpt from Old Colony Days: Stories of the First Settlers and How Our Country Grew This little book is the second volume in the series of Uncle Sam's Old-time Stories. The first volume, The Coming of the White Men, dealt with discoveries and early settlements; this takes up the story where that left off and brings the history of our country about to the time of the Revolution. The brave men and women who were willing to face unknown dangers when they sought a free home in the American wilderness, found these dangers very real and often terrible. At every turn there were foes to contend with, cold, hunger and sickness the lurking savages who looked upon them with Jealous eyes; the longing to see the familiar faces of the dear ones they had left behind and the loved scenes of their childhood. #### Uncle Sam at Home - Primary Source Edition

Excerpt from *The Reckoning of Heaven* On speaking further of Uncle Sam, as blending all nationalities into one harmonious and vastly improved whole, Ta-yu grasped his friend's meaning at once; for Ta-yu knew something of blends, whereby color, strength and vigor are greatly benefited. As much may not be said for the missionary's well-meant and repeated efforts at Ta-yu's conversion. For a sufficient small sum Ta-yu would, after the fashion of his kind, have professed all expected reformation and belief; but to make this really part and parcel of himself, clearing his attic of all inherited lumber to make room for it - this was absurd, almost an impossible expectation. Similarly, when Mr. Kitcat discoursed of one of the five elements, water, making various foolish suggestions for its use, externally, internally and as a means of grace, Ta-yu was not to be cajoled into accepting such sophistries. A native bonze might very properly spout a mouthful over sacrifices in token of purification, or over relatives of the honored dead with similar intent; but Ta-yu hoped to be able to declare, with his latest breath, that he had wantonly wasted no water himself. ### Sizing Up Uncle Sam

Troy is situated on the banks of the Hudson River, just ten miles from the state capital of Albany. Well known as the Collar City, it is the home of Uncle Sam and of the largest annual Flag Day parade. It is less well known as being the home of two National Baseball Hall of Famers, Johnny "the Trojan" Evers and Michael "King" Kelly. In its prime, Troy had more than sixty churches, fifteen breweries, and at least a dozen theaters. Troy in Vintage Postcards reveals through the postcard photographer's eyes what the city was like from the early to the mid-1900s, with a few added surprises from the late 1800s. It shows not only how much of Troy has changed but also how much has remained the same.

### Old Colony Days

Excerpt from *Gardening as a Means of Correlating Home and School Activities* War gardens has, during the last two years, become a familiar and even intimate term with the masses of our American people. Uncle Sam sent out the warning note. Word was passed from family to family that we must not only conserve, but we must produce. Every garden that furnished fresh food for a family made it possible to send other foods, most needed, to our soldiers over there. American women, who in time of peace, indulged in ease and luxury, now took to gardening as a means of doing their bit and gradually others went into it because it became the thing. Many of these will remain in it because they have tasted the joys of gardening and because it has proven its value. War gardens will become permanent as Victory Gardens.' War gardening has given a tremendous impulse to school garden work. For many years leading educators and garden experts have realized the value of home and school gardens, but the development has come slowly and nothing but a war could have given it the place that it now occupies. Much has been written and said of its value educationally, but the results of the war gardens have furnished arguments in its favor that are fundamental and conclusive. Never before have school gardens been so much in demand and as a part of the school curriculum. The school garden movement owes much to the response of the five million boys and girls to Uncle Sam's call for volunteers in the United States School Garden Army. This united force of boys and girls did

much to increase the food production of our nation last year.. At the same time it has shown What a tremendous force organized garden work is for good. #### The Reckoning of Heaven (Classic Reprint)

