When the Tripods Came

Experience the beginning of the Tripods' reign in this prequel to the classic alien trilogy ideal for fans of Rick Yancey's *The 5th Wave* and Margaret Peterson Haddix's *Shadow Children* series. When it comes to alien invasions, bad things come in threes. Three landings: one in England, one in Russia, and one in the United States. Three long legs, crushing everything in their paths, with three metallic arms, snacking out to embrace—and then discard—their helpless victims. Three evil beings, called Tripods, which will change life on Earth forever.

The Death of Grass

A thought experiment in future-shock survivalism' Robert MacFarlane 'Gripping ... of all science fiction's apocalypses, this is one of the most haunting' Financial Times WITH AN INTRODUCTION BY ROBERT MACFARLANE A post-apocalyptic vision of the world pushed to the brink by famine, John Christopher's science fiction masterpiece *The Death of Grass* includes an introduction by Robert MacFarlane in Penguin Modern Classics. At first the virus wiping out grass and crops is of little concern to John Custance. It has decimated Asia, causing mass starvation and riots, but Europe is safe and a counter-virus is expected any day. Except, it turns out, the governments have been lying to their people. When the deadly disease hits Britain, society starts to descend into barbarism. As John and his family try to make it across country to the safety of his brother's farm in a hidden valley, their humanity is tested to its very limits. A chilling psychological thriller and one of the greatest post-apocalyptic novels ever written, *The Death of Grass* shows people struggling to hold on to their identities as the familiar world disintegrates - and the terrible price they must pay for surviving. John Christopher (1922-2012) was the pen name of Samuel Youd, a prolific writer of science fiction. His novels were popular during the 1950s and 1960s, most notably *The Death Of Grass* (1956), *The World in Winter* (1962), and *Wrinkle in the Skin* (1965), all works depicting ordinary people struggling in the midst of apocalyptic catastrophes. In 1966 he started writing science-fiction for adolescents; *The Tripods* trilogy, the *Prince in Waiting* trilogy (also known as the *Sword of the Spirits* trilogy) and *The Lotus Caves* are still widely read today. If you enjoyed *The Death of Grass*, you might like John Wyndham's *The Day of the Triffids*, also available in Penguin Modern Classics.

The Tripods Collection (Boxed Set)

The Tripods' rule is complete: the classic alien trilogy and its prequel are now available in a collectible paperback boxed set. In Will's world, everything is controlled by the Tripods—huge, three-legged machines that descended upon Earth long ago. Most people unquestioningly accept the Tripods' power, but Will is not most people. Journey with him in this collection of all four books in John Christopher's

beloved classic sci-fi dystopian series, now available as a paperback boxed set. Includes: *The White Mountains* *The City of Gold and Lead* *The Pool of Fire* *When the Tripods Came*

Tripods: When the Tripods Came

When the alien Tripod machines land on Earth, they don't seem much of a threat. The first skirmishes end in victory for the human forces. But the real danger - the insidious mind-controlling powers of the Tripod Masters - is only just beginning. Laurie and his family must flee their homes as the invaders tighten their tentacled grip - and find a place to start the fight back... The thrilling and eerie prequel John Christopher's classic dystopian Tripods series is available for the first time in ebook format.

The Pool of Fire

Will must defeat the Tripods once and for all in this third book of a classic alien trilogy ideal for fans of Rick Yancey's *The 5th Wave* and Margaret Peterson Haddix's *Shadow Children* series. After being held captive in the City of Gold and Lead—the capital, where the creatures that control the mechanical, monstrous Tripods live—Will believes that he's learned everything he needs to know to destroy them. He has discovered the source of their power, and with this new knowledge, Will and his friends plan to return to the City of Gold and Lead to take down the Masters once and for all. Although Will and his friends have planned everything down to the minute, the Masters still have surprises in store. And with the Masters' plan to destroy Earth completely, Will may have just started the war that will end it all.

The City of Gold and Lead

Will and his friends return to the City of the Tripods—and risk their lives—in this second book of a classic alien trilogy ideal for fans of Rick Yancey's *The 5th Wave* and Margaret Peterson Haddix's *Shadow Children* series. When Will and his friends arrived at the White Mountains, they thought everything would be okay. They'd found a safe haven where the mechanical monsters called Tripods could not find them. But once there, they wonder about the world around them and how they are faring against the machines. In order to save everyone else, Will and his friends want to take down the Tripods once and for all. That means journeying to the Tripod capital: the City of Gold and Lead. Although the journey will be difficult, the real danger comes once Will is inside the city, where Tripods roam freely and humans are even more enslaved than they are on the outside. Without anyone to help him, Will must learn the secrets of the Tripods—and how to take them down—before they figure out that he's a spy...and he can only pretend to be brainwashed for so long.

