Accounting: Information for Business Decisions

Accounting Information for Business Decisions is a business-focused introduction to Accounting for all students - not just those intending to be Accounting majors. Lead students through the real-world business cycle and how accounting information informs decision-making. Departing from the traditional approach taken by other introductory accounting textbooks, students apply both managerial and financial approaches within the topics examined in each chapter, to see the direct impact that Managerial Accounting decisions make on the Financial Accounting processes (and vice versa). The conversational writing engages students in the theoretical content and how it applies to contemporary real-world scenarios. Students follow a retail coffee business in the relatable Cafe Revive running case study integrated into every chapter, to learn about applying accounting issues in the real world. Design and Equipment for Restaurants and Foodservice

This text shows the reader how to plan and develop a restaurant or foodservice space. Topics covered include concept design, equipment identification and procurement, design principles, space allocation, electricity and energy management, environmental concerns, safety and sanitation, and considerations for purchasing small equipment, tableware, and table linens. This book is comprehensive in nature and focuses on the whole facility—with more attention to the equipment—rather than emphasizing either front of the house or back of the house.

Planning an Applied Research Project in Hospitality, Tourism, and Sports

Planning an Applied Research Project in Hospitality, Tourism and Sports provides a comprehensive and carefully structured treatment of all the aspects involved in planning a research project. Instead of being

a statistically oriented book, this text provides a conceptual and process-oriented approach to planning and conducting research. Written for both students and professionals, it is easy to read, short, and to the point, i.e., practical. The book provides basic, yet comprehensive information about doing research, and can be used not only in a “research methods” course where students will have to plan and conduct a research project, but also in earlier course work to help students learn to write research papers. Planning an Applied Research Project in Hospitality, Tourism and Sports covers a range of subjects including: selecting a topic, conducting a literature review, developing a coherent design, and using various research techniques such as interviews, questionnaires, and observations. It also contains information on analyzing data once it has been collected and developing a proposal to obtain support before undertaking a research project. Unique coverage includes: 2 chapters on conducting and writing a literature review, 1 chapter on analyzing data (from both a qualitative and quantitative perspective), 1 chapter on writing a research proposal, and 3 detailed chapters on techniques.

Off-Premise Catering Management

For nearly two decades, Off-Premise Catering Management has been the trusted resource professional and aspiring caterers turn to for guidance on setting up and managing a successful off-premise catering business. This comprehensive reference covers every aspect of the caterer's job, from menu planning, pricing, food and beverage service, equipment, and packing, delivery, and set-up logistics, to legal considerations, financial management, human resources, marketing, sanitation and safety, and more. This new Third Edition has been completely revised and updated to include the latest industry trends and real-life examples.

Cooking to the Image

Plating exposes a chef's deepest beliefs about what food is, and how food should be. This book provides the prerequisites to cultivating a professional viewpoint, to investigate these deeper meanings, by considering the different ways a chef looks at food. The goal of the text is to provide a map of how a chef creates a plate of food by considering common questions such as: Where in the menu is this food item to be placed? And how will it be served? Structured as a design process, this book outlines how personal creativity and professional traditions fuse to create successful plated presentations of food.

The Sports Event Management and Marketing Playbook

As a sporting event planner, how do you keep up with the trends of the ticket buying public, sponsorship and merchandising while at the same time attending to the hundreds of management and operational details required to execute the event? A successful sports event requires a planner that can read signals from their market and plan strategically to maintain sponsors and a fill an arena.

Culinary Math

Written by two former instructors at The Culinary Institute of America, the revised and updated Culinary Math, 4th Edition is an indispensable math resource for foodservice professionals everywhere. Covering topics such as calculating yield percent, determining portion costs, changing recipe yields, and converting between metric and U.S. measures, it offers a review of math basics, easy-to-follow lessons, detailed examples, and newly revised practice problems in every chapter. Used by culinary professionals and students around the country, this book presents proven step-by-step methods for understanding foodservice math and using it appropriately in the kitchen. It is filled with examples and sample problems that connect math skills to real-world situations. This edition of Culinary Math also includes more practice problems in each chapter to help readers develop and practice their problem-solving skills.

Hybrid Learning Theory and Practice

This book constitutes the refereed proceedings of the 7th International Conference on Hybrid Learning, ICHL 2014, held in Shanghai, China, in August 2014. The 31 papers presented were carefully reviewed and selected from 90 submissions. The selected papers cover various aspects on hybrid learning, computer supported collaborative learning, experiences in hybrid learning, improved flexibility on learning processes and the pedagogical and psychological issues of hybrid learning.

