Hounded

"I think my wife might be right. I am going slightly mad." Hounded is an escape from the anxiety of reaching a half-century, written during the pandemic of 2020 and into the spring of 2021, during which comedy writer Vince Staddon experienced every film, TV, audio drama, spoken word reading, documentary, stage play, pastiche, graphic novel, animation, kids cartoon, and PC game version of The Hound of the Baskervilles. A quirky, funny and unique memoir about Spectral Hounds, Consulting Detectives, panic attacks and way too many cats, Hounded is a bewildered middle-aged man's silly odyssey through a binge experience of every conceivable version of Sir Arthur Conan Doyle's celebrated novel. As the world darkens and he gleefully immerses himself in the fiction of the fog-drenched mystery, Vince Staddon undertakes a marathon of the most famous Sherlock Holmes story of them all; he makes deductions, adopts disguises, sends anonymous 'Beware the moor' letters to Canadians, steals footwear, learns Sherlock Holmes's favoured martial art, and he tracks the Hound across the melancholy moor during those dark hours when the forces of evil are exalted. Along the way, Vince remembers his childhood, tries to understand his mysterious and troubled father, gets to grip with chronic anxiety, and strives to keep sane and calm during a pandemic. Written in tweets, poems, songs, extracts from proposed 80's Hollywood blockbuster action films, prog rock lyrics, very silly stage plays, and far too many irrelevant and irreverent footnotes*, Hounded is the funniest book you'll ever read about a bloody big ghost hound that's dogged a man all his life. * A ridiculous number of footnotes.

Fringes

Updated edition of the #1 Amazon Bestseller **LONGLISTED FOR THE WILLIAM HILL SPORTS BOOK OF THE YEAR PRIZE 2020** Sports books tend to detail extraordinary achievements, triumphs against the odds or commemorate World Cup winning captains. This book does not do that. For many, playing professional sport is the Dream Job. Few manage it, very few make it to the top and for the rest, life is very different. This is their story. In *Fringes*, Ben Mercer invites you to witness life at the outer edges of professional rugby. This is a first hand account of what life is like as a journeyman professional athlete. You play, but to the wider public you don't exist. You earn but you don't drive a flash car. You sometimes pack out a stadium but sometimes, you play in a deserted park. This is the story for the majority of sports professionals. Only the minority taste the top, only one person gets to lift the cup or win the medal, only 15 get to play for England at any one time. For the rest, that's not the case. Ben Mercer is a former professional rugby player who after becoming disillusioned and uninspired plying his trade in the English Second Division, accepted an offer out of the blue to go to France and do something different - help an amateur team turn professional. This is a first hand account of what life is like in the lower reaches of professional sport - where your employment status is as precarious as your health and barely anyone will know your name. It's about how it feels to live year to year, with teammates constantly on the move. It's about how professionalism irreversibly changes the French club Stade Rouennais as they move up the divisions, about the tension between progress and identity in a rugby team. It's also about how it feels to actually be out there on the field, how it feels to occasionally do something extraordinary and how it feels when this is no longer enough for you to make the sacrifices that you need to make to keep playing. There's no ghostwriting, it's an unmitigated meditation on how it feels and what it means to play rugby for a living, to dedicate yourself to an uncompromising but occasionally beautiful game. If you've wanted to know what life is really like as a professional athlete, on the Fringes, away from the glitz and glamour of the international game then look no further.

What Autumn discovers is far bigger than either she or Shannon expected. Secrets, lies, lost evidence, and more than one missing girl all point to a conclusion they don't want to accept. But while Autumn struggles with her own volatile emotions regarding her family, time is running out. Blinded (Imprints Series Book 5) Sometimes clear sight comes only after you're blinded When a rash of elderly deaths occurs in Portland, Autumn Rain is called upon to use her ability to read emotions imprinted on physical objects in an attempt to track down the killer. Crime boss Nicholas Russo is also back in town to claim the favor Autumn owes him. If she doesn't pay, her life and those of her family will be at risk, but helping Russo might mean the deaths of other innocent people. A chilling repeat imprint of a murder and a fiery near-death has Autumn rethinking everything she's learned about her ability and what it has made her become. And then things really get crazy. The two tracks! Particle or Wave?

The concept of civilization has long been the basis for theories about how societies evolve. This provocative book challenges that concept. The author argues that a "civilization bias" shapes academic explanations of urbanization, colonization, state formation, and cultural horizons. Earlier theorists have criticized the concept, but according to Jennings the critics remain beholden to it as a way of making sense of a dizzying landscape of cultural variation. Relying on the idea of civilization, he suggests, holds back understanding of the development of complex societies. Killing Civilization uses case studies from across the modern and ancient world to develop a new model of incipient urbanism and its consequences, using excavation and survey data from Çatalhöyük, Cahokia, Harappa, Jenne-jeno, Tiahuanaco, and Monte Albán to create a more accurate picture of the turbulent social, political, and economic conditions in and around the earliest cities. The book will influence not just anthropology but all of the social sciences.

The Graphic

The Red Knight's final battle lies ahead . . . but there's a whole war still to fight first. He began with a small company, fighting the dangerous semi-mythical creatures which threatened villages, nunneries and cities. But as his power - and his forces - grew, so the power of the enemy he stood against became ever more clear. Not the power of men . . . but that of gods, with thousands of mortal allies. Never has strategy been more important, and this war will end where it started: at Lissen Carak. But to get there means not one battle, but many - to take out the seven armies which stand against them and force Ash, the huge black dragon, to finally take to the field himself . . .

Aces High

They say when you take revenge against another you lose a part of your innocence. But I'm not innocent. I haven't been for a very long time. My innocence was stolen from me. Taken was the life I was supposed to have. The soul I was born with. The ruby heart embedded in a life full of hopes and dreams. Gone. Vanished. I never even had a choice. I mourn that life. Mourn the what-ifs. Until now. I'm ready to take back what was always meant to be mine. But every plan has a fatal flaw. Sometimes it's the heart.

Dr. Bob Rosenthal has been a student and teacher of A Course in Miracles for over forty years. As co-president of the Foundation for Inner Peace, he recognized the need for a series of books that could help those who have heard of the Course and feel drawn to it, but may need a leg up to get started. In this, the first book of the series, Dr. Rosenthal approaches the Course from an entirely fresh perspective. Using common sense wisdom and sharing from his own experience as both a psychiatrist and Course student, he unpacks the core elements of the Course's teaching in a clear and comprehensible manner. If you've only heard of A Course in Miracles and are curious about what it says, or if you've tried to study it but given up, then this book will be a big help. If you're already a dedicated Course student, you will appreciate Dr. Rosenthal's contribution even more. You will emerge with a better grasp of the Course's central principle: I am one Self, united with my Creator.
