

# Andrew Jackson Internal Improvements

[#Andrew Jackson](#) [#Internal Improvements](#) [#Maysville Road Veto](#) [#Jacksonian Democracy](#) [#Federal Infrastructure Policy](#)

Andrew Jackson's policies on internal improvements were a cornerstone of his presidency, marked by his controversial Maysville Road Veto. He generally opposed federal funding for local infrastructure projects, advocating for states' rights and fiscal conservatism over a strong national infrastructure program, deeply influencing the economic policy of the Jacksonian Era.

In his webcast titled "Cave People" in reference to the philosopher Plato's "Allegory of the Cave," DoubleLine CEO Jeffrey Gundlach on March 12, 2023, briefly reprises his outlook on the federal debt spiral before reviewing other macroeconomic and market topics, including recessionary "storm clouds." Notably, while the government's establishment survey has resilient nonfarm payrolls, Mr. Gundlach marshals evidence showing "the rubric that there's this booming employment economy is contradicted by other areas." Among subjects addressed in the webcast, Mr. Gundlach covers Federal deficit and national debt spiral

Massive COVID-19-era monetary stimulus as explanation for the absence (to date) of recession  
Protracted inversion of the U.S. Treasury yield curve

Weakening consumer confidence

U-3 unemployment rate exceeding 12-month moving average and nearing 36-month MA

Questionable veracity of once-trustworthy economic statistics due to plunging survey response rates

Recessionary divergence between cyclical and noncyclical employment

Deteriorating hiring plans at small businesses

Falling average weekly hours worked in manufacturing. "First they cut the hours, and then they cut the bodies."

Signs of stress among consumers, growing usage of credit cards and a 600-basis point rise to a "punishing" 23% in the average interest rate on credit card debt as forerunners of a future pullback in consumer spending

Inflation as gauged by headline and core CPI

Housing component of CPI versus the Zillow Rent Index and prospects of lower rents due to a construction boom in multifamily housing

Inflation as gauged by headline and core PCE

Inflation as gauged by export and import prices

Commodity prices signaling weak global growth

Review of the Treasury market and a warning regarding narrow credit spreads in high yield corporate bonds

Year-to-date performance of the credit sectors of fixed income, including market pricing of future defaults in CCC corporate bonds

Still-wide spreads on Agency mortgage-backed securities amid discount prices on these securities  
AAA spreads compared across non-Agency commercial mortgage-backed securities (CMBS), collateralized loan obligations and corporate bonds

Attractive CMBS versus corporate bonds across AAA, A and BBB cohorts, with warnings against index investing in CMBS

Emerging markets fixed income, which with the Federal Reserve's Nov. 1, 2023, pivot "finally joined the risk asset party," although Mr. Gundlach is awaiting a weaker dollar to support the sector
