years ago 58 minutes - The reason I decided to create this **HTML tutorial**, video is to first present an **introduction**, to **HTML**, for people who aren't familiar ...

create a new folder

start coding our html

define a basic html template

open this with firefox developer

creating a horizontal navigation bar

add cell spacing

create the links linking to all these pages

create all the pages in the same exact way

add some color

add the logo to our web page

add an alt tag

paste the logo to all the other pages

paste it inside the header of the articles page

insert an image right below our paragraph

add a link to a youtube channel

insert this image inside of the footer

start working on the rest of the pages

insert the horizontal line

create another row underneath the header

add a list of keywords

add the color background to this table cell

create folder naming articles

insert another horizontal line below the table

copy the contents of the second article including all the keywords

add the horizontal line

insert the heading of this page inside the h2 tag

add the br tag

add the paragraph tags to our list items

create the empty tags

linking to the h3 tags of all our list items

add the id to the h3 of concentration

copy and paste the books images inside of the img folder

paste it inside of the second table cell

align the book image to the top of the table

use a cell padding attribute on the table

insert the meta tag

upload all the files to the live server