The Cambridge History of Science Fiction

The first science fiction course in the American academy was held in the early 1950s. In the sixty years since, science fiction has become a recognized and established literary genre with a significant and growing body of scholarship. The *Cambridge History of Science Fiction* is a landmark volume as the first authoritative history of the genre. Over forty contributors with diverse and complementary specialties present a history of science fiction across national and genre boundaries, and trace its intellectual and creative roots in the philosophical and fantastic narratives of the ancient past. Science fiction as a literary genre is the central focus of the volume, but fundamental to its story is its non-literary cultural manifestations and influence. Coverage thus includes transmedia manifestations as an integral part of the genre's history, including not only short stories and novels, but also film, art, architecture, music, comics, and interactive media.

Wonders in the Sky

One of the most ambitious works of paranormal investigation of our time, here is an unprecedented compendium of pre-twentieth-century UFO accounts, written with rigor and color by two of today's leading investigators of unexplained phenomena. In the past century, individuals, newspapers, and military agencies have recorded thousands of UFO incidents, giving rise to much speculation about flying saucers, visitors from other planets, and alien abductions. Yet the extraterrestrial phenomenon did not begin in the present era. Far from it. The authors of *Wonders in the Sky* reveal a thread of vividly rendered-and sometimes strikingly similar- reports of mysterious aerial phenomena from antiquity through the modern age. These accounts often share definite physical features- such as the heat felt and described by witnesses-that have not changed much over the centuries. Indeed, such similarities between ancient and modern sightings are the rule rather than the exception. In *Wonders in the Sky*,

respected researchers Jacques Vallee and Chris Aubeck examine more than 500 selected reports of sightings from biblical-age antiquity through the year 1879—the point at which the Industrial Revolution deeply changed the nature of human society, and the skies began to open to airplanes, dirigibles, rockets, and other opportunities for misinterpretation represented by military prototypes. Using vivid and engaging case studies, and more than seventy-five illustrations, they reveal that unidentified flying objects have had a major impact not only on popular culture but on our history, on our religion, and on the models of the world humanity has formed from deepest antiquity. Sure to become a classic among UFO enthusiasts and other followers of unexplained phenomena, *Wonders in the Sky* is the most ambitious, broad-reaching, and intelligent analysis ever written on premodern aerial mysteries.

Sissy Dreams: From Boyfriend to Girlfriend

Receiving a text from Sasha, my girlfriend, at work was always risky. Especially when she wanted to know if her girlfriend was horny. A short and sweet (and filthy) story.

Victorian Spectacular Theatre 1850-1910

Originally published in 1981. This study concentrates on one aspect of Victorian theatre production in the second half of the nineteenth century – the spectacular, which came to dominate certain kinds of production during that period. A remarkably consistent style, it was used for a variety of dramatic forms, although surrounded by critical controversy. The book considers the theories and practice of spectacle production as well as the cultural and artistic movements that created the favourable conditions in which spectacle could dominate such large areas of theatre for so many years. It also discusses the growth of spectacle and the taste of the public for it, examining the influence of painting, archaeology, history, and the trend towards realism in stage production. An explanation of the working of spectacle in Shakespeare, pantomime and melodrama is followed by detailed reconstructions of the spectacle productions of Irving's *Faust* and Beerbohm Tree's *King Henry VIII*.

Poems and Shorter Writings

This collection brings together all the poems published by James Joyce in his lifetime, most notably *Chamber Music* and *Pomes Penyeach*. It also includes a large body of his satiric or humorous occasional verse, much of which is fugitive and little known to the general reader. In addition, the volume provides the text of the surviving prose *Epiphanies*, Giacomo Joyce - the fascinating Trieste notebook that Joyce compiled while finishing *A Portrait of the Artist* and beginning *Ulysses*, in which he first explored the world of his autobiographical novel.

Animal 2

When Animal returns to Harlem, he is captured by Shai Clark and sentenced to death by the crime boss, only to discover that the executioner is actually his missing father, and the two band together to defeat a common enemy.

The Tripods Trilogy

Three stories recount a gripping science fiction saga of alien invaders on Earth, describing the earthlings' battle to save their own precious freedom.

Gullah Images

Paintings, magisterial and universal, that capture the essence of a vibrant African American community. In his art Jonathan Green paints the world of his childhood and an ode to a people imbued with a profound respect for the dignity and value of others—the Gullah people of the South Carolina barrier islands. His canvases, beloved for their sense of jubilation and rediscovery, evoke the meaning of community in Gullah society and display a reverence for the rich visual, oral, and spiritual traditions of

its culture. His art also reveals a keen awareness of the interpersonal, social, and natural environments in which we live. The 180 images assembled in this collection showcase the meaning, purpose, and beauty that Green finds in the small but critical tasks of life. His work elevates the everyday—preparing morning meals, doing the wash, accomplishing farming chores, finishing a day's work, relaxing in the evening—and celebrates the social and religious—community dances, baptisms, weddings, funerals. Green allows his audience the space and silence to observe people unobtrusively as they pursue life's mission of labor, love, and belonging and as they work in harmony with nature's mysterious, ever changing fabric. While Green's paintings speak specifically to his own upbringing, they transcend racial, cultural, and ethnic boundaries, thus allowing individuals of all backgrounds to recall fond memories and to reflect on the place that purpose and dignity hold in their lives. In addition to a foreword by Pat Conroy, essays by Bettye J. (Mbitha) Parker Smith, Lynn Robertson, and Ronne Hartfield complement Green's images. They tell of the vitality of the Gullah community, the progression of Green's career, and the authenticity of his work.

