At the Crossroads

A founding father of modern Israel, Ahad Ha'am (1856-1927) was one of the shapers of the contemporary Zionist consciousness. His career spanned the era of Russian Jewry's nationalist awakening. During the last decade of the nineteenth century, he was the leading theorist of the Russian Zionist movement. Afterwards, he was overshadowed by Theodore Herzl, who imposed his own stamp on Zionism. With the failure of Herzl's diplomacy and his early death in 1904, Russian Zionists abandoned Herzl's priorities and gradually refashioned the program of the Zionist organization in their own image. More than anyone else, Ahad Ha'am provided the ideological authority for this shift. Until *At the Crossroads*, there were no up-to-date studies of Ahad Ha'am. This long-awaited collection includes 14 essays by internationally known scholars in modern Jewish history and literature. The essays range from studies of Ahad Ha'am as a literary stylist, his role in the revival of Hebrew, his political thought and activity, his debates with famous contemporaries about the Jewish future, and the reinterpretation of his ideas by his Zionist disciples. The overall picture presented by this book is a new image of Ahad Ha'am—far less Westernized and far more embedded in the nineteenth-century Jewish and Russian cultural milieu than was previously thought.

An incisive biography of the guiding intellectual presence - and chief internal critic - of Zionism, during the movement's formative years between the 1880s and the 1920s. Ahad Ha'am ('One of the People') was the pen name of Asher Ginzberg (1856-1927), a Russian Jew whose life intersected nearly every important trend and current in contemporary Jewry. His influence extended to figures as varied as the scholar of mysticism Gershom Scholem, the Hebrew poet Hayyim Nahman Bialik, and the historian Simon Dubnow. Theodor Herzl may have been the political leader of the Zionist movement, but Ahad Ha'am exerted a rare, perhaps unequalled, authority within Jewish culture through his writings. Ahad Ha'am was a Hebrew essayist of extraordinary knowledge and skill, a public intellectual who spoke with refreshing (and also, according to many, exasperating) candour on every controversial issue of the day. He was the first Zionist to call attention to the issue of Palestinian Arabs. He was a critic of the use of aggression as a tool in advancing Jewish nationalism and a foe of clericalism in Jewish public life. His analysis of the prehistory of Israeli political culture was incisive and prescient. Steven J. Zipperstein offers all those interested in contemporary Jewry, in Zionism, and in the ambiguities of modern nationalism a wide-ranging, perceptive reassessment of Ahad Ha'am's life against the back-drop of his contentious political world. This influential figure comes to life in a penetrating and engaging examination of his relations with his father, with Herzl, and with his devotees and opponents alike. Zipperstein explores the tensions of a man continually torn between sublimation and self-revelation, between detachment and deep commitment to his people, between irony and lyricism, between the inspiration of his study and the excitement of the streets. As a Zionist intellectual, Ahad Ha'am rejected both xenophobia and assimilation, seeking for the Jews a usable past and a plausible future.

Ahad Ha-Am

"Nietzsche's ideas were widely disseminated among and appropriated by the first Hebrew Zionist writers and leaders. It seems quite appropriate, then, that the first Zionist Congress was held in Basle, where Nietzsche spent several years as a professor of classical philology. This coincidence gains profound significance when we see Nietzsche's impact on the first Zionist leaders and writers in Europe as well as his presence in Palestine and, later, in the State of Israel."—from the Introduction
The early Zionists were deeply concerned with the authenticity of the modern Jew qua person and with the content and direction of the reawakening Hebrew culture. Nietzsche too was propagating his highest ideal of a personal authenticity. Yet the affinities in their thought, and the formative impact of Nietzsche on the first leaders and writers of the Zionist movement, have attracted very little attention from intellectual historians. Indeed, the antisemitic uses to which Nietzsche's thought was turned after his death have led most commentators to assume the philosopher's antipathy to Jewish aspirations. Jacob Golomb proposes a Nietzsche whose sympathies overturn such preconceptions and details for the first time how Nietzsche's philosophy inspired Zionist leaders, ideologues, and writers to create a modern Hebrew culture. Golomb cites Ahad Ha'am, Micha Josef Berdichevski, Martin Buber, Theodor Herzl, Max Nordau, and Hillel Zeitlin as examples of Zionists who "dared to look into Nietzsche's abyss." This book tells us what they found.

Kaplan, who died in 1983 at the age of 102, arrived in America as a boy, and, as he grew, sought to find ways of making Judaism compatible with the American experience and the modern temper. He founded the Jewish Center and the Society for the Advancement of Judaism, establishing the prototypes for the modern expanded synagogue. This biography reappraises the significance of his contributions and offers an intimate look at the man and his thinking. Annotation copyright by Book News, Inc., Portland, OR

Judaism Faces the Twentieth Century

How do you know when someone or something is really, authentically Jewish? This book argues that what is authentically Jewish is continually changing in response to historical and cultural developments, the shifting attributions of meaning that individuals make, and the negotiations that occur as different groups struggle for recognition.

Authentically Jewish

Berkowitz shows that interpretation of Leviticus 18:3 provides an essential backdrop for today's conversations about Jewish assimilation and minority identity.

Defining Jewish Difference

The Reader's Guide to Judaism is a survey of English-language translations of the most important primary texts in the Jewish tradition. The field is assessed in some 470 essays discussing individuals (Martin Buber, Gluckel of Hameln), literature (Genesis, Ladino Literature), thought and beliefs (Holiness, Bioethics), practice (Dietary Laws, Passover), history (Venice, Baghdadi Jews of India), and arts and material culture (Synagogue Architecture, Costume). The emphasis is on Judaism, rather than on Jewish studies more broadly.

Reader's Guide to Judaism

This book is a comprehensive examination into the shifting international thought of Alfred Zimmern, a Grecophile intellectual, one of the most prominent liberal internationalists and the world's first professor of IR. Identifying the writings of Burke and cultural Zionism as two important ideological sources that defined his project for empire and global order, this book argues that Zimmern can best be understood as an apostle of Commonwealth. It shows that while his proposals changed from cosmopolitan democracy to Euro-Atlanticism and to world federal government, they were constantly shaped by the organizing principles of a professedly universal British Commonwealth. It was the empire transhistorically chained to classical Athens.

The International Thought of Alfred Zimmern

Since the mid-1700s, poets and scholars have been deeply entangled in the project of reinventing prophecy. Moving between literary and biblical studies, this book reveals how Romantic poetry is linked to modern biblical scholarship's development. On the one hand, scholars, intellectuals, and artists discovered models of strong prophecy in biblical texts, shoring up aesthetic and nationalist ideals, while on the other, poets drew upon a counter-tradition of destabilizing, indeterminate, weak prophetic power. Yosefa Raz considers British and German Romanticism alongside their margins, incorporating Hebrew literature written at the turn of the twentieth century in the Russia Empire. Ultimately she explains the weakness of modern poet-prophets not only as a crisis of secularism but also, strikingly, as part of the instability of the biblical text itself. The Poetics of Prophecy

Volume Three, The Crisis of Humanism, commences with an important essay on the challenge to the humanist tradition posed in the late 19th century by historical materialism, existentialism and positivism. These Jewish thinkers of the late 19th and early 20th century addressed the general European value crisis while laying foundations for Jewish renewal: Hess, Lazarus, Cohen, Ahad Ha-Am, Dubnow, Berdiczewski, and the theorists of Yiddishism and Labor Zionism.

