The Application of Ex Corde Ecclesiae for the United States

Designed to strengthen the identity of the approximately 235 Catholic colleges and universities in the U.S., the Application applies to these educational institutions the norms and principles of Pope John Paul II's apostolic constitution On Catholic universities (Ex corde ecclesiae).

Ex Corde Ecclesiae

Hans Reichenbach (1891-1953) was a formidable figure in early-twentieth-century philosophy of science. Educated in Germany, he was influential in establishing the so-called Berlin Circle, a companion group to the Vienna Circle founded by his colleague Rudolph Carnap. The movement they founded--usually known as "logical positivism," although it is more precisely known as "scientific philosophy" or "logical empiricism"--was a form of epistemology that privileged scientific over metaphysical truths. Reichenbach, like other young philosophers of the exact sciences of his generation, was deeply impressed by the far-reaching changes in physics brought about by Einstein's special and general theories of relativity. Reichenbach responded to scientific advances by doing fundamental work in space-time theories, in quantum mechanics, in statistical mechanics, and in the development of probability theory--making him the most important philosopher of physics in the first generation of logical empiricism. Forced from his academic position by the Nazi race laws in 1933, Reichenbach wrote *Experience and Prediction* at the University of Istanbul, where he had fled, expressly to introduce logical positivism to English speakers. In the two decades following World War II, during the explosion of scientific advances in North America, logical positivism was the reigning theory of the philosophy of science and Reichenbach was at the peak of his career. But, inevitably, support for logical positivism began to wane as it became obvious that the justification of scientific theories could not be entirely resolved by relying on strictly formal, technical processes. The growth of the discipline of the history of philosophy of science, which has created an audience of scholars eager for seminal classics

in scientific philosophy, and the evidence supporting a historicist paradigm within logical positivism are two important reasons to make Experience and Prediction available once again.

Catholic Universities in Church and Society

The Roman Catholic Church's first significant legislative enactment on the nature and role of the Catholic university, the apostolic constitution *Ex corde Ecclesiae* (1990) grew out of thirty years of dialogue between ecclesiastical authorities and academic representatives. The final document affirms the explicit Catholic identity of Catholic educational institutions and outlines provisions for maintaining that identity; the questions of how to implement its provisions have in turn created the need for more dialogue and examination. In this volume, distinguished scholars and legal experts define the key questions and explore the future implications of *Ex corde* for American Catholic colleges and universities. The assertion of the Catholic identity of Catholic institutions of higher education prompts the contributors to examine the definition of Catholic education as a special synthesis of the religious and the academic, of faith and reason; and to discuss corollary issues such as secularization; the counter-cultural features of Catholic education; and the great diversity of such schools in the United States and of their sponsoring religious orders. The contributors probe the schools' relationships with the Church hierarchy, exploring in particular the role of the bishops, the degree of autonomy from ecclesiastical control, and questions of academic freedom. They also consider specific legal issues that American Catholic colleges must face, including recognition of student groups, tenure and promotion decisions, governance, student and faculty conduct, and the relationship between canon and civil law, including compliance with national and local civil rights provisions. This volume also includes the complete text in English of *Ex corde Ecclesiae* and the preliminary draft of ordinances from the *Ex corde Ecclesiae* Implementation Committee of the National Conference of Catholic Bishops. Appearing at a time when universities must face major issues of their own identity and governance, this volume will be of interest to all faculty and administrators, diocesan authorities and legal counsel, and everyone concerned with the future of Catholic higher education.

John Paul II's *Ex Corde Ecclesiae*

John Paul II was aware of the muddled thinking about the nature of reason that developed during the Enlightenment. In seeking to re-establish a more substantial application of reason, he proposed that Catholic universities return to the much more expansive concept of the use of reason within the context of faith. This book is a commentary on his constitution *Ex corde ecclesiae* and its application of the analysis of faith and reason that appeared later in *Fides et ratio*.

From the Heart of the Church

"On Catholic higher education, we have heard from Pope John Paul II. We have heard from the bishops, the 'experts', the intellectuals, the secularists. What is so refreshing about Suzanne's commentary is that its simple, matter-of-fact, always faithful approach reminds us that Catholic colleges and universities -- as Catholic -- belong to all of us and have a significant impact on the whole of the Church." Patrick J. Reilly President of the Cardinal Newman Society Manassas, VA. "Suzanne's book truly offers a 'New Hope for Catholic Higher Education.' Her book balances sound Church teaching with practical suggestions to form a treatise for the renewal of what John Paul II called the new springtime of Catholic Evangelization. This book is a manual for the renewal of Catholic higher education. What better place to begin than on the Catholic college campus and in its lecture halls! Suzanne's unique perspective, that of being a Catholic lay academician, makes this book ideal for every member of the Catholic college, theologian or otherwise." Kelly Bowring Dean of Spiritual Mission Associate Professor of Sacred Theology Southern Catholic College Dawsonville, Georgia

Apostolic Constitution *Ex Corde Ecclesiae* of the Supreme Pontiff John Paul II On Catholic Universities

Faith and Freedom is a collection of essays marking the twenty-fifth anniversary of *Ex Corde Ecclesiae*. Bishops, theologians, canon lawyers, and university presidents offer speculative and practical reflections on the relationship between the Catholic university and the Church, the place of faith and revelation in the life of a university, the meaning and limits of academic freedom, the mission of the Catholic university to the wider culture, and the purpose and application of the canon laws bearing on Catholic universities. In addition, the volume offers practical guidance and suggestions for how Catholic universities can retrieve and maintain their Catholic identity. Included also are the stories of three Catholic universities that have self-consciously striven to implement *Ex Corde Ecclesiae*: Walsh University, the University of Mary, and Franciscan University of Steubenville.

Faith and Freedom

George Bernard Shaw thought that a Catholic university was a contradiction in terms—"university" represents intellectual freedom and "Catholic" represents dogmatic belief. Scholars, university administrators, and even the Vatican have staked out positions debating Shaw's observation. In this refreshing book, George Dennis O'Brien argues that contradiction arises both from the secular university's limited concept of academic freedom and the church's defective notion of dogma. Truth is a central concept for both university and church, and O'Brien's book is built on the idea that there are different areas of truth—scientific, artistic, and religious—each with its own proper warrant and "method." In this light, he argues that one can reverse Shaw's comparison and uncover academic dogma and Christian freedom, university "infallibility" and dogmatic "fallibility." Drawing on theology and the history of philosophy, O'Brien shows how religious truth relates to the work of a Catholic university. He then turns to the current controversies over Pope John Paul II's recent statement, *Ex Corde Ecclesiae*, which seeks to make Catholic universities conform to the church's official teaching office. O'Brien rejects the conventional "institutional-juridical" model used by the Vatican as improper both to faith and academic freedom. He argues for a "sacramental" model, one that respects the different kinds of "truth"—thus preserving the integrity of both church and university while making their combination in a Catholic university not only possible but desirable. O'Brien concludes with a practical consideration of how the ideal Catholic university might be expressed in the actual life of the contemporary curriculum and extracurriculum. For anyone concerned about the place of religion in higher education, *The Idea of a Catholic University* will be essential reading.