Excerpt from Yakima County When a big reservation opens; when Uncle Sam releases a rich section of country to homesteaders anywhere, even to the mote from railroads, there is a wild race of thousands, more thrilling than Ben Hur's, for homes. But what is Uncle Sam doing in the Yakima Valley? He is not only opening a magnificent Indian Reservation. He is redeeming from the desert and opening for homes a half million acres of land much of it richer than the orange groves of California. More. He is opening these same lands with the expenditure of loaned to the settlers without interest, making a homestead possible on every ten acres instead of every 160 acres. This is Uncle Sam's tribute to intensive farming, scientific agriculture and horticulture. Nowhere could the cold, calculating unromantic engineers of the Reclamation Service find another such opportunity, such possibilities; a demonstrated frost proof area near railroads and established markets, separated only by an irrigating ditch from land worth \$2000 per acre, and sometimes producing that much in a single crop. The man -who elects to make his home here does not risk his money in a section undergoing a real estate boom; he takes no chances with the stability of any private corporation. He is taking land in a district in which the government practically guarantees the water rights. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. This carefully crafted ebook: "The Complete Works of R. Austin Freeman: Thriller Classics, Adventure Novels & Detective Stories (Illustrated)" is formatted for your eReader with a functional and detailed table of contents. Richard Austin Freeman (1862-1943) was a British writer of detective stories, mostly featuring the forensic investigator Dr. Thorndyke. Many of the Dr. Thorndyke stories involve genuine, but often quite arcane, points of scientific knowledge, from areas such as tropical medicine and toxicology. Table of Contents: Introduction: Short Biography The Art of the Detective Story Dr. Thorndyke Series: Meet Dr. Thorndyke Novels The Red Thumb Mark The Eye of Osiris The Mystery of 31 New Inn A Silent Witness Helen Vardon's Confession The Cat's Eye The Mystery of Angelina Frood The Shadow of the Wolf The D'Arblay Mystery A Certain Dr. Thorndyke As a Thief in the Night Mr. Pottermack's Oversight Pontifex, Son and Thorndyke When Rogues Fall Out Dr. Thorndyke Intervenes For the Defence: Dr. Thorndyke The Penrose Mystery Felo De Se? The explosion of print culture that occurred in the United States at the turn of the twentieth century activated the widespread use of print media to promote social and political activism. Exploring this phenomenon, the essays in Modern Print Activism in the United States focus on specific groups, individuals, and causes that relied on print as a vehicle for activism. They also take up the variety of print forms in which calls for activism have appeared, including fiction, editorials, letters to the editor, graphic satire, and non-periodical media such as pamphlets and calendars. As the contributors show, activists have used print media in a range of ways, not only in expected applications such as calls for boycotts and protests, but also for less expected aims such as the creation of networks among readers and to the legitimization of their causes. At a time when the golden age of print appears to be ending, Modern Print Activism in the United States argues that print activism should be studied as a specifically modernist phenomenon and poses questions related to the efficacy of print as a vehicle for social and political change.

Originally published in 1941, Old Louisiana Plantation Homes and Family Trees is the definitive guide to the important plantation homes of the Pelican State, as well as the socially and historically prominent families who lived in them. ### A Summer in Europe (Classic Reprint)

Excerpt from A Summer in Europe IN the accompanying letters I have endeavored to give an honest and unprejudiced description of sights and scenes abroad, avoiding in a measure the stereotyped praise heaped upon everything foreign. My observations have mostly been con fined to the people, their habits and modes of living. The four months spent in the Old World were rich in instruction and full of enjoyment, but I feel that a hasty glance was too often given where there should have been careful study. #### Summer Holidays Travelling Notes in Europe (Classic Reprint)

Excerpt from Summer Holidays Travelling Notes in Europe The landscape continues unchanged until we near the next station, szekcső, a village which climbs up the side of a yellow hill running steeply down to the water's edge. This village is a harmony in yellow and white: the hillside is yellow, the cottages are yellow and white, each with a loggia in front and a thatched roof. There are two churches with quaint rococo bulging spires, one painted bright red and the other ailing blue. The bank of the river in front of the village - the marina as we may call it - is a typical confusion of mud, straw, and miscellaneous litter, on which you see flocks of geese and ducks, herds of black swine, ox-carts, oxen, washerwomen, and idle peasant boys, dressed in white short skirts and sleeveless jackets, like true Magyars that they are. ### Two Months in Europe

