[Amateur sleuth] Lola Wicks is going to be around for a long, long time." —Kirkus Reviews For a foreign correspondent used to the high stakes of war zones in Afghanistan, Lola Wicks is getting restless working the local news beat in the small town of Magpie, Montana. So when Judith Calf Looking, a Blackfeet woman who has been missing for months, is found frozen in a snowbank, Lola's journalist instincts go on alert. The sheriff, otherwise known as the romantic reason Lola is still in Magpie, believes Judith froze while hitchhiking back to the reservation. But when Lola learns that Judith had been working as a stripper in a small North Dakota oil town, and that several Blackfeet women have gone missing over the past year, she sets out in search of answers. The Baker's Creek Brothers Collection (Book 1-3)

A Message to the Reader: I started writing this book in 1995, when I was still not yet thirty years old but approaching it too quickly to not make note of where I was, who I was, or why I was. The story behind the reason for writing is a part of this work so I won't burden you with it twice, but I will say that I have never had more intimate conversations with God both frustrating and revealing than on those 4 a.m.s while staring at a blank page or screen. I think that on some level, one of the reasons why it has taken me so long to finally put this before you has been simply that I will miss those particular conversations, and I haven't quite figured out what else I want to talk about. So many things have happened since the final draft was completed. So many of the endings to these stories have changed. I swear I thought about Lullaby every day. I went from rejection to rejection, first draft to third, and another couple of years passed. I never gave up on the notion that I wanted it out there, but I couldn't simply let it go. The unmentionable then occurred on September 11th, 2001, and after that morning nothing made sense or mattered much, aside from the fact that somehow, I was still alive and breathing and trying not to lose my mind. My coworkers and I were beginning our day across the street from the Towers when it all began, and I join the sentiments of thousands maybe millions when I say that we struggle on a daily basis to maintain some semblance of equanimity. I write this message to you a little over four months from that day so full of fear and love. Even on that day, I swear I thought about Lullaby and how maybe someday someone would find it in the rubble of what was left and have a smile over what New York City was before it was obliterated. For months I have been wondering whether it's the right thing to do, to put this out there at a time when really, who cares about one woman's ride on the A train? How selfish and careless of me would it be to expect that anyone will read this and connect after all that has happened and is happening on this beloved planet? Over and over again I have asked myself these questions. Then I saw The Nutcracker and Contact with my mom during the Christmas holidays. I listened to Nanci Griffith sing during her concert at the Beacon Theatre in December and just recently, I almost passed out with laughter during John Leguizamo's one-man explosion called Sexaholix. I've seen A Beautiful Mind, The Majestic, Vanilla Sky and Oceans 11 in the span of one month, and I've read the last verse of Bruce Springsteen's Land of Hope and Dreams pinned to one of the walls in my office cubicle - once a day. At the office Holiday party a woman sang Oh Come, All Ye Faithful, and I hugged everyone I hadn't seen since September for at least five minutes each and then I danced a few body parts clear off of my person. A friend and I were writing each other recently about the pain following the loss of a loved one. Everyone grieves in their own way, but what remains constant is that sometimes ruthlessly, the rest of the world moves forward in its evolution, regardless of the fact that for you, time has stopped. It seems unfair sometimes that even in the face of the world your world ending, Earth doesn't take a breather

and give you a few minutes or days to get your heart back inside of your chest. It seems a curse. But its a blessing. Its a blessing that in the face of so much, Nanci and Bruce still write and sing, The New York City Ballet still dances, John still makes us laugh, and people still believe. So, I am taking the next step in the life of Lullaby, and Im placing it in your hands with all the love and hope for its appreciation that I can muster. The world as many of us know it has ended and we may never fully understand why, but I would betray the Force behind my every inspiration if I didnt allow this to completely evolve.

I swear I am not the kind of person who gets her cell phone caught in places that require an ER trip and an OBGYN. But, apparently, I am. I'm also not the kind of person who spends all her time thinking about the guy who got away. But, apparently, I am, too. Starting a new life in Boston isn't supposed to include repeatedly embarrassing myself in public, meeting a crazy blond woman who has ties to the band Random Acts of Crazy, and definitely isn't supposed to include wallowing in a past I thought I'd left behind four years ago. But, apparently, it does. And the drummer for the band, Sam Hinton, is the boy I loved in high school and who disappeared with my heart. Now he's back, better than ever. These stories are true. They are for dog lovers of all breeds. Some are reconstructed from conversations with the actual participants, others from my own experience. I do not promote or condone dog fighting but neither do I tolerate the continual stream of deliberate misinformation and blatant lies from the news media and government agencies. I love these remarkable dogs and will continue to own them as long as I am able.