A History of Modern Jewish Religious Philosophy

Highlighting well-known Jewish thinkers from a very wide spectrum of opinion, the author addresses a range of issues, including: What makes a thinker Jewish? What makes modern Jewish thought modern? How have secular Jews integrated Jewish traditional thought with agnosticism? What do Orthodox thinkers have to teach non-Orthodox Jews and vice versa? Each chapter includes a short, judiciously chosen selection from the given author, along with questions to guide the reader through the material. Short biographical essays at the end of each chapter offer the reader recommendations for further readings and provide the low-down on which books are worth the reader's while. Introduction to Modern Jewish Thinkers represents a decade of the author's experience teaching students ranging from undergraduate age to their seventies. This is an ideal textbook for undergraduate classes.

An Introduction to Modern Jewish Thinkers

"An original and brilliant thesis, exposing a long misunderstood figure. A great book." -- Bernard Avishai "Excellent... a highly revealing portrait that demolishes Herzl-the-icon." -- Michael Marrus "Other biographers... have illuminated aspects of [Herzl's] life, but none has been able to produce the kind of

intellectual biography that we have here. Jacques Kornberg has done an admirable job of plumbing the depths of Herzl's mind to try to come to an understanding of just why he became a Zionist and why he was literally consumed with promoting Zionist goals." -- Cithara "With compassion and critical balance, placing his subject well within his Austrian milieu, Kornberg analyzes Herzl's rhetoric, tergiversations, and profound ambivalence over his politics and identity." -- Choice "... a masterful display of the sources..." -- American Historical Review "... stimulating, provocative and agreeably iconoclastic... powerful and compelling." -- German History A novel and provocative explanation of Theodor Herzl's founding of Zionism as a way of resolving his personal crisis over his Jewish identity.

Words of Fire

Is Judaism a religion, a culture, a nationality - or a mixture of all of these? This title tells the story of how Judaism came to be defined as a religion in the modern period - and why Jewish thinkers have fought as well as championed this idea.

Theodor Herzl

An illuminating look at an understudied, but critical, period in Buber's early career. Martin Buber (1878–1965) has had a tremendous impact on the development of Jewish thought as a highly influential figure in 20th-century philosophy and theology. However, most of his key publications appeared during the last forty years of his life and little is known of the formative period in which he was searching for, and finding, the answers to crucial dilemmas affecting Jews and Germans alike. Now available in paperback, Martin Buber's *Formative Years* illuminates this critical period in which the seeds were planted for all of his subsequent work. During the period from 1897 to 1909, Buber's keen sense of the crisis of humanity, his intimate knowledge of German culture and Jewish sources, and his fearlessness in the face of possible ridicule challenged him to behave in a manner so outrageous and so contrary to German-Jewish tradition that he actually achieved a transformation of himself and those close to him. Calling on spiritual giants of great historical periods in German, Christian, and Jewish history—such as Nicolas of Cusa, Jakob Boehme, Israel Baal Shem Tov, Rabbi Nachman of Breslov, Johann Wolfgang von Goethe, and Friedrich Nietzsche—Buber proceeded to subvert the existing order by turning his upside-down world of slave morality right side up once more. By examining the multitude of disparate sources that Buber turned to for inspiration, Gilya Gerda Schmidt elucidates Buber's creative genius and his contribution to turn-of-the-century Jewish renewal. This comprehensive study concludes that Buber was successful in creating the German-Jewish symbiosis that emancipation was to have created for the two peoples but that this synthesis was tragic because it came too late for practical application by Jews in Germany.

How Judaism Became a Religion

The discovery of America and its further development into a modern state and a nation are the clear instance of how ideology and rhetoric are entwined and how they can encompass widely disparate viewpoints. The essays collected in this book address the topical issues of modern American Studies: cultural difference and otherness; gender, race and ethnicity; class and power. They represent new texts and contexts, approached through the revision, reevaluation, and reconfiguration of canons, thus accommodating the expectations of the heterodox audience. Femininity reconsidered; an ideology of passing away in contemporary world of technical development; race captured within the framework of identity and gender; the rhetoric of blackness approached through racial exploitation; American conquest ideology revealed in a mission of Manifest Destiny; the 20th century assimilation rhetoric in the relations between Native Americans and the US federal government; the conservative ideology and apologetic rhetoric of the Antebellum South; the critique of the 21st century American legal system; the evolution of the presidential rhetoric which today addresses a large heterogeneous audience – all these topics impose a transnational interpretation of American culture which developed as a result of the cross-cultural transformation of European culture/cultures, moulded on American soil to finally become a unique reformulation of the very idea of America itself.

Martin Buber's Formative Years

Pioneering biblical critic, theorist of democracy, and legendary conflator of God and nature, Jewish philosopher Baruch Spinoza (1632-1677) was excommunicated by the Sephardic Jews of Amsterdam in 1656 for his "horrible heresies" and "monstrous deeds." Yet, over the past three centuries, Spinoza's rupture with traditional Jewish beliefs and practices has elevated him to a prominent place

in genealogies of Jewish modernity. The First Modern Jew provides a riveting look at how Spinoza went from being one of Judaism's most notorious outcasts to one of its most celebrated, if still highly controversial, cultural icons, and a powerful and protean symbol of the first modern secular Jew. Ranging from Amsterdam to Palestine and back again to Europe, the book chronicles Spinoza's posthumous odyssey from marginalized heretic to hero, the exemplar of a whole host of Jewish identities, including cosmopolitan, nationalist, reformist, and rejectionist. Daniel Schwartz shows that in fashioning Spinoza into "the first modern Jew," generations of Jewish intellectuals--German liberals, East European maskilim, secular Zionists, and Yiddishists--have projected their own dilemmas of identity onto him, reshaping the Amsterdam thinker in their own image. The many afterlives of Spinoza are a kind of looking glass into the struggles of Jewish writers over where to draw the boundaries of Jewishness and whether a secular Jewish identity is indeed possible. Cumulatively, these afterlives offer a kaleidoscopic view of modern Jewish culture and a vivid history of an obsession with Spinoza that continues to this day.