Ex corde Ecclesiae

To be a Catholic university today is to be catholic (universal) by engaging in conversations across disciplines and across contexts – national, cultural, social, political, religious or economic. This book represents the ideas of conversational partners from different contexts and institutions across Eastern Africa. The book calls for a process or system of sharing knowledge and resources towards advancing the intellectual progress and developmental agenda of Africa. It proposes specific ways of ensuring creative collaboration and imaginative networking among Catholic universities in the Eastern Africa (also known as the AMECEA) region. According to an African proverb, "You can enjoy your gaze of the sun from your backyard, but you are only connected to others if you are able to recognize how they

are gazing at the same sun from their distant and varied backyards." Indeed, our common mission and vision as Catholic Universities compel us, not to monopolize the vision of the sun, but to collaborate in preparing our graduates to serve and to live the path to a more just and communal world.

The Application of the Requirement for the Mandatum of Ex Corde Ecclesiae to American Catholic Universities Sponsored by Religious Institutes

This book is a detailed study of higher education institutions affiliated to particular religions. It considers the debates surrounding academic freedom, institutional governance, educational policy, mission and identity together with institutions' relations with the state and their wider communities. A wide range of institutions are examined, including: Christian, Islamic and Jewish universities in the US, Europe and the Middle East. Essentially, this volume questions whether such institutions can be both religious and a 'university' and also considers the appropriate role of religious faith within colleges and universities.

Journal of Moral Theology, Volume 4, Number 2

This book explores 20th-century intellectual culture in the United States, with attention to the gradual narrowing of the scope of (academic) philosophy and its diminishing influence. American Catholic universities, it is contended in this book, can render a seriously-needed contribution to combating the negative effects of this historical development.

Ex corde ecclesiae

The purpose of this volume is to deepen the appreciation for the stereophonic approach to truth that the Holy Father recommends.

The Idea of a Catholic University

"A deeply thoughtful articulation of an enduring and appealing ideal. It is an ideal with a resonance beyond the world of Catholic higher education for all in the academy who still respond to the beckoning vision of the ultimate unity of all human knowing and who view it, indeed, as a necessary inspiration if we are to succeed in according to our intellectual activities the sort of seriousness and moral significance they properly deserve." --Francis Oakley, President Emeritus, Williams College "There is a real need, indeed an absolute necessity, for a Catholic university that is true to its religious values. By so being, it makes other, non-Catholic institutions that much better." --E. Gordon Gee, Chancellor, Vanderbilt University "Dean Roche has done a rare thing. He has articulated a sharp and clear Catholic theology of Christian higher education. What has been implicit in the practice of great Catholic universities has now been made explicit in this fine essay." --Robert Benne, author of *Quality with Soul: How Six Premier Colleges and Universities Keep Faith with Their Religious Traditions* "Catholic identity will mean nothing in the world of higher education if it lacks a genuine intellectual dimension. Mark Roche understands that fundamental fact, tackles the problem directly, and deals with it cogently." --Philip Gleason, author of *Contending with Modernity: Catholic Higher Education in the Twentieth Century*

It is only in the years since Vatican II that the new thinking about Catholic education has crystalised into shape. Vatican II and New Thinking about Catholic Education provides an opportune moment to take stock of the impact of Vatican II on Catholic education. This volume considers the various ways in which Vatican II and its teaching on education has been received and engages with the challenges and testing times that beset faith-based education in the twenty-first century. With insights from an international range of leading and influential advocates of Catholic education, the volume demonstrates the differing contexts of Catholic education and explores the ways in which Vatican II's teaching on education has been received over the past four or five decades.

Catholic higher education in the United States is undergoing dramatic changes, driven largely by the virtual disappearance of nuns, brothers, and priests from Catholic university campuses. Today Catholic colleges and universities are dealing with critical questions about what constitutes Catholic collegiate identity. What are appropriate ways to engage the Catholic tradition across all sectors of university life? What constitutes a critical mass of committed and knowledgeable Catholics necessary to maintain religious identity? What is an appropriate level of knowledge and religious commitment for those who lead, govern, and teach at Catholic institutions and how do they acquire it? Many people have strong - and strongly differing - opinions about the current state of Catholic higher education. Melanie M. Morey and John J. Piderit, S.J., wade into these waters with a study of 124 senior administrators at 33 Catholic colleges and universities across the United States. Exceptionally candid appraisals by administrators across a varied landscape attest that a cultural crisis is looming at a number of Catholic institutions. Based on their research, Morey and Piderit describe the present situation and offer concrete suggestions for enhancing Catholic identity, culture, and mission at all Catholic colleges and universities. The authors define the critical issues and analyze and address them by using the rich construct of culture, particularly organizational culture. They provide four different models of how Catholic colleges and universities can operate and successfully compete as religiously distinctive institutions in the higher education market. After identifying the content of the Catholic tradition - intellectual, moral, and social - the authors analyze present performance among institutions in all four models. They derive criteria for identifying religious cultural crisis at institutions and provide specific policy proposals for enhancing religious culture. They also suggest principles for effectively leading and managing cultural change. Morey and Piderit offer the first in-depth cultural analysis of the Catholic character of Catholic universities and colleges at a crucial time for these institutions. With new research and practical applications, this book is an invaluable resource for Catholic educators and anyone concerned about the future of Catholic higher education.

Catholic University Education Today

The remarkable development of the Catholic university in the United States has raised issues about its continued identity, its promise, and its academic constituents. Michael J. Buckley, SJ, explores these questions, especially as they have been experienced in Jesuit history and contemporary commitments. The fundamental proposition that grounds the Catholic university, Buckley argues, is that the academic and the religious are intrinsically related. Academic inquiry encourages a process of questioning that leads naturally to issues of ultimate significance, while the experience of faith is towards the understanding of itself and of its relationship to every other dimension of human life. This mutual involvement requires a union between faith and culture that defines the purposes of Catholic higher education. In their earliest and normative documents, Jesuit universities have been encouraged to achieve this integration through the central role given to theology. Buckley explores two commitments that implicate contemporary Catholic universities in controversy: an insistence upon open, free discussion and academic pluralism—to the objections of some in the Church; and an education in the promotion of justice—to the objections of some in the academy. Finally, to strengthen philosophical and theological studies, Buckley suggests both a "philosophical grammar" that would discover and study the assumptions and methods involved in the various forms of disciplined human inquiry and a set of "theological arts" founded upon the more general liberal arts. Entering into the contemporary discussion about the Catholic university, this book offers inspiring and thought-provoking ideas for those engaged in Catholic higher education.