In *Unconventional Combat*, Michael A. Messner illuminates the current generational transformation of the US veterans' peace movement, from one grounded mostly in the experiences of older, White men of the Vietnam War era, to one increasingly driven by a young, diverse cohort of post-9/11 veterans. In particular, he focuses on six veterans of color--mostly women who identify as queer--to show how their experiences of sexual and gender harassment, sexual assault, racist and homophobic abuse during their military service shapes their efforts to transform the veterans' peace movement.

Only one person understands what she's going through. . . Kipenzi Hill, multiplatinum-selling R&B artist and Beth's best friend. Her relationship with rap star and record label president Jake is an open secret in the industry. She knows Jake loves her, but he'd rather break up than publicly acknowledge it. Cleopatra Wright, every man's dream girl, a video vixen with a story to tell and scores to settle. Cleo's got that thing no one can put a finger on and no man (or woman) can resist. Some would call her evil or misguided or both, but Cleo always moves with a purpose and she'll stop at nothing to get what she wants. . . Alex realizes she may have more in common with these women than she'd like. What if this is a glimpse of how her life will be if Birdie finally gets signed to a major label? Stuck between her loyalty to this newfound sisterhood and her obligation to write the truth, Alex is forced to rethink everything she knows about work, friendship, and love.

Jack Kerouac was an American novelist, poet and leader of the Beat movement. His iconic masterpiece 'On the Road' exacted a broad cultural influence, capturing the spirit of its time as no other work of the 20th century had done since 'The Great Gatsby'. Kerouac's insistence upon 'First thought, best thought' and his refusal to revise was controversial. He deemed revision as a form of literary lying, imposing a form farther away from the truth of the moment. His novels reveal a quest for pure, unadulterated language—the truth of the heart unobstructed by the lying of revision. His technique demonstrates an unusual writing style, neither haphazard nor sloppy, but systematic in the most-individualised sense. Reflecting changes in the focus and methodology of writing research over the past 20 years, this book provides a meta-analysis of studies on teaching approaches and focuses on composition instruction at the elementary, secondary, and college levels. The first chapter of the book examines general studies of the composing process, studies of process in classrooms, and studies of planning, production factors, revision, and writing apprehension. Summaries of the limitations and key findings of the research on process are included. The second chapter explores research on the repertoire of lexical, syntactic, or rhetorical forms which writers call upon in their writing. The third chapter examines criticisms of experimental studies and the difficulties in doing them, then explains the techniques used in the meta-analysis of such studies, the selection of studies, and the variables examined. The next four chapters analyze the studies in the areas of modes of instruction, grammar and the manipulation of syntax, criteria for better writing, and invention. The eighth chapter presents the results of the meta-analysis for the dimensions examined: grade level, duration of treatment, mode of instruction, focus of instruction, revision, and feedback. The final chapter discusses the compatibility of results of treatment or method studies with those of processes studies, and offers recommendations for future research. (HTH)

ERIC Clearinghouse Publications

In this timely book, Robert Jay Lifton and Greg Mitchell investigate the mindsets of individuals involved in the death penalty -- including prison wardens, prosecutors, jurors, religious figures, governors, judges, and relatives of murder victims -- and offer a textured look at a system that perpetuates the longstanding American habit of violence. Richly rewarding and meticulously researched, *Who Owns Death?* explores the history of the death penalty in the United States, from hanging to lethal injection, and considers what this search for more "humane" executions reveals about us as individuals and as a society... and what the future of the death penalty holds for us all.

Imported from the Mamluks of Egypt, card games first hit Europe around 1371 and within ten years had spread from Spain and Italy to France and Germany. By 1420, German and Swiss cardmakers were producing packs by the thousands (first by stencil, later by metal engraving) marked with a bewildering array of suits, including hounds, bears, parrots, roses, helmets, banners, and bells. Games proliferated as well, and by 1534, Rabelais could name 35 different card games in Chapter 22 of *Gargantua*. Today, of course, there are thousands of games, from the universally popular Poker and Contract Bridge, to national manias such as Swiss Jass, German Skat, and French Belote. This is a historical guide to cards in Europe and America. This is not primarily a book of rules or hints on how to play better, but a survey of where the games originated, how they have developed over time, and what their rituals and etiquette tell us about the people who play them.
