History of Bengali Literature

Excerpt from History of Bengali Literature: In the Nineteenth Century 1800-1825 To a mere literary taster; but even in this seemingly dullest period of our literary history, there is much more than is ever dreamt of in the philosophy of the airy generaliser who hurries over it to pastures more agreeable. It is the silent but strenuous efforts of the hosts of forgotten or half-forgotten writers, both foreign and native, of this and later periods that have built up the whole fabric upon which the present-day literature is based but it has always been the misfortune of the worthy pioneer authors to be kept in the background and looked upon as notable curiosities. It is time, however, when their records are fast vanishing and in a few years will be irretrievably lost, that we must hasten to estimate their work and worth, reconstruct their history, and give them their respective share of credit in the growth and progress of the national mind. History of Bengali Literature in the Nineteenth Century, 1800-1825

History of Bengali literature; includes an anthology of Bengali prose and poems translated into English by Lila Ray.

History of Bengali Literature

Art, literature, music and other intellectual expressions of a particular society are together regarded as the culture of that society. Ideas, customs and social behaviour of a particular people or society are also its 'culture'. Contrary to what we think, it is not easy to describe 'culture', nor is it easy to write the cultural history. Writing the history of Bengali culture is even more difficult because Bengali society is truly plural in its nature, made even more so by its political division. The two main religious communities that share this culture are often more aware of the differences between them than the similarities. Nonetheless, the people remain bound by history and a shared language and literature. Ghulam Murshid's Bengali Culture over a Thousand Years is the first non-partisan and holistic discussion of Bengali culture. Written for the general reader, the language is simple and the style lucid. It shows how the individual ingredients of Bengali culture have evolved and found expression, in the context of political developments and how certain individuals have moulded culture. Above all, the book presents the identity and special qualities of Bengali culture. The book was originally published in Bengali in Dhaka in 2006. This is the first English translation.

The Literature of Bengal

The Historical Dictionary of the Bengalis provides an overview of the Bengalis across the world from the earliest Chalcolithic cultures to the present. This is done through a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 750 cross-referenced dictionary entries on politicians, educators and entrepreneurs, leaders of religious and secular institutions, writers, painters, actors and other cultural figures, and more generally, on the economy, education, political parties, religions, women and minorities, literature, art and architecture, music, cinema and other major sectors. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Bengalis.

Bengali Literature

"Bengali Literature" is a literary essay written by Bankim Chandra Chatterjee which denotes the body of writings in the Bengali language. The timeline of Bengali literature is divided into three periods: ancient (650-1200), medieval (1200-1800) and modern (after 1800). Chatterjee enlightens the story of the people of Bengali origin and their significance in the field of literature with a review of some writers that are worthy of acknowledgement among their peers.

Bengali Culture Over a Thousand Years

Excerpt from The Literature of Bengal: A Biographical and Critical History From the Earliest Times, Closing With a Review of Intellectual Progress Under British Rule in India About twenty years ago. I published in a local magazine a series of biographical and critical essays on Bengali writers, and they were published in a collected form under the disguise of a nom de plume in 1877. The publication did not receive much attention at the time, but it attracted the notice of that prince of Indian statisticians, Sir William Hunter. He embodied much of the information conveyed in my book in his valuable work on the Indian Empire, and he suggested that a more complete treatment of the subject should be attempted.' History of Bengali Language and Literature

This book reconstructs the history of print and publishing in colonial Bengal by tracing the unexpected journey of Bharat Chandra's Bidyasundar, the first Bengali book published by an entrepreneur. The introduction of printing technology by the British in Bengal expanded the scope of publication and consumption of books significantly. This book looks at the developments and the parallel publishing initiatives of that time. It examines local enterprises in colonial Bengal engaged in producing and selling books and explores the ways in which they charted out a cultural space in the 19th century. The work sheds fresh light on book production and the culture of print, and narrates the processes behind the printing of books to understand the multi-layered literary practices they sustained. A valuable addition to the history of publishing in India, this book will be useful to scholars and researchers of South Asian and Indian history, English literature, Bengali literature, media and cultural studies, print and publishing studies, and South Asian studies. It will also appeal to those interested in the history of Bengal and the Bengali diaspora.

Study on 'Can ĒmaEgala', 16th century narrative verse by Mukunda R m Cakravart+ and contemporary Bengal, India.

The Folk Literature of Bengal

This volume forms a part of the Critical Discourses in South Asia series which deals with schools, movements, and discursive practices in major South Asian languages. It offers crucial insights into the making of Bengali or Bangla literature and its critical tradition across a century. The book brings together English translation of major writings of influential figures dealing with literary criticism and theory, aesthetic and performative traditions, and reinterpretations of primary concepts and categories in Bangla. It presents 32 key texts in literary and cultural studies from Bengal from the middle of the 19th to that of the 20th century, with most of them translated for the first time into English. These seminal essays are linked with socio-historical events and phenomena in the colonial and post-independence period in Bengal, including the background to the Language Movement in Bangladesh. They discuss themes such as integrative aesthetic visions, poetic and literary forms, modernism, imagination, power structures and social struggles, ideological values, cultural renovations, and humanism. Comprehensive and authoritative, this volume offers an overview of the history of critical thought in Bangla literature in South Asia. It will be essential for scholars and researchers of Bengali/Bangla language and literature, literary criticism, literary theory, comparative literature, Indian literature, cultural studies, art and aesthetics, performance studies, history, sociology, regional studies, and South Asian studies. It will also interest the Bengali-speaking diaspora and those working on the intellectual history of Bengal and conservation of languages and culture

Bengal; Literature and History

In the popular imagination, Calcutta is a packed and pestilential sprawl, made notorious by the Black Hole and the works of Mother Teresa. Kipling called it a City of Dreadful Night, and a century later V.S. Naipaul, Gunter Grass and Louis Malle revived its hellish image. This is the place where the West first truly encountered the East. Founded in the 1690s by East India Company merchants beside the Hugli River, Calcutta grew into India's capital during the Raj and the second city of the British Empire. Named the City of Palaces for its neoclassical mansions, Calcutta was the city of Clive, Hastings, Macaulay and Curzon. It was also home to extraordinary Bengalis such as Rabindranath Tagore, the first Asian Nobel laureate, and Satyajit Ray, among the geniuses of world cinema. Above all, Calcutta (renamed Kolkata in 2001) is a city of extremes, where exquisite refinement rubs shoulders with coarse commercialism and political violence. Krishna Dutta explores these multiple paradoxes, giving personal insight into Calcutta's unique history and modern identity as reflected in its architecture, literature, cinema and music. CITY OF ARTISTS: Modern India's cultural capital; home city of

History of Modern Bengali Literature

India is changing at a rapid pace as it continues to move from its colonial past to its globalised future. This Companion offers a framework for understanding that change, and how modern cultural forms have emerged out of very different histories and traditions. The book provides accounts of literature, theatre, film, modern and popular art, music, television and food; it also explores in detail social divisions, customs, communications and daily life. In a series of engaging, erudite and occasionally moving essays the contributors, drawn from a variety of disciplines, examine not merely what constitutes modern Indian culture, but just how wide-ranging are the cultures that persist in the regions of India. This volume will help the reader understand the continuities and fissures within Indian culture and some of the conflicts arising from them. Throughout, what comes to the fore is the extraordinary richness and diversity of modern Indian culture.