Empty World

Moving to a small village with his grandparents after a devastating accident, Neil endures a terrible plague that kills the world's adults, an event that compels him to make a treacherous journey to London in search of other survivors. By the author of the Tripods trilogy. Simultaneous and eBook.

Yvain

The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, *Yvain*, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. *Yvain* is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

The Lotus Caves

Sneaking out of school to explore the surface of their lunar home, Marty and Steve discover a series of underground caverns where a long-lost community is held under the strict control of a strange creature. By the author of *The Death of Grass*. Simultaneous.

Baudelaire and Freud

Freek Groenevelt is a mild-mannered journalist who values his peace and quiet above all else. But his orderly life is suddenly upended by the intrusion of a mysterious figure calling himself Joachim Stiller, who seems in insidious ways to be controlling Freek's life and destiny. It starts with an enigmatic letter - impossibly postmarked before Freek was even born - and as a series of bizarre and possibly supernatural phenomena ensues, Freek becomes obsessed with the question: Who is Joachim Stiller? With the help of a beautiful mathematician and a dealer in occult books, Freek tries to solve the riddle, but none of them will be prepared for the final revelation of the shocking truth! One of the great classics of 20th-century Flemish literature and a founding text of Flemish magical realism, Hubert Lampo's internationally acclaimed *The Coming of Joachim Stiller* (1960) has been published in fifteen languages and is now available at last in an outstanding new English version by award-winning translator Paul Vincent.

Environment, Health, and Safety

Full of "can't look away" moments, *Dear Killer* is a psychological thriller perfect for fans of gritty realistic fiction such as Dan Wells's *I Am Not a Serial Killer* and Jay Asher's *Thirteen Reasons Why*, as well as television's *Dexter*. Rule One—Nothing is right, nothing is wrong. Kit looks like your average seventeen-year-old high school student, but she has a secret—she's London's notorious "Perfect Killer." She chooses who to murder based on letters left in a secret mailbox, and she's good—no, perfect—at what she does. Her moral nihilism—the fact that she doesn't believe in right and wrong—makes being a serial killer a whole lot easier . . . until she breaks her own rules by befriending someone she's supposed to murder, as well as the detective in charge of the Perfect Killer case. As New York Times bestselling author of the *Gone* series Michael Grant says, *Dear Killer* is "shocking, mesmerizing, and very smart."

My Neighbour's Shoes; Or, Feeling for Others. A Tale

Imagine that you are living in a country that does not recognize you as a citizen in spite of the fact that your people have maintained a continuous existence there for several centuries. If that was not enough of a traumatic experience, consider that because of your racial, ethnic and religious identity other ethnic groups that are fighting the brutal military regime in your country for their self-determination and human rights consider you as "settlers" from a neighboring country. It must be your worst nightmare when you realize that half of your people (almost 2 million) have been forced to take asylum or refuge outside, and you may be the next in line to seek a way out of this living hell of xenophobia, discrimination, intolerance, racism and bigotry. The victims are the Rohingya people of Burma (Myanmar). Because of their religion, race, ethnicity, color and language they are the most discriminated and persecuted people in our planet. Some argue that they are also one of the most forgotten. The Myanmar military regime has denied their citizenship rights, claiming that they are illegal settlers from nearby Bangladesh who have moved into Arakan during the British occupation of Burma in the 19th century. Is there any truth to such allegations? Does the military junta apply the same litmus test against all ethnic and religious groups in matters of citizenship? What is the basis for a nation's claim to self-determination? Must a people wander in the wilderness for two millennia and suffer repeated persecution, humiliation and genocide to qualify? How about the rights of a minority community to survive with their culture and traditions intact? Do they need to be 'children' of a 'higher' God to qualify? What makes the children of a 'lesser' God to be forgotten and denied the same treatment and privilege that was granted hitherto to other nations? For much of its history, Burma has been ruled by military. As has once again been demonstrated recently they are brutal, savage and tyrannical. They have ignored people's verdict in the election and imprisoned leaders and workers of the democracy movement. They cannot be guarantors or protectors of human rights of anyone, let alone religious and ethnic minorities. Do you know that the Rohingyas - face cruel restriction on marriage and those married without government authorization are paraded naked on the streets? - Are restricted from traveling outside their villages? - Have no legal right to own land or property? - Are restricted from getting education, finding work, getting medical and health care? - Are subjected to land confiscation, forced eviction and destruction of homes, offices, schools, mosques, shops, etc., and face religious persecution on a daily basis? - Are victims of staged riots, forced starvation, arbitrary taxation, extortion, arrest, torture and extra-judicial killings? - Are forced to

do slave labor for establishment of government infrastructure, new Buddhist settlements, pagodas and monasteries on evicted lands with the government intent of changing the landscape and demography of Arakan? - Are forced to convert to Buddhism &/or worship Buddha? Do you know that when it comes to the Rohingya people, the Burmese government doesn't uphold any of the Articles of the Universal Declaration of Human Rights? Nothing can excuse us from the criminal silence that we practice in not voicing our concern about the plight of the Rohingya people. "The Forgotten Rohingya" makes a strong case for mobilizing concerned citizens of our globe to ease their sufferings. The author analyzes origin of the Rohingya people and offers ideas to solve their problem. The author also discusses problems of xenophobia and racism, which are so rampant in this country of many races, ethnicities and religions. He also analyzes the role of Daw Suu Kyi and failure of Burma's orange revolution.

