

Global Order Beyond Law How Information And Communication Technologies Facilitate Relational Contracting In International Tradeinformation Consolidation And Repackaging

[#ICT relational contracting](#) [#international trade law](#) [#information consolidation](#) [#digital trade facilitation](#) [#global order beyond law](#)

Explore how Information and Communication Technologies (ICTs) are fundamentally reshaping relational contracting in international trade, fostering a 'global order beyond law.' This analysis delves into how efficient information consolidation and repackaging processes are critical in facilitating these complex cross-border agreements, offering new perspectives on digital trade facilitation.

Our dissertation library includes doctoral research from top institutions globally.

We would like to thank you for your visit.
