These study guides provide peer-reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research.

Gale Researcher Guide for: Overview of Immigration and Urbanization in the Gilded Age and Progressive Era

For centuries, people have been thinking and writing—and fiercely debating—about the meaning of marriage. Just a hundred years ago, Progressive era reformers embraced marriage not as a time-honored repository for conservative values, but as a tool for social change. In *Until Choice Do Us Part*, Clare Virginia Eby offers a new account of marriage as it appeared in fiction, journalism, legal decisions, scholarly work, and private correspondence at the turn into the twentieth century. She begins with reformers like sexologist Havelock Ellis, anthropologist Elsie Clews Parsons, and feminist Charlotte Perkins Gilman, who argued that spouses should be “class equals” joined by private affection, not public sanction. Then Eby guides us through the stories of three literary couples—Upton and Meta Fuller Sinclair, Theodore and Sara White Dreiser, and Neith Boyce and Hutchins Hapgood—who sought to reform marriage in their lives and in their writings, with mixed results. With this focus on the intimate side of married life, Eby views a historical moment that changed the nature of American marriage—and that continues to shape marital norms today.

Gale Researcher Guide for: Conservation and Preservation in the Progressive Era

Describes the time in America prior to the first World War, the vast differences between the wealthy and the poor, the changing from farming to factory work, and the inventions of conveniences such as electric lights, telephones, and bicycles.

How the Other Half Lives

This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust Drama For Students for all of your research needs.

Until Choice Do Us Part

The Progressive Era, a few brief decades around the turn of the last century, still burns in American memory for its outsized personalities: Theodore Roosevelt, whose energy glinted through his pince-nez; Carry Nation, who smashed saloons with her axe and helped stop an entire nation from drinking; women suffragists, who marched in the streets until they finally achieved the vote; Andrew Carnegie and the super-rich, who spent unheard-of sums of money and became the wealthiest class of Americans since the Revolution. Yet the full story of those decades is far more than the sum of its characters. In Michael McGerr's *A Fierce Discontent* America's great political upheaval is brilliantly explored as the root cause

of our modern political malaise. The Progressive Era witnessed the nation's most convulsive upheaval, a time of radicalism far beyond the Revolution or anything since. In response to the birth of modern America, with its first large-scale businesses, newly dominant cities, and an explosion of wealth, one small group of middle-class Americans seized control of the nation and attempted to remake society from bottom to top. Everything was open to question -- family life, sex roles, race relations, morals, leisure pursuits, and politics. For a time, it seemed as if the middle-class utopians would cause a revolution. They accomplished an astonishing range of triumphs. From the 1890s to the 1910s, as American soldiers fought a war to make the world safe for democracy, reformers managed to outlaw alcohol, close down vice districts, win the right to vote for women, launch the income tax, take over the railroads, and raise feverish hopes of making new men and women for a new century. Yet the progressive movement collapsed even more spectacularly as the war came to an end amid race riots, strikes, high inflation, and a frenzied Red scare. It is an astonishing and moving story. McGerr argues convincingly that the expectations raised by the progressives' utopian hopes have nagged at us ever since. Our current, less-than-epic politics must inevitably disappoint a nation that once thought in epic terms. The New Deal, World War II, the Cold War, the Great Society, and now the war on terrorism have each entailed ambitious plans for America; and each has had dramatic impacts on policy and society. But the failure of the progressive movement set boundaries around the aspirations of all of these efforts. None of them was as ambitious, as openly determined to transform people and create utopia, as the progressive movement. We have been forced to think modestly ever since that age of bold reform. For all of us, right, center, and left, the age of "fierce discontent" is long over.

The Language of Planning

A student study guide to accompany the principle work, 'The American economy: how it works and how it doesn't'.

The History of the Standard Oil Company

DIVBased on a pocket diary from the Spanish-American War, this tough-as-nails 1899 memoir abounds in patriotic valor and launched the future President into the American consciousness. /div

Student study guide

A Companion to the Gilded Age and Progressive Era presents a collection of new historiographic essays covering the years between 1877 and 1920, a period which saw the U.S. emerge from the ashes of Reconstruction to become a world power. The single, definitive resource for the latest state of knowledge relating to the history and historiography of the Gilded Age and Progressive Era Features contributions by leading scholars in a wide range of relevant specialties Coverage of the period includes geographic, social, cultural, economic, political, diplomatic, ethnic, racial, gendered, religious, global, and ecological themes and approaches In today's era, often referred to as a "second Gilded Age," this book offers relevant historical analysis of the factors that helped create contemporary society Fills an important chronological gap in period-based American history collections

A Study Guide for Thornton Wilder's Our Town

"Involving students in real historical problems that convey powerful lessons about U.S. history, these thought-provoking activities combine core content with valuable practice in decision making, critical thinking, and understanding multiple perspectives. O'Reilly - an experienced, award winning teacher - has students tackle fascinating historical questions that put students in the shoes of a range of people from the past, from the rich and famous to ordinary citizens. Each lesson can be done either as an in-depth activity or as a "quick motivator." Detailed teacher pages give step-by-step instructions, list key vocabulary terms, offer troubleshooting tips, present ideas for post-activity discussions, and furnish lists of related sources. Reproducible student handouts clearly lay out the decision-making scenarios, provide "outcomes," and present related primary source readings and/or images with analysis questions"--Page 4 of cover

A Study Guide for Alice Gerstenberg's Overtones

Rothbard's posthumous masterpiece is the definitive book on the Progressives. It will soon be the must read study of this dreadful time in our past. — From the Foreword by Judge Andrew P. Napolitano The current relationship between the modern state and the economy has its roots in the Progressive Era.

