#### Exam Tips

Each time I sat to write, I had one burning question in my heart. I knew that the only reason you would buy this book is that you have an important exam to prepare for which you desire to pass excellently. So I always asked myself, "Can I really help you pass excellently?" I think I must have asked that question over half a thousand times, and each time, my answer was YES! Yes I can help you pass excellently! That's why I spent countless hours and very many lonely nights researching, reflecting,

meditating, writing, re-writing and developing the content until I felt it was perfect for you. I thought about you throughout, and so I'm very sure you will love this book. I wrote Exam Tips in order to make the process of preparing for and passing exams easier, faster, less stressful and more effective for you; as well as help you get much higher results in every exam you take, which is what I sincerely believe you deserve. This book contains the 31 greatest principles for surpassing success in any exam written in a style that's easy to read, fun to read and very easy to apply. It comes with 124 fun Practice Questions and 62 exciting Discussion Topics to drive your understanding deeper and help you apply the tips correctly. With this book, you have a tested guide that can help you achieve the results you truly desire every time. It will show you how you can study for exams without stress, without fear and without failure. All that's required is that you think through it and take some action. Cheers!

This is the official CHFI (Computer Hacking Forensics Investigator) study guide for professionals studying for the forensics exams and for professionals needing the skills to identify an intruder's footprints and properly gather the necessary evidence to prosecute. The EC-Council offers certification for ethical hacking and computer forensics. Their ethical hacker exam has become very popular as an industry gauge and we expect the forensics exam to follow suit. Material is presented in a logical learning sequence: a section builds upon previous sections and a chapter on previous chapters. All concepts, simple and complex, are defined and explained when they appear for the first time. This book includes: Exam objectives covered in a chapter are clearly explained in the beginning of the chapter, Notes and Alerts highlight crucial points, Exam's Eye View emphasizes the important points from the exam's perspective, Key Terms present definitions of key terms used in the chapter, Review Questions contains the questions modeled after real exam questions based on the material covered in the chapter. Answers to the questions are presented with explanations. Also included is a full practice exam modeled after the real exam. The only study guide for CHFI, provides 100% coverage of all exam objectives. CHFI Training runs hundreds of dollars for self tests to thousands of dollars for classroom training.

Testing in the Professions focuses on current practices in credentialing testing as a guide for practitioners. With a broad focus on the key components, issues, and concerns surrounding the test development and validation process, this book brings together a wide range of research and theory—from design and analysis of tests to security, scoring, and reporting. Written by leading experts in the field of measurement and assessment, each chapter includes authentic examples as to how various practices are implemented or current issues observed in credentialing programs. The volume begins with an exploration of the various types of credentialing programs as well as key differences in the interpretation and evaluation of test scores. The next set of chapters discusses key test development steps, including test design, content development, analysis, and evaluation. The final set of chapters addresses specific topics that span the testing process, including communication with stakeholders, security, program evaluation, and legal principles. As a response to the growing number of professions and professional designations that are tied to testing requirements, Testing in the Professions is a comprehensive source for up-to-date measurement and credentialing practices.

There have been a string of armed robberies near a park over the past few weeks. Police believe most of them are the work of the same person. Here are suspect descriptions from the victim in each mugging. Which one of the robberies most likely wasn't committed by the same person?

ANSWER D: While no two of the descriptions are exactly the same, the first three are similar enough that it's very likely they're describing the same person.

ANSWER C: You should stop and deal with the situation and notify dispatch about the unplanned stop. It looks as if a fight is about to break out, and preventing violence takes priority over investigating a car break-in that already happened.
