Numbers and maths are all around us. They can explain where electricity comes from, why we look like our parents, why moons revolve around planets and why its so hard to win the lottery. Weve Got Your Number investigates all aspects of mathematics and numbers, and is arranged in a number of thematic chapters. Within each chapter is a series of self-contained spreads, each of which investigates all aspects of a specific subject, such as the different counting bases or the evolution of money. Each spread comprises concise and accessible running text with boxes, which belong to four main types: Good at Sums provides brief biographies of great mathematicians. Try This at Home is a series of entertaining number games and puzzles. Whats Your Problem? presents real-life challenges such as calculating the size of the Earth and shows how maths has solved them. Whats In a Number? provides a fact-file biography of iconic numbers, such as zero, 1, 3, unlucky 13 and 1 million.

Do you wonder if miracles from God truly occur in today's world? Are you afraid walking in Christian faith requires too much sacrifice? Then perhaps you've never received a phone call from heaven. Ken Gaub did, and for this world evangelist it was a wake-up call that the God who talked with Adam in the cool of the Garden has never abandoned mankind, and stays in close contact with us still today. Gaub's unique blend of humor and straightforward teaching make this book a delightful read for anyone wishing to renew the strength of faith. This humble servant relates how his young faith in God prevented

him from "chickening-out" when preaching to his first "congregation," and continues with the state of things today as he travels worldwide on missions for Christ.

Design of Darkness tells the interlocking stories of two supremely gifted people, one that ends in tragedy and one in triumph. In the words of her fiancé, the medical doctor and narrator Larry Freeling, Maryanna McKenna is the smartest and sweetest woman he has ever met. She earns her doctorate in astronomy at 22, while Eddie Swinton, her best friend from childhood, learns from her father how to make a fortune in construction. Maryanna is about to marry the narrator when mosquito-borne encephalitis wrecks her intellect, reducing her to infancy. A woman who has mastered the most advanced mathematics for her doctoral dissertation is incapable of understanding even picture books for babies. Maryanna's parents guard her with the same great love for the next several decades that they provided through her upbringing. Meanwhile, Eddie Swinton flourishes when his life becomes the American Dream. He marries the homecoming queen, raises three additional homecoming queens, and earns \$100 million through construction in a life filled with beauty, wit, and charm. By juxtaposing such extremes of fate, Design of Darkness has few rivals for the way it turns existence back into a riddle that defies religious answers. Tell it as a love story! Tell it as a tragedy! Tell it as a triumph! Tell it as a mystery! are the last words of Maryanna's father to the narrator. Larry pours his own heart's blood and memories of love into a tale as powerful and haunting as the lives of Maryanna and Eddie.

Published by Methuen Drama, the collected dramatic works of Bertolt Brecht are presented in the most comprehensive and authoritative editions of Brecht's plays in the English language. The seventh volume of Brecht's Collected Plays contains the plays which Brecht wrote during his six-year stay in the United States from 1942 to 1948. The Visions of Simone Machard is a French resistance version of the Joan of Arc story. Schweyk in the Second World War transposes Hasek's 'good soldier' to the Prague of Hitler and Heydrich. The Caucasian Chalk Circle, based on the biblical story of the judgement of Solomon, was originally written for production on Broadway, with W. H. Auden responsible for the verse. A morality masterpiece, the play powerfully demonstrates Brecht's pioneering theatrical techniques and has since become one of his most popular works. The translations are ideal for both study and performance. The volume is accompanied by a full introduction and notes by the series editor John Willett and includes Brecht's own notes and relevant texts as well as all the important textual variants.

Hawker was a good soldier -- so good, in fact, that the Army asked him and his buddies to sign on for an extended hitch. What they couldn't know was that the extension would last forever. Century after century, war after war, Hawker and his comrades were re-animated over and over to fight on alien planets with ever more advanced weapons. The reasons for the wars were incomprehensible, but that didn't matter. All that counted was the fighting itself. From incarnation through incarnation, one goal remained in Hawker's mind. Somewhere, somehow, there had to be a way out of the loop. And he was determined to find it.

She's a wedding planner in love with love. She loves seeing couples get married and commit to each other and longs for her own romantic wedding day someday. He's a divorce lawyer who doesn't believe in love. He sees couples as opportunities to make money with prenups before their weddings and as potential repeat business when and if they divorce. Their initial meeting goes from attraction to dislike of one another at a wedding that turns into an unbelievable disaster for her. When they meet again in the future will they be able to put the past behind them and find love together, or will some opposites never be attracted to each other? VIOLA I'm in love with love and I love couples who are in love. They are my bread and butter after all but that's not why I love them. There's something so magical to see a couple choose to go into the future together, to face life's challenges together, and rise above it all to come out on the other side stronger and more in love than ever before. I love it so much that I became a wedding planner. Watching couples young and old committing their lives to each other is something that's just so special. No couple is the same. There's something different about all of them that makes each one special. I never get tired of seeing couples stare lovingly into each other's eyes as they plan, prepare and execute their wedding ceremony pledging their undying love to one another for the rest of their lives. I haven't got there yet myself but watching other couples keeps my dream of finding Mr. Right alive. But life doesn't always see things the way we dream of them turning out. It sure didn't see it my way when he crossed my path. RICK I don't believe in love. If it really exists why are there so many broken relationships and people in the world? Not that I care... about the broken relationships I mean. After all, they are my bread and butter. And those events called weddings are my hunting ground. After all, people lay the foundation for the demise of their marriage before they're even married. Prenups and all sorts of agreements are designed to protect their wealth and their assets and force others to stay with them even when they don't want to anymore. Weddings give couples the right to punish each other when they don't want to be together anymore for whatever reason. So, when anyone tells you that it starts with a wedding they're wrong. It starts with a lawyer. And if it ends... well, it ends with a lawyer too. Funny that. Often the people that I work for before their wedding, come knocking on my door a few years down the line. Repeat business. So, love is great and it is for me but just not for me if you get what I mean. When I met the wedding planner she was incensed at the thought that we might collaborate. Other planners have no issue with it. Why she should have, I don't get it. Normally I would just walk away but the universe seems to have other plans...