Ideology and Rhetoric

The German language holds an ambivalent and controversial place in the modern history of European Jews, representing different--often conflicting--historical currents. It was the language of the German classics, of German Jewish writers and scientists, of Central European Jewish culture, and of Herzl and the Zionist movement. But it was also the language of Hitler, Goebbels, and the German guards in Nazi concentration camps. The crucial role of German in the formation of Jewish national culture and politics in the late nineteenth century has been largely overshadowed by the catastrophic events that befell Jews under Nazi rule. *German as a Jewish Problem* tells the Jewish history of the German language, focusing on Jewish national movements in Central and Eastern Europe and Palestine/Israel. Marc Volovici considers key writers and activists whose work reflected the multilingual nature of the Jewish national sphere and the centrality of the German language within it, and argues that it is impossible to understand the histories of modern Hebrew and Yiddish without situating them in relation to German. This book offers a new understanding of the language problem in modern Jewish history, turning to German to illuminate the questions and dilemmas that largely defined the experience of European Jews in the age of nationalism.

Zionism and Religion

"The choice we have is not between reasonable proposals and an unreasonable utopianism. Utopian thinking does not undermine or discount real reforms. Indeed, it is almost the opposite: practical reforms depend on utopian dreaming."--Russell Jacoby, *Picture Imperfect* Utopianism suffers from an image problem: A recent exhibition on utopias in Paris and New York included photographs of Hitler's *Mein Kampf* and a Nazi concentration camp. Many observers judge utopians and their sympathizers as foolhardy dreamers at best and murderous totalitarians at worst. However, as noted social critic and historian Russell Jacoby argues in this salient, polemical, and innovative work, not only has utopianism been unfairly characterized, a return to an iconoclastic utopian spirit is vital for today's society. Shaped by the works of Theodor Adorno, Walter Benjamin, Ernst Bloch, Gustav Landauer, and other predominantly Jewish thinkers, iconoclastic utopianism revives society's dormant political imagination and offers hope for a better future. Writing against the grain of history, Jacoby reexamines the anti-utopian mindset and identifies how utopian thought came to be regarded with such suspicion. He challenges standard readings of such anti-utopian classics as *1984* and *Brave New World* and offers stinging critiques of the influential liberal and anti-utopian theorists Hannah Arendt, Isaiah Berlin, and Karl Popper. He argues that these thinkers mistakenly equate utopianism with totalitarianism. The reputation of utopian thought has also suffered from the failures of, what Jacoby terms, the blueprint utopian tradition and its oppressive emphasis on detailing all aspects of society and providing fantastic images of the future. In contrast, the iconoclastic utopians, like those who follow God's prohibition against graven images, resist both the blueprinters' obsession with detail and the modern seduction

of images. Jacoby suggests that by learning from the hopeful spirit of iconoclastic utopians and their willingness to accept new possibilities for society, we open ourselves to new and more imaginative ideas of the future.

Selected Essays by Ahad Ha'am

Visions of the Holy is a collection of essays by Marvin A. Sweeney on the study of biblical and postbiblical theology and literature. The volume includes previously published and unpublished essays related to the developing field of Jewish biblical theology; historical, comparative, and reception-critical studies; and the reading of texts from the Pentateuch, Former Prophets, Latter Prophets, and Ketuvim. Additional essays examine Asian biblical theology, the understanding of Shabbat, intertextuality in Exodus–Numbers, Samuel, Isaiah, and the Twelve in intertextual perspective, and the democratization of messianism in modern Jewish thought. The volume is an excellent resource for scholars, students, and clergy interested in theological readings of the Hebrew Bible.

Picture Imperfect

Offering a new perspective on Zionism, *Exiled in the Homeland* draws on memoirs, newspaper accounts, and archival material to examine closely the lives of the men and women who immigrated to Palestine in the early twentieth century. Rather than reducing these historic settlements to a single, unified theme, Donna Robinson Divine's research reveals an extraordinary spectrum of motivations and experiences among these populations. Though British rule and the yearning for a Jewish national home contributed to a foundation of solidarity, *Exiled in the Homeland* presents the many ways in which the message of emigration settled into the consciousness of the settlers. Considering the benefits and costs of their Zionist commitments, Divine explores a variety of motivations and outcomes, ranging from those newly arrived immigrants who harnessed their ambition for the goal of radical transformation to those who simply dreamed of living a better life. Also capturing the day-to-day experiences in families that faced scarce resources, as well as the British policies that shaped a variety of personal decisions on the part of the newcomers, *Exiled in the Homeland* provides new keys to understanding this pivotal chapter in Jewish history.

Visions of the Holy

This book examines how some modern and contemporary Jewish thinkers and writers have imagined a Judaism without the boundaries and restrictions that go by the name of "religion." The book offers scholarly insights into some Jewish thinkers—notably Martin Buber and Eugene Borowitz, some Jewish writers—in particular the poet Hayyim Nahman Bialik and the Yiddish author I.L. Peretz. The study also introduces more contemporary thinkers and writers such as the postmodernist Jacques Derrida, the contemporary Israeli novelist David Grossman, and the young Israeli poet Ilan Sheinfeld. While of scholarly interest, the ten chapter work has more general appeal as a way of conceiving Jewish living outside the restrictions of religion. One third of the book suggests a way of looking at God and theology as part of the process of living rather than as fixed realities. Another third explores how Jewish culture can be liberated from the restrictions of nationalism and parochialism. The final third focuses on a postmodern ethics of the self that emerges from face to face meetings with others. The author contends that the future Judaism has created will be pluralistic, diverse, and oriented toward the future.

Exiled in the Homeland

"An important and powerful work that speaks to Mordecai M. Kaplan's position as perhaps the most significant Jewish thinker of the twentieth century." (Deborah Dash Moore coeditor of *Gender and Jewish History*) Mordecai M. Kaplan, founder of the Jewish Reconstructionist movement, is the only rabbi to have been excommunicated by the Orthodox rabbinical establishment in America. Kaplan was indeed a radical, rejecting such fundamental Jewish beliefs as the concept of the chosen people and a supernatural God. Although he valued the Jewish community and was a committed Zionist, his primary concern was the spiritual fulfillment of the individual. Drawing on Kaplan's 27-volume diary, Mel Scult describes the development of Kaplan's radical theology in dialogue with the thinkers and writers who mattered to him most, from Spinoza to Emerson and from Ahad Ha-Am and Matthew Arnold to Felix Adler, John Dewey, and Abraham Joshua Heschel. This gracefully argued book, with its sensitive insights into the beliefs of a revolutionary Jewish thinker, makes a powerful contribution to modern Judaism and to contemporary American religious thought. "An interesting, stimulating, and well-done analysis of Kaplan's life and thought. All students of contemporary Jewish life will benefit from reading

this excellent study.” —Jewish Media Review “The book is highly readable at times almost colloquial in its language and style and is recommended for anybody with a familiarity with Kaplan but who wants to understand his thought within a broader context.” —AJL Reviews

Creating a Judaism Without Religion

This essential resource offers guidance for educators to expand the teaching repertoire on a range of issues in modern Jewish history, culture, religion, and Society.