In November 1999, the bishops approved Pope John Paul II's document, *Ex corde ecclesiae*, this Application endorsed a juridical instrument, the Mandatum, that Catholic theologians at Catholic universities and colleges are to obtain from their local bishop. The Catholic Theological Society of America created an ad hoc committee to develop both a statement on the mandatum and a set of procedures for its implementation to be offered by the bishops.

Responding to the signs of the time, this book brings the lens of Catholic social thought (CST) to the enterprise of Catholic higher education in the United States. Scandals in the Church and the growth of religious non-affiliation in the culture have made being Catholic greatly challenging for Catholic colleges and universities, at the same time that the economics of higher education have mounted a challenge to

the very viability of many institutions. This book throws light on what Catholic colleges and universities might and must do in order both to preserve their mission and renew it for the future. CST is concerned with the right ordering of social institutions, or in other words the systems in which individuals live and work. CST is accordingly relevant not only to the internal dynamics and structures of Catholic colleges and universities, but to the system of U.S. higher education in which individual colleges and universities operate. This edited volume, consisting of high-quality chapters by authors with disciplinary expertise, deploys the resources of CST to shed light on both internal and external challenges to, opportunities for, and obligations on institutions of Catholic higher education in the U.S. context.

Catholic Universities in Church and Society

Catholic Higher Education in the 1960s is a series of cases that describes and analyzes the transitions made by representative Catholic institutions in their attempts to update their governance structures and maintain their Catholic identity in the midst of the post-Vatican II era. This book will be of interest to historians of education and Catholic education; to administrators and faculty in Catholic schools and in other religious-based institutions that seek to understand the dynamic of balancing their religious identity with their attempts at "reading the signs of the times."

A Twentieth-century Collision

Gravissimus Educationis: Golden Opportunities in American Catholic Education 50 Years after Vatican II reviews the development of American Catholic schools since the promulgation of Gravissimus Educationis, the only document on education produced by the Ecumenical Council known as Vatican II. This document literally translated as "The Importance of Education," addresses how extremely vital Catholic education, in particular, is in modern life. Cattaro and Russo also reflect on changes that have transpired since the Third Plenary Council of Baltimore of 1884. This council forever changed the shape of nonpublic education in the United States in its decree that all parishes in the United States were to construct Catholic schools for the education of children. This volume is also designed to benefit Catholic Educators in all at levels from primary to higher education. The chapters in this book, prepared by leading experts on various aspects of Catholic education or other forms of non-public education in the United States, provide a history as to the recent development on Catholic schools. Gravissimus Educationis: Golden Opportunities in American Catholic Education 50 Years after Vatican II provides the context of change and the current state of Catholic Schools in the United States and, in some sense, the global perspective. The scope of this book goes beyond the professional educator in Catholic Schools as it also address the stakeholders of Catholic education such as parents who are consumers, pastors, religious educators, and donors.

The Two Wings of Catholic Thought

Catholic colleges and universities have achieved a prestigious place in American higher education, but at the risk of losing their religious identity. This book confronts challenges facing all members of the college community, from presidents and trustees through the faculty and deans to student-life professionals, in making a renewed commitment to that mission. Developing the vision of Catholic higher education expressed in the Vatican statement Ex Corde Ecclesiae, these essays provide a framework for enhancing Catholic identity across the campus and in the curriculum. The contributors address significant aspects of the culture of Catholic higher education in order to prescribe the best practices that can help colleges and universities maintain their distinctive religious character and ethical vision.

Vatican II and New Thinking about Catholic Education

Being Catholic in a Changing World discusses the key issues surrounding Catholics in contemporary society. "Can I disagree with the Church and still remain a good Catholic?" and "What does it mean to be a Catholic in the post-9/11 world?" are some of the questions posed in this book.

Catholic Identity

The Application of Ex Corde Ecclesiae for the United States

Designed to strengthen the identity of the approximately 235 Catholic colleges and universities in the U.S., the Application applies to these educational institutions the norms and principles of Pope John Paul II's apostolic constitution On Catholic universities (Ex corde ecclesiae).

Hans Reichenbach (1891-1953) was a formidable figure in early-twentieth-century philosophy of science. Educated in Germany, he was influential in establishing the so-called Berlin Circle, a companion group to the Vienna Circle founded by his colleague Rudolph Carnap. The movement they founded--usually known as "logical positivism," although it is more precisely known as "scientific philosophy" or "logical empiricism"--was a form of epistemology that privileged scientific over metaphysical truths. Reichenbach, like other young philosophers of the exact sciences of his generation, was deeply impressed by the far-reaching changes in physics brought about by Einstein's special and general theories of relativity. Reichenbach responded to scientific advances by doing fundamental work in space-time theories, in quantum mechanics, in statistical mechanics, and in the development of probability theory--making him the most important philosopher of physics in the first generation of logical empiricism. Forced from his academic position by the Nazi race laws in 1933, Reichenbach wrote *Experience and Prediction* at the University of Istanbul, where he had fled, expressly to introduce logical positivism to English speakers. In the two decades following World War II, during the explosion of scientific advances in North America, logical positivism was the reigning theory of the philosophy of science and Reichenbach was at the peak of his career. But, inevitably, support for logical positivism began to wane as it became obvious that the justification of scientific theories could not be entirely resolved by relying on strictly formal, technical processes. The growth of the discipline of the history of philosophy of science, which has created an audience of scholars eager for seminal classics in scientific philosophy, and the evidence supporting a historicist paradigm within logical positivism are two important reasons to make *Experience and Prediction* available once again.

Catholic Universities in Church and Society

The Roman Catholic Church's first significant legislative enactment on the nature and role of the Catholic university, the apostolic constitution *Ex corde Ecclesiae* (1990) grew out of thirty years of dialogue between ecclesiastical authorities and academic representatives. The final document affirms the explicit Catholic identity of Catholic educational institutions and outlines provisions for maintaining that identity; the questions of how to implement its provisions have in turn created the need for more dialogue and examination. In this volume, distinguished scholars and legal experts define the key questions and explore the future implications of *Ex corde* for American Catholic colleges and universities. The assertion of the Catholic identity of Catholic institutions of higher education prompts the contributors to examine the definition of Catholic education as a special synthesis of the religious and the academic, of faith and reason; and to discuss corollary issues such as secularization; the counter-cultural features of Catholic education; and the great diversity of such schools in the United States and of their sponsoring religious orders. The contributors probe the schools' relationships with the Church hierarchy, exploring in particular the role of the bishops, the degree of autonomy from ecclesiastical control, and questions of academic freedom. They also consider specific legal issues that American Catholic colleges must face, including recognition of student groups, tenure and promotion decisions, governance, student and faculty conduct, and the relationship between canon and civil law, including compliance with national and local civil rights provisions. This volume also includes the complete text in English of *Ex corde Ecclesiae* and the preliminary draft of ordinances from the *Ex corde Ecclesiae* Implementation Committee of the National Conference of Catholic Bishops. Appearing at a

time when universities must face major issues of their own identity and governance, this volume will be of interest to all faculty and administrators, diocesan authorities and legal counsel, and everyone concerned with the future of Catholic higher education.

