What Made Maddy Run

The heartbreaking story of college athlete Madison Holleran, whose life and death by suicide reveal the struggle of young people suffering from mental illness today in this #1 New York Times Sports and Fitness bestseller *Instant New York Times Bestseller* #1 New York Times Monthly Sports and Fitness bestseller If you scrolled through the Instagram feed of 19-year-old Maddy Holleran, you would see a perfect life: a freshman at an Ivy League school, recruited for the track team, who was also beautiful, popular, and fiercely intelligent. This was a girl who succeeded at everything she tried, and who was only getting started. But when Maddy began her long-awaited college career, her parents noticed something changed. Previously indefatigable Maddy became withdrawn, and her thoughts centered on how she could change her life. In spite of thousands of hours of practice and study, she contemplated transferring from the school that had once been her dream. When Maddy's dad, Jim, dropped her off for the first day of spring semester, she held him a second longer than usual. That would be the last time Jim would see his daughter. WHAT MADE MADDY RUN began as a piece that Kate Fagan, a columnist for espnW, wrote about Maddy's life. What started as a profile of a successful young athlete whose life ended in suicide became so much larger when Fagan started to hear from other college athletes also struggling with mental illness. This is the story of Maddy Holleran's life, and her struggle with depression, which also reveals the mounting pressures young people, and college athletes in particular, face to be perfect, especially in an age of relentless connectivity and social media saturation.

The Reappearing Act

It's hard enough coming out, but playing basketball for a nationally ranked school and trying to figure out your sexual identity in the closeted and paranoid world of big-time college sports—that's a challenge. Kate Fagan's love for basketball and for her religious teammates at the University of Colorado was tested by the gut-wrenching realization that she could no longer ignore the feelings of otherness inside her. In trying to blend in, Kate had created a hilariously incongruous world for herself in Boulder. Her best friends were part of Colorado's Fellowship of Christian Athletes, where they ran weekly Bible studies and attended an Evangelical Free Church. For nearly a year, Kate joined them and learned all she could about Christianity—even holding their hands as they prayed for others “living a sinful lifestyle.” Each time the issue of homosexuality arose, she felt as if a neon sign appeared over her head, with a giant arrow pointed downward. During these prayer sessions, she would often keep her eyes open, looking around the circle at the closed eyelids of her friends, listening to the earnestness of their words. Kate didn't have a vocabulary for discussing who she really was and what she felt when she was younger; all she knew was that she had a secret. In *The Reappearing Act*, she brings the reader along for the ride as she slowly accepts her new reality and takes the first steps toward embracing her true self.

Counterfeit Amateurs

With a Foreword by Ara Parseghian The debate over big-time college sports, never far from the front pages, has once again moved from simmering to hot. Congress has been investigating the tax-exempt status of the NCAA in part because of questions about how commercialized college sports contribute to educational values. Athletes are challenging the NCAA on antitrust grounds to get a bigger share of the revenue. Against this backdrop, more faculty are beginning to be concerned about what is happening at their own universities and to the educational system as a whole as rampant commercialism further

invades campus life through big-time sports. A leader among faculty fighting back has been Allen Sack, a co-founder of the Drake Group whose writings and public appearances, including work as an expert witness, have gained him wide recognition as an outspoken advocate for athletic reform. This book brings together in a compelling way both his personal story of life as a highly recruited athlete out of high school and a football player at Notre Dame under legendary coach Ara Parseghian and his fight, since then, as a scholar-activist against what he calls the &“academic capitalism&” of the system under current NCAA rules. Sack distinguishes his own position, as an advocate of athletes&’ rights, from the reformist stance of NCAA President Myles Brand, who believes that commercialized sport and education can peacefully coexist, and the &“intellectual elitist&” position of people like William Dowling, who would like to see big-time college sports kicked off campus altogether. It is a battle with high stakes for all concerned, not least the athletes whose exploitation by the system has been the motivating force for Sack&’s own campaign, now stretching over several decades.

