The Advocate is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine. Established in 1967, it is the oldest continuing LGBT publication in the United States.

The Advocate

Working at the local processing plant, Marcos is in the business of slaughtering humans—though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think too hard about how he makes a living. After all, it happened so quickly. First, it was reported that an infectious virus has made all animal meat poisonous to humans. Then governments initiated the "Transition." Now, eating human meat—"special meat"—is legal. Marcos tries to stick to numbers, consignments, processing. Then one day he's given a gift: a live specimen of the finest quality. Though he's aware that any form of personal contact is forbidden on pain of death, little by little he starts to treat her like a human being. And soon, he becomes tortured by what has been lost—and what might still be saved.

Tender Is the Flesh

'Endlessly fascinating.' - Bill Bryson 'Eye-opening, informative and very funny!' - Chris Packham 'Well-informed and downright funny' - Richard Dawkins History is full of strange animal stories invented by the brightest and most influential, from Aristotle to Disney. But when it comes to understanding animals, we've got a long way to go. Whether we're watching a viral video of romping baby pandas or looking at a picture of penguins 'holding hands', we often project our own values - innocence, abstinence, hard work - onto animals. So you've probably never considered that moose get drunk and that penguins are notorious cheats. In The Unexpected Truth About Animals Zoologist Lucy unravels many such myths - that eels are born from sand, that swallows hibernate under water, and that bears gave birth to formless lumps that are licked into shape by their mothers - to show that the stories we create reveal as much about us as they do about the animals. Astonishing, illuminating and laugh-out-loud funny.

The Unexpected Truth about Animals

Whose truth is the lie? Stay up all night reading the sensational psychological thriller that has readers obsessed, from the #1 New York Times bestselling author of Too Late and It Ends With Us. #1 New York

Lowen Ashleigh is a struggling writer on the brink of financial ruin when she accepts the job offer of a lifetime. Jeremy Crawford, husband of bestselling author Verity Crawford, has hired Lowen to complete the remaining books in a successful series his injured wife is unable to finish. Lowen arrives at the Crawford home, ready to sort through years of Verity's notes and outlines, hoping to find enough material to get her started. What Lowen doesn't expect to uncover in the chaotic office is an unfinished autobiography Verity never intended for anyone to read. Page after page of bone-chilling admissions, including Verity's recollection of the night her family was forever altered. Lowen decides to keep the manuscript hidden from Jeremy, knowing its contents could devastate the already grieving father. But as Lowen's feelings for Jeremy begin to intensify, she recognizes all the ways she could benefit if he were to read his wife's words. After all, no matter how devoted Jeremy is to his injured wife, a truth this horrifying would make it impossible for him to continue loving her.

Best Life magazine empowers men to continually improve their physical, emotional and financial well-being to better enjoy the most rewarding years of their life.

Best Life

Kids love stuff that's gross. From the liquids, solids, and gases--especially the gases!--or their own bodies to the creepy, crawly, slimy, slithery, fetid, and feculent phenomena in the world at large, kids with a curious bent just can't get enough. Oh, Yuck! The Encyclopedia of Everything Nasty brings together, in one book, all the good things about some of the baddest things on Earth. Exhaustively researched and impeccably scientific, yet written with a lively lack of earnestness, Oh, Yuck! is an ants to zits encyclopedic compendium covering people, animals, insects, plants, foods, and more. Here are vampire bats, which sip blood and pee at the same time so that they'll always be light enough to fly away; and slime eels, wreathed in mucus and eating fellow fish from the inside out. Oh, Yuck! explains why vomit smells; where dandruff comes from; what pus is all about; and why maggots adore rotting meat. Other features include gross recipes, putrid projects, 10 foods that make you airborne, and more. With hundreds of cartoon illustrations and real-life photographs, Oh, Yuck! is the complete guide to the irresistible--at least to an 8-to-12 year old--underbelly of life.

Oh, Yuck!

'I'm a HUGE fan of Alison Green's "Ask a Manager" column. This book is even better' Robert Sutton, author of The No Asshole Rule and The Asshole Survival Guide 'Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of The Life-Changing Magic of Not Giving a F*ck A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, Ask a Manager will help you successfully navigate the stormy seas of office life.

Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc

Mary Roach meets Bill Bryson in this uproarious tour of the basest instincts and biggest mysteries of the animal world Whether we're seeing a viral video of romping baby pandas or a picture of penguins "holding hands," it's hard for us to think of animals as anything but playful paragons of innocence and virtue. So you've probably never considered if moose get drunk, penguins cheat on their mates, or worker ants lay about. They do--and that's just for starters. In The Truth About Animals, Lucy Cooke embarks on a global adventure to meet everyone from a Colombian hippo castrator to a Chinese panda porn peddler, all to lay bare the secret--and often hilarious--habits of the animal kingdom. Charming and at times downright weird, this modern bestiary is perfect for anyone who has ever suspected that virtue might be unnatural.

Ask a Manager

From the author of the New York Times bestseller* *Why You Shouldn't Eat Your Boogers and Other Useless (or Gross) Information About Your Body*: the be-all and end-all compendium of odd, quirky, and otherwise nauseating information. Here is another thoroughly distasteful yet utterly compelling book from the author of the New York Times (extended list) bestseller *Why You Shouldn't Eat Your Boogers and Other Useless (or Gross) Information About Your Body*. In *Why Fish Fart and Other Useless (or Gross) Information About the World*, Francesca Gould sifts through the world's most unpleasant creatures, diseases, physical deformities, culinary delicacies, ritual practices, and hideous torture tactics to uncover every horrifying and stomach-turning fact under the sun. This book is full of questions you never thought to ask—and perhaps will wish you'd never had answered—including: What exactly is maggot cheese? How did anal hair help to lead to the conviction of the Great Train Robbers? What is the job of a fart catcher? How exactly do crabs cause such intense itching around one's private parts? The real story behind why the toilet is often referred to as 'the john.' Why you might want to steer clear of some coffees. (Hint: If poo isn't exactly your idea of appetizing. . .) *Why Fish Fart and Other Useless (or Gross) Information About the World* is sure to delight any and all hard-core fans of the obscure, esoteric, and last but not least grotesque.

The Truth About Animals

Audisee® eBooks with Audio combine professional narration and sentence highlighting to engage reluctant readers! The octopus spies a nice, tasty mantis shrimp. It swims over for a closer look at the small creature. Then—WHAM!—the mantis shrimp strikes a nasty blow with its hammer-like forelimb. The octopus shrinks back, defeated. That wasn't such an easy meal after all . . . In nature, good defenses can mean the difference between surviving a predator's attack and becoming its lunch. Some animals rely on sharp teeth and claws or camouflage. But that's only the beginning. Meet creatures with some of the strangest defenses known to science. How strange? Hagfish that can instantaneously produce oodles of gooey, slippery slime; frogs that poke their own toe bones through their skin to create claws; young birds that shoot streams of stinking poop; and more.

Why Fish Fart and Other Useless Or Gross Information About the World

Lavishly illustrated, these giant books provide children with masses of knowledge. Each fact is numbered, so as children read they can clearly chart their progress. A multitude of subjects are comprehensively covered across the set, including Earth and Space, Prehistoric Life, Animals, History and Science. Cartoons, quizzes, fun facts and projects are scattered throughout to actively encourage reading and learning. Over 1000 numbered facts in each book Detailed illustrations and photographs Quizzes show how much children have learnt Simple activities and projects Amazing fact panels illustrated with fun cartoons

When Lunch Fights Back

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

1000+ Animal Facts

Twenty-five-year-old Steven faces a bleak life with a sadistic mother and a job at a slaughterhouse where he is confronted with extreme violence and death.

The Cultivator & Country Gentleman

This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional

cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

Backpacker

A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.

Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian.

Albion's Seed

How should we treat non-human animals? In this immensely powerful and influential book (now with a new introduction by Sapiens author Yuval Noah Harari), the renowned moral philosopher Peter Singer addresses this simple question with trenchant, dispassionate reasoning. Accompanied by the disturbing evidence of factory farms and laboratories, his answers triggered the birth of the animal rights movement. 'An extraordinary book which has had extraordinary effects... Widely known as the bible of the animal liberation movement' Independent on Sunday In the decades since this landmark classic first appeared, some public attitudes to animals may have changed but our continued abuse of animals in factory farms and as tools for research shows that the underlying ideas Singer exposes as ethically indefensible are still dominating the way we treat animals. As Yuval Harari’s brilliantly argued introduction makes clear, this book is as relevant now as the day it was written.

I Love Jesus, But I Want to Die

The Advocate is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine. Established in 1967, it is the oldest continuing LGBT publication in the United States.