By so being, it makes other, non-Catholic institutions that much better." --E. Gordon Gee, Chancellor, Vanderbilt University "Dean Roche has done a rare thing. He has articulated a sharp and clear Catholic theology of Christian higher education. What has been implicit in the practice of great Catholic universities has now been made explicit in this fine essay." --Robert Benne, author of *Quality with Soul: How Six Premier Colleges and Universities Keep Faith with Their Religious Traditions* "Catholic identity will mean nothing in the world of higher education if it lacks a genuine intellectual dimension. Mark Roche understands that fundamental fact, tackles the problem directly, and deals with it cogently." --Philip Gleason, author of *Contending with Modernity: Catholic Higher Education in the Twentieth Century*

Ex corde Ecclesiae. Ediz. inglese

It is only in the years since Vatican II that the new thinking about Catholic education has crystalised into shape. *Vatican II and New Thinking about Catholic Education* provides an opportune moment to take stock of the impact of Vatican II on Catholic education. This volume considers the various ways in which Vatican II and its teaching on education has been received and engages with the challenges and testing times that beset faith-based education in the twenty-first century. With insights from an international range of leading and influential advocates of Catholic education, the volume demonstrates the differing contexts of Catholic education and explores the ways in which Vatican II's teaching on education has been received over the past four or five decades.

Catholic higher education in the United States is undergoing dramatic changes, driven largely by the virtual disappearance of nuns, brothers, and priests from Catholic university campuses. Today Catholic colleges and universities are dealing with critical questions about what constitutes Catholic collegiate identity. What are appropriate ways to engage the Catholic tradition across all sectors of university life? What constitutes a critical mass of committed and knowledgeable Catholics necessary to maintain religious identity? What is an appropriate level of knowledge and religious commitment for those who lead, govern, and teach at Catholic institutions and how do they acquire it? Many people have strong - and strongly differing - opinions about the current state of Catholic higher education. Melanie M. Morey and John J. Piderit, S.J., wade into these waters with a study of 124 senior administrators at 33 Catholic colleges and universities across the United States. Exceptionally candid appraisals by administrators across a varied landscape attest that a cultural crisis is looming at a number of Catholic institutions. Based on their research, Morey and Piderit describe the present situation and offer concrete suggestions for enhancing Catholic identity, culture, and mission at all Catholic colleges and universities. The authors define the critical issues and analyze and address them by using the rich construct of culture, particularly organizational culture. They provide four different models of how Catholic colleges and universities can operate and successfully compete as religiously distinctive institutions in the higher education market. After identifying the content of the Catholic tradition - intellectual, moral, and social - the authors analyze present performance among institutions in all four models. They derive criteria for identifying religious cultural crisis at institutions and provide specific policy proposals for enhancing religious culture. They also suggest principles for effectively leading and managing cultural change. Morey and Piderit offer the first in-depth cultural analysis of the Catholic character of Catholic universities and colleges at a crucial time for these institutions. With new research

and practical applications, this book is an invaluable resource for Catholic educators and anyone concerned about the future of Catholic higher education.

Catholic University Education Today

The remarkable development of the Catholic university in the United States has raised issues about its continued identity, its promise, and its academic constituents. Michael J. Buckley, SJ, explores these questions, especially as they have been experienced in Jesuit history and contemporary commitments. The fundamental proposition that grounds the Catholic university, Buckley argues, is that the academic and the religious are intrinsically related. Academic inquiry encourages a process of questioning that leads naturally to issues of ultimate significance, while the experience of faith is towards the understanding of itself and of its relationship to every other dimension of human life. This mutual involvement requires a union between faith and culture that defines the purposes of Catholic higher education. In their earliest and normative documents, Jesuit universities have been encouraged to achieve this integration through the central role given to theology. Buckley explores two commitments that implicate contemporary Catholic universities in controversy: an insistence upon open, free discussion and academic pluralism—to the objections of some in the Church; and an education in the promotion of justice—to the objections of some in the academy. Finally, to strengthen philosophical and theological studies, Buckley suggests both a "philosophical grammar" that would discover and study the assumptions and methods involved in the various forms of disciplined human inquiry and a set of "theological arts" founded upon the more general liberal arts. Entering into the contemporary discussion about the Catholic university, this book offers inspiring and thought-provoking ideas for those engaged in Catholic higher education.

In November 1999, the bishops approved Pope John Paul II's document, *Ex corde ecclesiae*, this Application endorsed a juridical instrument, the Mandatum, that Catholic theologians at Catholic universities and colleges are to obtain from their local bishop. The Catholic Theological Society of America created an ad hoc committee to develop both a statement on the mandatum and a set of procedures for its implementation to be offered by the bishops.

Responding to the signs of the time, this book brings the lens of Catholic social thought (CST) to the enterprise of Catholic higher education in the United States. Scandals in the Church and the growth of religious non-affiliation in the culture have made being Catholic greatly challenging for Catholic colleges and universities, at the same time that the economics of higher education have mounted a challenge to the very viability of many institutions. This book throws light on what Catholic colleges and universities might and must do in order both to preserve their mission and renew it for the future. CST is concerned with the right ordering of social institutions, or in other words the systems in which individuals live and work. CST is accordingly relevant not only to the internal dynamics and structures of Catholic colleges and universities, but to the system of U.S. higher education in which individual colleges and universities operate. This edited volume, consisting of high-quality chapters by authors with disciplinary expertise, deploys the resources of CST to shed light on both internal and external challenges to, opportunities for, and obligations on institutions of Catholic higher education in the U.S. context.

Faith and Secularisation in Religious Colleges and Universities

Catholic Universities in Church and Society

Catholic Higher Education in the 1960s is a series of cases that describes and analyzes the transitions made by representative Catholic institutions in their attempts to update their governance structures and maintain their Catholic identity in the midst of the post-Vatican II era. This book will be of interest to historians of education and Catholic education; to administrators and faculty in Catholic schools and in other religious-based institutions that seek to understand the dynamic of balancing their religious identity with their attempts at "reading the signs of the times."