Reconstructing Amelia

Ever wondered what goes on inside your daughter's head? Stressed single mother and law partner Kate is in the meeting of her career when she is interrupted by a telephone call to say that her teenaged daughter Amelia has been suspended from her exclusive Brooklyn prep school for cheating on an exam. Torn between her head and her heart, she eventually arrives at St Grace's over an hour late, to be greeted by sirens wailing and ambulance lights blazing. Her daughter has jumped off the roof of the school, apparently in shame of being caught. A grieving Kate can't accept that her daughter would kill herself: it was just the two of them and Amelia would never leave her alone like this. And so begins an investigation which takes her deep into Amelia's private world, into her journals, her email account and into the mind of a troubled young girl. Then Kate receives an anonymous text saying simply: AMELIA DIDN'T JUMP. Is someone playing with her, or has she been right all along?

All the Colors Came Out

This "love story for the ages" from a # 1 New York Times bestselling author comes an unforgettable story about basketball and the enduring bonds between a father and daughter that "will heal relationships and hearts" (Glennon Doyle). Kate Fagan and her father forged their relationship on the basketball court, bonded by sweaty high fives and a dedication to the New York Knicks. But as Kate got older, her love of the sport and her closeness with her father grew complicated. The formerly inseparable pair drifted apart. The lessons that her father instilled in her about the game, and all her memories of sharing the court with him over the years, were a distant memory. When Chris Fagan was diagnosed with ALS, Kate decided that something had to change. Leaving a high-profile job at ESPN to be closer to her mother and father and take part in his care, Kate Fagan spent the last year of her father's life determined to return to him the kind of joy they once shared on the court. All the Colors Came Out is Kate Fagan's completely original reflection on the very specific bond that one father and daughter shared, forged in the love of a sport which over time came to mean so much more. Studded with unforgettable scenes of humor, pain and hope, Kate Fagan has written a book that plumbs the mysteries of the unique gifts fathers give daughters, ones that resonate across time and circumstance.

What Made Maddy Run

A sports journalist relates the story of Ivy League freshman and track star Maddy Holleran, who seemingly had it all and succeeded at everything she tried, but who secretly grappled with mental illness before taking her own life during the spring semester.

Finding Ultra, Revised and Updated Edition

An incredible but true account of achieving one of the most awe-inspiring midlife physical transformations ever. On the night before he was to turn forty, Rich Roll experienced a chilling glimpse of his future. Nearly fifty pounds overweight and unable to climb the stairs without stopping, he could see where his current sedentary life was taking him—and he woke up. Plunging into a new routine that prioritized a plant-based lifestyle and daily training, Rich morphed—in a matter of mere months—from out of shape, mid-life couch potato to endurance machine. Finding Ultra recounts Rich's remarkable journey to the starting line of the elite Ultraman competition, which pits the world's fittest humans in a 320-mile ordeal of swimming, biking, and running. And following that test, Rich conquered an even greater one: the EPIC5—five Ironman-distance triathlons, each on a different Hawaiian island, all completed in less than a week. In the years since Finding Ultra was published, Rich has become one of the world's most

recognized advocates of plant-based living. In this newly revised and updated edition, he shares the practices, tools, and techniques he uses for optimal performance, longevity, and wellness, including diet and nutrition protocols. Rich reflects on the steps he took to shift his mindset and leverage deep reservoirs of untapped potential to achieve success beyond his wildest imagination, urging each of us to embark on our own journey of self-discovery.

Psychosocial Strategies for Athletic Training

Be prepared to offer not only the physical rehabilitation regimen injured athletes need, but also the psychological and psychosocial support they need to recover from injuries. Here's a user-friendly introduction to the application and practical use of psychosocial theories and techniques. You'll develop an understanding of the research that underlies practice, and see how sports psychology is applied in clinical practice. Practical examples and suggested activities teach you how.

