## Wild Minds

"A thoroughly captivating behind-the-scenes history of classic American animation . . . A must-read for all fans of the medium." —Matt Groening In 1911, famed cartoonist Winsor McCay debuted one of the first animated cartoons, based on his sophisticated newspaper strip "Little Nemo in Slumberland," itself inspired by Freud's recent research on dreams. McCay is largely forgotten today, but he unleashed an art form, and the creative energy of artists from Otto Messmer and Max Fleischer to Walt Disney and Warner Bros.' Chuck Jones. Their origin stories, rivalries, and sheer genius, as Reid Mitenbuler skillfully relates, were as colorful and subversive as their creations—from Felix the Cat to Bugs Bunny to feature films such as Fantasia—which became an integral part and reflection of American culture over the next five decades. Pre-television, animated cartoons were aimed squarely at adults; comic preludes to movies, they were often "little hand grenades of social and political satire." Early Betty Boop cartoons included nudity; Popeye stories contained sly references to the injustices of unchecked capitalism. During WWII, animation also played a significant role in propaganda. The Golden Age of animation ended with the advent of television, when cartoons were sanitized to appeal to children and help advertisers sell sugary breakfast cereals. Wild Minds is an ode to our colorful past and to the creative energy that later inspired The Simpsons, South Park, and BoJack Horseman. "A quintessentially American story of daring ambition, personal reinvention and the eternal tug-of-war of between art and business . . . a gem for anyone wanting to understand animation's origin story." —NPR

### The Five Gates of Hell

There were very few land burials in Moon Beach. It was considered old-fashioned, unhealthy and something that only happened to the poor. Instead the dead were buried in ocean cemeteries, twelve miles out. A special festival was held every year in their honour. Children loved it. They were given white chocolate bones, marzipan skulls and ice-cream coffins on a stick. There were costume parties too. You had to wear something blue because that was the colour people went when they were buried under the sea. You could paint your hands and face if you liked, or even dye your hair. That's what people did in Moon Beach. Turned blue once a year. And then they turned blue forever...

### All the Crooked Saints

Here is a thing everyone wants: A miracle. Here is a thing everyone fears: What it takes to get one. Any visitor to Bicho Raro, Colorado is likely to find a landscape of dark saints, forbidden love, scientific dreams, miracle-mad owls, estranged affections, one or two orphans, and a sky full of watchful desert stars. At the heart of this place you will find the Soria family, who all have the ability to perform unusual miracles. And at the heart of this family are three cousins longing to change its future: Beatriz, the girl without feelings, who wants only to be free to examine her thoughts; Daniel, the Saint of Bicho Raro, who performs miracles for everyone but himself; and Joaquin, who spends his nights running a renegade radio station under the name Diablo Diablo. They are all looking for a miracle. But the miracles of Bicho Raro are never quite what you expect. Maggie Stiefvater has been called 'a master storyteller' by USA Today and 'wildly imaginative' by Entertainment Weekly. Now, with All the Crooked Saints, she gives us the extraordinary story of an extraordinary family, a masterful tale of love, fear, darkness, and redemption.

### Barcelona Dreaming

The Irish Times: Best Book of the Year New York Times Book Review: Editor's Choice The Times (UK): Book of the Week Pick Foreword Reviews: Book of the Day Pick Conde Nast Traveler: Best Book of the Season Pick Set on the eve of the financial crash of 2008, this evocative novel is made up of three stories linked by time and place, and also by the moving, unexpected interactions of a rich cast of characters. Barcelona Dreaming is narrated, in turn, by an English woman who runs a gift shop, an alcoholic jazz pianist, and a translator tormented by unrequited love, all of whose lives will be changed forever. Underpinning the novel, and casting a long shadow, is a crime committed against a young Moroccan immigrant. Exploring themes of addiction, racism, celebrity, immigration, and self-delusion, and fueled by a longing for the unattainable and a nostalgia for what is about to be lost, Barcelona Dreaming is a love letter to one of the world's most beautiful cities and a powerful and poignant fable for our uncertain times.