A Twentieth-century Collision

Gravissimus Educationis: Golden Opportunities in American Catholic Education 50 Years after Vatican II reviews the development of American Catholic schools since the promulgation of Gravissimus Educationis, the only document on education produced by the Ecumenical Council known as Vatican II. This document literally translated as "The Importance of Education," addresses how extremely vital Catholic education, in particular, is in modern life. Cattaro and Russo also reflect on changes that have transpired since the Third Plenary Council of Baltimore of 1884. This council forever changed the shape of nonpublic education in the United States in its decree that all parishes in the United States were to construct Catholic schools for the education of children. This volume is also designed to benefit Catholic Educators in all at levels from primary to higher education. The chapters in this book, prepared by leading experts on various aspects of Catholic education or other forms of non-public education in the United States, provide a history as to the recent development on Catholic schools. Gravissimus Educationis: Golden Opportunities in American Catholic Education 50 Years after Vatican II provides the context of change and the current state of Catholic Schools in the United States and, in some sense, the global perspective. The scope of this book goes beyond the professional educator in Catholic Schools as it also address the stakeholders of Catholic education such as parents who are consumers, pastors, religious educators, and donors.

The Two Wings of Catholic Thought

Catholic colleges and universities have achieved a prestigious place in American higher education, but at the risk of losing their religious identity. This book confronts challenges facing all members of the college community, from presidents and trustees through the faculty and deans to student-life professionals, in making a renewed commitment to that mission. Developing the vision of Catholic higher education expressed in the Vatican statement *Ex Corde Ecclesiae*, these essays provide a framework for enhancing Catholic identity across the campus and in the curriculum. The contributors address significant aspects of the culture of Catholic higher education in order to prescribe the best practices that can help colleges and universities maintain their distinctive religious character and ethical vision.

The Intellectual Appeal of Catholicism & the Idea of a Catholic University

This volume contains essays on Catholic theology in the university.

Vatican II and New Thinking about Catholic Education

Being Catholic in a Changing World discusses the key issues surrounding Catholics in contemporary society. "Can I disagree with the Church and still remain a good Catholic?" and "What does it mean to be a Catholic in the post-9/11 world?" are some of the questions posed in this book.

The Miracle of Father Kapaun

Presents the life of the American Catholic priest who served as a chaplain in the Korean War, describing his heroic behavior as a prisoner of war which resulted in his being awarded the Medal of Honor posthumously in 2013.

A Shepherd in Combat Boots

Part biography of a wartime adventurer, part detective story, and part faith journey, this intriguing book from New York Times journalist and bestselling author Joe Drape takes us inside the modern-day process of the making of a saint. *The Saint Makers* chronicles the unlikely alliance between Father Hotze and Dr. Andrea Ambrosi, a country priest and a cosmopolitan Italian canon lawyer, as the two piece together the life of a long dead Korean War hero and military chaplain and fashion it into a case for eternal divinity. Joe Drape offers a front row seat to the Catholic Church's saint-making machinery-which, in many ways, has changed little in two thousand years-and examines how, or if, faith and science can co-exist. This rich and unique narrative leads from the plains of Kansas to the opulent halls of the Vatican, through brutal Korean War prison camps, and into the stories of two individuals, Avery Gerleman and Chase Kear, whose lives were threatened by illness and injury and whose family and friends prayed to Father Kapaun, sparking miraculous recoveries in the heart of America. Gerleman is now a nurse, and Kear works as a mechanic in the aerospace industry. Both remain devoted to Father Kapaun, whose opportunity for sainthood relies in their belief and medical charts. At a time when the church has faced severe scandal and damage, and the world is at the mercy of a pandemic, this is an uplifting story about a priest who continues to an example of goodness and faith. Ultimately, *The Saint Makers* is the story of a journey of faith -- for two priests separated by seventy years, for the two young athletes who were miraculously brought back to life with (or without) the intercession of the divine, as well as for readers -- and the author -- trying to understand and accept what makes a person truly worthy of the Congregation of Saints in the eyes of the Catholic Church.

A Saint Among Us

A comprehensive history of the Catholic Church from its beginnings in Jesus' ministry to its current status in an increasingly secular world.

The Grunt Padre

For nearly 200 years--standing alongside our heroic military men and women--have been heroic Catholic priests risking their lives to carry wounded soldiers to safety and to console, anoint, and absolve the dying. *Heroic Catholic Chaplains* spotlights the stories of these courageous, selfless, holy priests who volunteered to bring the Mass and the sacraments to American troops, while also offering them their friendship and spiritual counsel. In this book, you'll encounter... Father William Corby, who left his post at Notre Dame to serve the Irish Brigade during all four years of the Civil War; Father Francis Duffy, a World War I chaplain whose story became the subject of a Hollywood movie; Father Aloysius Schmitt, who, during the attack on Pearl Harbor, saved the lives of a dozen men before losing his own; Monsignor James O'Neill, who composed the famous "Weather Prayer" for General Patton,

an incident that would be immortalized in film, if not entirely accurately; Father Emil Kapaun, who, during months in a North Korean prison camp, worked tirelessly to save the lives and the souls of his fellow POWs (the process that could lead to Father Kapaun being declared a saint is underway); Father Vincent Capodanno, who was killed by the Viet Cong as he ran to help a wounded corpsman; And more! Heroic Catholic Chaplains brings to the fore the stories of remarkable priests, most of whom have been overlooked by both military and Catholic historians. Their sacrifice and courage are difficult to imagine. They served so that our servicemen and women would not be without comfort, or without a friend, or be deprived of the Mass and the sacraments; so they would not fall into despair. These chaplains deserve to be remembered, their stories told, and their memories honored. Heroic Catholic Chaplains spotlights the stories of these courageous, selfless, holy priests who volunteered to bring the Mass and the sacraments to American troops, while also offering them their friendship and spiritual counsel.

History of the Catholic Church

Mystery book on 'End Times' reappears. This marvelous book will show you how to read the signs of the times and prepare you to bear yourself as a Christian no matter what the future holds. "Reading this book was one of the greatest graces of my life " St. Therese of Lisieux

Heroic Catholic Chaplains

Fr. Augustine Tolton (1854-1897) was the first black priest in the United States. Born into a black Catholic slave family, Father Tolton conquered almost insurmountable odds to become a Catholic priest, and at his early death at 43, this pioneer black American priest left behind a shining legacy of holy service to God, the Church and his people. With the thorough scholarly research and inspirational writing by Sister Caroline Hemesath, the great legacy of this first black priest, and his courage in the face of incredible prejudice within the Church and society, will be a source of strength and hope for modern Christians who face persecution for their faith, especially black Catholics who still experience similar prejudices. In American history, many black people have achieved, against great odds, success and made distinct contributions to our society and their fellowman. But Father Tolton faced a different source of prejudice an opposition from within the Church, the one institution he should have been able to rely on for compassion and support. He endured many rebuffs, as a janitor spent long hours in the church chapel in prayer, and attended clandestine classes taught by friendly priests and nuns who saw in his eyes the bright spark of the love of God, devotion to the Church and a determination to serve his people. Denied theological training in America, these friends helped him to receive his priestly education, and ordination, in Rome. He later became the pastor of St. Monica's Church in Chicago and established a center at St. Monica's which was the focal point for the life of black Catholics in Chicago for 30 years. The author interviewed many people who knew Father Tolton personally, including St. Katharine Drexel, and presents a deeply inspiring portrait of a great American Catholic. Within this book are various illustrations and photographs.