The Radical American Judaism of Mordecai M. Kaplan

This book is about the theory and practice of assistance to speech-communities whose native languages are threatened because their intergenerational continuity is proceeding negatively, with fewer and fewer speakers (or readers, writers and even understanders) every generation.

The Modern Jewish Experience

The book is divided into three sections. The first provides a general historical overview for the Jewish thought that follows. The second summarizes the variety of basic kinds of popular, positive Jewish commitment in the twentieth century. The third and major section summarizes the basic thought of those modern Jewish philosophers whose thought is technically the best and/or the most influential in Jewish intellectual circles. The Jewish philosophers covered include Spinoza, Mendelssohn, Hermann Cohen, Martin Buber, Franz Rosenzweig, Mordecai Kaplan, and Emil Fackenheim. The text includes summaries and a selected bibliography of primary and secondary sources.

Reversing Language Shift

Alan Mintz (1947–2017) was a singular figure in the American Jewish literary landscape. In addition to publishing six authoritative books and numerous journal articles on modern and contemporary Jewish culture, Mintz contributed countless reviews and essays to literary journals, including the *New Republic*, the *New York Times Book Review*, and the *Jewish Review of Books*. Scattered in miscellaneous volumes and publications, these writings reveal aspects of Mintz’s scholarly personality that are not evident in his monographs. *American Hebraist* collects fifteen of Mintz’s most insightful articles and essays. The topics range from the life and work of Nobel Prize winner S. Y. Agnon—including a chapter from Mintz’s unfinished literary biography of that author—to Jewish and Israeli literature, the Holocaust, and a rare autobiographical essay. The chapters are introduced and contextualized by Mintz’s longtime colleague and friend David Stern, who opens the book by tracing the arc of Mintz’s intellectual career; the volume concludes with a personal essay and remembrance written by Beverly Bailis, the last student to complete a doctorate under Mintz’s direction. Brimming with erudition and intriguing biographical notes, *American Hebraist* provides new insights into the life and work of one of the twentieth century’s most important scholars of modern Hebrew literature. Students and scholars alike will benefit from this essential companion to Mintz’s scholarship.

An Introduction to Modern Jewish Philosophy

Martin Buber’s embrace of Hasidism at the start of the twentieth century was instrumental to the revival of this popular form of Jewish mysticism. Hoping to instigate a Jewish cultural and spiritual renaissance, he published a series of anthologies of Hasidic teachings written in German to introduce the tradition to a wide audience. In *Aesthetics of Renewal*, Martina Urban closely analyzes Buber’s writings and sources to explore his interpretation of Hasidic spirituality as a form of cultural criticism. For Buber, Hasidic legends and teachings were not a static, canonical body of knowledge, but were dynamic and open to continuous reinterpretation. Urban argues that this representation of Hasidism was essential to the Zionist effort to restore a sense of unity across the Jewish diaspora as purely religious traditions weakened—and that Buber’s anthologies in turn played a vital part in the broad movement to use cultural memory as a means to reconstruct a collective identity for Jews. As Urban unravels the rich layers of Buber’s vision of Hasidism in this insightful book, he emerges as one of the preeminent thinkers on the place of religion in modern culture.

Geography of Hope

This collection of essays examines the politicization and the politics of the Jewish people in the Russian empire during the late tsarist period. The focal point is the Russian revolution of 1905, when the political mobilization of the Jewish youth took on massive proportions, producing a cohort of radicalized activists - committed to socialism, nationalism, or both - who would exert an extraordinary influence on Jewish history in the twentieth-century in Eastern Europe, the United States, and Palestine. Frankel describes the dynamics of 1905 and the leading role of the intelligentsia as revolutionaries, ideologues, and observers. But, elsewhere, he also looks backwards to the emergent stage of modern Jewish politics in both Russia and the West and forward to the part played by the veterans of 1905 in Palestine and the United States.

Jewish Materialism

For nearly half a century, until his death in October 1948, Judah Magnes occupied a singular place in Jewish public life. He won fame early as a preacher and communal leader, but abandoned these pursuits at the height of his influence for the roles of political dissenter and moral gadfly. During World War I he became an outspoken pacifist and supporter of radical causes. Settling permanently in Palestine in 1922, he was a founder and the first president of the Hebrew University. Increasingly, he viewed rapprochement with the Arabs as the practical and moral test of Zionism, and the formation of a bi-national state of Arabs and Jews became his chief political goal. His life interests thus focused on the core issues that confronted and still confront the Jewish people: group survival in democratic America, the direction and character of the return to Zion, and thereconciliation of universal ideals with Jewish aspirations and needs. Dissenter in Zion draws upon a rich corpus of private letters, personal journals, and diaries to offer a moving account of an eloquent and sensitive person grappling with the great questions of the day and of an activist striving to translate private moral feelings into public deeds through politics and diplomacy. We see Magnes disagreeing with Brandeis over the leadership and direction of American Zionism and with Weizmann and Ben-Gurion over ways to achieve peaceful relations with the Arabs; defending himself against charges by Einstein that he was mismanaging the affairs of the Hebrew University; and persistently negotiating with Arab leaders, trying to reach a compromise on the eve of the establishment of the State of Israel. Dissenter in Zion also contains a biographical essay on Magnes by Arthur Goren, assessing his ideas and motives and placing him in the context of his times. It shows Magnes's profundity without covering up his weaknesses, his lifelong tactic for courting repeated defeat in favor of long-term goals that could not come to pass in his lifetime.

Crisis, Revolution, and Russian Jews

Examining the entire span of Jewish history by focusing on thirty pivotal moments in the Jewish people's experience from biblical times through the present—essentially the most important events in the life of the Jewish people—Turning Points in Jewish History provides “the big picture”: both a broad and a deep understanding of the Jewish historical experience. Zeroing in on eight turning points in the biblical period, four in Hellenistic-Roman times, five in the Middle Ages, and thirteen in modernity, Marc J. Rosenstein elucidates each formative event with a focused history, a timeline, a primary text with commentary as an intimate window into the period, and a discussion of its legacy for subsequent generations. Along the way he candidly analyzes various controversies and schisms arising from Judaism's encounters with power, powerlessness, exile, messianism, rationalism, mysticism, catastrophe, modernity, nationalism, feminism, and more. The book's thirty distinct and logically connected events lend themselves to a full course or to customized classes on specific turning points. Discussion questions for every chapter (some in print, more online) facilitate reflection and continuing conversation.

He had been warned by an Ancient guardian to let her go, but a warrior needs to follow his heart and resist the dire warnings of spirits....