## The Oxford Handbook of Humanism

"The Oxford Handbook of Humanism aims to cover the history, the philosophical development, and the influence humanist thought and culture. As a system of thought that values human needs and experiences over supernatural concerns, humanism has gained greater attention amid the rapidly shifting demographics of religious communities, especially in Europe and North America. This outlook on the world has taken on global dimensions as well, with activists, artists, and thinkers forming a humanistic response not only to traditional religion, but to the pressing social and political issues of the 21st century. To address these areas, the chapters in this volume discuss humanism as a global phenomenon—an approach that has often been neglected in more Western-focused works. The Handbook will also approach humanism as both an opponent to traditional religion as well as a philosophy that some religions have explicitly adopted. Sections are divided into regional studies, intellectual histories, humanist organizations and movements, the impact on culture, humanism in the public arena, and influence of humanism on social issues. Keywords: Humanism, atheism, unbelief, free-thought, secularism, philosophy, religious studies, sociology, history"--

## Who's Afraid of the Song of the South?

Brer Rabbit. Uncle Remus. Song of the South. Racist? Disney thinks so. And that's why it has forbidden the theatrical re-release of its classic film *Song of the South* since 1986. But is the film racist? Are its themes, its characters, even its music so abominable that Disney has done us a favor by burying the movie in its infamous Vault, where the Company claims it will remain for all time? Disney historian Jim Korkis does not think so. In his newest book, *Who's Afraid of the Song of the South?*, Korkis examines the film from concept to controversy, and reveals the politics that nearly scuttled the project. Through interviews with many of the artists and animators who created *Song of the South*, and through his own extensive research, Korkis delivers both the definitive behind-the-scenes history of the film and a balanced analysis of its cultural impact. What else would Disney prefer you did not know? Plenty. Korkis also pulls back the curtain on such dubious chapters in Disney history as: Disney's cinematic attack on venereal disease Ward Kimball's obsession with UFOs Tim Burton's depressed stint at the Disney Studios Walt Disney's nightmares about his stomping an owl to death Wally Wood's Disneyland Memorial Orgy poster J. Edgar Hoover's hefty FBI file on Walt Disney Little Black Sunflower's animated extinction Plus 10 more forbidden tales that Disney wishes would go away. Whether you're a film buff, an armchair academic, or a Disney fan eager to peek behind Disney's magical (and tightly controlled) curtain, you'll discover lots you never knew about Disney. With a foreword by Disney Legend Floyd Norman, *Who's Afraid of the Song of the South?* is both authoritative and entertaining. Jim Korkis is the best-selling author of *Vault of Walt*, and has been researching and writing about Disney for over three decades. The Disney Company itself uses his expertise for special projects. Korkis resides in Orlando, Florida.

## Brand Royalty

More than simply a comprehensive collection of brand success stories, this text will also help businesses and students to easily identify the factors behind these successes, and to place them into a broader business and social context.

## Processing, second edition

The new edition of an introduction to computer programming within the context of the visual arts, using the open-source programming language Processing; thoroughly updated throughout. The visual arts are rapidly changing as media moves into the web, mobile devices, and architecture. When designers and artists learn the basics of writing software, they develop a new form of literacy that enables them to create new media for the present, and to imagine future media that are beyond the capacities of current software tools. This book introduces this new literacy by teaching computer programming within the context of the visual arts. It offers a comprehensive reference and text for Processing ([www.processing.org](http://www.processing.org)), an open-source programming language that can be used by students, artists, designers,

architects, researchers, and anyone who wants to program images, animation, and interactivity. Written by Processing's cofounders, the book offers a definitive reference for students and professionals. Tutorial chapters make up the bulk of the book; advanced professional projects from such domains as animation, performance, and installation are discussed in interviews with their creators. This second edition has been thoroughly updated. It is the first book to offer in-depth coverage of Processing 2.0 and 3.0, and all examples have been updated for the new syntax. Every chapter has been revised, and new chapters introduce new ways to work with data and geometry. New “synthesis” chapters offer discussion and worked examples of such topics as sketching with code, modularity, and algorithms. New interviews have been added that cover a wider range of projects. “Extension” chapters are now offered online so they can be updated to keep pace with technological developments in such fields as computer vision and electronics. Interviews SUE.C, Larry Cuba, Mark Hansen, Lynn Hershman Leeson, Jürg Lehnli, LettError, Golan Levin and Zachary Lieberman, Benjamin Maus, Manfred Mohr, Ash Nehru, Josh On, Bob Sabiston, Jennifer Steinkamp, Jared Tarbell, Steph Thirion, Robert Winter