School Counseling and the Student Athlete

School Counseling and the Student Athlete explores empirical, theoretical, and practice-based issues that demand consideration by school-based counseling and educational professionals working at the pre-collegiate level. In its pages clinicians and students will find insights into both why student athletes experience many of the issues they do as well as the steps that counselors can take to help these individuals and their families. Theories of motivation and theoretical approaches to counseling student athletes are covered in order to provide an orientation to working with this group, and the book also includes a thorough discussion of the most important elements of counseling the student athlete: the academic, career, personal, and social issues they face; consultations with coaches, teachers, and parents; commercialism and the student athlete's identity; and gender, sexual identity, and culture issues. Each chapter ends with discussion questions and available resources for counselors. Grounded in research and pioneering in its analysis of sports psychology for students in grades K-12, School Counseling and the Student Athlete is a must-have for school counselors, clinicians, and other professionals who work with elementary and secondary students.

The Red Bandanna (Young Readers Adaptation)

Winner of the Christopher Award An ILA-CBC Children's Choices Book A NCSS-CBC Notable Social Studies Book Welles Crowther did not see himself as hero. He was just an ordinary kid who played sports, volunteered at his local fire department, and eventually headed off to college and then Wall Street to start a career. Throughout it all, he always kept a red bandanna in his pocket, a gift from his father. On September 11, 2001, Welles was working on the 104th floor of the South Tower of the World Trade Center when the Twin Towers were attacked. That day, Welles made a fearless choice, and in doing so, saved many lives. The survivors didn't know his name, but one of them remembered a single detail clearly: the man was wearing a red bandanna. Welles Crowther was a hero. Award-winning ESPN reporter Tom Rinaldi brings Welles's inspirational story of selflessness and compassion to life in this accessible young readers' adaptation of his New York Times bestselling book. This powerful story of making a difference through our actions is perfect for helping the post-9/11 generation understand the meaning of this historic day through the eyes of one young man. "Rinaldi's young reader edition of his award-winning adult story puts a face on that day (9/11), a hero's face, and brings to young people someone who stood brave in the toughest of times and who, in the end, was lost doing his best to help others survive."—VOYA

Radical Belonging

"Belonging has been a formative struggle for me. Like most people with marginalized identities, my experience has taught me that it's hard to be yourself and feel like you belong in a culture that is hostile to your existence. That's why my body of work as a scientist, author, professor, speaker, and advocate for body liberation always comes back to the impact of belonging or not belonging. Radical Belonging is my manifesto, helping us heal from the individual and collective trauma of injustice and support our transition from a culture of othering to one of belonging." —Lindo Bacon Too many of us feel alienated from our bodies. This isn't your personal failing; it means that our culture is failing you. We are in the midst of a cultural moment. #MeToo. #BlackLivesMatter. #TransIsBeautiful. #AbleismExists. #EffYourBeautyStandards. Those of us who don't fit into the "mythical norm" (white, male, cisgender, able-bodied, slender, Christian, etc.)—which is to say, most of us—are demanding our basic right: To know that who we are matters. To belong. Being "othered" and the body shame it spurs is not "just"

a feeling. Being erased and devalued impacts our ability to regulate our emotions, our relationships with others, our health and longevity, our finances, our ability to realize dreams, and whether we will be accepted, loved, or even safe. Radical Belonging is not a simple self-love treatise. Focusing only on self-love ignores the important fact that we have negative experiences because our culture has targeted certain bodies and people for abuse or alienation. For marginalized people, a focus on self-love can be a spoonful of sugar that makes the oppression go down. This groundbreaking book goes further, helping us to manage the challenges that stem from oppression and moving beyond self-love and into belonging. With Lindo Bacon's signature blend of science and storytelling, Radical Belonging addresses the political, sociological, psychological and biological underpinnings of your experiences, helping you understand that the alienation and pain you are experiencing is not personal, but human. The problem is in injustice, not you as an individual. So many of us feel wounded by a culture that has alienated us from our bodies and divided us from each other. Radical Belonging provides strategies to reckon with the trauma of injustice; reclaim yourself, body and soul; and rewire your nervous system to better cope within an unjust world. It also provides strategies to help us all provide refuge for one another and create a culture of equity and empathy, one that respects, includes, and benefits from all its diverse peoples. Whether you are transgender, queer, Black, Indigenous or a Person of Color, disabled, old, or fat—or your more closely resemble the "mythical norm"—Radical Belonging is your guidebook for creating a world where all bodies are valued and all of us belong—and for coping with this one, until we make that new world a reality.