Christianity at the Crossroads

Christianity in contemporary America faces a major social crisis. We are in the midst of a great spiritual struggle between good and evil, truth and lies, peace and war, and social progress and social sin. At stake is nothing less than the soul of America and the future of humanity. Masters of deceit have, once again, hijacked Christianity in pursuit of perpetual power through war and lies. They will not succeed. This book helps explain why and how the gospel truth, when known and practiced, will set us free.

Christology at the Crossroads

What Gutierrez has done for overall theological understanding, what Segundo has done for theological method, and what Miranda has done for biblical studies, Jon Sobrino has now done for Christology; He has provided a substantial and enduring theological contribution from a Third World perspective. This book will have long life, since it not only argues for the necessity of a Christology 'from the underside of history, ' but offers an extensive example of how such a Christology should be constructed, showing the basic connection between the radical historicity of Jesus and the suffering and pain of oppressed people. The thoroughness of the author's survey of other positions, the fullness of his documentation,

and the pervasive power of his own affirmations make clear that 'Christology at the Crossroads' will not leave us stranded at the crossroads but will start us down exciting and demanding new paths. Robert McAfee Brown Professor of Ecumenics and World Christianity, Union Theological Seminary The publication of 'Christology at the Crossroads' in English is most opportune. It is not only the Christology presented in this book, but the Christology of the church at large (indeed of the churches) that stands at the crossroads at present. Those of us who have been working in this field know that in order to break through some deadlocked situations we need a Christology more soberly rooted in soteriology, more honestly founded upon the historical Jesus, and more realistically turned towards a future yet to be realized. Yet in the affluent and basically contented northern nations of the western world, this kind of Christology has not so far been written. To find it one must turn to the Third World theologians for the present, and among these Jon Sobrino's book is a landmark. Monika K. Hellwig Associate Professor of Theology, Georgetown University

Between Truth and Illusion

Truth, Cicovacki says, presupposes neither a dominance of subject or object, but their dynamic and reciprocal interactive relation. The absence of proper interactions leads to various forms of self-projections or illusions. Truth, by contract, exists in a harmonious interaction between its subjective and objective elements. Cicovacki thus locates the value of truth between traditional absolutist claims and contemporary relativism.

Christ at the Crossroads

Chuck Swindoll invites the reader to examine some of the crossroads in Jesus' own life and ministry with a view to equipping us to handle those life-changing decisions that come at the crossroads of every life.

Living at the Crossroads

How can Christians live faithfully at the crossroads of the story of Scripture and postmodern culture? In *Living at the Crossroads*, authors Michael Goheen and Craig Bartholomew explore this question as they provide a general introduction to Christian worldview. Ideal for both students and lay readers, *Living at the Crossroads* lays out a brief summary of the biblical story and the most fundamental beliefs of Scripture. The book tells the story of Western culture from the classical period to postmodernity. The authors then provide an analysis of how Christians live in the tension that exists at the intersection of the biblical and cultural stories, exploring the important implications in key areas of life, such as education, scholarship, economics, politics, and church.

Jesus: The Way, the Truth and the Life

Filmed on location in the Holy Land, *Jesus: the Way, the Truth, and the Life* is a new and fresh look at Jesus -- who he is, what he is really like, what he taught, and what he did for our salvation. This encounter with Christ will inspire and empower you to center your entire life around him as you come to know and love him in an ever-deeper and more intimate way.

The Crossroad

Life is a four-way crossroad with a stop sign to the left, one to the right and no sign going up to Heaven or where you are. Our struggles and hardships take us to that point in which we will have to make a choice on the direction in which we must travel. Our decision mold us into what we are but most important where we are to end. I try to live my life the best I can but only in Christ do I lay my trust and my life. You will encounter trials and struggles but God will provide the light so that you may find your way out. He will also provide the strength and encouragement for which we may stand. We must remember this trials and struggles are only bad or negative if we allow them to be. God utilizes these stops in our lives to draw us closer to him and to mold our character and personalities. The truth is, our struggles and trials are a blessing moments from God. Life don't have to be a struggle however life will give you struggle and God will give the way out of them. My life has shown me that if I try to control my destiny, I will fail however with God in control of my future, it's boundless and full of possibilities.

Crossroads of the Eternal

Not so long ago it was taken for granted that God exists. Today, there is a blindness to him even though he makes his presence known to all. The book begins by showing how better to recognize his presence and understand how he reveals himself to us. The next three chapters discuss how we move from an awareness of his presence to beginning to know him, and through a knowledge of him, begin to know what his purpose is for us and how our lives are shaped by that knowledge. Having seen how he reveals himself to us and how we know the world and see the world through different eyes, we then look at how to apply our new view in the face of a society that remains blind to this knowledge. Chapters 5-7 explore truth first from the standpoint of its existence, then in how to recognize its counterfeits, and finally to understand the consequences of its loss. Chapters 8-10 look at how and why being able to see God's hand in all aspects of life, and to center life on him by faith in his son Jesus Christ, completely changes life for the better. Non-Christians often hear this claim made by evangelists. If they ask why, too often the answer is in "Christian-speak" that is foreign to them. The intent is to bridge from the place where they are and explain how Christians have found peace in times of suffering, even joy in the most horrific circumstances, enabling them to give thanks in all things. In a sense, the book finishes where it started, by looking at who we truly are, what kind of world this is, and how God has made all into his glorious plan.

The Color of God in the Crossroads of War

This book is a faith-based, heartfelt exposition of the Bible truth. It investigates the translational environment of the leading English versions of the Bible and their guiding sources; the age of our universe; the color lineage of Jesus; the role of Africa in the life and ministry of Jesus Christ; and the invisible war at the crossroads of life. It interrogates the intrusions and fundamentality of racism in Christianity in a manner that is at once critical, engaging and persuasive. It shows how such problems stem from the different versions and translations of the holy book that have deliberately sought to present God and His only begotten son Jesus Christ in a Caucasian manner.

Switched at the Crossroads

Have you ever wondered about the quality of your life? Have you ever quested for the purpose of your life? Given the fact that you learn about your calling in life, and do you know how to get started or deal with your calling? Are you called to serve something bigger than yourself? If you have had these questions, you are not alone in the journey of this life. Do you feel your experiences are complicated and the problems you face are challenging? Life today is quite different, and recovering from setbacks is not always easy. The ability to find direction and purpose is equally difficult. You can't choose where and when you will be born and what kind of family you will have. However, you can choose your attitude and lifestyle to carry on with your life. We live in a time in which traditional beliefs have been attenuated, ridiculed, and mocked. Dealing with obstacles is stressful and overcoming diversity can be fearful, but not impossible. It is imperative that you are willing to move forward before you see how detrimental your life can become. Life would be better if you learn to listen to your inner voice and the Holy Spirit. When you follow your own heart, you can find passion and dream to redefine your purpose in life.