### Nothing to See

\*Shortlisted for the 2021 Ockham New Zealand Book Awards: The Jann Medlicott Acorn Prize for Fiction\* Peggy and Greta are trying to get sober. They know almost nothing about the world: how to cook, how to shop, how to find a job. To fill time, they sort clothes at the Salvation Army shop, and attend daily AA meetings. They seem to have no identity of their own — or rather, they appear to have only one identity between the two of them. Then, without warning, one of them is gone, and the other is left alone, trying to find her place in the world. But is it Peggy or Greta who is left? Or is it someone else altogether? *Nothing to See* is grounded in the details of everyday life, of sharehouses and workplaces, of substance abuse and sex, and of the emergence of new technologies that fill every facet of existence. Yet the women at its centre seem on the brink of disappearing altogether. Set in Auckland across three decades, Pip Adam's enigmatic, uncanny novel asks what it means to seek relief from shame and loneliness, to find care when the fabric of reality is ready to come apart. 'A total masterpiece. Gripping, weird, funny, close to the bone. An intense portrait of sobriety, a mystery, a sci-fi novel, an urgent book about living in our panoptical present.' — Dan Kois 'Wildly good...a fiery study in class and addiction and the boring exhausting grind of building a splintered life into something whole.' — Catherine Woulfe, *The Spinoff*

### Walt's People

Funnybooks is the story of the most popular American comic books of the 1940s and 1950s, those published under the Dell label. For a time, “Dell Comics Are Good Comics” was more than a slogan—it

was a simple statement of fact. Many of the stories written and drawn by people like Carl Barks (Donald Duck, Uncle Scrooge), John Stanley (Little Lulu), and Walt Kelly (Pogo) repay reading and rereading by educated adults even today, decades after they were published as disposable entertainment for children. Such triumphs were improbable, to say the least, because midcentury comics were so widely dismissed as trash by angry parents, indignant librarians, and even many of the people who published them. It was all but miraculous that a few great cartoonists were able to look past that nearly universal scorn and grasp the artistic potential of their medium. With clarity and enthusiasm, Barrier explains what made the best stories in the Dell comic books so special. He deftly turns a complex and detailed history into an expressive narrative sure to appeal to an audience beyond scholars and historians.

The global film industry has witnessed significant transformations in the past few years. Regions outside the USA have begun to prosper while non-traditional production companies such as Netflix have assumed a larger market share and online movies adapted from literature have continued to gain in popularity. How have these trends shaped the global film industry? This book answers this question by analyzing an increasingly globalized business through a global lens. Development of the Global Film Industry examines the recent history and current state of the business in all parts of the world. While many existing studies focus on the internal workings of the industry, such as production, distribution and screening, this study takes a "big picture" view, encompassing the transnational integration of the cultural and entertainment industry as a whole, and pays more attention to the coordinated development of the film industry in the light of influence from literature, television, animation, games and other sectors. This volume is a critical reference for students, scholars and the public to help them understand the major trends facing the global film industry in today's world.

## Disney A to Z

When we crashed over the line two and a half minutes later, there was a short, disbelieving silence and I could feel my knee trembling behind its sarcastic &'Disco' patch. A song I'd written had just been played to the finish, and what's more, it hadn't sounded weak, or delusional—it had, in fact, kicked. I backed down from the mic. Here was a new world of sound. Its sky was borderless, and its horizon curled off a previously flat earth. I'd been given a virtual super power and a flame to shoot from my fingers. In *Dead People I Have Known*, the legendary New Zealand musician Shayne Carter tells the story of a life in music, taking us deep behind the scenes and songs of his riotous teenage bands Bored Games and the Doublehappys and his best-known bands Straitjacket Fits and Dimmer. He traces an intimate history of the Dunedin Sound—that distinctive jangly indie sound that emerged in the seventies, heavily influenced by punk—and the record label Flying Nun. As well as the pop culture of the seventies, eighties and nineties, Carter writes candidly of the bleak and violent aspects of Dunedin, the city where he grew up and would later return. His childhood was shaped by violence and addiction, as well as love and music. Alongside the fellow musicians, friends and family who appear so vividly here, this book is peopled by neighbours, kids at school, people on the street, and the other passing characters who have stayed on in his memory. We also learn of the other major force in Carter's life: sport. Harness racing, wrestling, basketball and football have provided him with a similar solace, even escape, as music. *Dead People I Have Known* is a frank, moving, often incredibly funny autobiography; the story of making a life as a musician over the last forty years in New Zealand, and a work of art in its own right.