Reborn on the Run

"This is a story you'll love and never forget."—Christopher McDougall, author, *Born to Run* and *Natural Born Heroes* Aside from her rock star looks, Catra Corbett is a standout in the running world on her accomplishments alone. Catra is the first American woman to run over one hundred miles or more on more than one hundred occasions and the first to run one hundred and two hundred miles in the Ohlone Wilderness, and she holds the fastest known double time for the 425-miles long John Muir Trail, completing it in twelve days, four hours, and fifty-seven minutes. And, unbelievably, she's also a former meth addict. After two years of addiction, Catra is busted while selling, and a night in jail is enough to set her straight. She gives up drugs and moves back home with her mother, abandoning her friends, her boyfriend, and the lifestyle that she came to depend on. Her only clean friend pushes her to train for a 10K with him, and surprisingly, she likes it—and decides to run her first marathon after that. In *Reborn on the Run*, the reader keeps pace with Catra as she runs through difficult terrain and extreme weather, is stalked by animals in the wilderness, and nearly dies on a training run but continues on, smashing running records and becoming one of the world's best ultrarunners. Along the way she attempts suicide, loses loved ones, falls in love, has her heartbroken, meets lifelong friends including her running partner and dachshund TruMan, and finally faces the past that led to her addiction.

Courage Under Fire

When physical disability from combat wounds brought about Jim Stockdale's early retirement from military life, he had the distinction of being the only three-star officer in the history of the navy to wear both aviator wings and the Congressional Medal of Honor. His writings have been many and varied, but all converge on the central theme of how man can rise with dignity to prevail in the face of adversity.

One Track Mind: What Running 150 Miles in a Day Can Teach You about Life

Into the mind of an athlete running 155 miles in 24 hours around an athletics track, to qualify to run for Great Britain at the age of 50. The mental tools that make it possible, and the life lessons revealed at the extremes of endurance.

College Athletes' Rights and Well-Being

"College Athletes' Rights and Well-Being covers major policy issues in collegiate sports and seeks to address the issue of college athletics from the perspective of the athlete's well-being. It is written for those who seek to enhance their understanding of the intercollegiate athletics landscape. This textbook is intended for upper-level undergraduate and graduate students, though scholars, teachers, practitioners, athletic administrators, and advocates of intercollegiate athletics will also find it essential. The book is arranged into 16 individual chapters that cover a range of topics on college athletes' rights and well-being. It is not exhaustive, but the editor believes that current concerns, challenges, and

themes of relevance to higher education researchers and practitioners will certainly be well addressed"

The Tree-Sitter: A Novel

A passionate and tensely pitched tale of first love and idealism set in the Oregon forests. Julie Prince is a top college student, destined for conventional success. But then she falls in love with Neil, a radical graduate student, and abandons her privileged East Coast life to tree-sit in the forests of Oregon. At first it is a romantic field trip; soon, though, Julie finds herself increasingly moved by the magnificence of the endangered forest and, like Neil, invested in its protection. Eventually pulled into a militant act of sabotage, Julie is forced to reassess her deepest held loyalties and beliefs.

Implementing Student-Athlete Programming

In *Implementing Student-Athlete Programming*, scholar-practitioners provide an approachable and comprehensive overview of how to design, implement, and sustain best practices in the growing area of student-athlete development. Exploring research approaches and critical frames for thinking about student-athlete programming while covering topics such as the current context, challenges, programmatic approaches to support, and trends for the future, this resource also highlights programs that are effective in supporting students to success. This book provides higher education practitioners with the tools they need to effectively work with student-athletes to not only transition to college, but to develop meaningful personal, social, career, and leadership development experiences as they prepare for the transition to life after sport.