Life at the Crossroads

Debates about the existence of God persist but remain at an impasse between opposing answers. God at the Crossroads of Worldviews reframes the debate from a new perspective, characterizing the way these positions have been defined and defended not as wrong, per se, but rather as odd or awkward. Paul Chung begins with a general survey of the philosophical debate regarding the existence of God, particularly as the first cause, and how this involves a bewildering array of often-incommensurable positions that differ on the meaning of key concepts, criteria of justification, and even on where to start the discussion. According to Chung, these positions are in fact arguments both from and against larger, more comprehensive intellectual positions, which in turn comprise a set of rival "worldviews." Moreover, there is no neutral rationality completely independent of these worldviews and capable of resolving complex intellectual questions, such as that of the existence of God. Building from Alasdair MacIntyre's writings on rival intellectual traditions, Chung proposes that to argue about God, we must first stand at the "crossroads" of the different intellectual journeys of the particular rival worldviews in the debate, and that the "discovery" of such a crossroad itself constitutes an argument about the existence of God. Chung argues that this is what Thomas Aquinas accomplished in his Five Ways, which are often misunderstood as simple "proofs." From such crossroads, the debate may proceed toward a more fruitful exploration of the question of God's existence. Chung sketches out one such crossroad

by suggesting ways in which Christianity and scientific naturalism can begin a mutual dialogue from a different direction. *God at the Crossroads of Worldviews* will be read by philosophers of religion, advanced undergraduate and graduate students, and theologians and general readers interested in the new atheism debates.

The Crossroads

In this multi-faceted volume, Christian and other religiously committed theorists find themselves at an uneasy point in history -- between premodernity, modernity, and postmodernity -- where disciplines and methods, cultural and linguistic traditions, and religious commitments tangle and cross. Here, leading theorists explore the state of the art of the contemporary hermeneutical terrain. As they address the work of Gadamer, Ricoeur, and Derrida, the essays collected in this wide-ranging work engage key themes in philosophical hermeneutics, hermeneutics and religion, hermeneutics and the other arts, hermeneutics and literature, and hermeneutics and ethics. Readers will find lively exchanges and reflections that meet the intellectual and philosophical challenges posed by hermeneutics at the crossroads. Contributors are Bruce Ellis Benson, Christina Bieber Lake, John D. Caputo, Eduardo J. Echeverria, Benne Faber, Norman Lillegard, Roger Lundin, Brian McCrea, James K. A. Smith, Michael VanderWeele, Kevin Vanhoozer, and Nicholas Wolterstorff.

Hermeneutics at the Crossroads

We've lost our way, and God is calling us to return to Him. Every church walks a "path," comprised of methods, programs, worship styles, etc. The paths our churches travel may have served us well in the past, but they are losing their effectiveness with every passing day. Christian churches in America are facing the challenge of decline, yet many cling to their current paths expecting fresh results of revival and renewal. We are deceived and need direction. God told Israel through the prophet Jeremiah, This is what the LORD says: "Stand at the crossroads and look; ask for the ancient paths, ask where the good way is, and walk in it, and you will find rest for your souls. But you said, 'We will not walk in it'" (Jeremiah 6:16 NIV). Today, churches are standing at a crossroads. *The Crossroads* is a critical point of decision that can mean life and fruitfulness or death and extinction, depending on the choices we make today. Will we stay on the unfruitful paths, or will we seek God for the ancient paths of His choosing: Paths of Holy Spirit power and Kingdom purposes? At the crossroads, the choice must be made. *The Crossroads* points the way to the ancient paths of true Kingdom fruitfulness.

The Crossroads

Frustration with our political leaders is at an all-time high. The American people are at a loss as to why children are shooting their classmates. They can't understand why single-parent families are now the landscape of the land as divorce rates climb higher than 50 percent. They seem baffled for an explanation as to why kids are becoming addicts to sex, drugs, and alcohol. In "God's Truth or the Liberal Lie: American at the Crossroads," Shawn Smith gives brutally honest answers that illustrate how liberalism is destroying our country and our leaders and stealing the innocence of our children in the process. He exposes how our country's walk away from God is leading society down the path of judgment--like so many other advanced civilizations--and how the pattern has repeated itself countless times since that fateful day in the Garden of Eden. Smith's goal in writing this book was to give people sound biblical truth and help them find the God-given tools they possess to fight the spiritual battle that is being waged in the homes, boardrooms, schools, and political arenas of this country. Once a liberal who now calls himself a "Benedict Arnold of the best kind," Smith deftly exposes the hypocrisy, hatred, and intolerance in America's supposedly caring, compassionate, and tolerant movement while encouraging readers to take a stand against liberalism. He believes that if we do not turn back the satanic tide of humanism, relativism, and secularism that is sweeping our country today, there will be a steep price to pay for turning our backs on God.

God's Truth Or the Liberal Lie: American at the Crossroads

In this book, The Truth of Islam and Christianity, I present the truth and facts about both religions. When I stood at the crossroads of both religions, I viewed them without any biases. Dear earnest reader, I leave the choice to you to discern and decide which way is better for your destiny. I request you to understand the truth and recognize it. While you are reading you will hear a still and soft voice to which you have to yield. Then only you will be benefited. May peace be upon you while you read this book!

The Truth of Islam and Christianity

From one of the most distinctive and perceptive voices in the Church come answers to the most pressing questions of faith in our day. With his trademark wit and wisdom, Fr. George Rutler here highlights twenty Catholic teachings that are essential to living an authentic Christian life, showing how the Church's perennial wisdom can remedy the gravest ills of our time. Fr. Rutler gracefully tackles a wide range of topics, from the importance of avoiding mediocrity to the role of mothers in passing down tradition. The topics are many, but all serve a common purpose: to show how we can understand and live the Faith in this culture that daily drifts further from the truth. Relying on his decades of experience as a pastor, Fr. Rutler shows you:

- How to keep your imagination trained on God
- How mankind redefines the good to justify its sins
- How you can more effectively witness to the perfection of Christ
- How contempt for innocence deadens faith and love
- How beauty can orient us to God
- How the Catholic Church keeps human traditions alive
- How hard times and evil men highlight forgotten truths
- How evil drowns out truth with sentimentality
- And much more to help you live as a Christian in our difficult days

Grace and Truth

Drawing upon the richness and breadth of Jacques Maritain's thought, the contributors to this volume engage readers with philosophical essays about the search for truth in human life and civic engagement. The essays examine a broad range of topics, from those that are more properly theoretical, such as God, science, natural law, practical reason, education, and democracy, to those that are more practical, such as capital punishment, eugenics, friendship, love, and art. In each essay, the author implicitly challenges the claims of relativism and postmodernism, specifically the idea that there is no "real" truth and that what matters is merely the perspective of one's own frame of reference. The essays argue instead that theoretical truth-claims have practical consequences, that truth matters to those who are affected by it. In addition to the editor, the contributors are: Gavin T. Colvert, John A. D. Cuddeback, Raymond Dennehy, Bernard E. Doering, Desmond J. FitzGerald, Sarah J. Fodor, William J. Fossati, W. Matthews Grant, James G. Hanink, Katie Hollenberg, Gregory Kerr, James P. Mesa, Peter Pagan, Matthew S. Pugh, James V. Schall, S.J., Michael D. Torre, John R. Traffas, Cornelia A. Tsakiridou, Timothy S. Valentine, S.J., A. Leo White, Anne M. Wiles, and Henk E. S. Woldring. John G. Trapani, Jr., is Professor of Philosophy and Chair of the Humanities Division at Walsh University in North Canton, Ohio.

