## Beside the Seaside: Seaside Holidays Then and Now

Seaside Holidays Then and Now compares what it would have been like to go on holiday to the seaside in the past with modern seaside holidays today. Readers are encouraged to explore what has changed and what has stayed the same, including the places we stay, beach activities and the clothes we wear. The Beside the Seaside series looks at specific aspects of daily life by the sea, whether examining plant and animal habitats, exploring the various jobs people do, looking at types of buildings and structures, or comparing a holiday by the sea in the past and present day. An essential set of books for learning about all aspects of the seaside, and a perfect teaching tool for Key Stage 1.

If you had one wish this Christmas, what would it be? Sarah wishes not to be lonely. So when Eddie's job takes him away from home shortly before Christmas, the enforced break in their relationship - while tricky - probably couldn't have come at a better time. But will his absence make her heart grow fonder? And if so, for whom? As seasonal cheer begins to flow, Sarah discovers rather a lot can happen in one holiday ... especially when it's Christmas. Jane Green and her friends are delighted to bring you this enchanting trio of tales for the holiday - stories about falling headlong in love and the miracle of second chances.

"Remarkable insight and sensitivity . . . deepen[s] our understanding of human resilience and how people rebuild their lives from tragic circumstances." —KENNETH ROTH, Executive Director, Human Rights Watch "The stories in this book are eloquently and poignantly recounted, and offer a vital, complex portrait of what the long road to peace looks like." —DINAW MENGESTU, author of The Beautiful Things That Heaven Bears and How to Read the Air "Profound . . . Rarely do we get the

opportunity to delve into the thoughts of the young caught up in such a tragedy—and meet them not just once in their lives but again years later.” —TIM JUDAH, Europe correspondent for Bloomberg World View, Balkans correspondent for The Economist, and author of *The Serbs: History, Myth and the Destruction of Yugoslavia* Imagine you are nine years old. Your best friend's father is arrested, half your classmates disappear from school, and someone burns down the house across the road. Imagine you are ten years old and have to cross a snow-covered mountain range at night in order to escape the soldiers who are trying to kill you. How would you deal with these memories five, ten, or twenty years later once you are an adult? Jones, a relief worker and child psychiatrist, interviewed over forty Serb and Muslim children who came of age during the Bosnian War and now returns, twenty years after the war began, to discover the adults they have become. A must-read for anyone interested in human rights, children's issues, and the psychological fallout from war, this engaging book addresses the continuing debate about PTSD, the roots of ethnic identity and nationalism, the sources of global conflict, the best paths toward peacemaking and reconciliation, and the resilience of the human spirit. Lynne Jones was appointed an Officer of the Order of the British Empire for her work in child psychiatry in conflict-affected areas of Central Europe and has established and directed mental health programs in areas of conflict and natural disaster throughout Latin America, the Balkans, East and West Africa, the Middle East, and Southeast Asia. Her field diaries have been published in *O, The Oprah Magazine* and *London Review of Books*, and her audio diaries have been broadcast on the BBC World Service.

#### The Holiday

Outside of Italy, the country's culture and its food appear to be essentially synonymous. And indeed, as *The Italian Way* makes clear, preparing, cooking, and eating food play a central role in the daily activities of Italians from all walks of life. In this beautifully illustrated book, Douglas Harper and Patrizia Faccioli present a fascinating and colorful look at the Italian table. *The Italian Way* focuses on two dozen families in the city of Bologna, elegantly weaving together Harper's outsider perspective with Faccioli's intimate knowledge of the local customs. The authors interview and observe these families as they go shopping for ingredients, cook together, and argue over who has to wash the dishes. Throughout, the authors elucidate the guiding principle of the Italian table—a delicate balance between the structure of tradition and the joy of improvisation. With its bite-sized history of food in Italy, including the five-hundred-year-old story of the country's cookbooks, and Harper's mouth-watering photographs, *The Italian Way* is a rich repast—insightful, informative, and inviting.

#### Parliamentary Debates (Hansard)

The Adventure holiday of A lifetime It had been billed as the holiday of a lifetime. A destination with everything a holiday maker could possibly want. There were towns and cities where they could shop until they dropped and beaches, clubs and nightlife with all kinds of exotic food and drink and anything else they might feel like trying. There were desserts that stretched into infinity, mountains that scaled incredible heights and seas that could challenge even the most jaded pallet. For those of a quieter persuasion there was an abundance of gently rolling countryside in which to relax. So just where did it all go wrong? Just when was it that their dream holiday turned into the Holiday from Hell? For many people on our planet this could be said to be an apt description of their journey through life. From the pain of individual relationships to the devastation of natural disasters and wars, it's no wonder we sometimes question the reasons we are here. *The Holiday from Hell* describes our spiritual journey from the beginning of our holiday on the earth plane to the end of our time in this physical body. It argues that if we change our perceptions of why we are here and begin to understand the origins of some of our political and religious conflicts we can at last begin to enjoy our lives.

