### The Storyteller's Bracelet

It is the late 1800s, and a shameful time in American history. The U.S. Government has mandated native tribes send their young people to Indian schools where they are stripped of their native heritage by people they think of as The Others. Otter and Sun Song are members of The Tribe, and betrothed to be married when they turn eighteen. But when they are sent East to school, Otter, renamed Gideon, tries to adapt, while Sun Song does not, resulting in brutal attacks from the school headmaster. Gideon, thinking Sun Song has spurned him, turns for comfort to Wendy Thatcher, the daughter of a wealthy school patron, beginning a forbidden affair of the heart. But the Spirits have different plans for Gideon and Sun Song. "You are both child and mother of The Original People," Sun Song is told. "When it is right, you will be safe once more." What follows is a harrowing journey through time and the Five Worlds of the Desert Southwest tribes.

### The Storyteller's Bracelet

It is the late 1800s, and the push to remove Native American children from their tribal homes to attend schools in the east to learn the ways of the white man is in full swing. When 17-year-old Otter is forcibly removed from his tribe and sent to school, he fights to retain his Indian identity, but soon finds himself fighting a losing battle. Encouraged by Sun Song, the young woman from his tribe whom Otter hopes to some day marry, Otter throws himself into his coursework. Given the biblical name Gideon, Otter excels in his studies, and within a year earns the trust of his teachers and school officials. Sent to work as a gardener at the home of the wealthy Thatcher family from town, Gideon meets Rachel, the feisty daughter who soon steals his heart. Their affair is uncovered when Rachel becomes pregnant, and Gideon finds he must flee for his life from the wrath of her racist father. More than one hundred years later, Lark Waterman inherits a bracelet from her grandmother, a storyteller's bracelet, with pictographs that reveal a tragic story from Lark's family history, a history her grandmother had been forbidden to explore. Lark sets off on a journey to decipher the meaning of the bracelet. She soon meets Sophia, a healer and seer who recognizes Lark too has the power of sight. With Sophia's guidance, Lark learns

to tap into her gift of sight, a gift that soon proves crucial to understanding the meaning of the bracelet. The two women set off for the Southwest, following the clues of the bracelet, on a journey to unlock a secret from Lark's past that just might allow her to reclaim the birthright denied her grandmother a century earlier.

### The Storyteller's Secrets

The world of smart shoes, appliances, and phones is already here, but the practice of user experience (UX) design for ubiquitous computing is still relatively new. Design companies like IDEO and frogdesign are regularly asked to design products that unify software interaction, device design and service design -- which are all the key components of ubiquitous computing UX -- and practicing designers need a way to tackle practical challenges of design. Theory is not enough for them -- luckily the industry is now mature enough to have tried and tested best practices and case studies from the field. Smart Things presents a problem-solving approach to addressing designers' needs and concentrates on process, rather than technological detail, to keep from being quickly outdated. It pays close attention to the capabilities and limitations of the medium in question and discusses the tradeoffs and challenges of design in a commercial environment. Divided into two sections, frameworks and techniques, the book discusses broad design methods and case studies that reflect key aspects of these approaches. The book then presents a set of techniques highly valuable to a practicing designer. It is intentionally not a comprehensive tutorial of user-centered design as that is covered in many other books but it is a handful of techniques useful when designing ubiquitous computing user experiences. In short, Smart Things gives its readers both the "why" of this kind of design and the "how," in well-defined chunks. Tackles design of products in the post-Web world where computers no longer have to be monolithic, expensive general-purpose devices Features broad frameworks and processes, practical advice to

help approach specifics, and techniques for the unique design challenges Presents case studies that describe, in detail, how others have solved problems, managed trade-offs, and met successes

Despite their differences, they see in each other the hidden scars that others can’t. Everything changes on the day that Josef confesses a long-buried and shame-ful secret and asks Sage for an extraordinary favor. ## Deep Space Nine Companion

This book presents an ethnopoetic translation and an interpretation of an evening of story-telling which took place in rural Afghanistan in 1975. Three years before the Marxist coup, two Muslim elders from Herat province were asked by a Marxist subgovernor to spend an evening telling traditional stories to an American woman. The storytellers wittily integrated themes of sense and nonsense, gender and sexuality, religion and public and private social control in thirteen recorded stories, here translated in full. In interpreting texts, Margaret A. Mills argues for a rhetorical sophistication among adept traditional performers which enables them to mount performances of traditional materials which are highly, and in this case slyly, sensitive to the political and social identities of self and audience. Such identities are in part negotiated and constructed via the performances. Noting that Afghan culture has traditionally posited noninstitutional religious authority against central government institutions, Mills points out certain ironies and tensions which recur as the stories unfold in the presence of the government bureaucrat. Using this evening of stories as an example, the author asserts that the creation of narrative meaning makes use of both intertextual and interpersonal relationships. This extended performance suggests Afghan perspectives on the integration of narrative and social critique, of religious authority and private ethics, of the real and the fantastic, the serious and the ludicrous, which challenge common western notions about genres of literary production (written and oral) and social interaction

## The Bracelet

The book locates questions of languages, genre, textuality and canonicity within a historical and theoretical framework that foregrounds the emergence of modern nationalism in Egypt. The ways in which the cultural discourses produced by twentieth century Egyptian nationalism created a space for both a hegemonic and counter-hegemonic politics of language, class and place that inscribed a bifurcated narrative and social geography, are examined. The book argues that the rupture between the village and the city contained in the Egyptian nationalism discourse is reproduced as a narrative dislocation that has continued to characterize and shape the Egyptian novel in general and the village novel in particular. Reading the village novel in Egypt as a dynamic intertext that constructs modernity in a local historical and political context rather than rehearsing a simple repetition of dominant European literary-critical paradigms, this book offers a new approach to the construction of modern Arabic literary history as well as to theoretical questions related to the structure and role of the novel as a worldly narrative genre.