Christianity at the Cross-Roads

Wisdom at the Crossroads is an introduction to the life and thought of the gifted Jesuit priest, theologian, author and educator, Michael Paul Gallagher SJ (1939-2015). It follows his journey from the simplicity of an Irish rural childhood to the more complex world he soon encountered. That changing world prompted him to think deeply about the question of faith in our times, the effects of a shifting culture on our perceptions, and the challenge of unbelief and atheism as it manifests itself today. The book illuminates Michael Paul's rare gift – both in personal conversation and in the written word – of helping people to move from a detached consideration of faith to an awareness of what was deepest in their own hearts, for it was from that hidden layer of wonder that he believed the journey of faith could unfold. Being attuned to the depths in his own heart, he was able to identify the liberating wavelength in the lives of others and in the culture of our time, awakening many people to a vision that healed them into hope.

The Truth About You

Discover the Untold Stories of Apartheid Through Brave Truth Fourteen years since fleeing South Africa, leading social commentator on authentic leadership in ethical performance, Geraldine Coy, has finally told her touching and confronting story on apartheid in South Africa, in Brave Truth. The human atrocity that was Apartheid in South Africa has been well documented over the decades. However none are more compelling than the front line account told in Brave Truth. Geraldine Coy's book, Brave Truth reveals a first-hand look at what it was like to live through the volatility of an apartheid world, and the aftermath that followed it. As a member of a Commission of Enquiry that published a report on findings of violence and atrocities, Geraldine and her family received numerous death threats and consequently had to flee the country and settle in Australia. Geraldine reveals, for the first time, uncensored stories of those who were there and the courage and determination that kept them going after facing unspeakable events. Whilst this focus is unparalleled in its raw cruelty in the context of our current society, the story is set into the context of Geraldine's life. Geraldine emerged in a new South Africa firstly as a student activist and matured into a mediator advocating peaceful resolution of conflict across all communities. Geraldine's own foreword to the book hints at the work she was involved in, and the people with whom she was so privileged to work. "For to be free is not merely to cast off one's chains, but to live in a way that respects and enhances the freedom of others" Nelson Mandela "I have found that without the mutual obligation of us all to each other, to build a future based on respect for our rights; to live as we choose to live; to have a home which we can call a safe place; and the right to bring our children up in a world where their opportunities will be as broad as their dreams and as real as their efforts, we won't be able to take the next step toward this goal." "I have tried to demonstrate that true compassion is a firm and rational decision made with sound reasoning, and does not falter even in the face of those who behave badly. That does not mean that I have ever shied away from the need for those responsible

for bad behaviour to be held accountable in some form or another." In this book, readers will be invited into the truth behind the real cause(s) of violence and the perpetration of terrible acts of retribution within communities driven by despair and poverty. The complexities of these communities, their history forged in the Apartheid regime, the values of their traditional leadership and the emergence of a new local order, thrown into a melting pot of controversy, all prevented the development of anything close to a safe society.

Wisdom at the Crossroads

Facing the uncertainty of their present life and ministry, the American and Canadian churches of mainline Protestantism are, for the most part, responding in one of two ways. Some are simply choosing to ignore the process of their disestablishment. They continue to carry on with their church life as though nothing were happening, as though they were still occupying a place at the center of society. Others, knowing that they are being moved to the periphery of social and political life, are seeking to regain their past power and influence by adopting one or another program of church growth, many of which are being promoted by the newly emerging megachurches of the Christian right. Based upon the history and experience of a particular congregation, Church of the Crossroads in Honolulu, Hawaii, this book suggests a third option for the churches of mainline Protestantism: to embrace their ongoing disestablishment and to see it not as a burden or as something to be either ignored or reversed, but as an opportunity to envision a new way of being in the world.

Brave Truth

This book offers a new way of doing African philosophy by building on an analysis of the way people talk. The author bases his investigation on the belief that traditional African philosophy is hidden in expressions used in ordinary language. As a result, he argues that people are engaging in a philosophical activity when they use expressions such as taboos, proverbs, idioms, riddles, and metaphors. The analysis investigates proverbs using the ordinary language approach and Speech Act theory. Next, the author looks at taboos using counterfactual logic, which studies the meaning of taboo expressions by departing from a consideration of their structure and use. He argues that the study of these figurative expressions using the counterfactual framework offers a particular understanding of African philosophy and belief systems. The study also investigates issues of meaning and rationality departing from a study on riddles, explores conceptual metaphors used in conceptualizing the notion of politics in modern African political thought, and examines language and marginalization of women and people with disabilities. The book differs from other works in African philosophy in the sense that it does not claim that Africans have a philosophy as is commonly done in most studies. Rather, it reflects and unfolds philosophical elements in ordinary language use. The book also builds African Conception of beauty and truth through the study of language.

Meaning and Truth in African Philosophy

In these tumultuous times, who among us knows how to cope or where to turn? With all systems on overload, what can we do as individuals to stem the tide of financial crisis, geopolitical upheaval and ecological disaster? As the potentially apocalyptic date of December 21, 2012 approaches, what can you do to prepare? Who can help? How can you help yourself and those you love? If you are searching for help, it is here for the taking. Please help yourself. And when you do that, you help us all. The content of this manuscript represents over 30 years of personal research, study, prayer and life experience. Reed relates, "When I started, it was just about me; putting my own house in order. Then, it occurred to me that perhaps other people are struggling to find the Truth too." This book was written to help those people seeking to find their path in life leading to peace and happiness. It is for those who are looking

for the Truths that help them give meaning to their existence, and give them the deeper reasons for why they are on the earth at this particular point in time. If you have ever wondered who you really are, why you were born to this era and how you can fulfill your individual purpose of your existence, this book can help. When enough of us figure this out, we become a catalyst to help the human race collectively fulfill its destiny. This book can open your mind and heart to new ways of looking at your mortality and for ultimately finding true happiness from within. It will assist you in awakening to your relationships with others, with the Earth, the Cosmos and God.