THE HIDDEN HISTORY OF UFOs People have always been fascinated by lights in the sky. Early astronomers and astrologers, medieval pamphleteers, scientists, navigators, and weather observers, all recorded sightings of strange phenomena. The question is: Were these the same as our modern UFOs? The authors of *Return to Magonia* have taken a serious, critical look at some of those sightings. Using modern resources and tools, they dissect more than 20 fascinating cases from the last 500 years, showing that reality can be more interesting than any popular catch-all theory. They discover that UFOs in history are as intriguing, as entertaining, and often as baffling as they are today. In this unique and challenging book you will read about: the flat "plate" seen over a 17th-century Swedish city, leaving witnesses stricken with an unknown sickness; a fiery object that landed beside a road in Ohio, piloted by a mysterious man in black; a weird blue ball of fire that devastated a British navy ship; the Minnesota doctor who saw a disk of "electric" light floating across the fields; and a formation of locomotive-sized "eggs" that descended on an Australian town shortly after World War II. Combining science, history, and a broad knowledge of the UFO field, Martin Shough and Chris Aubeck set a new standard for UFO research and shed light on one of the oldest recorded mysteries in human experience. **CHRIS AUBECK** is the founder of the historical research group *Magonia Exchange*, an international archival project, and the co-author (with Jacques Vallee) of *Wonders in the Sky*. **MARTIN SHOUGH** is a Research Associate for National Aviation Reporting Center on Anomalous Phenomena (NARCAP)."

The Easy Pit Boss Wood Pellet Grill And Smoker Cookbook

Foigny's *La Terre Australe connue*, published in 1676, is a fantastically engaging and playful example of the "imaginary voyage" genre. It is also a seventeenth-century work with some curiously modern resonances. Written in the tradition of More's *Utopia*, and serving itself as a forerunner to Swift's *Gulliver's Travels*, *The Southern Land, Known* offered its readers a radical criticism of then prevailing ideologies in the guise of a lively and provocative novel. Knowledge of the vast continent of Australia was, in Foigny's day, still mingled with legends, hearsay, and travelers' tales. It is in this context that the "unknown Southern Land" becomes known to the hero of this short, action-packed, and highly structured story. The narrator braves a long sea journey, raging storms, shipwrecks, giant whales, and high-flying creatures that try to eat him - all to reach the mysterious Austral utopia. Peopled by hermaphrodites, Foigny's Australia is a society in which distinctions of both class and gender have been abolished. It includes, among other things, an indictment of "the great empire that the male usurped over the female" as "rather a form of tyranny than a just cause".

Flush

A hilarious, high-stakes adventure involving crooked casino boats, floating fish, toxic beaches, and one kid determined to get justice. This is Carl Hiaasen's Florida—where the creatures are wild and the people are wilder! You know it's going to be a rough summer when you spend Father's Day visiting your dad in the local lockup. Noah's dad is sure that the owner of the Coral Queen casino boat is flushing raw sewage into the harbor—which has made taking a dip at the local beach like swimming in a toilet. He can't prove it though, and so he decides that sinking the boat will make an effective statement. Right. The boat is pumped out and back in business within days and Noah's dad is stuck in the clink. Now Noah is determined to succeed where his dad failed. He will prove that the Coral Queen is dumping illegally . . . somehow. His allies may not add up to much—his sister Abbey, an unreformed childhood biter; Lice Peeking, a greedy sot with poor hygiene; Shelly, a bartender and a woman scorned; and a mysterious pirate—but Noah's got a plan to flush this crook out into the open. A plan that should sink the crooked little casino, once and for all.

Sammy Keyes and the Cold Hard Cash

A stash of easy money makes for some hard choices for Sammy Keyes. "An exceptionally good entry in an already remarkable series."--Booklist Sammy Keyes has three wads of cold hard cash in her hot little hands. An old guy gave them to her. Well, actually, he told her to throw them away. With his last dying breath. Which he was taking because Sammy had just scared the life right out of him. So . . . she's got to get this man some help. She's got to do it without being seen herself. And she's got to figure out how to stash that cash. (Aw, c'mon! You'd keep the money too, right?) But it turns out other people are after that money--and now they're after her. Crooks Sammy can handle. The thing that's scaring her to death is Brandon's pool party--and the thought that her crush Casey will be there...

Sammy Keyes and the Search for Snake Eyes

All Sammy wants to concentrate on is her softball team - they're in contention for the Junior Slugger's Cup and there's work to be done. Particularly as Heather Acosta (Sammy's rival) brings new meaning to the term 'foul ball' as she tries to get Sammy kicked off the team. Then Sammy is thrown a curve ball - out at the mall one day, a flustered girl begs her to watch her bag for her, then disappears. It's only then that Sammy realises the bag contains ... a baby! Sammy sets out to search for her, and is led into situations that make softball look like child's play...

