Angels in Late Ancient Christianity

Ellen Muehlberger explores the diverse and inventive ideas Christians held about angels in late antiquity. During the fourth and fifth centuries, Christians began experimenting with new modes of piety, adapting longstanding forms of public authority to Christian leadership and advancing novel ways of cultivating body and mind to further the progress of individual Christians. Muehlberger argues that in practicing these new modes of piety, Christians developed new ways of thinking about angels. The book begins with a detailed examination of the two most popular discourses about angels that developed in late antiquity. In the first, developed by Christians cultivating certain kinds of ascetic practices, angels were one type of being among many in a shifting universe, and their primary purpose was to guard and to guide Christians. In the other, articulated by urban Christian leaders in contest with one another, angels were morally stable characters described in the emerging canon of Scripture, available to enable readers to render Scripture coherent with emerging theological positions. Muehlberger goes on to show how these two discourses did not remain isolated in separate spheres of cultivation and contestation, but influenced one another and the wider Christian culture. She offers in-depth analysis of popular biographies written in late antiquity, of the community standards of emerging monastic communities, and of the training programs developed to prepare Christians to participate in ritual, demonstrating that new ideas about angels shaped and directed the formation of the definitive institutions of late antiquity. *Angels in Late Ancient Christianity* is a meticulous and thorough study of early Christian ideas about angels, but it also offers a different perspective on late ancient Christian history, arguing that angels were central rather than peripheral to the emergence of Christian institutions and Christian culture in late antiquity.

Visitations to Heaven and Talking with Angels

Would God actually summon someone to Heaven far above the earth, the sun, the moon, and all the constellations? Prior to standing on a cloud and viewing all of Heaven's beauty and glory, my answer would have been an emphatic no. However, I found myself standing on a fluffy, impenetrable white cloud, witnessing the beautiful holy city called Heaven, and then I saw Him. His face and garment radiated a supernatural brilliant light that was much brighter than the morning sun coming up over a horizon

The Holy Angels

THE meaning of the word Angel is messenger. That name is given to those pure spirits because such is the relation they bear to God and us. Their principal duty, however, is the same as the office of the blessed in heaven -to see, love, bless, and enjoy God for ever and ever. Among the ancients there were many who believed there was nothing in the world but what could be seen or perceived by the senses. The Sadducees, for instance, did not believe in the existence of spirits. It is the boast of modern atheists and rationalists that there is nothing but "Nature" and "the forces of Nature"; with them there are no angels. Some of the Greek philosophers held that there were angels, but that these angels had bodies; not, indeed, corporeal, dense bodies like ours, but bodies suitable to their nature-thin, airy, star-like bodies. Some, even, of the Fathers, on account of the angels being represented as having the appearance of men, seemed to favour the theory of their having bodies. Petavius says that Irenaeus, Tertullian, Origen, and others held this doctrine. Now, Catholics say that the angels are pure spirits because, wherever in the Scripture they are introduced they are simply called by the name of spirit. "Are they not all ministering spirits?" (Heb. i. 14). "Who makest Thy angelsspirits" (Ps. ciii.). The Fourth Council of Lateran has defined that "God created together, at the beginning of time, out of nothing, both classes of creatures, spiritual and corporal-the angelic, to wit, and the material; and then the human, as a composite of both spirit and body". Even Aristotle says: "All nations believe that there are individual intelligences beyond the skies-that these are subject to no change and to no passion; that they are in enjoyment of the fullest and most perfect life, which consists not so much in action as in contemplation; that they have a king, that they differ from men, and are inconceivably more excellent". Question.-How did these men conceive the idea of an angel? Answer.-We can only answer by conjecture. Perhaps from the responses of idols or their prophecies; perhaps from the motions of the heavenly bodies, or from some extraordinary facts which were not to be explained by any knowledge they had of Nature; or, better, and more likely, from the ancient tradition of the patriarchs. Cardinal Newman's notion of the angels before he became a Catholic will prove interesting: "It was, I suppose, to the Alexandrian school and to the early Church that I owe in particular what I definitely held about the angels. I viewed them not only as the ministers employed by the Creator in the Jewish and Christian dispensations, as we find: on the