Music, Lyrics, and Life is the songwriting class you always wish you'd taken, taught by the professor you always wish you'd had. It's a deep dive into the heart of questions asked by songwriters of all levels, from how to begin journaling to when you know that a song is finished. With humor and empathy, acclaimed singer-songwriter Mike Errico unravels both the mystery of songwriting and the logistics of life as a songwriter. For years, this set of tools, prompts, and ideas has inspired students on campuses including Yale, Wesleyan, Berklee, Oberlin, and NYU's Clive Davis Institute of Recorded Music. Alongside his own lessons, Errico interviews the writers, producers, and A&R executives behind today's biggest hits and investigates the larger questions of creativity through lively conversations with a wide range of innovative thinkers: astrophysicist Janna Levin explains the importance of repetition, both in choruses and in the exploration of the universe; renowned painter John Currin praises the constraints of form, whether it's within a right-angled canvas or a three-minute pop song; bestselling author George Saunders unpacks the hidden benefit of writing, and revising, authentically; and much more. The result is that Music, Lyrics, and Life ends up revealing as much about the art of songwriting as it does about who we are, and where we may be going. This is a book for songwriters, future content creators, music lovers, and anyone who wants to understand how popular art forms are able to touch us so deeply. Mike Errico has honed these lessons over years of writing, performing, teaching, and mentoring, and no matter where you are on your songwriting journey, Music, Lyrics, and Life will help you build a creative world that's both intrinsic to who you are, and undeniable to whoever is listening.

In the late 80s, Katherine Carlyle is created using IVF. Stored as a frozen embryo for eight years, she is then implanted in her mother and given life. By the age of nineteen Katherine has lost her mother to cancer, and feels her father to be an increasingly distant figure. Instead of going to college, she decides to disappear, telling no one where she has gone. What begins as an attempt to punish her father for his absence gradually becomes a testing-ground of his love for her, a coming-to-terms with the death of her mother, and finally the mise-en-scene for a courageous leap from false empowerment to true empowerment. Written in the beautifully spare, lucid and cinematic prose that Thomson is known for, Katherine Carlyle uses the modern techniques of IVF and cryopreservation to throw new light on the myth of origins. It is a profound and moving novel about where we come from, what we make of ourselves, and how we are loved.

In 2017, Ministry of Health figures showed that one in five New Zealanders sought help for a diagnosed mood or anxiety disorder, and these figures are growing. *Headlands: New Stories of Anxiety* tells the real, messy story behind these statistics &— what anxiety feels like, what causes it, what helps and what doesn't. These accounts are sometimes raw and confronting, but they all seek to share experiences, remove stigma, offer help or simply shine a light on what anxiety is. The stories in *Headlands* are told by people from all walks of life: poets, novelists, and journalists, musicians, social workers, and health professionals, and includes new work from Ashleigh Young, Tusiata Avia, Danyl McLauchlan, Selina Tusitala Marsh, Hinemoana Baker and Kirsten McDougall. Edited by journalist Naomi Arnold, *Headlands* shows that some communities have better access to mental health services than others and it underscores the importance for greater understanding of the condition across the whole of society. It is not a book of solutions nor a self-help guide. Instead, it has been put together for all individuals and whanau affected by anxiety. It's also for those who are still suffering in silence, in the hope they will see themselves reflected in these pages and understand they are not alone

### Akissi: Tales of Mischief

'Intensely moving, vital and artful' - Guardian 'A dizzying ride . . . both timely and beguiling' - Sunday Times At a moment in which basic rights are once again in danger, Olivia Laing conducts an ambitious investigation into the body and its discontents, using the life of the renegade psychoanalyst Wilhelm Reich to chart a daring course through the long struggle for bodily freedom, from gay rights and sexual liberation to feminism and the civil rights movement. Drawing on her own experiences in protest and travelling from Weimar Berlin to the prisons of McCarthy-era America, Laing grapples with some of the most significant and complicated figures of the past century, among them Nina Simone, Sigmund Freud, Susan Sontag and Malcolm X. *Everybody* is a crucial examination of the forces arranged against freedom and a celebration of how ordinary human bodies can resist oppression and reshape the world. Longlisted for the Rathbones Folio Prize 'An ambitious, absorbing achievement that will make your brain hum' - Evening Standard 'Laing's gift for weaving big ideas together with lyrical prose sets her alongside the likes of Arundhati Roy, John Berger and James Baldwin. In other words, she is among the most significant voices of our time.' - Financial Times