The End of the Present World and the Mysteries of the Future Life

For thirty-one years, a monster terrorized the residents of Wichita, Kansas. A bloodthirsty serial killer, self-named "BTK"—for "bind them, torture them, kill them"—he slaughtered men, women, and children alike, eluding the police for decades while bragging of his grisly exploits to the media. The nation was shocked when the fiend who was finally apprehended turned out to be Dennis Rader—a friendly neighbor . . . a devoted husband . . . a helpful Boy Scout dad . . . the respected president of his church. Written by four award-winning crime reporters who covered the story for more than twenty years, Bind, Torture, Kill is the most intimate and complete account of the BTK nightmare told by the people who were there from the beginning. With newly released documents, evidence, and information—and with the full cooperation, for the very first time, of the Wichita Police Department's BTK Task Force—the authors have put all the pieces of the grisly puzzle into place, thanks to their unparalleled access to the families of the killer and his victims.

From Slave to Priest

Daring and devoted, Father Kapaun (pronounced Cape'n) gave his all for the men who were imprisoned with him in North Korea. "He saved my life," was the statement of hundreds who were dragged from the battlefield by him, who were nursed back to health, fed with the food he had "stolen," who were given the will to live and the hope of freedom by this kindly priest. All creeds, colors and classes shared in

the kindness and inspiration of this man of God. "100% man," "An inspiration," "A saint." No praise is too great from the men who were with him. Reading the story of Chaplain Kapaun will inspire you. At the time this book was originally published in 1954, The author, Father Arthur Tonne, had authored 22 books, mostly volumes of sermons and collections of stories for preaching and teaching. After five years of teaching, he organized and directed for thirteen years the Newman Club at Kansas State Teachers College, Emporia, where he gave more than 300 talks over radio station KTSW. He had preached missions and retreats in 22 states, and had spoken to numerous university, civic, and fraternal groups. As pastor of St. John Nepomucene, the Pilsen Catholic Church, the home parish of Chaplain Kapaun, he was in an ideal position to secure the material and background for this account of an outstanding patriot.

Bind, Torture, Kill

Kapaun's Battle is a powerful testament to the heroism of US Army Chaplain Emil Kapaun (Medal of Honor). The story follows him, from the start of the Korean War until his death as a Prisoner of War in a Communist Chinese Prison Camp in 1951, following the destruction of the 3rd Battalion, 8th Regiment of the US 1st Cavalry Division in November 1950. Written by Screenplay Writer Jess Gress, this is the story of a true American hero. This is the story of a young man, from a humble Kansas farming family, whose Catholic faith led him to the priesthood. Kapaun became an Army Chaplain in Southeast Asia during World War II and then a parish priest. He volunteered to return to the Army as tensions rose on the Korean Peninsula. It is the story of Father Emil Kapaun's selfless bravery and dedication to the men he ministered to during the Forgotten War. In 1993, Pope John Paul II declared Father Kapaun a Servant of God, the first stage on the path to canonization. In 2013, Kapaun posthumously received the Medal of Honor from President Obama for his actions in Korea. He was the ninth American military chaplain Medal of Honor recipient. Although this book is relevant to every freedom-loving American and indeed people worldwide, it is especially intended for the enlightenment of students in schools and universities, along with members of religious congregations and military personnel, to the incredible impacts that one humble, pious American can have on the lives of so many by sacrificing his for them.

The Story of Chaplain Kapaun, Patriot Priest of the Korean Conflict

This provocative account of the persecution of the Catholic Church in Mexico in the 1920s and 1930s tells the stories of eight pivotal players. The saints are now honored as martyrs by the Catholic Church, and the sinners were political and military leaders who were accomplices in the persecution. The saintly standouts are Anacleto González Flores, whose non-violent demonstrations ended with his death after a day of brutal torture; Archbishop Francisco Orozco y Jiménez, who ran his vast archdiocese from hiding while on the run from the Mexican government; Fr. Toribio Romo González, who was shot in his bed one morning simply for being a Catholic priest; and Fr. Miguel Pro, the famous Jesuit who kept slipping through the hands of the military police in Mexico City despite being on the "most wanted" list for sixteen months. The four sinners are Melchor Ocampo, the powerful politician who believed that Catholicism was the cause of Mexico's problems; President Plutarco Elías Calles, the fanatical atheist who brutally persecuted the Church; José Reyes Vega, the priest who ignored the orders of his archbishop and became a general in the Cristero army; and Tomás Garrido Canabal, a farmer-turned-politician who became known as the "Scourge of Tabasco". This cast of characters is presented in a compelling narrative of the Cristero War that engages the reader like a gripping novel while it unfolds a largely unknown chapter in the history of America.

Kapaun's Battle

"Chaplain (Lt.) Vincent R. Capodanno, 37, of New York City, wears no physical weapon of war. HIS ARMAMENT is faith - a basic, necessary and treasured attribute to the men around him." In the midst of the bloodshed and political rancor of the Vietnam War, the example of Servant of God, Father Vincent R. Capodanno, MM (1929-1967), stands out, for he was motivated neither by politics, nor by personal ambition, nor by military necessity. His was the dedication of Christ's priest to the Roman Catholic Church and to others, whether as a Maryknoll missionary in the mountains of Taiwan, as a high school teacher in Hong Kong, or as a chaplain in the United States armed forces to men on the battlefield, dying to self to bring Christ to his Marines. In their fear, despair and loneliness in the military camps, and in the mud and filth of the battlefield front lines, Father Capodanno was there, even to the point of perfectly imitating Christ by his personal self-sacrifice to save a man in the heat of battle in Vietnam on September 4, 1967. This is his story. "No one could risk his life and ultimately be killed to meet

the spiritual needs of the Marines if he or she did not believe in the promise of the Kingdom. Father Capodanno brought those unique gifts of the sacraments under fire, because his first concern was to dwell in the house of God forever. You and I want his life and death known, because we believe his example will invite others to stay awake, prepare for the day of the Lord, and be men and women for others. The celebration of the greatness of a figure gone before us is implicitly an invitation to imitate the virtues of that individual. Father Capodanno teaches us the value of commitment and belief. He invites us to give our all in the pursuit of our vocation which is the path the Lord has set for us to share in the joy of His Kingdom." -- His Excellency, the Most Reverend Timothy P. Broglio, J.C.D., Archbishop for the Military Services, USA, on the 50th anniversary of the death of Father Vincent R. Capodanno, MM, September 5, 2017