BOOK ONE IN THE CLASSIC HEOROT SERIES FROM GENRE LEGENDS LARRY NIVEN, JERRY POURNELLE, AND STEVEN BARNES The two hundred colonists on board the Geographic have spent a century in cold sleep to arrive here: Avalon, a lush, verdant planet lightyears from Earth. They hope to establish a permanent colony, and Avalon seems the perfect place. And so they set about planting and building. But their very presence has upset the ecology of Avalon. Soon an implacable predator stalks them, picking them off one by one. In order to defeat this alien enemy, they must reevaluate everything they think they know about Avalon, and uncover the planet's dark secrets. At the publisher's request, this title is sold without DRM (Digital Rights Management). About The Legacy of Heorot: "Page-turning action and suspense, good characterization and convincing setting . . . may be the best thing any of those authors has written."—The Denver Post “Outstanding! . . . The best ever, by

the best in the field . . . the ultimate combination of imagination and realism.”—Tom Clancy “Well written, action-packed, and tension filled . . . makes Aliens look like a Disney nature film.”—The Washington Post “Spine-tingling ecological tale of terror.”—Locus About sequel Beowulf’s Children: “Few writers have a finer pedigree than those here. . . . As one might suspect Beowulf’s Children is seamless . . . absorbing, substantial . . . masterful novel.”—Los Angeles Times “Panoramic SF adventure at its best.”—Library Journal About Larry Niven & Jerry Pournelle: “Possibly the greatest science fiction novel I have ever read.”—Robert A. Heinlein on The Mote in God’s Eye About Larry Niven: “Larry Niven’s RINGWORLD remains one of the all-time classic travelogues of science fiction — a new and amazing world and fantastic companions.”—Greg Bear “Our premier hard SF writer.”—The Baltimore Sun “The scope of Larry Niven’s work is so vast that only a writer of supreme talent could disguise the fact as well as he can.”—Tom Clancy “Niven is a true master.”—Frederik Pohl About Jerry Pournelle: “Jerry Pournelle is one of science fiction’s greatest storytellers.”—Poul Anderson “Jerry Pournelle’s trademark is first-rate action against well-realized backgrounds of hard science and hardball politics.”—David Drake “Rousing . . . The Best of the Genre”—The New York Times “On the cover . . . is the claim ‘No. 1 Adventure Novel of the Year.’ And well it might be.”—Milwaukee Journal on Janissaries About Steven Barnes: “Brilliant, surprising, and devastating.”—David Mack “Sharp, observant and scary.”—Greg Bear “Profound and exhilarating.”—Maurice Broaddus, author of The Knights of Breton Court “Barnes gives us characters that are vividly real people, conceived with insight and portrayed with compassion and rare skill and then he stokes the suspense up to levels that will make the reader miss sleep and be late for work.”—Tim Powers “[Barnes] combines imagination, anthropology and beautiful storytelling as he takes readers to the foot of the Great Mountain, today known as Mount Kilimanjaro.”—Durham Triangle Tribune on Great Sky Woman

Animal Liberation

At long last, Sarah Britton, called the “queen bee of the health blogs” by Bon Appétit, reveals 100 gorgeous, all-new plant-based recipes in her debut cookbook, inspired by her wildly popular blog. Whether readers are newcomers to natural foods or are already devotees, they will discover how easy it is to eat healthfully and happily when whole foods and plants are at the center of every plate.

The Advocate

The magazine that helps career moms balance their personal and professional lives.

Never Let Me Go

The wildly popular YouTube star behind CLEAN MY SPACE presents the breakthrough solution to cleaning better with less effort Melissa Maker is beloved by fans all over the world for her completely re-engineered approach to cleaning. As the dynamic new authority on home and living, Melissa knows that to invest any of our precious time in cleaning, we need to see big, long-lasting results. So, she developed her method to help us get the most out of our effort and keep our homes fresh and welcoming every day. In her long-awaited debut book, she shares her revolutionary 3-step solution: • Identify the most important areas (MIAs) in your home that need attention • Select the proper products, tools, and techniques (PTT) for the job • Implement these new cleaning routines so that they stick Clean My Space takes the chore out of cleaning with Melissa’s incredible tips and cleaning hacks (the power of pretreating!), her lightning fast 5–10 minute “express clean” routines for every room when time is tightest, and her techniques for cleaning even the most daunting places and spaces. And a big bonus: Melissa gives guidance on the best non-toxic, eco-conscious cleaning products and offers natural cleaning solution recipes you can make at home using essential oils to soothe and refresh. With Melissa’s simple, groundbreaking method you can truly live in a cleaner, more cheerful, and calming home all the time.

The Legacy of Heorot

Best Life magazine empowers men to continually improve their physical, emotional and financial well-being to better enjoy the most rewarding years of their life.

