Iron and steel dictionary; German-English, English-German

The dictionary lists the general vocabulary - nouns, verbs, adverbs, adjectives - which occurs in practically all technical texts. This vocabulary should be mastered by all those who actively or passively work with technical texts since it provides the structures into which the technical terms of various fields of technology are embedded. The keywords are provided with numerous model sentences illustrating their usage and offering the user a variety of suggestions for his / her own formulations.

Routledge German Dictionary of Construction Worterbuch Bauwesen

Since it was first published in 1958, this dictionary has been continually adapted to include the rapid advances in the iron and steel industry.

Dictionary of Building and Civil Engineering

Langenscheidt Compact Dictionary German-English/English-German: Over 120,000 references *Wide range of vocabulary with a wealth of idiomatic expressions *Full pronunciation of German entries *Grammatical information on German nouns and verbs *The comprehensive reference work in a convenient size.

Dictionary of architecture, building construction, and materials

Every entry follows a standard pattern: after the address and telephone number of the institution there is a brief description of its history and financial support, followed by the names of the senior staff, total number of staff, the institution's structure and services, its main research programmes and a list of its publications. For this new edition a subject index has been added, allowing the reader to identify centres of research activity on individual construction topics throughout the world. The world-wide investment in construction industry research is enormous. This unique directory is a guidebook to that investment which will enable its readers to isolate sources of advice on practical problems, information on national standards and requirements and potential research collaborators.

Iron and Steel Dictionary

Includes two special issues per year containing the proceedings of a major conference.
