#### Pedro a Lesma e a Grande Corrida Da Floresta

'I am with you always, even unto the end of the world . . .' Peter Leigh is a missionary called to go on the journey of a lifetime. Leaving behind his beloved wife, Bea, he boards a flight for a remote and unfamiliar land, a place where the locals are hungry for the teachings of the Bible - his 'book of strange new things'. It is a quest that will challenge Peter's beliefs, his understanding of the limits of the human body and, most of all, his love for Bea. The Book of Strange New Things is a wildly original tale of adventure, faith and the ties that might hold two people together when they are worlds apart. This momentous novel, Faber's first since *The Crimson Petal and the White*, sees him at his expectation-defying best. WINNER OF THE SALTIRE BOOK OF THE YEAR AWARD SHORTLISTED FOR THE ARTHUR C. CLARKE AWARD AS HEARD ON BBC RADIO 4

#### The Book of Strange New Things

Edward Lannion, the young master of Hatting Hall, is about to marry Marian Fox. At Penndean, a nearby house, preparations are under way for the wedding, overseen by the anxious Benet. Family and friends gather together for a celebratory dinner on the eve of the ceremony. The night is warm and clear, and after dinner the guests walk in the grounds and under the stars, full of happy anticipation. But then there is a sudden and extraordinary event, which changes everything. Iris Murdoch's novel is a marvellous and compelling human comedy. Edward and Marian, the couple at the centre of the story, are led by events to learn the truth about themselves; in the process, their friends, and lovers, are forced to make new choices, and see things as they are. And watching over all of them is Jackson, Benet's servant, a dark, mysterious and dangerous presence. It is Jackson who must intervene in the story to set the two young lovers onto the right path.

#### Jackson's Dilemma

Many places can make a home--a silent cave, a secret den, a silky web, even a sticky honeycomb. Each one is safe and snug and just right for the families who live there. Linda Ashman's spare, lyrical text and Lauren Stringer's sumptuous paintings invite you to explore some of these wonderful homes and see how different--yet alike--they can be.

#### Forest and Stream

Finding Mars is an interwoven tale of science, travel, and adventure, as science writer Ned Rozell accompanies permafrost researcher—and inveterate wanderer—Kenji Yoshikawa on a 750-mile trek by snowmobile through the Alaska wilderness. Along the way, Rozell learns about Yoshikawa's fascinating life, from his boyhood in Tokyo to the youthful wanderlust that led him to push a wheeled cart across the Sahara, ski to the South Pole, and take a sailboat into the frozen reaches of the Arctic Ocean, spending a winter frozen in the ice near Barrow. It's an always on-the-move account of a man driven not just by the desire to fill in the blank spots on a map, but also to learn everything he can about them—and a ringing testament to the power of science, enthusiasm, and individual inspiration.

#### Castles, Caves, and Honeycombs

From Onjali Q. Rauf, the award-winning and best-selling author of *The Boy at the Back of the Class*, comes another incredible story, told with humour and heart. 'The boy's an absolute menace.' 'He's a bully. A lost cause!' 'Why can't he be more like his sister?' 'I've been getting into trouble for as long I can remember. Usually I don't mind 'cos some of my best, most brilliant ideas have come from sitting in

detention. But recently it feels like no one believes me about anything - even when I'm telling the truth! And it's only gotten worse since I played a prank on the old man who lives in the park. Everyone thinks I'm just a bully. They don't believe I could be a hero. But I'm going to prove them all wrong... Told from the perspective of a bully, this book explores themes of bullying and homelessness, while celebrating kindness, friendship and the potential everyone has to change for the good.

#### Finding Mars

"DLP, Developmental Leadership Program; Australian Aid; Oxfam."

#### The Night Bus Hero

It's said that the flutter of insect wings in the Indian Ocean can send a hurricane crashing against the shores of the American Northeast. It's this premise that lies at the core of *The System*, a wordless graphic novel created and fully painted by award-winning illustrator Peter Kuper. From the subway system to the solar system, human lives are linked by an endless array of interconnecting threads. Told without captions or dialogue, *The System* is an astonishing progression of vivid imagery.

#### THE NEW AMERICAN CYCLOAEDIA: A POPLUAR DICTIONARY OF GENERAL KNOWLEDGE..

At Arsenal, the club where he won the FA Cup three times, Per Mertesacker was affectionately called the 'Big Friendly German.' Standing at 6ft 6in, he was the defender who took fitness so seriously that he invested ten per-cent of his annual salary on personal therapists. His endurance would help him in a decade- long career with the German national team which culminated in him lifting the World Cup in 2014. In his autobiography, Mertesacker reveals the story of that summer in Brazil, explaining the tactical tricks of Jogi Low as well as the motivational arts of Arsene Wenger. He asks himself to what extent talent plays a role in football, having been a youth who was told he had too little of it until he was promoted by Ralf Rangnick at Hannover 96. Now the academy manager at Arsenal, Mertesacker details what it really takes to become a success in the game he started playing when he was just four years old.

#### The New American Cyclopædia

## The Dandelion Celebration

His most ambitious novel to date, ACCELERANDO is a multi-generational saga following a brilliant clan of 21st-century posthumans. The year is some time between 2010 and 2015. The recession has ended, but populations are ageing and the rate of tech change is accelerating dizzyingly. Manfred makes his living from spreading ideas around, putting people in touch with one another and leaving a spray of technologies in his wake. He lives at the cutting edge of intelligence amplification technology, but even Manfred can take on too much. And when his pet robot cat picks up some interesting information from the SETI data, his world - and the world of his descendants - is turned on its head.
