Madness, Masks, and Laughter

"Madness, Masks, and Laughter: An Essay on Comedy is an exploration of narrative and dramatic comedy as a laughter-inducing phenomenon. The theatrical metaphors of mask, appearance, and illusion are used as structural linchpins in an attempt to categorize the many and extremely varied manifestations of comedy and to find out what they may have in common with one another. As this reliance on metaphor suggests, the purpose is less to produce The Truth about comedy than to look at how it is related to our understanding of the world and to ways of understanding our understanding. Previous theories of comedy or laughter (such as those advanced by Hobbes, Kant, Hegel, Schopenhauer, Bergson, Freud, and Bakhtin) as well as more general philosophical considerations are discussed insofar as they shed light on this approach. The limitations of the metaphors themselves mean that sight is never lost of the deep-seated ambiguity that has made laughter so notoriously difficult to pin down in the past." "The first half of the volume focuses in particular on traditional comic masks and the pleasures of repetition and recognition, on the comedy of imposture, disguise, and deception, on dramatic and verbal irony, on social and theatrical role-playing and the comic possibilities of plays-within-plays and "metatheatre," as well as on the clichés, puns, witticisms, and torrents of gibberish which betray that language itself may be understood as a sort of mask. The second half of the book moves to the other side of the footlights to show how the spectators themselves, identifying with the comic spectacle, may be induced to "drop" their own roles and postures, laughter here operating as something akin to a ventilatory release from the pressures of social or cognitive performance. Here the essay examines the subversive madness inherent in comedy, its displaced anti-authoritarianism, as well as the violence, sexuality, and bodily grotesqueness it may bring to light. The structural tensions in this broadly Hobbesian or Freudian model of a social mask concealing an anti-social self are reflected in comedy's own ambivalences, and emerge especially in the ambiguous concepts of madness and folly, which may be either celebrated as festive fun or derided as sinfulness. The study concludes by considering the ways in which nonsense and the grotesque may infringe our cognitive limitations, here extending the distinction between appearance and reality to a metaphysical level which is nonetheless prey to unresolvable ambiguities." "The scope of the comic material ranges over time from Aristophanes to Martin Amis, from Boccaccio, Chaucer, Rabelais, and Shakespeare to Oscar Wilde, Joe Orton, John Barth, and Philip Roth. Alongside mainly Old Greek, Italian, French, Irish, English, and American examples, a number of relatively little-known German plays (by Grabbe, Tieck, Buchner, and others) are also taken into consideration."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. At the turn of the nineteenth century, as inquiries about degeneration shaped medical, sociological and anthropological discourses, masks flourished as portraits, ornaments, and disguises. This comparative study explores tales that revolve around masks and mask-making in relation to nineteenth-century thought, offering innovative readings of fictional and dramatic works by Max Beerbohm, Gabriele D'Annunzio, Jean Lorrain, Hugo von Hofmannsthal, Andrey Bely, next to artefacts such as the plaster cast of the *Inconnue de la Seine*, the waxes of criminals held in Cesare Lombroso's museum, Rodin's 'horror masks' modelled after a Japanese dancer. In the fin-de-siècle imagination, the author argues, masks addressed two concepts: the repressed elements of the psyche and the perceived parameters of a declining phase in Western civilization. By uncovering the role of masks as key tropes in fin-de-siècle culture, this monograph also demonstrates to what extent the medical, anthropological and aesthetic spheres overlapped, offering insights that contribute to debates about gender and ethnicity in decadence and modernist studies. Focusing mainly on the eighth to tenth centuries AD, known as the 'formative period of Islamic thought', the book examines historiography, literary prose and Arabic prose genres which do not fall neatly into either category. Filling a gap in the literature by providing detailed discussions of both primary texts and recent scholarship, *Writing and Representation in Medieval Islam* will be welcomed by students and scholars of classical Arabic literature, Islamic history and medieval history.

A bind-up of the first two novels in Mariotte's spellbinding series of romance, revenge, and witches. This first volume includes "Summer" and "Fall."

MASK, Mayhem's Monster Madness

This book argues for a proactive approach that focuses on preventing acts of crime and violence before they occur rather than the punishment of perpetrators after the fact. It sees crime as embedded in the social structure, in the disintegration of families and communities, in the breakdown of authority and social trust, and in the inequalities of society that breed hostility and disempowerment. This theme of social disintegration is linked to recent developments in the field of social capital, and in particular to recent empirical findings that link violence with economic inequality and the breakdown of social cohesion. The book presents a number of strategically selected case studies of crime and injury prevention projects in South Africa, including case studies of community responses to crime.

Dark Vengeance Vol. 1

This book of poetry was written during the Pandemic of COVID-19, as the frost fell on the old growth trees of Clayoquot Sound on the West Coast of Vancouver Island Canada in the latter part of 2020. It was Pandemia. Under emergency government direction, we stayed inside in confusion with a steady diet of fear. As an antidote to the uncertainty, this book provides a remedy in thought and perception through a different kind of inspired poetry. Through years of confusion and endless wondering about the nature and purpose of life, we come full circle to recall our true nature. That is the experience of life. Whether we realize it or not, we are at one with our creator. Not of the body but of the spirit. We were created by a loving God, and now, more than ever, it is time to trust Him.

Behind a Mask

Despite the profound influence exerted by August Strindberg on the development of modernist theatre and drama, the myth persisted that his plays - particularly such later works as *A Dream Play*, *To Damascus*, and *The Ghost Sonata* - are somehow 'unperformable'. Nothing could be farther from the truth, as this book sets out to demonstrate by providing a detailed performance analysis of the major works created after the period of personal crisis which Strindberg called his *Inferno*. Ranging from the early productions of Max Reinhardt and Olof Molander to the reinterpretations of Robert Lepage, Robert Wilson and Ingmar Bergman in our own day, this study explores the crucial impact that this writer's allusive (and elusive) method of playwriting has had on the changing nature of the theatrical experience. Each chapter ends with a section devoted to innovative Strindberg performances on the contemporary stage.

"Memoirs and Madness examines memoir as a literary genre and investigates how Leonid Andreev's posthumous legacy was influenced by the writing of his contemporaries. *A Book About Leonid Andreev* (1922), which includes the work of renowned Russian authors such as Belyi, Blok, Chukovskii, Chulkov, Gor'kii, Teleshov, Zaitsev, and Zamiatin, has had an impact on how Andreev has been read and spoken about since his death. While past scholarship has focused on the philosophical and sociological factors in Andreev's life, Frederick White pays special attention to the author's history of mental illness, described by the memoirists with vague terms such as "creative energy" or "inner turmoil." --Résumé de l'éditeur.