Molecular Gastronomy

Uncover the science of cooking with this International Association of Culinary Professionals Cookbook Award finalist - *Molecular Gastronomy: Scientific Cuisine Demystified*. *Molecular Gastronomy: Scientific Cuisine Demystified* aims to demystify the intriguing and often mysterious world of cooking that we call molecular gastronomy, or “Avangard Nueva Cocina”, as Ferran Adrià has called it. This book provides readers with crucial knowledge of the ingredients used to execute the fundamental step-by-step techniques provided and is written to help readers expand their skills in the Molecular Gastronomy area. Written by a chef who has spent years cultivating his craft, *Molecular Gastronomy: Scientific Cuisine Demystified* focuses on introducing the subject to readers and future chefs who have minimal or no experience in the molecular gastronomy of various foods. With its scientific approach, *Molecular Gastronomy: Scientific Cuisine Demystified* provides a foundation and platform for experimentation, while delving into new and exciting cooking techniques. Stunningly illustrated with hundreds of full-color photos of finished dishes and the process along the way, this unique culinary offering breaks down the science of food while introducing future chefs to some of the most innovative techniques used in today's competitive kitchens.

The Complete Guide to Greener Meetings and Events

While there are many reasons to incorporate sustainable practices into meetings and events, including saving costs and resources, protecting the environment, improving social issues, doing business more efficiently and effectively and attracting new audiences, the number one reason to go green is to do business better. The book is divided into three parts, which reflect defining principles of greener meetings and events: Innovation, Conservation, and Education. This book broadly explores sustainable management in the hospitality, tourism, conference and exhibition, and meeting and event industries, as well as countless smaller industries that include arts and music festivals and tour operators. Readers who are studying in, working in, or even just interested in these industries will reap innumerable benefits from the exciting journey ahead of them in *The Complete Guide to Greener Meetings and Events*.

Supervision in the Hospitality Industry

Supervision in the Hospitality Industry, 8th Edition focuses on the different roles of employees from beginning leaders, newly promoted supervisor, or anyone planning a career in the hospitality field. A market leader, this text is widely used by thousands of students training for a career in the hospitality industry and current hospitality supervisors alike. *Supervision* is unique in that it does not solely rely on the supervisor's point of view; instead, it considers the viewpoints of all levels of associates to create an informed picture of management and supervision in the hospitality industry.

Society in Focus

Examining the role of mass media and information technology in contemporary society, *Society In Focus*, Eighth Edition, emphasizes the increasing diversity and globalization of societies everywhere. It is designed to help students think clearly and critically about sociological issues, concepts, and methods. Questioning is at the heart of this approach, and as students read this book they are encouraged to become part of the sociological enterprise—rather than remain passive observers. Every element of the text is designed to challenge students to evaluate social issues and, guided by the sociological imagination, to clearly formulate their own positions. By asking questions that demand sociological and creative thought, students are reminded that their conclusions and decisions, as well as their non-decisions and inaction, may have important social consequences. New to this edition:

- New coauthor Mica Thompson, an experienced teacher of introduction to sociology, brings a fresh new perspective as well as a wide array of different life experiences to this edition of *Society in Focus*.
- An expanded critical analysis in Chapter 1 introduces all forms of media and technology, and every chapter examines an aspect of their powerful social influence.
- Chapters 9, 16, and 17 have been updated to include the most recent worldwide financial and economic developments, to help explain globalization and cultural diversity.
- Expanded application of feminist theory in every chapter to help students recognize the importance of gender diversity and the contributions of that theoretical perspective in sociology.
- Updated and brand new boxes throughout encourage students to take a closer look at society and selected social issues.

The Counselor Educator's Survival Guide

For those developing and teaching Counselor Education courses in Clinical Mental Health Counseling and School Counseling programs, this unique text will be a valuable resource. In it, experienced instructors provide guidance based on their own breadth of experiences, demonstrating how to design and implement an effective curriculum. Chapters cover course topics such as theories of counseling, multicultural counseling, legal and ethical issues, psychopharmacology, and many more. Each chapter is organized in the following sequence: an overview and obj.