The Bible is full of stories of angels interacting with humankind, but what about today? In this breakthrough book by prophet Jerame Nelson, you will understand that angels do indeed dwell among us, and play an important role in God's plan of evangelism. Seeing Angels

A recent study found that 57 percent of Catholics, 66 percent of Evangelical Protestants, and 10 percent of Jews have reported having a personal experience with a guardian angel. And 20 percent of those who identified themselves as having no religion also claimed having encountered an angel. Seeing Angels is one of the most in depth examinations of angelic ministry by one of the cutting-edge charismatic leaders in the church today. Joshua Mills goes beyond the usual takes on angels regarding spiritual warfare and explores who they are, how to recognize them, and what they do. Part I, Understanding Your

Angels, is all about understanding who angels are, exploring why they are necessary and how different angels minister comfort, healing, love, prosperity. It reveals who they carry out specific geographic assignments for cities and nations, as well as the more unique and extraordinary assignments they receive. Part II, Discerning Your Angels, explains how to become more aware of the unseen heavenly realm, as well as how to recognize divine intervention when it does reveal itself to human sight. Such manifestations include random strangers, visions, or signs and messengers that believers receive. Joshua also explains the way he has interacted with visions of radiant light, swirling colors, and what he describes as atmospheric shifts. All of this is intended to make believers become more aware of both invisible and revealed spiritual realities. Part III, Working with Your Angels, deals specifically with how to minister alongside these heavenly messengers as they stand watch, provide protection, and administer strength and comfort. This includes recognizing their movements and how to effectively pray for angelic encounters to take place. With a foreword by Patricia King, Seeing Angels is among the most comprehensive teachings on recognizing angelic beings and understanding how to partner with them in ministry.

No Ordinary Angel

In this provocative, intelligent, and highly original addition to the Anchor Yale Bible Reference Library, Susan R. Garrett argues that angel talk has never been merely about angels. Rather, from ancient times until the present, talk about angels has served as a vehicle for reflection on other fundamental life questions, including the nature of God's presence and intervention in the world, the existence and meaning of evil, and the fate of humans after death. In *No Ordinary Angel*, Garrett examines how biblical and other ancient authors addressed such questions through their portrayals of angels. She compares the ancient angel talk to popular depictions of angels today and considers how the ancient and modern portraits of angels relate to Christian claims about Jesus. *No Ordinary Angel* offers important insights into the development of angelology, the origins of Christology, and popular Western spirituality ranging from fundamentalist to New Age. In doing so, it provokes stimulating theological reflection on key existential questions.

use in churches, seminaries, and Bible Colleges globally. Consider the following; The first thing their eyes saw was their maker - The Lord Jesus Christ, in the heavens, the place of their creation. As they stretched forth their wings for the first time in glory and felt the anticipation of flight, they did so in the presence of Almighty God. They were there when God spoke the words that formed and fastened the world in place in the midst of the blackness of the outer cosmos, illuminating it by hanging the stars. They witnessed the placement of the sun. They witnessed the moon and planets in orbit for the first time. They hovered in awe and wonder at the beauty of the light and its effects, as it gave rest to the darkness overtaking it, shining round about in glorious display. They were created to serve in the holy temple of God, its celestial portages, and throughout the universe. They witnessed the grandeur and beauty as the Morning Stars sang together. They have seen the Majesty of God! They have walked among the stones upon the holy mountain of God. They were present when the brightest among them (Lucifer) initiated rebellion against God, convincing one third of their kind to follow him in his pursuit of false glory, riches, and ownership. They were present when one third of their brethren turned their backs on Almighty God and flew speedily away, in disgrace. Both fallen and faithful Angels were present at the crucifixion of Christ. They were present at Calvary's cross. They witnessed the death, burial, and resurrection of Christ. One of them was with Christ in the tomb. They were there at the opening of the tomb. And today, they are among us. I invite you to join me in this journey through the Scriptures and experience the triumph and tragedies associated with Angels. Discover the beings who the holy Scriptures call 'ministers to the heirs of salvation', and the fate of the one third of their brethren that should have been. Angels are magnificent creatures. They were created to serve man and assist the anointed Cherub (Satan, formerly Lucifer) in his godly assignment of protecting, guiding and ensuring the well-being of the human race. Two thirds of the angels (billions) still carry out their intended and godly function to this day and will continue to do so forever. You'll find yourself very blessed as you gain greater comprehension of the reality of what God intends angels be and do for you. Angels: The Seen and Unseen