Call Me Nathan

A true coming-of-age story that explores transgender identity "All I want is a proper body . . ." Born as biologically female, Nathan spends his formative years facing questions without answers, social ostracism from his peers, and incomprehension from his family--because from as early as he can remember, he knows he has been born in the wrong body. But, as his family comes to recognize, a physical identity is harder to change than a piece of clothing or a haircut. So from the moment he is at last supplied with a professional term for his self-diagnosis--"gender dysphoria"--he is able to leave behind his complicated psychological history, the challenges of his self-harming, and his struggles with sexual identity, and begin the difficult process of claiming his true self. Based on a true story, at first hand, *Call Me Nathan* issues a moving call for understanding, a powerful denunciation of prejudice, and a celebration of everything it means to love.

The Brave Athlete

The Brave Athlete solves the 13 most common mental conundrums athletes face in their everyday training and in races. You don't have one brain; you have three; your ancient Chimp brain that keeps you alive, your modern Professor brain that navigates the civilized world, and your Computer brain that accesses your memories and runs your habits (good and bad). They fight for control all the time and that's when bad things happen; you get crazy nervous before a race, you choke under pressure, you quit when the going gets tough, you make dumb mistakes, you worry about how you look. What if you could stop the thoughts and feelings you don't want? What if you could feel confident, suffer like a hero, and handle any stress? You can. *The Brave Athlete* from Dr. Simon Marshall and Lesley Paterson will help you take control of your brain so you can train harder, race faster, and better enjoy your sport. Dr. Marshall is a sport psychology expert who trains the brains of elite professional athletes. Paterson is a three-time world champion triathlete and coach. Together, they offer this innovative, brain training guide that is the first to draw from both clinical science and real-world experience with athletes. That means you won't find outdated "positive self-talk" or visualization gimmicks here. No, the set of cutting-edge mental skills revealed in *The Brave Athlete* actually work because they challenge the source of the thoughts and feelings you don't want. *The Brave Athlete* is packed with practical, evidence-based solutions to the most common mental challenges athletes face. Which of these sound like you? Why do I have thoughts and feelings I don't want? I wish I felt more like an athlete. I don't think I can. I don't achieve my goals. Other athletes seem tougher, happier, and more badass than me. I feel fat. I don't cope well with injury. People are worried about how much I exercise. I don't like leaving my comfort zone. When the going gets tough, the tough leave me behind. I need to harden the f*ck up. I keep screwing up. I don't handle pressure well. With *The Brave Athlete: Calm the F*ck Down and Rise to the*

Occasion, you can solve these problems to become mentally strong and make your brain your most powerful asset.

Will's Choice

On March 11, 2001, seventeen-year-old Will ingested a near-fatal dose of his antidepressant medication, an event that would forever change his life and the lives of his family. In *Will's Choice*, his mother, Gail Griffith, tells the story of her family's struggle to renew Will's interest in life and to regain their equilibrium in the aftermath. Griffith intersperses her own finely wrought prose with dozens of letters and journal entries from family and friends, including many from Will himself. A memoir with a social conscience, *Will's Choice* lays bare the social and political challenges that American families face in combating this most mysterious and stigmatized of illnesses. In Gail Griffith, depressed teens have found themselves a formidable advocate, and in the evocative and fiercely compelling narrative of *Will's Choice*, we all discover the promise of a second chance.

The Invisible Life of Addie LaRue

For someone damned to be forgettable, Addie LaRue is a most delightfully unforgettable character, and her story is the most joyous evocation of unlikely immortality. Neil Gaiman's A Sunday Times best-selling, award-nominated genre-defying tour-de-force of Faustian bargains, for fans of *The Time Traveler's Wife* and *Life After Life*, and *The Sudden Appearance of Hope*. When Addie La Rue makes a pact with the devil, she trades her soul for immortality. But there's always a price - the devil takes away her place in the world, cursing her to be forgotten by everyone. Addie flees her tiny home town in 18th-Century France, beginning a journey that takes her across the world, learning to live a life where no one remembers her and everything she owns is lost and broken. Existing only as a muse for artists throughout history, she learns to fall in love anew every single day. Her only companion on this journey is her dark devil with hypnotic green eyes, who visits her each year on the anniversary of their deal. Alone in the world, Addie has no choice but to confront him, to understand him, maybe to beat him. Until one day, in a second hand bookshop in Manhattan, Addie meets someone who remembers her. Suddenly thrust back into a real, normal life, Addie realises she can't escape her fate forever.