#### Hearings

Harvey Rolfe was old enough to dine with deliberation, young and healthy enough to sauce with appetite the dishes he thoughtfully selected. You perceived in him the imperfect epicure. His club had no culinary fame; the dinner was merely tolerable; but Rolfe's unfinished palate flattered the second-rate cook. He knew nothing of vintages; it sufficed him to distinguish between Bordeaux and Burgundy; yet one saw him raise his glass and peer at the liquor with eye of connoisseur. All unaffectedly; for he was conscious of his shortcoming in the art of delicate living, and never vaunted his satisfactions. He had known the pasture of poverty, and the table as it is set by London landladies; to look back on these things was to congratulate himself that nowadays he dined.

The nineteenth century saw Weston-super-Mare grow from a tiny village of about 100 inhabitants to a thriving Victorian seaside resort of 20,000 people. Today it has a population of over 80,000. Despite changing fortunes during the twentieth century, as the traditional English week at the seaside was replaced by holidays overseas and short breaks in the UK, Weston has managed to adapt – and still flourishes. Illustrated with ninety beautiful colour photographs, Weston-super-Mare Then & Now explores the modern townscape to discover what remains of Weston's past, and what has replaced features that have gone for ever.

Super Freedom is just that ? a guide for women to super. This guide has a strong, aspirational focus on what superannuation can provide for women, regardless of their marital circumstances, age or even their current superannuation balances. For women it's not so much about the actual amount of super they have, but what they can do with it, eg travel, shop, live. Throwing aside the shackles of jargon and terminology, Trish Power's guide to superannuation for women, provides with women with everything they need to know about how much super they need, getting their super set up, how to increase their super balance, how to move into retirement, insurance and estate planning.

UNCLE HARVEY'S PARLOR. Mr. Harvey's two sons, Thomas and John, were very anxious for their cousin, Samuel Reed, to spend the August holidays with them. His father said that he might; and when school was closed for the season, Samuel bade his father good bye, and was soon in the carriage, driving toward Uncle Harvey's country seat. The boys had not seen each other since New Year's day. It was a happy meeting when Samuel jumped out of the carriage, by the gate leading from the main road up to Mr. Harvey's house; for there his uncle, and two cousins, were waiting for him. Thomas and John, each grasped a hand, while their father led the way to the house. "We were afraid you were not coming," said John. "How tall you have grown since Christmas," exclaimed Thomas. "Were you not tired of being in the hot city such weather as this?" Samuel said that he was; and then they all entered the house, while the driver brought in Samuel's baggage. It was about five o'clock in the afternoon when Samuel reached his uncle's house. He was taken into a small parlor, which opened upon a garden where many flowers were in bloom. It was a warm day, but this room was cool and fragrant; and on the table were several plates of fruit, and some cakes, which his uncle caused to be placed there, so that he might eat some as soon as he arrived, While Samuel was eating some of them John said: "We are so glad you have come, Samuel. Last winter you could see nothing but snow." "What became of the snow-man we made last winter?" asked Samuel. "It froze very hard for more than a week after you left," replied Thomas; "but John and I broke its head a great deal, with snow balls, and afterwards a warm rain fell, and washed it away." "Is it warm in the city now?" asked John. "Yes," answered his cousin. "In the middle of the day the pavements seem to be about on fire, and people are afraid to walk far, lest they may be sunstruck. Yesterday two men died with the heat. There seems to be no air stirring from morning till night. Besides, there is much sickness in town, and many persons have left their houses, and gone into the country. "Father," said Thomas, "how miserable we should be if we had no water to drink this weather, like those poor Arabs that you told us of the other day." "Yes," answered Mr. Harvey, "the sun must be burning hot in Arabia now." "How can they live in such a place?" asked John. "They are not all so miserable as the party I told you of the other day," replied his father. "Besides, you know it is their country, and God has taught them to love it. If an Arab were brought here, he would, probably, think it a most dreary land, except in summer." "But what do you do in town, Samuel," asked John, "when it is too warm to go out?" "It is very hot only in the middle of the day," replied his cousin, "and then, you know, we are at school. In the afternoons, I sometimes rode out with father, or went on the steamboat. Last week a balloon went up, from the other side of the river. We had a fine view of it from the roof of our house....

At nineteen, Nick is alone for the holidays and facing reality: this is how it will be from now on. Refusing to give up completely, Nick buys a Christmas tree, and then realizes he has no ornaments. A bare tree and an empty apartment aren't a great start, but a visit from his friend Haruto is just the ticket to get him through this first, worst, Christmas. A box of candy canes and a hastily folded paper crane might not be the best ornaments, but it's a place to start. A year later, Nick has realized he's not the only one with

nowhere to go, and he hosts his first “Christmas for the Misfit Toys.” Haruto brings Nick an ornament for Nick’s tree, and a tradition—and a new family—is born. As years go by, Nick, Haruto, and their friends face love, betrayal, life, and death. Every ornament on Nick’s tree is another year, another story, and another chance at the one thing Nick has wanted since the start: someone who’d share more than the holidays with him. Of course, Nick might have already missed his shot at the one, and it might be too late. Still, after fifteen Christmases, Nick is ready to risk it all for the best present yet.