My New Roots

LONGLISTED FOR THE BAILLIE GIFFORD PRIZE 2016 Charles Foster wanted to know what it was like to be a beast: a badger, an otter, a deer, a fox, a swift. What it was really like. And through knowing what it was like he wanted to get down and grapple with the beast in us all. So he tried it out; he lived life as a badger for six weeks, sleeping in a dirt hole and eating earthworms, he came face to face with shrimps as he lived like an otter and he spent hours curled up in a back garden in East London and rooting in bins like an urban fox. A passionate naturalist, Foster realises that every creature creates a different world in its brain and lives in that world. As humans, we share sensory outputs, lights, smells and sound, but trying to explore what it is actually like to live in another of these worlds, belonging to another species, is a fascinating and unique neuro-scientific challenge. For Foster it is also a literary challenge. Looking at what science can tell us about what happens in a fox's or badger's brain when it picks up a scent, he then uses this to imagine their world for us, to write it through their eyes or rather through the eyes of Charles the beast. An intimate look at the life of animals, neuroscience, psychology, nature writing, memoir and more, it is a journey of extraordinary thrills and surprises, containing wonderful moments of humour and joy, but also providing important lessons for all of us who share life on this precious planet.

Working Mother

Never before has wildlife narration been this bold and this hilarious. More than 40 million people have viewed Randall's honey badger video, "The Crazy Nastyass Honey Badger." "It has no regard for anyone or anything—it just takes what it wants! What a little badass!" When viewing wildlife footage, who hasn't thought at times, "Ewww! What the hell is that?!" Randall thinks it — and says so! In *Honey Badger Don't Care*, Randall examines and humorously informs on a dozen crazy, nasty animals of the wild kingdom employing his unique style of telling it like it is! His wildlife writing is refreshingly honest. If an animal scares Randall, he's not afraid to share. Unlike most nature writers, Randall doesn't deliver the sugarcoated or drab description. He "goes there" and shares his true feelings with his audience. Because of this, his readers feel that they can relate. Randall loves animals—even the ones that terrify him. He may not agree with how these animals conduct themselves in the world, but Randall wants everyone to know who they are. Just as he introduced the world to the honey badger, the Jesus lizard, and others, so will Randall shed light on twelve bizarre and interesting animals. Designed with callouts, sidebars, and more than fifty photos, *Honey Badger Don't Care* presents a wildlife book for adults—hilarious, irreverent, profane, yet charming, chatty, and informative. Don't be stupid—buy this book!

Clean My Space

Chew On This should be on every teenager's essential reading list. Based on Eric Schlosser's bestselling *Fast Food Nation*, this is the shocking truth about the fast food industry - how it all began, its success, what fast food actually is, what goes on in the slaughterhouses, meatpacking factories and flavour labs, global advertising, merchandising in UK schools, mass production and the exploitation of young workers in the thousands of fast-food outlets throughout the world. It also takes a look at the effects on the environment and the highly topical issue of obesity. Meticulously researched, lively and informative, with first-hand accounts and quotes from children and young people, Eric Schlosser presents the facts in such a way that allows readers to make up their own minds about the incredible fast food phenomenon. Eric Schlosser is an author and investigative journalist based in New York. His first book, *FAST FOOD NATION* was a major international bestseller. His work has appeared in 'Atlantic Monthly', 'Rolling Stone' and the Guardian. *CHEW ON THIS* is his first book for children.

Best Life

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

Being a Beast

"The Machine Stops" by E.M. Forster, now presented in a beautifully illustrated edition, is a visionary and thought-provoking novella that explores the perils of technological dependency and the potential consequences of a society overly reliant on machines. Set in a future where humanity lives underground, isolated in individual cells, their every need attended to by an all-encompassing Machine, the story follows Vashti, a lecturer and true believer in the Machine's omnipotence. However, as the Machine begins to show signs of malfunction, Vashti's worldview is challenged, leading to a series of events that question the very foundations of her society. "The Machine Stops" remains a compelling exploration of the dangers of sacrificing human connections for the convenience of technology. This illustrated edition provides a fresh perspective on Forster's timeless work, making it an engaging and visually captivating experience for both new and returning readers.

Honey Badger Don't Care

The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world.

Chew on This

When Fallon and aspiring novelist Ben meet and fall in love the day before Fallon's cross-country move, they vow to meet on the same date every year, until Fallon suspects Ben is fabricating their relationship to create the perfect plot twist.

How Tobacco Smoke Causes Disease