Financial Management in the Sport Industry

Financial Management in the Sport Industry provides readers with an understanding of sport finance and the importance of sound financial management in the sport industry. It begins by covering finance basics and the tools and techniques of financial quantification, using current industry examples to apply the principles of financial management to sport. It then goes beyond the basics to show how financial management works specifically in sport - how decisions are made to ensure wealth maximization. Discussions include debt and equity financing, capital budgeting, facility financing, economic impact, risk and return, time value of money, and more. The final section focuses on sport finance in three sectors of the industry - public sector sports, collegiate athletics, and professional sport-providing in-depth analysis of financial management in each sector. Sidebars, case studies, concept checks, and practice problems throughout provide practical applications of the material and enable thorough study and practice. The business of sport has changed dynamically since the publication of the first edition, and this second edition reflects the impact of these changes on financial management in the sport industry. New to this edition are changes to reflect the global nature of sport (with, for example, discussions of income tax rates in the Premier League), expanded material on the use of spreadsheets for financial calculations, a primer on accounting principles to help students interpret financial statements, a valuation case study assignment that takes students step by step through a

valuation, a new stadium feasibility analysis using the efforts of the Oakland Raiders to obtain a new stadium, a new economic impact example focusing on the NBA All Star game, and much more.

Tribal

Part introspective soul searching, part cultural analysis, Tribal tackles the controversies plaguing college athletics, tracing the dubious historical underpinnings of Americans' most popular sport, offering a visceral and often funny analysis of its tribal thrills and deep contradictions. Florida State's football team is always in the headlines, producing Heisman Trophy candidates, winning championships, and, at the same time, dealing with federal investigations into corruption and rape. Same as many big time collegiate sports programs. Seems no matter how the team transgresses off the field, if they excel on the field, everyone forgives them. Writer, professor and conflicted Seminole Diane Roberts looks at the problems plaguing her campus in Tallahassee, examining them within the context of college football itself and its significance in American life, and explores how the game shapes our culture.

How to Breathe Underwater

In her dazzling first book Julie Orringer dives into the private world of childhood and immerses us in its fears and longings: the jealous friendships and the bitter sibling battles; the parents that row and the boys that won't dance with you. Then, in a voice that is equally tender and compassionate, she reminds us of those rare, exhilarating moments of victory. 'Unbelievably good: the humiliations and cruelties and passions of childhood, sparkling fresh prose, a writer with a big heart and an acute sense of the small things that loom large in our lives' Monica Ali, Guardian

Holding Serve

Often characterized as David facing Goliath on the tennis court, at 5'9" and 150 pounds Michael Chang is used to playing with the big hitters. What he lacks in stature, he makes up for in determination. A serious contender at any Grand Slam event, his bold statement of faith in God makes him a role model we can all look up to. "What's nice," Michael says, "is that, as long as my priorities are straight, I'm able to go out with the mentality to really leave the winning and losing up to the Lord." In Holding Serve readers get a unique glimpse at Team Chang, Michael's powerful family unit that he credits with much of his success. Michael also shares the story of how he became a Christian and the central role his faith has played in his achievements.

The Art of Being Human

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

Travis Roy

"I realize how fortunate I was to spend the first half of my life with a passion, thanks to my hockey career. It took me a while to realize it, but now I feel fortunate to have lived the second half of my life with a purpose."--Travis Roy*The dream goes from euphoric reality to tragic nightmare in a split second. The life of a hockey player ends; the life of a quadriplegic begins. Travis Roy: Quadriplegia and a Life of Purpose looks at Travis Roy's search for meaning as a quadriplegic, and finding it. *All proceeds from this book will be donated to the Travis Roy foundation, which funds research into a cure for spinal cord injuries and provides individual grants to survivors.