— From the Introduction by Patrick Newman Progressivism brought the triumph of institutionalized racism, the disfranchising of blacks in the South, the cutting off of immigration, the building up of trade unions by the federal government into a tripartite big government, big business, big unions alliance, the glorifying of military virtues and conscription, and a drive for American expansion abroad. In short, the Progressive Era ushered the modern American politico-economic system into being. — From the Preface by Murray N. Rothbard

A Study Guide for Herbert Croly's The Promise of American Life

This edition was developed specifically for courses covering up to the Civil War or Reconstruction. The text can also be used for the first part of a two-year American history course.

A Fierce Discontent

Provides supplementary instruction and increases students' chances for academic success by helping them get the most out of their textbooks.

Up to 600 questions and answers, each volume in the PRAXIS series is a quick and easy, focused read. Reviewing PRAXIS flash cards is the first step toward more confident PRAXIS preparation and ultimately, higher PRAXIS exam scores!

The Rough Riders

Winner of the Pulitzer Prize in Non-Fiction. This book is a landmark in American political thought. Preeminent Richard Hofstadter examines the passion for progress and reform that colored the entire period from 1890 to 1940 with startling and stimulating results. The Age of Reform searches out the moral and emotional motives of the reformers the myths and dreams in which they believed, and the realities with which they had to compromise.

A Companion to the Gilded Age and Progressive Era

This text is an account of the vibrant international network that the American soci-political reformers constructed - so often obscured by notions of American exceptionalism - and of its profound impact on the USA from the 1870's through to 1945.

Imperialism and Progressivism

In this collection of informative essays, Noralee Frankel and Nancy S. Dye bring together work by such notable scholars as Ellen Carol DuBois, Alice Kessler-Harris, Barbara Sicherman, and Rosalyn Terborg-Penn to illuminate the lives and labor of American women from the late nineteenth century to the early 1920s. Revealing the intersections of gender, race, ethnicity, and social class, the authors explore women's accomplishments in changing welfare and labor legislation; early twentieth century feminism and women's suffrage; women in industry and the work force; the relationship between family and community in early twentieth-century America; and the ways in which African American, immigrant, and working-class women contributed to progressive reform. This challenging collection not

only displays the dramatic transformations women of all classes experienced, but also helps construct a new scaffolding for progressivism in general.

The Progressive Era

"A title in the Flashpoints series from *Reacting to the Past*, Paterson, 1913: A Labor Strike in the Progressive Era is designed to be played during the time typically devoted to teaching the Progressive Era in U.S. History II. Set in America's "Silk City," Paterson, New Jersey, the game pits manufacturers, who try to keep Paterson's key economic engine running, against labor leaders, who demand a general strike to achieve better working conditions across the silk industry. In the middle of this conflict are townspeople, who must decide whom to support and how to survive a labor struggle that seems to have no end in sight"--

America: History of Our Nation Adapted Interactive Reading and Notetaking Study Guide 2007c

The Progressive Era, the period in the United States between 1898 and 1917, was a time of great social, political, and industrial change. Following the Spanish-American War of 1898, an event that signaled the emergence of the United States as a great power, the country soon was involved in its first overseas guerrilla war, in the Philippines. Vast changes in communications and transportation, immigration and migration patterns, social mores, gender roles, family structure, class structure, work patterns, business methods, education, intellectual life, religion, the professions, technology, science, medicine, and much else were transforming the scope and feel of people's lives and relationships. In many ways what happened in this era set the agenda for the rest of the 20th century. The A to Z of the Progressive Era is the most comprehensive and coherent reference work on the Progressive Era. Through its chronology, introductory essay, bibliography, appendixes, and hundreds of cross-referenced dictionary entries on the key events, people, organizations, and ideas of the period, this resource is a lively, complete, and accessible overview of this significant era.

Crime File Study Guide

Conservation was the first nationwide political movement in American history to grapple with environmental problems like waste, pollution, resource exhaustion, and sustainability. At its height, the conservation movement was a critical aspect of the broader reforms undertaken in the Progressive Era (1890-1910), as the rapidly industrializing nation struggled to protect human health, natural beauty, and "national efficiency." This highly effective Progressive Era movement was distinct from earlier conservation efforts and later environmentalist reforms. Conservation in the Progressive Era places conservation in historical context, using the words of participants in and opponents to the movement. Together, the documents collected here reveal the various and sometimes conflicting uses of the term "conservation" and the contested nature of the reforms it described. This collection includes classic texts by such well-known figures as Theodore Roosevelt, Gifford Pinchot, and John Muir, as well as texts from lesser-known but equally important voices that are often overlooked in environmental studies: those of rural communities, women, and the working class. These lively selections provoke unexpected questions and ideas about many of the significant environmental issues facing us today.

A People and a Nation Study Guide

An Introduction to Constitutional Law teaches the narrative of constitutional law as it has developed historically and provides the essential background to understand how this foundational body of law has come to be what it is today. This multimedia experience combines a book and video series to engage students more directly in the study of constitutional law. All students—even those unfamiliar with American history—will garner a firm understanding of how constitutional law has evolved. An eleven-hour online video library brings the Supreme Court's most important decisions to life. Videos are enriched by photographs, maps, and audio from the Supreme Court. The book and videos are accessible for all levels: law school, college, high school, home school, and independent study. Students can read and watch these materials before class to prepare for lectures or study after class to fill in any gaps in their notes. And, come exam time, students can binge-watch the entire canon of constitutional law in about twelve hours.

A People and a Nation Study Guide, Volume 2, Fifth Edition

Describes the time in America prior to the first World War, the vast differences between the wealthy and the poor, the changing from farming to factory work, and the inventions of conveniences such as electric lights, telephones, and bicycles.