Excerpt from Two Months in Europe: A Record of a Summer Vacation Abroad The author has had in mind only to give a brief but faithful account of what will be most likely to interest the traveler who goes for profit as well as pleasure. He has endeavored to represent things fairly, and without that gush of admiration with which the coolest of us often see things for the first time. Personal allusions and experiences, which are of no value or interest to a stranger, have been as far as possible avoided, and the single aim has been kept in view of giving a plain and straight forward account of a summer's tour. If the book should recall pleasing memories to those who have had the pleasure of a foreign trip, and, most of all should be instrumental in inducing young people to visit, even hastily, the old world, and thus have the life-long enjoyment of the pleasure and knowledge which such a trip gives, the author will be more than satisfied. Excerpt from The Amateur Abroad: The Record of a Summer Tour in Europe We arrive abreast the harbor of Queenstown which looks like a little country village, and discharge a portion of our passengers. The daily papers will inform you that the Illi nois made excellent time to this port, namely: nine days and a few hours; but do not believe them. The Amateur and all his staff are ready to make deposition before any justice of peace in the United States or New Jersey that it was the longest voyage on record. Excerpt from A Summer in Northern Europe, Vol. 1 of 2: Including Sketches in Sweden, Norway, Finland, the Aland Islands, Gothland, &C The winter life of Sweden is at an end. #### A Summer Jaunt Through the Old World

Excerpt from A Summer Jaunt Through the Old World: A Record of an Excursion Made to and Through Europe, by the Tourjee Educational Party of 1878 The volume is intended as a pleasant souvenir of a de lightful round of European travel, in which nearly three hundred Americans - a larger excursion party than ever before went from our shores - had, at least in part, a common experience. The writer trusts, that in Spite of any imperfections hasty work may have caused, this purpose will be fully met. While in pursuance of the chief plan to present a faithful history of that excursion, much subject matter Of little interest to others may have been included in its pages; he trusts, nevertheless, that the book may prove a source of much information to the general reader, and, as such, form, in some measure, an instructive and agreeable hand-book of travel. #### Professional Letters From Europe, Written During the Summer of 1852 (Classic Reprint)

Excerpt from Professional Letters From Europe, Written During the Summer of 1852 London Water. - The Thames river contains 16 grains of Carbonate of lime to every gallon, not to include the awfully disgusting production of of human beings on its banks. This population derives 26 tons of Carbonate of lime annually from the river in the shape of drink. The 18 varieties of animacules said to exist in the Mississippi water may be nutritious, but save me from the greasy filth of the Thames. I shall ever, after seeing this compound uid, be reconciled to the mud-holes of the West. Various efforts are being made to supply London with pure water. The best I believe is derived from New river. But all European water contains more or less lime, so far as my observation extends. The only good water I have drank was from the only spring found in the forest of Fontainbleau, and that in the old castle of Heidelberg - the latter was excellent. ## A Summer's Tour in Europe, in 1851

Excerpt from A Summer's Tour in Europe, in 1851: In a Series of Letters, Addressed to the Editors of the Charleston Courier We have also, in our list of passengers, the Hon. S. G. Goodrich, recently appointed Consul of the United States, to succeed Mr. Walsh at Paris. This latter gentleman has done much, during a long residence in France, both in a private and public capacity, to elevate and vindicate the American character and its institutions: and we doubt not that his suc cessor, carrying with him, as he does, a world-wide literary reputation, founded in some degree upon his writings under the well

known name of Peter Parley, will be enabled to do like good service to our country. There is also among our passengers, the Hon. G. W. Wright one of the members of Congress from California, a gentleman of indomitable energy and perseverance, who is said to have traversed, within the last two years, more of the mineral regions of that newly acquired territory, than perhaps any other American citizen. He has with him, it is understood, a most extensive cabinet of specimens of the rich minerals of that region, with which he expects to tempt the capitalists of England to unite more extensively in furnishing the necessary means for advantageously developing them. #### An Ardent American (Classic Reprint)

Excerpt from An Ardent American I have decided to write my Memoirs for I think the next two months will be a very interesting period of my life. As the Comte de Segur says, "In writing one's Memoirs one must be an actor, not an author"; so without reserve I shall take the first role. In case these pages are read by strangers, I shall firstly explain who I am. My name is Yvonne Carrington. I am eighteen. I have a little more than five feet and a half of height, thus I am tall. I am blond with eyes gray-blue, and a waist rather fine. I am a half orphan as my beloved father died when I was childish. Alas! I was born and elevated in Europe which makes that I speak my maternal tongue imperfectly, but I shall quickly learn, and I am writing my Memoirs in English with the help of a dictionary, not only as a lesson but also for my pleasure. #### Vacation Days in Europe

