Guides and Manuals for Pesticide Applicator Training, January 1979-August 1985

If you oversee a lake, pond, or other aquatic environment—natural or man-made—this guide is for you! This easy-to-use reference manual and study guide covers diverse aquatic environments including natural marshes, wetlands, and deltas; irrigation canals and levees; ornamental ponds in parks and golf courses; hatcheries and recreational waters; and municipal water supplies and drinking water reservoirs. Chapters include information on: • Identifying weeds in the aquatic environment • Methods of controlling aquatic weeds • Identifying and controlling other pests in the aquatic environment • Laws regulating aquatic environments, pesticide use, and protected species • Reading and understanding pesticide labels • Mixing and applying pesticides safely • Selecting and calibrating aquatic herbicide application equipment • How to recognize and prevent pesticide poisoning • How to handle pesticide emergencies Profusely illustrated with 54 illustrations and over 100 photographs, this reference manual also has 8 tables and 31 sidebars that expand on important points and provide calculation formulas. A helpful glossary and thorough index round out this study tool. This is the recommended study guide for the California Department of Pesticide Regulation (DPR) exams in the Aquatic Pest Control category.

Residential, Industrial and Institutional Pest Control

This is a complete guide to using pesticides safely in turf, landscape, and interior scape situations ranging from parks and golf courses to indoor malls. Designed for professionals working in the public or private sector, it focuses especially on pesticide handling and application procedures of importance. More than 200 photos, line drawings, graphs, and sidebars illustrate key concepts and procedures. Review questions similar to those on the exams are included at the end of each chapter to help you as you study. This is recommended study material for Landscape Maintenance Pest Control and Maintenance Gardener categories of the California Department of Pesticide Regulation's Qualified Pesticide Applicator License (QAL) and Qualified Pesticide Applicator Certificate (QAC) exams.

### Aquatic Pest Control

Volume 2 in the Pesticide Application Compendium focuses on managing structural, food, and fabric pests, rodents, birds, and weeds. This new edition has been completely updated and now includes review questions and answers to help you as you study for the exam. A new detailed index enhances user-navigation and tables and sidebars are now listed in the table of contents. This is a helpful reference for anyone solving institutional or household pest problems - from pest control operators to building managers or homeowners. New information is included for those carrying out school IPM programs - including how to select appropriate pesticides for school buildings focusing on herbicides, and safe and effective cockroach and ant baits. DPR test material (QAL and QAC). Structural Pest Control Board (Branch 1, 2, and 3) test materia

### Landscape Maintenance Pest Control

The first update to this key reference guide in over 15 years! This revised edition contains a new format making it even easier to study for the DPR exams. In addition to the review questions found at the end of each chapter, this new edition contains knowledge expectations at the beginning of each chapter. These brief statements describe what you are expected to learn after reading that chapter, allowing you to study more effectively for DPR's pesticide applicator licensing (QAL/QAC) exams. These knowledge expectations are also highlighted in sidebars throughout each chapter, providing a study roadmap so you know which sections of each chapter are most important. Also new: Updated pesticides table to reflect products available in California Updated information on nematodes, vertebrates, and pathogens Expanded information on environmental hazards, expanded information on personal protective equipment including EPA respirator criteria Up-to-date information on worker protection standards Expanded information on pesticide resistance Updated compliance guidelines for pesticide use reporting as required by California law A dedicated chapter covering label reading, including an updated label that reflects current regulations The Safe and Effective Use of Pesticides provides detailed information for selecting, using, handling, storing, and disposing of pesticides. It emphasizes worker protection, prevention of groundwater contamination, protection of endangered species and wildlife, and reduction of environmental problems. This is a significant update to the 2nd Edition, so everyone will want to update their reference library with this new edition. The principles described in this volume apply to all areas of pest control, including agricultural, structural, landscape, greenhouse, and public health applications. Volume 1 in the Pesticide Application Compendium. This is recommended study material for all categories of the California Department of Pesticide Regulation's (DPR) Qualified Pesticide Applicator License (QAL) and Qualified Pesticide Applicator Certificate (QAC) exams.

### Residential, Industrial, and Institutional Pest Control

A fumigant is a type of pesticide that volatilizes after being applied as a solid, liquid, or liquefied gas. Soil fumigants applied into fallow ground before planting are an important part of integrated pest management programs in row crops and orchards, nursery operations, and turfgrass maintenance programs throughout California. Fumigants may be odorless and usually cannot be seen. It is important to remember that fumigants are among the most hazardous chemicals you will handle or encounter at your workplace. This book is for people who will study for an examination and apply for a Soil Fumigation Qualified Applicator License or Certificate (QAL or QAC) in California. To obtain a QAL or QAC in this category, you must pass examinations in the following areas: basic principles of effective pesticide use soil fumigation pest control laws and regulations In this book, most of the laws and regulations covered are specific to soil fumigations performed in California. California's pesticide laws provide general guidelines, and its regulations provide the specifics for how to comply. In addition to demonstrating knowledge of the laws and regulations related to fumigant use, applicators are expected

to prove that they understand: the proper handling and application of soil fumigants the human health and environmental risks of soil fumigants the methods used to avoid or mitigate the risks associated with soil fumigants Knowledge expectations listed at the beginning of each chapter define which concepts applicators will be tested on in the examination. Use the review questions at the end of each chapter to help you master the material before you take the examination. Check your answers with the correct answers in the “Answers to Review Questions” at the end of the book. First Edition published as Field Fumigation ANR Publication 9005.

#### Final Environmental Impact Statement for Nursery Pest Management

Abstract: Written for individuals preparing for federal or state pesticide applicator certification and for the layman, this self-instructional guide covers the fundamentals of and the major classes of pesticides. It includes units on pesticide vocabulary, chemistry, formulations, toxicity, laws, safe handling and use practices; 125 review questions; and a glossary.

#### The Safe and Effective Use of Pesticides, 3rd Edition

Abstract: This study guide accompanies Pest Management Principles for the Commercial Applicator : Right-of-Way Pest Control. It contains multiple choice questions and answers on a variety of subjects including laws and regulations, formulations, safety, application principles, and resistance to pesticides.