Special Events

This book chronicles and champions the development, changes, and challenges faced by the global celebrations industry for event planners. New interviews are included with experienced event leaders to give a better understanding of the field. New chapters are included on green events, corporate social responsibility, and theoretical case studies. Event measurement, evaluation, and assessment topics are integrated throughout a number of the chapters. Over 200 new Web resources and appendices show how to save money, time, and improve the overall quality of an event. Event planners will also learn how technology may be harnessed to help them improve their events' financial, quality, environmental and other strategic outcomes.

Hospitality Law: Managing Legal Issues in the Hospitality Industry, Fifth Edition takes an applied approach to the study of hospitality law with its touchstone of compliance and prevention. The book is highly pedagogical and includes many interactive exercises and real world cases that help students focus on the practical application of hospitality laws and model their decision process to avoid liability. As a result, this book does look different than others on the market as the legal information contained is carefully selected to specifically correlate with helping students understand how to do the right thing, i.e., it is not a comprehensive book on the laws. Barth immediately helps readers learn about the legalities of situations and work through exercises – both individually and in groups -- to effectively apply them to hospitality management situations. Many instructors teach their course from a very applied perspective, which aligns with Barth's approach.

Macroeconomics in Context lays out the principles of macroeconomics in a manner that is thorough, up to date, and relevant to students. Like its counterpart, Microeconomics in Context, the book is uniquely attuned to economic, social, and environmental realities. The "In Context" books offer engaging coverage of current topics including policy responses to recession and inflation, inequality, deficits and government debt, economic impacts of the COVID-19 pandemic, and the economics of environmental sustainability. This fourth edition includes: Improved and concise discussions of introductory topics, especially on key economic activities, macroeconomic goals, and economic models Further emphasis on inequality, environmental sustainability, financialization, the changing nature of work, and international developments such as the role of transnational corporations and supply chain issues Discussion of the impacts of the COVID-19 pandemic on macroeconomic factors like well-being, inequality, and labor markets Presentation of policy issues in historical, environmental, institutional, social, political, and ethical contexts, including an updated discussion of fiscal policy in relation to the Biden administration's infrastructure and social investment spending Clear explanations of basic economic concepts alongside more in-depth analysis of macroeconomics models and economic activity This book combines real-world relevance with a thorough grounding in multiple economic

paradigms. It is the ideal textbook for modern introductory courses in macroeconomics. The book's companion website is available at: <http://www.bu.edu/eci/macro>

For many people, taking some form of medication is part of everyday life, whether for mild or severe illness, acute or chronic disease, to target infection or to relieve pain. However for most it remains a mystery as to what happens once the drug has been taken into the body: how do the drugs actually work? Furthermore, by what processes are new drugs discovered and brought to market? An Introduction to Medicinal Chemistry, sixth edition, provides an accessible and comprehensive account of this fascinating multidisciplinary field. Assuming little prior knowledge, the text is ideal for those studying the subject for the first time. Part one of the book introduces the principles of drug action via targets such as receptors and enzymes. The book goes on to explore how drugs work at the molecular level (pharmacodynamics), and the processes involved in ensuring a drug meets its target (pharmacokinetics). Further sections cover the processes by which drugs are discovered and designed, and what has to happen before a drug can be made available to the public. The book concludes with a selection of current topics in medicinal chemistry, and a discussion of various key drug groups. The subject is brought to life throughout by engaging case studies highlighting particular drugs and the stories behind their discovery and development. The Online Resource Centre features: For students: DT Multiple Choice Questions to support self-directed learning DT Web articles describing recent developments in the field and further information on topics covered in the book DT Journal Club to encourage students to critically analyse the research literature DT Molecular Modelling Exercises, with new exercises in Chem3D DT New assignments to help students develop data analysis and problem solving skills For registered adopters of the book: DT A test bank of additional multiple-choice questions, with links to relevant sections in the book DT Answers to end-of-chapter questions. DT Figures from the book, ready to download. DT Power Point slides to accompany every chapter in the book.

The Mom Test is a quick, practical guide that will save you time, money, and heartbreak. They say you shouldn't ask your mom whether your business is a good idea, because she loves you and will lie to you. This is technically true, but it misses the point. You shouldn't ask anyone if your business is a good idea. It's a bad question and everyone will lie to you at least a little . As a matter of fact, it's not their responsibility to tell you the truth. It's your responsibility to find it and it's worth doing right . Talking to customers is one of the foundational skills of both Customer Development and Lean Startup. We all know we're supposed to do it, but nobody seems willing to admit that it's easy to screw up and hard to do right. This book is going to show you how customer conversations go wrong and how you can do better.