Changing the Game

The modern day youth sports environment has taken the enjoyment out of athletics for our children. Currently, 70% of kids drop out of organized sports by the age of 13, which has given rise to a generation of overweight, unhealthy young adults. There is a solution. John O'Sullivan shares the secrets of the coaches and parents who have not only raised elite athletes, but have done so by creating an environment that promotes positive core values and teaches life lessons instead of focusing on wins and losses, scholarships, and professional aspirations. Changing the Game gives adults a new paradigm and a game plan for raising happy, high performing children, and provides a national call to action to return youth sports to our kids.

The Other Side of Dark

EDGAR AWARD WINNER For fans of Gillian Flynn, Caroline Cooney, and R.L. Stine comes The Other Side of Dark from four-time Edgar Allen Poe Young Adult Mystery Award winner Joan Lowery Nixon. Stacy wakes up in a hospital room, in a body she doesn't recognize. Her mother is dead—murdered—and Stacy is recovering from a gunshot wound. She is the sole eyewitness to the crime, but she has only a shadowy memory of the killer's face. Will Stacy be able to regain a clear memory of that fateful day before the killer reaches her? The Other Side of Dark is one of Joan Lowery Nixon's most intriguing, suspenseful, and dramatic mysteries. "The compelling premise...and Nixon's mastery of suspense are gripping." —Publishers Weekly "Tense and dramatic...[The Other Side of Dark has a] quick pace, and the determined protagonist should attract and hold readers." —School Library Journal

Building a Life Worth Living

Marsha Linehan tells the story of her journey from suicidal teenager to world-renowned developer of the life-saving behavioral therapy DBT, using her own struggle to develop life skills for others. "This book is a victory on both sides of the page."—Gloria Steinem "Are you one of us?" a patient once asked Marsha Linehan, the world-renowned psychologist who developed Dialectical Behavior Therapy. "Because if you were, it would give all of us so much hope." Over the years, DBT had saved the lives of countless people fighting depression and suicidal thoughts, but Linehan had never revealed that her pioneering work was inspired by her own desperate struggles as a young woman. Only when she received this question did she finally decide to tell her story. In this remarkable and inspiring memoir, Linehan describes how, when she was eighteen years old, she began an abrupt downward spiral from popular teenager to suicidal young woman. After several miserable years in a psychiatric institute, Linehan made a vow that if she could get out of emotional hell, she would try to find a way to help others get out of hell too, and to build a life worth living. She went on to put herself through night school and college, living at a YWCA and often scraping together spare change to buy food. She went on to get her PhD in psychology, specializing in behavior therapy. In the 1980s, she achieved a breakthrough when she developed Dialectical Behavioral Therapy, a therapeutic approach that combines acceptance of the self and ways to change. Linehan included mindfulness as a key component in therapy treatment, along with original and specific life-skill techniques. She says, "You can't think yourself into new ways of acting; you can only act yourself into new ways of thinking." Throughout her extraordinary scientific career, Marsha Linehan remained a woman of deep spirituality. Her powerful and moving story is one of faith and perseverance. Linehan shows, in *Building a Life Worth Living*, how the principles of DBT really work—and how, using her life skills and techniques, people can build lives worth living.

One Day

'ONE DAY is destined to be a modern classic' - Daily Mirror Twenty years, two people, ONE DAY. The multi-million copy bestseller that captures the experiences of a generation. Thing of Beauty

At age seventeen, Gia Carangi was working the counter at her father's Philadelphia luncheonette, Hoagie City. Within a year, Gia was one of the top models of the late 1970's, gracing the covers of *Cosmopolitan* and *Vogue*, partying at New York's Studio 54 and the Mudd Club, and redefining the industry's standard of beauty. She was the darling of moguls and movie stars, royalty and rockers. Gia was also a girl in pain, desperate for her mother's approval—and a drug addict on a tragic slide toward oblivion, who started going directly from \$10,000-a-day fashion shoots to the heroin shooting galleries on New York's Lower East Side. Finally blackballed from modeling, Gia entered a vastly different world on the streets of New York and Atlantic City, and later in a rehab clinic. At twenty-six, she became one of the first women in America to die of AIDS, a hospital welfare case visited only by rehab friends and what remained of her family. Drawing on hundreds of interviews with Gia's family, lovers, friends, and colleagues, *Thing of Beauty* creates a poignant portrait of an unforgettable character—and a powerful narrative about beauty and sexuality, fame and objectification, mothers and daughters, love and death.