Sammy Keyes and the Hotel Thief

"The most winning junior detective ever in teen lit. (Take that, Nancy Drew!)" —Midwest Children's Book Review What Sammy should have done was put the binoculars down and call 911. What she does instead is tighten up the focus on her right eye to get a better look. There's something very familiar about this thief. But when Sammy eventually spills her story to Officer Borsch, he doesn't believe her. He treats her like some snot-nosed little kid. Well, Sammy's not going to stand for that. She's a snot-nosed seventh grader now, and she knows what she saw. And somehow she's going to prove it. The Sammy Keyes mysteries are fast-paced, funny, thoroughly modern, and true whodunits. Each mystery is exciting and dramatic, but it's the drama in Sammy's personal life that keeps readers coming back to see what happens next with her love interest Casey, her soap-star mother, and her mysterious father.

The Canon

The New York Times bestseller that makes scientific subjects both understandable and fun: "Every sentence sparkles with wit and charm." —Richard Dawkins From the Pulitzer Prize-winning New York Times science journalist and bestselling author of *Woman*, this is a playful, passionate guide to the science all around us (and inside us)—from physics to chemistry, biology, geology, astronomy, and more. Drawing on conversations with hundreds of the world's top scientists, Natalie Angier creates a thoroughly entertaining guide to scientific literacy. For those who want a fuller understanding of some of the great issues of our time, *The Canon* offers insights on stem cells, bird flu, evolution, and global warming. For students—or parents whose kids ask a lot of questions about how the world works—it brings to life such topics as how the earth was formed, or what electricity is. Also included are clear, fascinating explanations of how to think scientifically and grasp the tricky subject of probability. *The Canon* is a joyride through the major scientific disciplines that reignites our childhood delight and sense of wonder—and along the way, tells us what is actually happening when our ice cream melts or our

coffee gets cold, what our liver cells do when we eat a caramel, why the horse is an example of evolution at work, and how we're all really made of stardust.

Sammy Keyes and the Runaway Elf

After a dog she is watching disappears from a city parade and the owner receives a ransom note, thirteen-year-old Sammy must use her detective skill to solve the mystery.

Sammy Keyes and the Hollywood Mummy

Sammy's mother is out in Hollywood, trying to make it as an actress. After her famous appearance in an anti-flatulence commercial, Sammy has always been rather sceptical of her mother's endeavours, and somewhat embarrassed. In this book, she goes (rather reluctantly) to LA to see how she's getting on and becomes involved in a Hollywood mystery...

Encyclical on Climate Change and Inequality

The complete text of *Laudato Si'*, the landmark encyclical letter from Pope Francis that, as Time magazine reported, "rocked the international community" In the Encyclical on Climate Change and Inequality, the beloved Pope exhorts the world to combat environmental degradation and its impact on the poor. In a stirring, clarion call that is not merely aimed at Catholic readers but rather at a wide, lay audience, the Pope cites the overwhelming scientific evidence of climate change, and does not hesitate to detail how it is the result of a historic level of unequal distribution of wealth. It is, in short, as the New York Times labeled it, "An urgent call to action . . . intended to persuade followers around the world to change their behavior, in hopes of protecting a fragile planet." With an insightful and informative introduction by Harvard professor Naomi Oreskes, famed for her bestselling *Merchants of Doubt: How a Handful of Scientists Obscured the Truth on Issues from Tobacco Smoke to Global Warming*.

The Last Wild

"A hugely inventive adventure." —Eoin Colfer, New York Times bestselling author of the *Artemis Fowl* series In a world where animals are slowly fading into extinction, twelve-year-old Kester Jaynes feels as if he hardly exists either. He's been locked away in a home for troubled children and is unable to speak a word. Then one night, a flock of talking pigeons and a bossy cockroach come to help him escape, and he discovers that he can speak—to them. And the animals need him. Only Kester, with the aid of a stubborn, curious girl named Polly, can help them survive. The animals saved Kester. But can he save them? "When ninety-nine pigeons smash through the windows of Kester's prison and carry him North to the last of the animals.... it's a moment as thrilling as when James flies off in the *Giant Peach*. Highly recommended" —The Times (UK) "Combines a great fondness for animals with an appreciation of the freakish.... The reserved narrative tone and tender yet peculiar view of animals give this piece its own offbeat flavor." —Kirkus Reviews "Alternately somber, thrilling, and silly." —Publishers Weekly

Sammy Keyes and the Night of Skulls

"The most winning junior detective ever in teen lit. (Take that, Nancy Drew!)" —Midwest Children's Book Review After being chased by a man wielding a shovel, scared silly by a mummy, and attacked by Heather Acosta, Sammy and her pals decide they've had their fill of monsters and head home to eat some candy. But along with bubble gum and chocolate bars, they discover something frightening in their trick-or-treating bags. Something that's definitely not sweet! Before they know it, Sammy and her friends are following suspicious gravediggers, ghoulish embalmers, and shady undertakers. And somebody is following them . . . The Sammy Keyes mysteries are fast-paced, funny, thoroughly modern, and true whodunits. Each mystery is exciting and dramatic, but it's the drama in Sammy's personal life that keeps readers coming back to see what happens next with her love interest Casey, her soap-star mother, and her mysterious father.

