Excerpt from Examen des Doctrines Médicales Et des Systèmes de Nosologie, Vol. 1: Précédé de Propositions Renfermant la Substance de la Médecine Physiologique Les gens qui n'ont coutume de prononcer le nom d'humanité que par spéculation, me supposeront des intentions pareilles aux leurs; ils seront appuyés par certains médecins qui ont leurs raisons pour soutenir que les théories sont indifférentes au traitement. Je les attends, pour leur répondre, au lit: des malades. Il y a plus, j'en appelle à leur conscience, s'ils ont le courage de profiter de mes avis auprès de ceux qui imploreront

leurs secours.' Je lis dans la pensée de mes détracteurs plus d'une fois ils ont senti l'insuffisance de la doctrine qu'on leur a si laborieusement inculquée difficiles habuerc nugds. Mais ils se sont mis en avant: ils ont loué, ils ont écrit, ils croient leur honneur intéressé à défendre une cause qu'ils, savent bien être mauvaise. Excerpt from Examen des Doctrines Médicales Et des Systèmes de Nosologie, Vol. 2: Précédé de Propositions Renfermant la Substance de la Médecine Physiologique Nous avons vu la doctrine humorale des anciens s'associèr avec la mécanique, chez les modernes, à l'occasion de la découverte de la circulation du sang; nous avons fait remarquer l'alliance de cette doctrine mix le avec l'autocratie d'hippocrate, d'où résulta le'discredit' de la cabale et la diminution de l'in uence du chimisme. En parlant de ces changemens nous n'avons pu nous dispenser de dire quelques mots du vitalisme qui se développait tacitement au milieu des triomphes du système hippocratico-hu mom-mécanique, et qui croissait avec un empirisme faux et prétentieux en proportion de la déchéance des anciennes doctrines. Couteinplons maintenant les' progrès de ce vitalisme qui devait un jour l'em porter, et tâchons de découvrir sa première origine.
