Easy-to-Use Calming Strategies for Autism - Easy-to-Use Calming Strategies for Autism by Ryan Judd 1,622,026 views 9 years ago 5 minutes, 5 seconds - As a board-certified music therapist, I use calming music and effective **strategies**, to help anxious children with **autism**, regulate ...

As I set up for the session, my client arrives sounding upset and anxious.

Use low lighting and avoid fluorescents if possible

I immediately offer her a mouthing/chew toy to fulfill her need for sensory input to her mouth.

Being sensitive to not overwhelm her with talking or directions, I simply take out some bubbles and begin to blow them for her.

After 30 more seconds, she begins to calm down and becomes more interactive.

If you can get a child to blow the bubbles off of the wand, this can help them take some deep breaths.

Now that she is calm and her sensory system is regulated, I begin to work on our goal of signing "more."

I first play soft and slow music and she responds with some excellent eye contact.

I then focus on slapping a steady rhythm which can help organize a child's sometimes chaotic sensory system.

I start a "patty-cake" activity in order to help her stop her self-stimulating hand play and focus on interactive play.

I continue my steady beat as vocalize the tune of "Twinkle, Twinkle" and pause to give her a chance to make eye contact and sing along
