American Historical Documents 1000-1904, with Introd. , Notes and Illus - Primary Source Edition

Excerpt from A Pamphlet of Original Documents of United States History: Edited With Notes It is now generally conceded that high school and normal school students should do some work with the source method in the study of U. S. history. With rare exceptions but little has been accomplished in this line below collegiate courses, owing to the difficulty in placing material within reach of the pupils. It is next to impossible to have all pupils in a class use the source material at the command of most high schools, without the loss of a great amount of time which must be taken from a course of study already crowded to the limit. A few pupils in all classes can readily find access to original documents, the majority cannot. This pamphlet is prepared to afford, at a small cost, an opportunity for any pupil to study in original form a few documents bearing upon the important events of history. Some prominence has been given to financial documents for the reason that the financial question has been and always will continue to be one of the great problems for solution by nations and individuals, and most school text books treat the subject inadequately or indefinitely. Selection has been made only of such material as is of vital importance. No pretension is made to give anything new, rare, or, to give a great variety of documents. An acquaintance with a few of the source documents may cultivate a taste or create a desire for a more extended course of study of such material which forms the basis of all sound historical knowledge. A Pamphlet of Original Documents of United States History

"English Historical Documents is the most comprehensive, annotated collection of documents on British (not in reality just English) history ever compiled. Conceived during the Second World War with a view to ensuring the most important historical documents remained available and accessible in perpetuity, the first volume came out in 1953, and the most recent volume almost sixty years later. The print series, edited by David C. Douglas, is a magisterial survey of British history, covering the years 500 to 1914 and including around 5,500 primary sources, all selected by leading historians Editors. It has over the years become an indispensable resource for generations of students, researchers and lecturers. EHD is now available in its entirety online. Bringing EHD into the digital age has been a long and complex process. To provide you with first-rate, intelligent searchability, Routledge have teamed up with the Institute of Historical Research (one of the research institutes that make up the School of Advanced Study, University of London <http://www.history.ac.uk>) to produce EHD Online. The IHR's team of experts have fully indexed the documents, using an exhaustive historical thesaurus developed by the Royal Historical Society for its Bibliography of British and Irish History. The sources include treaties, statutes, declarations, government and cabinet proceedings, military dispatches, orders, acts, sermons, newspaper articles, pamphlets, personal and official letters, diaries and more. Each section of documents and many of the documents themselves are accompanied by editorial commentary. The sources cover a wide spectrum of topics, from political and constitutional issues to social, economic, religious as well as cultural history."--[Résumé de l'éditeur].

This 1908 work supplements Hall's *Studies in English Official Historical Documents*. It gives examples of a wide range of English diplomatic documents from the seventh to the nineteenth centuries. These are arranged according to type and purpose, the majority in Latin, but others in French or English. The intention is to assist the user of such archival materials, by familiarising them with the format and language used in each kind of document, and explaining why and how they were written. The 211 transcriptions were made by palaeography students at the London School of Economics, and classified and edited with extensive notes by Mr Hall. They are not literal transcriptions, as contractions have been expanded, and the punctuation and capitalisation modernised. To save space, standard formulas have not been repeated each time. Despite the lack of any illustrations of originals, the book filled a need long felt by students of history.

Rariora; Being Notes of Some of the Printed Books, Manuscripts, Historical Documents, Medals, Engravings, Pottery, Etc., Collected (1858-1900)

Excerpt from Rariora, Vol. 3: Being Notes of Some of the Printed Books, Manuscripts, Historical Documents, Medals, Engravings, Pottery, Etc., Collected (1858-1900) The eventful reign of his successor contains, in proportion to its length, by far the most important series of elucidations in the whole collection, and I crave indulgence if the enthusiastic interest which it awakens for me may appear exaggerated. The career of this monarch was, throughout its short space, full of incident, and, towards its end, of dramatic surprises, and it is just where we feel that no tame succession of events is before us, but that a plot is rapidly thickening, that the imagination is stirred and that we eagerly greet each fresh development of the story. RARIORA BEING NOTES OF SOME OF

Excerpt from Rariora, Vol. 2: Being Notes of Some of the Printed Books, Manuscripts, Historical Documents, Medals, Engravings, Pottery, Etc., Etc., Collected (1858-1900) The foregoing slight and superficial notice of some of the characteristics of the works of the earliest printers will perhaps suffice as an introduction to the description of Incunabula in the Collection, but it is my desire more fully to interest my readers' sympathies with the pioneers of the typographic art by a short excursus devoted to that inexhaustible topic, the mystery of the origin of the invention, and of the name and country of the inventor. This digression is comprised in four chapters, entitled respectively, The Dawn of Typography (documents) The Invention of the Types The Evolution of the Type-mould. Although in the short space devoted to these important subjects extreme compression has been in some cases inevitable, it will be found that in others new ground has been broken, and investigations initiated on points which seem to deserve fuller scrutiny than they have hitherto received.