Excerpt from Vacation Days in Europe: Notes of a Trip Abroad At the pretty little town of Manchester we are to take our sleeper for Chicago, and toward that place we go, on the Illinois Central, over a country water soaked and, in many places, water-covered. It is beautifully green, but it looks very strange to see Iowa corn, whole fields of it, not more than four inches high, so late in the year. Arrived at Manchester, past fields of drowned corn, we wait for our train for Chicago, and as we walk out to see and thank Conductor Marvin for his help to us, we realize what a beautiful little city Manchester is with its wide streets, comfortable houses surrounded by green, its fine trees and lovely roses. Mr. Marvin works. In the dusk, amongst his roses and gives us some most beautiful and fragrant ones as we say good-bye and return to our station across a river as smooth as a mirror, and pink, gold and rose with the sunset. A sweet-faced old lady in the station tells us how she cared for the Union wounded all through the dreadful years of '61, '62, '63 and '64 and how, after the battle of Gettysburg she helped doctors amputate the limbs and probe the wounds of men who had lain in the drenching rain and hot sun of three summer days, only to face the operating table Without any anaesthetic to deaden their dreadful pain. All the

time she talks, a little lad runs about the station crowing happily to himself, all unconscious of the awful suffering through which he entered into his heritage of a great and united: country. ### Summer Pictures

Excerpt from Summer Pictures: From Copenhagen to Venice We were in full view of the coast, yet we had some miles to work up to Falmouth. With a cracking breeze, our light boat would easily have taken us in in an hour but hardly had we left the ship, before the wind left us. The gale which had borne us on so swiftly, had Spent its strength, and was dying away. The long swell which came rolling in from the Atlantic, subsided into gentle undulations, as if the waters knew that they touched the shores Of England, and sank down submissive at her feet. ### Summer Cruise in the Mediterranean

Excerpt from Summer Cruise in the Mediterranean: On Board an American Frigate Or one of the most delicious episodes in a long period of foreign travel, this volume is the imperfect and hastily written transcript. Even at the time it was written, the author felt its experience to be a dream - so exempt was it from the interrupting and qualifying drawbacks of happiness in common and working life - but, now, after an interval of many years, it seems indeed like a dream, and one so full of unmingled pleasure, that its telling almost wants the contrast of a sadness. Of the noble ship, whose summer cruise is described, and her kind and hospitable officers, the recollec tion is as fresh and grateful now, as when, (twenty years ago, ) the author bade them farewell in the port of Smyrna. Of the scenes he passed through, while their guest, he has a less perfect remembrance - relying indeed on these chance memoranda, for much that would else be forgotten. It is with a mingled sense of the real and the unreal, therefore, that the book is offered, in a new shape, to the Public. ### OBSERVATIONS ON HIGHER EDUCATI

Excerpt from Observations on Higher Education in Europe The following article is the result of a visit made by the writer to the countries of western and southern Europe last summer and fall to study conditions of higher education there. In a brief article like this only the salient features can be mentioned. I shall first state those which apply to the European countries generally and then those which apply only to the individual countries. In each case I shall try to indicate how the educational relations between the foreign countries and the United States are affected. ### Hints for Six Months in Europe

Excerpt from Hints for Six Months in Europe: Being the Programme of a Tour Through Parts of France, Italy, Austria, Saxony, Prussia, the Tyrol, Switzerland, Holland, Belgium, England and Scotland, in the Summer of 1868 The voyage was longer than had been anticipated. The Europe was a slow ship, even with the assistance of a heavy north-wester from the edge of the Gulf Stream to within twenty-four hours of the French coast. But she was staunch and comfortable, having much less motion in a sea-way than the faster-going propellers of the same line: the discipline and service were admirable, and the table was all that could be desired. The eleven and a half days of the voyage soon slipped by, therefore; and during the latter part, the writer, with the aid of Bradshaw's Continental Guide and the recollections of two previous tours, completed in minute detail the Itinerary, which was subsequently followed with scarcely a deviation. ## Tales and Souvenirs of a Residence in Europe

Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. ## Lotus-Eating

Excerpt from Lotus-Eating: A Summer Book Rhenish reminiscences. But they are as much part of a journey up the Rhine as Drachenfels or St. Goar. John Bull, upon his travels, is an Old joke, as well to himself as others; and the amusement is never exhausted. Yet he is the boldest and best of travelers. He carries bottled ale to Nineveh, and black tea to the top of Mont Blanc, and haunts Norwegian rivers with the latest improved angling lines but he carries integrity, heroism, and intelligence, also. His patriotism amounts to prejudice; yet, if there is any cosmopolitan, it is John Bull. He takes pride, indeed, in asserting his prejudices, and insisting upon his black tea everywhere and in all societies. But his sublime skepticism of any excellence out of England is pleasanter than our crude mixture of boastfulness and subserviency. It was remarkable during the revolutions of 1848, in Europe, that there were no monarchists so absolute as the Americans. They declared, almost to a man, that Europe was not fit for republicanism. As if time would ripen republics from despotism, so that, like mellow pears, they would fall off without any confusion; or as if it were the habit of kings to educate their subjects to dispense with royalty. ## An Art Tour to Northern Capitals of Europe (Classic Reprint)

Excerpt from An Art Tour to Northern Capitals of Europe MY book pretends to be nothing more nor less than its title indicates. It is expressly the record of an Art Tour; it does not profess to give descriptions of scenery, or to deal with matters of science. I have endeavoured to put into as concise and attractive a form as possible all the information I could gather during a journey taken in the summer of 1870, for the purpose of collecting whatever art materials might be scattered over the Northern Capitals of Europe. The territory, though not unexplored, had scarcely become beaten ground. I may say that the route was new and informing to myself, for though familiar with the chief galleries and museums of Europe, I had still to make acquaintance with the art treasures of Copenhagen, Stockholm, St. Petersburg, and Moscow. ## Diary of a Tour in Spain

Excerpt from Diary of a Tour in Spain: During the Spring and Summer of 1853 A less glorious exploit occurred there in 1702 during the War of Succession. It is related by Macaulay,<sup>1</sup> after failing at Cadiz, the English fleet was off the coast of Portugal on the way back to England, when the Duke of Ormond received intelligence that the treasure-ships from America had just arrived in Europe, and had, in order to avoid his armament, repaired to the harbour of Vigo. ## Summer Time-Table, 1900: In Effect July 1 (Classic Reprint)

Excerpt from Summer Time-Table, 1900: In Effect July 1 When we talk about travelling in a foreign land, we think of Europe, or Algiers, or India; but Nova Scotia is a foreign land, just as much so as England, even if it is only a matter of two hundred and twenty-two miles from Boston over to Yarmouth and only a few hours' sail on the swift steel steamers the Boston and Yarmouth. The minute you land in Yarmouth you are on foreign soil, and the Union Jack instead of the stars and stripes waves over you. You will notice the difference in the very air. There's a calm tranquility, an even serenity, a wholesome repose that you never knew at home. Then, if you're a landsman, as you probably are, that ocean voyage of two hundred odd miles will do a world of good. You embark at p.m. Soon you are skimming down Boston harbor. And two hours later you have left the rugged outlines of Nahant and Marblehead far behind. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. ## Our Young Folks Abroad

Excerpt from *Our Young Folks Abroad: The Adventures of Four American Boys and Girls in a Journey Through Europe to Constantinople* Although many books of travel have appeared in past years, it has seemed to the author and the publishers of this volume that there is room for one which shall bring up before the young readers of this country the principal places and scenes of the most charming portions of the Old World, together with such incidents of their history and romance as will interest without fatiguing. The plan adopted has some elements of novelty. An American gentleman and his wife sail for Europe, taking with them their son and daughter, and their nephew and niece. They travel through portions of England, France, Belgium, Germany, Switzerland, and Italy, until they reach Genoa. There they engage a swift-sailing yacht, and make a pleasant summer cruise in the Mediterranean, visiting Mentone, Monaco, Nice, Leghorn, Florence, Pisa, Rome, Naples, Palermo, and other points in Sicily, Athens, and Constantinople, where the voyage is brought to an end. The narrative consists of a recital of their adventures, the wonderful things they saw, and the impressions of the younger portion of the party. The author has not relied solely upon his imagination in the treatment of his subject, for while the names and characters of the travellers are fictitious, he has drawn freely upon his own experience during several visits to Europe. His aim, throughout, has been to instruct, as well as to amuse. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. ## The Art of Questioning