Sammy Keyes and the Killer Cruise

"The most winning junior detective ever in teen lit. (Take that, Nancy Drew!)" —Midwest Children's Book Review Sammy knew that getting to know her new rockstar dad on a cruise would be a little uncomfortable. . . . But when the heiress to a perfume empire disappears from the ship, it turns out everyone's in for a rocky ride. In this penultimate book in the Sammy Keyes mystery series, Wendelin Van Draanen pays homage to the mystery genre. This book is a classic locked-room whodunnit—Sammy Keyes style. The Sammy Keyes mysteries are fast-paced, funny, thoroughly modern, and true whodunits. Each mystery is exciting and dramatic, but it's the drama in Sammy's personal life that keeps readers coming back to see what happens next with her love interest Casey, her soap-star mother, and her mysterious father.

The Word Rhythm Dictionary

This new kind of dictionary reflects the use of "rhythm rhymes" by rappers, poets, and songwriters of today. Users can look up words to find collections of words that have the same rhythm as the original and are useable in ways that are familiar to us in everything from vers libre poetry to the lyrics and music of Bob Dylan and hip hop groups.

The Routledge Dictionary of Modern American Slang and Unconventional English

The Routledge Dictionary of Modern American Slang offers the ultimate record of modern, post WW2 American Slang. The 25,000 entries are accompanied by citations that authenticate the words as well as offer examples of usage from popular literature, newspapers, magazines, movies, television shows, musical lyrics, and Internet user groups. Etymology, cultural context, country of origin and the date the word was first used are also provided. In terms of content, the cultural transformations since 1945 are astounding. Television, computers, drugs, music, unpopular wars, youth movements, changing racial sensitivities and attitudes towards sex and sexuality are all substantial factors that have shaped culture and language. This new edition includes over 500 new headwords collected with citations from the last five years, a period of immense change in the English language, as well as revised existing entries with new dating and citations. No term is excluded on the grounds that it might be considered offensive as a racial, ethnic, religious, sexual or any kind of slur. This dictionary contains many entries and citations that will, and should, offend. Rich, scholarly and informative, The Routledge Dictionary of Modern American Slang and Unconventional English is an indispensable resource for language researchers, lexicographers and translators.

In Their Own Words

Personal interviews with 19 of the top songwriters in the business cover the popular folk music scene in America (and England) over the last twenty years.

Abbey's Road

"The natural world, as we call it, has already become remote, out of reach, mysterious, in the minds of urban and suburban Americans. They see the wilderness disappearing, slipping away, receding into an inaccessible past. But they are mistaken. That world can still be rescued... that is my main excuse for this book."—Edward Abbey You are about to visit some of the most exciting places on earth. Not the sort of excitement that makes morning headlines or the nightly news. Instead it is the excitement that comes from experiencing the natural world as it always has been and should be, and seeing human beings living in tune with its subtlest rhythms. In Australian cattle country and in the primitive outback. On a desert island off Mexico and in the Sierra Madres. On the Rio Grande and in the great Southwest. On Lake Powell in Utah and in the living American desert. It is adventure. It is enlightenment. It is vintage Abbey. "I have been along a few of Mr. Abbey's roads. He sees much more than I did. Indeed, reading him is often better than being there was."—John Leonard, author of *Reading for My Life*

Sammy Keyes and the Wedding Crasher

Sammy takes off her high-tops, puts on some party shoes, and steps into a whole lot of trouble. "Sammy's investigation, friendships, family life, and wiseacre narration make this another rollicking addition to the series." --Booklist Sammy should have known better than to think 8th grade would be easier than 7th. It's only September and already the history teacher is receiving death threats. Naturally, Sammy is the prime suspect. To make matters worse, officer Borsch has asked Sammy to help out at his wedding. If she doesn't find the real prankster fast, Sammy will be wearing prison stripes instead of

a poofy pastel bridesmaid dress. This Sammy Keyes adventure blends mystery, comedy, and a dusting of fairy tale magic.

Funding Evil

Vice Slang

Are you a bit of a chairwarmer? Do you use the wins from a country straight to get scudded on snakebite in a blind tiger? Do you ride the waves on puddle or death drop? Vice Slang gently eases you into the language of gambling, drugs and alcohol, providing you with 3,000 words to establish yourself firmly in the world of corruption and wickedness. All words are illustrated by a reference from a variety of sources to prove their existence in alleys and dives throughout the English speaking world. This entertaining book will give you hours of reading pleasure.