Saints and Sinners in the Cristero War

Do most men go to heaven? Do most Christians go to heaven? Redemptorist theologian Francis-Xavier Godts explores these questions in unprecedented depth, calling the saints and approved theologians to witness. Hundreds of quotations show that the Church's answer to them is a terrifying, resounding and unanimous negative. "Narrow is the way that leadeth to life and few there are that find it," is to be understood in its stark, literal truth. Fr. Godt's scholarly refutation of liberal opinions on the number of the saved will not tempt the reader to despair but inspire him to make ever more earnest efforts to shun sin and its occasions and live a life of serious fidelity to the teaching, law and example of Christ. This book changes lives!

The creation story stands as one of the most famous and familiar in Scripture. But, says best-selling author Robert Farrar Capon, most of us misconstrue it. The reason? We have fallen into the habit of reading Genesis the way we read all of Scripture - as a manual of religious instructions. To break this (bad) habit, Capon here offers a whimsical yet wonderfully fruitful approach - watching the Bible as a historical movie whose director is God. Though Capon does have fun with this concept, he's very serious about its liberating effects. "When you watch a movie," he says, "you never ask questions about whether the events depicted actually happened. Instead, you accept the history the director shows you on the screen." And, as Capon points out, we typically suspend judgment of a film until we've seen all of it, letting later scenes inform and enrich earlier ones. That, he says, is exactly how we need to see Genesis - as just the beginning of the whole movie of Scripture. Using this novel approach in "Genesis, the Movie," Capon develops a commentary of theological scope and depth on the first three chapters of Genesis. He gives every verse as it appears in the Hebrew, the Septuagint, and the Vulgate, as well as in the KJV, RSV, and NRSV versions of the Bible. Making extensive use of Augustine's

commentary on Genesis in his "Confessions" and "De Genesi ad Litteram," Capon also shows the interpretive freedom with which the church's fathers and mothers approached Scripture. This book is as much Capon the charming writer-teacher as it is Capon the scholar, characterized as it is by the conversational, entertaining style for which Capon is so well known. Enriched by Capon's signature wit, imaginative wisdom, and broad-ranging engagement of saints, poets, and religious thinkers across the centuries, "Genesis, the Movie" presents a remarkable new look at Scripture that will delight and challenge its many readers.

The Columbia Magazine

Michael O'Brien presents a thrilling apocalyptic novel about the condition of the Roman Catholic Church at the end of time. It explores the state of the modern world, and the strengths and weaknesses of the contemporary religious scene, by taking his central character, Father Elijah Schäfer, a Carmelite priest, on a secret mission for the Vatican which embroils him in a series of crises and subterfuges affecting the ultimate destiny of the Church. Father Elijah is a convert from Judaism, a survivor of the Holocaust, a man once powerful in Israel. For twenty years he has been "buried in the dark night of Carmel" on the mountain of the prophet Elijah. The Pope and the Cardinal Secretary of State call him out of obscurity and give him a task of the highest sensitivity: to penetrate into the inner circles of a man whom they believe may be the Antichrist. Their purpose: to call the Man of Sin to repentance, and thus to postpone the great tribulation long enough to preach the Gospel to the whole world. In this richly textured tale, Father Elijah crosses Europe and the Middle East, moves through the echelons of world power, meets saints and sinners, presidents, judges, mystics, embattled Catholic journalists, faithful priests and a conspiracy of traitors within the very House of God. This is an apocalypse in the old literary sense, but one that was written in the light of Christian revelation.

Drinking with the Saints (Deluxe)

Benedict XVI's retirement made news around the world, and changed the dynamics of the Catholic Church. The new pope, Francis I, has already brought a breath of fresh air into the papacy, the Vatican and the faith which has been beset by scandal in recent times. His humility, his charm, his concern for the poor, have captivated the world. But who is he? Pray For Me is the perfect, short introduction

to Francis' life and spiritual teachings. It will be of interest not only to committed Catholics but also to those of other faiths, and none, who follow world events and wish to be as well informed as possible.

Faith

Tens of millions of Christians live in China today, many of them leading double lives or in hiding from a government that relentlessly persecutes them. Bob Fu, whom the Wall Street Journal called "The pastor of China's underground railroad," is fighting to protect his fellow believers from persecution, imprisonment, and even death. God's Double Agent is his fascinating and riveting story. Bob Fu is indeed God's double agent. By day Fu worked as a full-time lecturer in a communist school; by night he pastored a house church and led an underground Bible school. This can't-put-it-down book chronicles Fu's conversion to Christianity, his arrest and imprisonment for starting an illegal house church, his harrowing escape, and his subsequent rise to prominence in the United States as an advocate for his brethren. God's Double Agent will inspire readers even as it challenges them to boldly proclaim and live out their faith in a world that is at times indifferent, and at other times murderously hostile, to those who spread the gospel.

From the heart of tornado alley, Smith takes us into the eye of America's most devastating storms and behind the scenes of some of the world's most renowned scientific institutions to uncover the relationship between mankind and the weather.

Pray for Me

What was the early Church like? Contrary to popular belief, Rod Bennett shows there is a reliable way to know. Four ancient Christian writers - four witnesses to early Christianity - left us an extensive body of documentation on this vital subject, and this book brings their fascinating testimony to life for modern believers. With all the power and drama of a gripping novel, this book is a journey of discovery of ancient and beautiful truths through the lives of four great saints of the early Church: Clement of Rome, Ignatius of Antioch, Justin Martyr, and Irenaeus of Lyons. "A treasure! The early Church and its teachings come to life in this story. Did the first Christians believe what you believe? Buy this book, read the words of the early Church Herself, and fall in love with the historic Church that Christ Himself founded." - David Currie, Author, Born Fundamentalist, Born Again Catholic "Rod Bennett has immersed himself in the fascinating writings of four early Fathers of the Church and has made the discovery from reading them that sincere and attentive readers of them ought to make. The author's imaginative account of these four great Church Fathers is not only an excellent introduction to their work; it is a convincing rendering of what the early Church must really have been like. This is an important new contribution to Christian apologetics." - Kenneth Whitehead, Author, One, Holy, Catholic and Apostolic

God's Double Agent

In 1957, at twenty-seven years old, Washington D.C. native Fr. Aloysius Schwartz asked to be sent to the saddest place in the world: South Korea in the wake of the Korean War. Now just a few months into his priesthood, he stepped off the train into a dystopian novel. Squatters with blank stares picked through hills of garbage. Paper-fleshed orphans lay on the streets like leftover war landmines. The scenes crushed him. Within fifteen years, he had changed the course of Korean history, founding and reforming orphanages, hospitals, hospices, clinics, schools, and the Sisters of Mary, a Korean religious order dedicated to the sickest of the sick and the poorest of the poor. He himself--like the Sisters--lived all the while in the same hard poverty as the people he served and loved. Yet Father Al prayed to be unknown. The reason you don't know about him is that he didn't want you to know. He was a very humble priest and servant of the poor. Kevin Wells tells the story of a different kind of American hero, an ordinary priest who stared down corruption, slander, persecution, and death for the sake of God's poor.