Excerpt from *The Art of Questioning* I have undertaken to say a few words to you on the Art of Questioning. It is a subject of great importance to all of you who desire to become good teachers; for, in truth, the success and efficiency of our teaching depend more on the Skill and judgment with which we put questions than on any other single circumstance. It is very possible for a teacher to be fluent in speech, earnest in manner, happy in his choice of illustration, and to be a very inefficient teacher, nevertheless. We are often apt to think it enough if we deliver a good lesson, and to forget that. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Excerpt from A Manual of the Art of Questioning, for Training Classes The need of a book on the art of questioning which should cover the subject adequately and afford sufficient DEGREESreparation for the examination of training classes has long been manifest. #### One Thousand Literary Questions and Answers (Classic Reprint)

Excerpt from Topical School-Room Questions The questions here presented are, for the most part, from actual school-room practice. Such as have been used in everyday class work. The topical arrangement followed throughout is, at once, the most natural and the most advantageous one. Every thoughtful teacher recognizes her work to be mainly a skilful practice in the art of questioning. In the school-room, at least, each question should grow out of the one preceding. Upon this principle the ensuing questions are formulated. It is to be hoped that they may prove exible enough to admit of such changes as might be required for individual use. The collection is published in the belief that it will be found of some benefit to the over-worked teacher in a crowded class-room, as a means of saving both time and abor. With a systematic approach to critical thinking, this volume begins with issues concerning words, examines techniques for evaluating explanations and arguments, and concludes by applying all the skills to reading essays and writing argumentative essays. With examples and exercises that show the scope to which critical thinking skills can and should be applied, this volume recognizes the difference in learning styles with a reader friendly approach. The volume addresses the use of language arguments, checking the evidence through observations, testimony and values and obligations, categorical syllogisms, propositional arguments, inductive arguments, fallacies and large-scale applications. For individuals interested in an exhaustive treatment of critical thinking and writing.

#### The Art of Questioning

Excerpt from Questions at Issue The insecurity of contemporary criticism is no reason, however, why it should not be seriously and sincerely attempted. On the contrary, the critic who has been accustomed to follow paths where the laws and criteria of literature are paramount, may be glad to slip away sometimes to a freer country, where the art he tries to practise is more instinctive, more emotional, and more controversial. In the schools of antiquity, when the set discourse was over, the lecturer mingled with his audience under the portico of the Museum, and then, I suppose, it was not any longer of the ancients that they talked, but of the, poet of last night, and of the rhetorician of to-morrow. #### The Bacon Shakspeare Question (Classic Reprint)