Christianity at the Cross-Roads

"Jesus - The Way, The Truth and The Life" will prove that Jesus is the only Way to God, the very embodiment of all Truth and the very essence of Life, just as He declared of Himself in the fourteenth chapter and sixth verse of the gospel of John by saying, "I am the way, the truth, and the life and that no one comes to the Father except through Me." This book will show using systematic theology, proofs and truth arguments that Jesus is exactly who He says He is, confirmed by God the Father, the Holy Spirit and by Christ Himself. Jesus said in Mark 8; 27 of scripture "Who do you say I Am." This book will make it obvious why you must answer this pointed question just as Peter did in claiming to Jesus that "You are the Christ, the Son of the Living God". Time is getting short and Jesus is on His way back to earth. It's not a time to be confused or wrong on issues having eternal consequences. Though the book reads as a college textbook it forces you to think and study the word of God. The book is most valuable in a curriculum setting or for those interested in Christian apologetics. Jesus is compared to a myriad of other secular philosophies both past and present and as a result it is conclusively obvious that Jesus is the way, truth and the life and all others are false. This book stands on the foundation that a relationship with God thru Christ is by faith alone (Sola Fide), by grace alone (Sola Gratia), by Christ alone (Solus Christus), by scripture alone (Sola Scriptura) and with glory to God alone (Soli Deo Gloria). Dr. Ronald N Bish, ThD. received his Doctorate from Freedom Bible College in Systematic Theology and Apologetics and also holds a Master Degree in Mechanical Engineering. Finding Your Own Truth

Historians have led us to believe that the last great battle fought between the Roman Legions and the ancient Celtic Britons, led by the warrior Queen Boudica during the winter of AD 60, occurred somewhere in the Midlands on the old Watling Street. The research provided in the book aims to question that this theory, which has been accepted as a historical fact, is founded on a mere idea with no evidence whatsoever to support it. The tribal people have also wrongly been branded Barbarians and a mindless marauding mob when nothing could be further from the truth. It lays out the case with supporting evidence that this momentous event, which ultimately decided the future of Briton, instead took place in Flintshire, North Wales. Boudica and her Warriors deserve and demand that the truth be known and their extraordinary sacrifice be honoured. So did the Iceni Queen and Welsh Princess come home to fight the deadliest foe the Celtic people of Briton had ever encountered? It is for you, the reader, to decide and Archaeology to prove.

Jesus The Way, The Truth and The Life

Shows how the system of sacred violence at the heart of the conventional culture is being undermined by the biblical tradition, especially the Gospel.

Boudica The Truth

The main stories presented in this book are the stories in the Bible we grew up with as children. These stories were significant to us then and even more so now with the hidden and missing pieces revealed within this book. From Adam and Eve to David and Goliath and all the way through Jesus's and Mary Magdalene's lives, as well as Jaimee Barrington's life. You have only to put the pieces together after reading about the important parts that have been kept from you until now. The lessons of Jesus and Mary Magdalene with the many messages from the Angels, Ascended Masters, and The Divine have been channeled to help humanity see their truth, which is in each and every individual. You have only to look within to see that the truth lies within your heart and soul, setting you free.

Violence Unveiled

The Gospel Coalition Book of the Year Biblical Foundations Award Winner Christianity in the twenty-first century is a global phenomenon. But in the second century, its future was not at all certain. Initially Christianity possessed little social or cultural influence and found itself fighting for its life. While apostolic tradition was emerging as a "rule of faith," factions contested the nature of the gospel, and pagan philosophers found its claims scandalous. And while its pathway was tenuous, Christianity was forming structures of leadership and worship, and a core of apostolic texts was emerging as authoritative. But it was the challenges, obstacles, and transitions faced by Christians in the second century that, in many ways, would determine the future of the church for the next two millennia. It was a time when Christianity stood at a crossroads. Michael Kruger's introductory survey examines how Christianity took root in the second century, how it battled to stay true to the vision of the apostles, and how it developed in ways that would shape both the church and Western culture over the next two thousand years. Christianity at the Crossroads provides an accessible and informative look at the complex and foundational issues faced by an infant church still trying to determine its identity. The church's response to the issues of heresy and orthodoxy, the development of the canon, and the transmission of the Christian Scriptures not only determined its survival, but determined the kind of church it would be for generations to come.

The Truth Lies within the Heart & Soul

In his monumental study, Christopher Braider explores the dialectical contest between history and truth that defines the period of cultural transition called the 'baroque'. For example, Annibale Carracci's portrayal of the Stoic legend of Hercules at the Crossroads departs from earlier, more static representations that depict an emblematic demigod who has already rejected the fallen path of worldly Pleasure for the upward road of heroic Virtue. Braider argues that, in breaking with tradition in order to portray a tragic soliloquist whose dominant trait is agonized indecision, Carracci joins other baroque artists, poets and philosophers in rehearsing the historical dilemma of choice itself. Carracci's picture thus becomes a framing device that illuminates phenomena as diverse as the construction of gender in baroque painting and science, the Pauline ontology of art in Caravaggio and Rembrandt, the metaphysics of baroque soliloquy and the dismantling of Cartesian dualism in Cyrano de Bergerac and Pascal.

Baroque Self-Invention and Historical Truth

Lieven Boeve examines the place of theology in the university, the church and society. He emphasizes that theology certainly belongs to all of these three domains as it belongs to the nature of theology to involve itself in all three spheres, especially at the crossroads where they overlap. Boeve discusses the recent document Theology Today from the International Theological Commission which circumscribes theology's place and task in the Catholic Church. Boeve discusses how the difficult relation between theology and philosophy is typical for a Church which has difficulty with the dialogue in today's world; as well as examines the relation between theology and religious studies. Going further, Boeve offers a reflection on Catholic identity today, focusing more specifically on education. He presents four models

for considering the identity of Catholic schools in the light of the changed society and argues that dialogue in a context of plurality and difference can lead to new, fruitful ways to shape even the Catholic identity. Boeve concludes his discussion with a short assessment of Pope Benedict's papacy and emphasizes the need for the Catholic Church to convert itself before it can call the world to do the same.

Unifying the Philosophy of Truth

Many of the seven billion people who live on the earth look to either science or religion as the ultimate source of authority in their lives. But why must there be a conflict between the two? Why can't science and religion support each other? The Unity of Truth shows why and how it makes perfect sense for science and religion to be mutually supportive. Beginning with the accepted truths of modern science and the beliefs of traditional Christianity, authors Allen A. Sweet, C. Frances Sweet, and Fritz Jaensch use their diverse expertise to deliver a deeper level of understanding of the ways in which science and religion can coexist. Relying on a thorough knowledge of physics, theology, and mathematics, this study addresses the paradox of how God communicates with our material world without violating any of the laws of science. Individual chapters discuss some of the most popular quandaries associated with combining science and religion. In addition, it considers the beginning and end of our universe, the evolution of life, and the meaning of human emotions from the scientific and theological perspectives, thus pushing understanding to a higher plateau of wisdom. Rational and devoid of rhetoric, The Unity of Truth seeks to help resolve the ongoing battle between religion and science, delivering a thoughtful narrative designed to open minds and hearts.