What Happened to American Prisoners of War in Korea

The Last 100 Yards: The Crucible of Close Combat in Large-Scale Combat Operations presents thirteen historical case studies of close combat operations from World War I through Operation Iraqi Freedom. This volume is a collection from the unique and deliberate perspective of the last 100 yards of ground combat. In today's Army, there are few leaders who have experienced multi-domain large-scale

ground combat against a near-peer or peer enemy first hand. This volume serves to augment military professionals' understanding of the realities of large-scale ground combat operations through the experiences of those who lived it.

Being a Catholic Hipster is all about an attitude—an attitude grounded in being part of a countercultural community of believers dedicated to something bigger than themselves in a world dominated by self-centeredness. It's about yearning to learn more about the faith by seeking out "Catholic cool"—overlooked saints, forgotten prayers and feast days, and traditional practices long set aside by mainstream believers. The Catholic Hipster podcaster Tommy Tighe will help readers rediscover everything awesome about the Catholic faith. The Catholic Hipster started out in 2014 with a little bit of fun—the Catholic Hipster of the Year contest—on Tighe's blog. But Twitter is where—in all its 140-character glory—that Tighe's "The Catholic Hipster" movement really took root. That's where a group of cool and funky countercultural Catholics gather to swap one-liners, hilarious hipster memes, and all things authentically Catholic. Tighe even met comedienne Jeannie Gaffigan, who wrote the foreword for *The Catholic Hipster Handbook*, on Twitter. She said what drew her to the feed was that Tighe was "an embarrassingly Catholic dude who knew he was embarrassingly Catholic and was not embarrassed by it" and that he was "not preachy or judgey or divisive." Catholic hipsters in a nutshell. Tighe and a group of hipster friends—including Sarah Vabulas, Anna Mitchell, Fr. Kyle Schnippel, and Lisa M. Hendey—explore the beautiful weirdness of the Catholic Church and invite others along for the journey. They share their love for extraordinary saints, offer up obscure prayers, provide short reflections on something quirky and Catholic they've rediscovered, and dare readers to put their faith into action with some cool and challenging practices they can do on their own. The Last 100 Yards

A BRACING ACCOUNT OF A WAR THAT IS EITHER MISUNDERSTOOD, FORGOTTEN, OR WILLFULLY IGNORED. For Americans, it was a discrete conflict lasting from 1950 to 1953. But for the Asian world the Korean War was a generations-long struggle that still haunts contemporary events. With access to new evidence and secret materials from both here and abroad, including an archive of captured North Korean documents, Bruce Cumings reveals the war as it was actually fought. He describes its origin as a civil war, preordained long before the first shots were fired in June 1950 by lingering fury over Japan's occupation of Korea from 1910 to 1945. Cumings then shares the neglected history of America's post-World War II occupation of Korea, reveals untold stories of bloody insurgencies and rebellions, and tells of the United States officially entering the action on the side of the South, exposing as never before the appalling massacres and atrocities committed on all sides. Elegantly written and blisteringly honest, *The Korean War* is, like the war it illuminates, brief, devastating, and essential. Praise for *The Korean War* "A powerful revisionist history . . . a sobering corrective."—*The New York Times* "Worth reading . . . This work raises the question of what Korea can tell us about the outlook for Iraq and Afghanistan."—*Financial Times* "Well-sourced [and] elegantly presented."—*The Wall Street Journal*

The Catholic Hipster Handbook

Innocent! That final verdict came after George Cardinal Pell endured a gruelling four years of accusations, investigations, trials, public humiliations, and more than a year of imprisonment after being convicted by an Australian court of a crime he did not commit. Led off to jail in handcuffs, following his sentencing on March 13, 2019, the 78-year-old Australian prelate began what was meant to be six years in jail for historical sexual assault offenses. Cardinal Pell endured more than thirteen months in solitary confinement, before the Australian High Court voted 7-0 to overturn his original convictions. His victory over injustice was not just personal, but one for the entire Catholic Church. Bearing no ill will toward his accusers, judges, prison workers, journalists, and those harbouring and expressing hatred for him, the cardinal used his time in prison as a kind of extended retreat. He eloquently filled notebook pages with his spiritual insights, prison experiences, and personal reflections on current events both inside and outside the Church, as well as moving prayers. In this third and final volume, Cardinal Pell's conviction is overturned by Australia's High Court, and he is released from prison. As his appeal draws near, he grows in confidence that his case is strong and that his vindication is important not only for his own sake and the Church's sake, but also for the sake of Australia's legal system. While continuing his daily readings and devotions, and receiving hundreds of letters with offers of prayers and sacrifices on his behalf, the cardinal ponders the meaning of suffering in the life of the Christian, and he determines to accept with equanimity whatever outcome lies ahead.

The Life of the Blessed Virgin Mary

"You mean sixty-one seconds. You said sixty-one minutes, but you mean a little over one minute." "No," I said. "He didn't have a pulse for over an hour." After a healthy pregnancy, on September 16, 2010, Bonnie L. Engstrom delivered a stillborn baby boy. After sixty-one minutes, just when the doctors were going to call a time of death, James Fulton's heart began to beat. In that sixty-one minutes, the Engstrom's been asking for and counting on the powerful intercession of James's namesake: Archbishop Fulton J. Sheen. That James was alive at all was a miracle. But the rest of the story is even more amazing. While the Engstroms were preparing for their little boy to grow up blind, unable to walk or talk, and be fed by a tube for the rest of his life, another miracle occurred. Against all medical odds, James not only survived, but he began — and continues — to thrive. In 2014, medical experts and theological advisors to the Congregation for the Causes of Saints unanimously approved the miracle. This amazing true story, full of weakness and strength, heartbreak and celebration, hope and joy, teaches us that through our faith in Christ and the prayers of the great cloud of witnesses, miracles are possible. "Believe the incredible, and you can do the impossible." – Venerable Archbishop Fulton J. Sheen