Hole in the Sky

In 2028, a deadly Flu virus ravages the earth. Only one in two thousand survive the virus, and these "Survivors" are rarely left unaffected. By 2038, only 38 million people remain on Earth. Most of them live in small communities, ever fearful of outsiders who might bring the deadly Flu. Ceej Kane lives with his uncle and his Survivor sister Harryette in an abandoned hotel on the rim of the Grand Canyon. His quiet, boring life suddenly becomes a desperate adventure when Uncle and Harryette disappear. Searching for them, Ceej and his only friend, Tim, are attacked by the Kinka, a renegade band of half-mad Survivors who spread the Flu to make more of their own. Worse yet, it appears that Harryette has joined them. Fleeing deep into the Canyon, a narrow land of ghosts and ancient secrets, Ceej and Tim meet Bella, a mysterious Hopi girl. She has been searching the canyon for the Sipapuni, a mystical portal that the Hopi believe leads to another world. Tim thinks Bella is crazy, but Ceej is not so sure. Maybe there is a way out of this Flu-ravaged world. But first they must find out what happened to Uncle, and they must save Harryette from the Kinka -- if she wants to be saved. As with his earlier novels, *Mr. Was* and *Stone Cold*, acclaimed author Pete Hautman pushes the boundaries of young adult fiction. Combining action, science fiction, and spirituality, *Hole in the Sky* is the rarest of novels: a thrilling page-turner that will make you think.

Boy Proof

A Time Magazine 100 Best Young Adult Books of All Time Selection "This novel's funny first-person narrative will grab teens (and not just sci-fi fans) with its romance and the screwball special effects."—Booklist Meet Egg. Her real name is Victoria Jurgen, but she's renamed herself after the kick-ass heroine of her favorite sci-fi movie, *Terminal Earth*. Like her namesake, Egg dresses all in white, colors her eyebrows, and shaves her head. She always knows the right answers, she's always in control, and she's far too busy — taking photos for the school paper, meeting with the Science Fiction and Fantasy Club, and hanging out at the "creature shop" with her dad, the special-effects makeup wizard — to be bothered with friends, much less members of the opposite sex. As far as Egg is concerned, she's boy proof, and she likes it that way. But then Egg meets a boy named Max, a boy who's smart and funny and creative and cool . . . and happens to like Egg. Could this be the end of the world — at least as Egg knows it?

The Yearling

An American classic—and Pulitzer Prize–winning story—that shows the ultimate bond between child and pet. No novel better epitomizes the love between a child and a pet than *The Yearling*. Young Jody adopts an orphaned fawn he calls Flag and makes it a part of his family and his best friend. But life in the Florida backwoods is harsh, and so, as his family fights off wolves, bears, and even alligators, and faces failure in their tenuous subsistence farming, Jody must finally part with his dear animal friend. There has been a film and even a musical based on this moving story, a fine work of great American literature.

Rise of a Hero

THE RETURN OF SORAHB? Legend has it that when Farsala most needs a warrior to lead it, Sorahb will be restored by the god Azura. That time has come. After a devastating loss to the army of the Hrum, Farsala has all but fallen. Only the walled city of Mazad and a few of the more uninhabitable regions remain free of Hrum rule, and they seem destined to fall as well. Farsala needs a champion now. Three young people are waging battle as best they can. Soraya, Jiaan, and Kavi, their lives decimated by the Hrum, are each in a personal fight against their common enemy. Apart, their chances are slim, as none of them is Sorahb reborn. United, perhaps they can succeed. But only Time's Wheel can bring them together—if it turns the right way. If it doesn't, Farsala is surely doomed. In the sequel to the critically acclaimed *Fall of a Kingdom* (formerly titled *Flame*), the first book of the Farsala Trilogy, Hilari Bell draws readers deeper into the mythical land of Farsala and weaves an epic tale of destiny and danger.

Fresh from the Farm 6pk

In his gripping debut novel, acclaimed picture book author John Coy presents the high stakes world of high school football, where doing what it takes to win doesn't always mean doing the right thing. When Miles Manning, a successful high school football player, discovers his teammates are using steroids--and one of them is his best friend--he's faced with a tough decision: Is he willing to do what it takes to win? Football is his life, and his family, especially his dad, is pinning its hopes on him. It's a lot of pressure for a high school junior to bear. This gripping look into the world of high school boys and athletes--and their struggle to be the best--is provocative and searingly honest.

POEMS POSTHUMOUS & COLL

Hank Hanegraaff documents the danger of looking for God in all the wrong places and goes behind the scenes into the wildly popular and bizarre world of contemporary revivalism. Hanegraaff masterfully exposes the stark contrast between these deeds of the flesh and a genuine work of the Spirit by contrasting modern "revivals" with the scriptural examples of God's movement among His people.

Counterfeit Revival

When your chance for getting into college and your date for the prom are all on the line... Sixteen-year-old Samantha Taylor is used to having things go her way. She's head cheerleader and has all the right friends and a steady stream of boyfriends. But when she tanks the SATs, her automatic assumptions about going to college don't appear to be so automatic anymore. She determines that her only hope for college admission is to win the election for student body president. Unfortunately, with her razor wit and acid tongue, she's better suited to dishing out insults than winning votes. When she brashly bets her classmate Logan that she can go two weeks without uttering a single insult, Samantha immediately realizes that she may have bitten off more than she can chew. And when her current boyfriend dumps her, less than three weeks before the prom, it couldn't be a worse time to be forced to keep her opinions to herself. Finding a new boyfriend will be a challenge now that Logan shadows her every move, hoping to catch her slipping back into her old ways. Samantha is determined to win the election and find a dream date for the prom, no matter what it takes. After all . . . all's fair in love and war (and high school!).