The Angels have not always existed, GOD created them, and He did so before He even made the universes. Angels are beings who have greater power and ability than humankind. They exist and appear in physical form or spiritual here on earth or in the heavens with a level of existence higher

than the physical universe. Thus, some levels of Angels are also referred to as spirits and known as the “Unseen.” When we observe and meet up with these messengers doing supernatural things, there is no complete understanding how they do these miracles as heavenly beings. However, those who believe it GOD the Fathers know these private messengers, work for the ultimate benefit to help evolve humans century after century and live and walk among us. Angels may work hard to guard the people they are assigned to protect from danger. Stories about Angels rescuing people facing destructive overbearing situations are popular in our culture. Some people from religious traditions like Catholicism believe that everyone has a guardian Angel divinely assigned to them for their entire life. Angels in worldly religions such as Judaism, Christianity, and Islam state that an important part of the Angels’ work is to worship the GOD who created them, such as by praising him in heaven. Some religions, such as Islam, state that all Angels serve GOD faithfully. Other religions, such as Christianity, state that some Angels are faithful to GOD, while others have rebelled against him and are now known as demons and the evil ones. Angels are mentioned 273 times in the Bible referencing special messages, unique events, unexplainable miracles, promoting creational benevolence or following orders of death and destruction, hence Sodom and Gomorrah. The Bible states some Angels are GOD’s messengers and likewise beware the Bible also states some Angels are GOD’s Spiritual Army, telling us about facts not to forget of such legions of warring Angels with unlimited capacities. Some Angels have been described as “participants” in the creation and providential continuance of the cosmos though out the Heavens. Clement of Alexandria, influenced by Hellenistic cosmology, mentioned that the functions and the moving of the stars and control the four elements such as, earth, air, fire and water are controlled by GOD’s assigned participating hierarchy of Angels. There are NINE (9) distinct types of Angels identified in biblical scripture. We know by popularity the Archangels are the most recognizable, however reviled in the Bible are many more Angel types whose functions are assigned to protect, care and inspire the humankind on earth. Both in the Old and in the New Testament, we see Angels have been named numerous times and each have a key position and chain of command in GOD’s plan in addition to belonging to the army of GOD thought out the Universes. Angels are interwoven within the culture of man regardless of religion or your belief system, become informed in this study about “Angels” – “The Seen and Unseen”. “The things visible and the things invisible,” Beware of a stranger you meet, it may be an Angel, by Joseph J. Randazzo.

The Truth about Angels

Christians and non-Christians alike are encountering angelic beings more than ever, but what does Scripture say about the appearance of angels? In this revision of his eye-opening book, Terry Law presents fascinating biblical truths about both God's angels and evil angels, while exposing false and dangerous teachings that use New Age techniques to contact these powerful beings. Exploring many real-life stories of experiences with angels, Law believes there is an increase in angelic activity because the world is on the brink of the greatest revival and the most cataclysmic events in the history of mankind. The Truth About Angels will answer: What are angels, and where did they come from? Are angels appearing more frequently around the world? Do you have a guardian angel? Are angels involved in healings or the working of miracles? How do angels and the Holy Spirit work together?

Why Angels?