Excerpt from A Study of Questioning The question rightly used is a medium through which a teacher comes into the closest touch affectively with her pupil. The pupil's reaction-time and the mode of reaction to the given question will reveal his mental type and characteristics; for instance, whether he is of visual, auditory, motor, or mixed type; whether his temperament is sanguine, phlegmatic, melancholic, etc.; or again whether he is able to impress something upon his mind (memory) with ease or difficulty, whether he forgets quickly or slowly, whether he can retain a great mass of ideas or only scanty fragments; etc. All these analytical observations are the indispensable task of a teacher in real dynamic education; for this knowledge alone will furnish the principles of individual psychology. Care, however, should be taken that the observations be made scientifically. The teacher, through such diagnosis, will discover technique for further questioning. The question is, thus, a tool for psychological analysis and diagnosis. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Excerpt from *Two Sides of a Question* Unspeakable, unlikeable, worse than all, unsketchable. A woman has no more formidable rival than her idea in the head of an imaginative young man, and Maurice Durant had been rash enough to fall in love with Miss Tancred before sight. He was rash in everything. When the Colonel asked him down to Coton Manor for a fortnight, he accepted the invitation (with much pleasure) by return, and lay awake half the night with joyous anticipation. He was in the train steaming into the Midlands before he realized that he knew nothing of his host beyond a vague family tradition. He was his (Durant's) godfather; he was a retired Colonel of militia; he had given him (Durant) a hideous silver cup; but this was the first time he had given him an invitation. There was something more, too. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Excerpt from *Live Questions for Debate: For the Schools of California* The greatest profit from debate is to be gained only when the subjects are adapted to the age and grade of intelligence of the participants. I have, therefore, arranged the questions by grades, beginning with extremely simple ones in the sixth year. Some attempt has also been made to arrange the questions in each year in the order of difficulty of making preparation - a difficulty due either to the depth of the question or to the scarcity of sources of information. Some of the questions in the earlier grades are not in the strictest sense debatable. But two good habits will be formed by the pupil - first, of controlling himself before an audience; second, of marshalling his facts and figures on one side of a question. The teacher, knowing her pupils, is of course the safest guide in assigning questions. Not all children in the sixth grade could debate even the simple questions I have proposed for that year. Grading differs somewhat in different communities. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Excerpt from A Short View of Great Questions 2. The theory of Theology - that man is created at his birth with an immortal soul which survives the death of his body. 3. The theory of Reincarnation, sometimes called Metempsychosis, or the Transmigration of Souls - that man has an immortal soul which existed before his birth and survives the death of his body. These three theories are very old, and it is not of record that the mind of man has conceived any other, differing from them in its basic form. Of the three, one must be true, and two false. We are at the point where there are three forks to the road, and only one is the right way. It is not the policy of wisdom to halt, or to proclaim that there is no way out. It is even better to advance on the wrong road than to stand still; for the wrong road when explored must yield some evidence that it is the way of error. It is not likely that each of the three theories is sustained by exactly the same amount of evidence, or that an inquiry would prove each to be precisely as reasonable as the others. The true one must have more evidence to support it than the false ones, the truth being stronger than that which is untrue. Excerpt from The Amadis Question While the endeavor to find the sources of the Amadis through comparison with earlier romances furnishes the main work of the dissertation, it has seemed indispensable to preface this by a survey of the history of the whole Amadu's question. The bulk of the citations from the Amadis and the references to it are based upon the Rivadeneyra edition. Any reference to the edition of 1508 is indicated in the notes. Excerpt from Montaigne and Shakespeare: And Other Essays on Cognate Questions This said, I leave for another time, or to other hands, the systematic discussion as to what is and is not genuine in the Shakespeare plays. That these problems must and will be grappled with, I am assured. The recent confident deliverance of Mr. C. F. Tucker Brooke, that all attempts to deprive the poet of a large interest in any of the thirty-six plays have failed,<sup>1</sup> is only a suggestion to the effect that, despite such admirable critical work as Professor Bradley's, little contribution to the undertaking from English academic sources is now to be looked for beyond the useful item of careful collation of texts. Our problems, however, must be handled in detail; and it is possible to isolate for the time being the general question of critical method, and that of a particular literary influence. Excerpt from Questions and Exercises for Classical Scholarships, Second Division The Papers and Essays in the present volume have, with very few exceptions, been set in Examinations for Scholarships at Oxford during the last decade, 1869-1879. A student will readily gather from them a correct idea of the sort of information which is required from him in these examinations. As this book, like its immediate predecessor, is adapted for the use of schools as well as private students, the compiler ventures to suggest a few hints, gathered from much experience, as to the way in which it may be used with most advantage. The private student, whether reading by himself or with a tutor, should make a practice of entering terse and accurate answers in a note-book kept for this purpose. It cannot be too urgently impressed upon him that such a notebook, unless he be gifted with a memory like Macaulay's, will be practically of no service, will even be of disservice to him, unless he peruse and re-peruse it weekly, or even oftener - 'decies repetita manebunt.' Excerpt from Live Questions The questions discussed in this volume are all of vital interest to humanity, and upon the proper solution of some of them depends the fate of the republic. While some of these papers and speeches have been published in one way or another it is believed that 'by putting them in a more enduring form I can assist the patriotic student and thus render a service to my country. In discussing the tariff, the money question and government by injunction the same illustrations are used in different speeches, which-would be objectionable if the book were a treatise to be read consecutively, but I have concluded that in this case it would be best to have each speech as nearly complete as possible. Consequently the short repetitions have been allowed to stand. Justice requires me to state that in the original preparation of the matter in this book I have been greatly assisted by the unerring judgment and wise criticism of Mrs. Altgeld. Through her influence some of the articles were softened in tone and others were changed in character. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Excerpt from Questions on Shakespeare, Vol. 2 The pupil, or his teacher for him, should select a few of the topics for special study. Probably the most valuable exercises for the general student who has a good degree of maturity are the general questions and the character-sketches. Some of these general questions require considerable work in order to answer them fully. The mature student will probably use the questions upon individual acts and scenes principally in order to sharpen his attention and prevent him from reading the text carelessly or mechanically. He will answer very few of these special questions in detail. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