All's Fair in Love, War and High School

"This is the colorful and dramatic biography of two of America's most controversial entrepreneurs: Moses Louis Annenberg, 'the racing wire king,' who built his fortune in racketeering, invested it in publishing, and lost much of it in the biggest tax evasion case in United States history; and his son, Walter, launcher of TV Guide and Seventeen magazines and former ambassador to Great Britain."--Jacket.

The Annenbergs

On her fourth Leap birthday, when she turns sixteen, Josie has a number of momentous experiences, including taking her driver's test, auditioning for a school play, and celebrating with her family and friends.

Leap Day

Eighteen-year-old Eli discovers a shocking secret about his life and his family while working for a Nobel Prize-winning scientist whose specialty is genetic engineering.

Double Helix

As the rumours subside and the cheering stops, Elaine Stalker MP watches with a pang of regret as Roger Dickson takes up the reins of government as Prime Minister. She has intimate knowledge of just how competent and decent her ex-lover is, but his new role of necessity curtails their close friendship. Yet Roger recognises Elaine's drive and quickly appoints her Junior Minister in a newly created government department. It is a political hot seat, and one that finds Elaine ruefully concluding that in the corridors of power, a woman's place is usually in the wrong... A powerful sequel to A Parliamentary Affair.

A Woman's Place

Girl, 15, Charming But Insane, huge bum, massive ears, seeks ... Well, seeks Ben Jones, but failing that, large Muslim-type burka garment to cover her deformities. Life can be trying when your best friend is a goddess, you are a woeful underachiever, and Ben Jones won't even look in your direction. Painfully spot on, Girl, 15 reveals with Technicolor precision the agony and the ecstasy (and the embarrassment) of being a teenager. With razor-sharp observation and deadpan humour we are offered a privileged peek at the life of Jess, 15, charming, but most definitely insane. This novel has a unique voice and humour that will make you want to read it again and again - if you can bring yourself to put it down in the first place.

Girl, 15

The Secret Under My Skin

On October 26, 1914, Ernest Shackleton's Endurance set sail from Buenos Aires in pursuit of the last unclaimed prize in exploration: the crossing of the Antarctic continent. The crew stood on deck to watch the city fade away. All but one. Eighteen-year-old Perce Blackborow hid below in a locker. But the thrill of stowing away with the legendary explorer would soon turn to fear. Within months, the Endurance, trapped and crushed by ice, sank. And even Perce, the youngest member of the stranded crew, knew there was no hope of rescue. If the men were to survive in the most hostile place on earth, they would have to do it on their own. Victoria McKernan deftly weaves the hard-to-fathom facts of this famous voyage into an epic, edge-of-your-seat survival novel.

Shackleton's Stowaway

Mallard Fillmore lampoons everything from political correctness to Phil, Oprah, and Geraldo to our government's insatiable appetite for spending our money. His marvelous supporting cast includes wickedly wonderful caricatures of everyone who's anyone, from Hollywood to D.C. to Arkansas.

Scribbler of Dreams

When the rulers mistakenly believe that they can destroy the evil force approaching Farsala, Jiaan, Soraya, and Kavi must find a way on their own to stop their town from being led into the Flames of Destruction.

Fall of a Kingdom

For fans of sea battles, adventures, and war stories like *Unbroken*, this is the incredible true story of a boy who helps to bring closure to the survivors of the tragic sinking of the USS Indianapolis, and helps exonerate the ship's captain fifty years later. Hunter Scott first learned about the sinking of the USS Indianapolis by watching the movie *Jaws* when he was just eleven-years-old. This was fifty years after the ship had sunk, throwing more than 1,000 men into shark-infested waters—a long fifty years in which justice still had not been served. It was just after midnight on July 30, 1945 when the USS Indianapolis was torpedoed by a Japanese submarine. Those who survived the fiery sinking—some injured, many without life jackets—struggled to stay afloat as they waited for rescue. But the United States Navy did not even know they were missing. As time went on, the Navy needed a scapegoat for this disaster. So it court-martialed the captain for “hazarding” his ship. The survivors of the Indianapolis knew that their captain was not to blame. For fifty years they worked to clear his name, even after his untimely death. But the navy would not budge—not until Hunter entered the picture. His history fair project on the Indianapolis soon became a crusade to restore the captain's good name and the honor of the men who served under him. Praise for *Left for Dead*: Christopher Award Winner An ALA-YALSA Best Nonfiction for Young Adults Book “Compelling, dreadful, and amazing.”—VOYA “This exciting, life-affirming book about war heroics and justice . . . proves without question the impact one student can have on history.”—Booklist “Well written and well documented . . . this excellent presentation fills a void in most World War II collections”—School Library Journal “Young readers . . . will no doubt be inspired by the youth's tenacity—and by the valor of those who served on the Indianapolis.”—The Horn Book