In the Dark

A rainy night in London. Shots are fired into a car which swerves on to the pavement and ploughs into a bus stop. It seems that an act of casual gang violence has cost an innocent victim their life. But the reality is even more chilling . . . One life is wiped out and others are changed forever. A pregnant woman struggles desperately to uncover the truth, and makes herself a target in the process. Two weeks from giving birth, how will she survive in a world where death is an occupational hazard? In a city where violence can be random or meticulously planned, where teenage gangs clash with career criminals and where loyalty is paid for in blood, anything is possible. Secrets are uncovered as fast as bodies, and the story's final twist is as breathtakingly surprising as they come.

Charlie is lucky enough to win the prime job – running messages for Squizzy Taylor, the most dangerous gangster in Melbourne. But things start to get a little too hot for Charlie, so he decides to take the money and run . . .

A Common Struggle

In this New York Times bestseller Patrick J. Kennedy, the former congressman and youngest child of Senator Ted Kennedy, details his personal and political battle with mental illness and addiction, exploring mental health care's history in the country alongside his and every family's private struggles. On May 5, 2006, the New York Times ran two stories, "Patrick Kennedy Crashes Car into Capitol Barrier" and then, several hours later, "Patrick Kennedy Says He'll Seek Help for Addiction." It was the first time that the popular Rhode Island congressman had publicly disclosed his addiction to prescription painkillers, the true extent of his struggle with bipolar disorder and his plan to immediately seek treatment. That could have been the end of his career, but instead it was the beginning. Since then, Kennedy has become the nation's leading advocate for mental health and substance abuse care, research and policy both in and out of Congress. And ever since passing the landmark Mental Health Parity and Addiction Equity Act—and after the death of his father, leaving Congress—he has been changing the dialogue that surrounds all brain diseases. *A Common Struggle* weaves together Kennedy's private and professional narratives, echoing Kennedy's philosophy that for him, the personal is political and the political personal. Focusing on the years from his 'coming out' about suffering from bipolar disorder and addiction to the present day, the book examines Kennedy's journey toward recovery and reflects on Americans' propensity to treat mental illnesses as "family secrets." Beyond his own story, though, Kennedy creates a roadmap for equality in the mental health community, and outlines a bold plan for the future of mental health policy. Written with award-winning healthcare journalist and best-selling author Stephen Fried, *A Common Struggle* is both a cry for empathy and a call to action.

Myths about Suicide

Around the world, more than a million people die by suicide each year. Yet many of us know very little about a tragedy that may strike our own loved ones—and much of what we think we know is wrong. This clear and powerful book dismantles myth after myth to bring compassionate and accurate understanding of a massive international killer. Drawing on a fascinating array of clinical cases, media reports, literary works, and scientific studies, Thomas Joiner demolishes both moralistic and psychotherapeutic clichés. He shows that suicide is not easy, cowardly, vengeful, or selfish. It is not a manifestation of "suppressed rage" or a side effect of medication. Threats of suicide, far from being idle, are often followed by serious attempts. People who are prevented once from killing themselves will not necessarily try again. The risk for suicide, Joiner argues, is partly genetic and is influenced by often agonizing mental disorders. Vulnerability to suicide may be anticipated and treated. Most important, suicide can be prevented. An eminent expert whose own father's death by suicide changed his life, Joiner is relentless in his pursuit of the truth about suicide and deeply sympathetic to such tragic waste of life and the pain it causes those left behind.
