Twelve Years a Slave

Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Means to Prosperity

While recent developments in monetary theory have been fast to spread to policy analysis and practice and the media, the same is not true of fiscal policy, and a void has emerged. Issues such as timing, cyclical adjustments, long-term sustainability, and social implications are often seen as detached from discussions in the public arena. This book fills this gap. It delivers a keen assessment of the role and scope of current fiscal policy. New contributions and critical reviews of state of the art research analyze fiscal policy in terms of viability, potency, consequences and sustainability, and also shed light on its relation to economic and political ideas. The general tone of this volume is cautiously favourable of fiscal activism, although the emphasis is placed more on medium-term adjustments than on short-term 'fine-tuning'. The authors believe that the legacy of the last fiscal revolution has been an excessively negative view of deficits and debt, and believe that this volume will contribute to open a dialogue on fiscal issues, and bring back a more balanced view of fiscal policy. With contributions from leading authorities including Barbara Bergmann, Jeffrey Frankel and David Colander, this is a major new contribution to the field.

The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical

perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.