For many people, angels are a reflection of God's presence and a cherished belief. Here Bernard Cooke presents us with a more mature understanding of angels and their roles in our spiritual lives. He addresses the current interest in angels and cites references to them in Scripture and in the tradition of the church.

The Angels and Their Mission

One of the foremost theologians at the Second Vatican Council, Father Jean Danielou discusses the mission of the angels in the economy of salvation and provides a very readable synthesis of the teachings of the church Fathers and later theological speculation concerning angels. In a work first publishing in 1953 in French and then translated into English four years later, Danielou begins by following a historical order, dealing with the angels in the world before the Incarnation, during our Lord's earthly life, and as presiding over the growth and development of the Church. We then have luminous chapters on the guardian angels, on the angels and the sacraments, the spiritual life, death, the Second Coming.

Angels on Assignment Again

Scripture tells us of a day when angels--God's holy messengers--will ascend upon the earth like never before like a fire igniting everything they touch. From time immemorial, testimonies of these messengers and their amazing intervention have maintained global attention, and every world religion has its own way of identifying and confirming their continual influence. At this moment, the wind of a new Great Awakening is blowing throughout every culture of the US, as well as many countries abroad. People are sensing something they can't explain, but it's a movement of God they cannot disregard. Angels

Yes, angels are real. They are not the product of your imagination. "If we had open spiritual eyes we would see not only a world filled with evil spirits and powers—but also powerful angels with drawn swords, set for our defense." —Billy Graham Dr. Graham lifts the veil between the visible and the invisible world to give us an eye-opening account of these behind-the-scenes agents. This best-selling classic records the experiences of Dr. Graham and others who are convinced that at moments of special need they have been attended by angels. With keen insight and conviction, Dr. Graham affirms that: God's invisible hosts are better organized than any of the armies of man—or Satan. Angels "think, feel, will, and display emotions." Angels guide, comfort, and provide for people in the midst of suffering and persecution. At death, the faithful will be ushered by angels into the presence of God.

Angels of Light? Sanctity and the Discernment of Spirits in the Early Modern Period

This volume explores individual responses to the problem of discernment of spirits, and the adjacent problem of true and false holiness in the period following the European Reformations.

Augustine's Theology of Angels

References to the good angels in the works of Augustine are legion, and angels also play a central role in some of his major works, such as *City of God* and the opening of *On the Trinity*. Despite Augustine's interest in angels, however, little scholarly work has appeared on the topic. In this book, Elizabeth Klein gives the first comprehensive account of Augustine's theology of the angels and its importance for his thought more generally. Offering a close textual analysis of the reference to angels in Augustine's corpus, the volume explores Augustine's angelology in relationship with his understanding of creation, of community, of salvation history and of spiritual warfare. By examining Augustine's angelology, we glimpse his understanding of time and eternity, as well as the meaning and perfection of created life. Klein's book is foundational for a proper understanding of Augustine's angelology and has far-reaching implications not only for Augustinian studies, but also the broader history of Christian angelology.

Angels

'An intriguing exploration of the many roles that angels have played in spiritual life.' - The Sunday Times: Nick Rennison 'In a 2016 poll, one in 10 Britons claimed to have experienced the presence of an angel, while one in three remain convinced that they have a guardian angel. These are huge numbers and mean that, on some counts, angels are doing better than God.' In the secular, sceptical, post-Christian world of the West, continuing faith in angels is both anomaly and comfort. But what exactly are angels, and why have so many in different times and contexts around the globe believed in them? What is their history and role in the great faiths and beyond their walls? Are angels something real, a manifestation of divine concern? Or part of the poetry of religion? And can they continue to illuminate a deeper truth about human existence and the cosmos? These are not new questions. They have been asked over millennia, right up to the present day, as writer, journalist and broadcaster Peter Stanford explores in Angels, his latest investigation into the history, theology and cultural significance of religious ideas. 'There is no better navigator through the space in which art, culture and spirituality meet than Peter Stanford' Cole Moreton, Independent on Sunday
