Tribal Heritage of Madhya Pradesh

Festschrift honoring Kumar Suresh Singh, b. 1935, Indian anthropologist and director-general, Anthropological Survey of India, upon his retirement; comprises articles on Indian anthropology.

Bibliography of Agriculture

Guide to the literature on North American Indians. Includes annotated bibliography arranged by topic and unannotated bibliography arranged alphabetically by tribe. Some Canadian material included.

People of India

This book Tribal Situation and Development in Central India is a comprehensive work prepared with the help of a term of Experts in various fields ranging from social sciences to medical sciences covering contemporary problems and development of the tribals of Madhya Pradesh. It contains an exhaustive account of the geographical location of these tribes, their subdivisions, their way of life, etc. This book also deals with the work done by certain private organizations to help these tribals. Issues, such as land rights, come up for discussion too.

Indian Books in Print

Study conducted at eight districts of southern Orissa, India.

An Annotated Bibliography on Tribal Education in India

"In the middle of India lies a vast land peopled with one of the country's largest tribal populations. Considered as the original inhabitants of this land, with a culture that traces back to pre-Aryan days, the tribals of Madhya Pradesh are as varied as they are vital. Living side by side with their Hindu and Muslim neighbours they have simultaneously managed to enrich and keep separate their cultural identity from theirs." "This book brings to you, for the first time, the exciting world of Madhya Pradesh's many tribes. Interwoven with their myths and legends, and illustrated with stunning colour visuals and with line drawings, here are the textiles and the tattoos, the stonework and the carvings, the totems and the ritual terracottas of the many tribes explained by scholars whose work has led them to spend half a life time with these people."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Tribal Geography

Being An Important Book, It Gives An Ethnographic Information Of The Tribes Along With A Brief Description Of The Islands, And Includes 1996 Statistical Figures. It Also Highlights The Tribal Distribution Of The Negritos In South East Asia Through Both Text And Maps. Useful Data Has Been Provided In Form Of Numerous Tables, Through Which One Can Get A Glimpse Of The Indian Tribal Situation. This Document Is Of Immense Value As An Indispensable Reference Tool. It Covers Almost All Facets Of Tribals Of Andaman And Nicobar Islands.

Ban-Gujars

It was found necessary to bring out reprint of second edition of this valuable contribution to Indian Sociology (V. Elwin). The book describes exhaustively and in great details the life and lore of two important tribes living in a close social and economic symbiosis in eastern Madhya Pradesh. For this second edition the author has not only revised and brought up-to-date his data taking due account of the changes which have taken place since the time the book was first published, but he has also added a new chapter in which he describes the measures which the Government of India is taking for the welfare and acculturation of the tribals of India. His expert evaluation of the Government schemes deserves the careful study of Government officials and social workers interested in tribal welfare. Students of Indian Anthropology and sociology of course will value S. Fuchs' monograph for the wealth of information it contains and the systematic treatment of the material.

Bulletin - International Association of Orientalist Librarians

Study of the tribes of Bastar District, Madhya Pradesh.

Tribal Linguistics in India

The book primarily deals with the tribal social structure and the changes occurring there in. India has a large concentration of tribal population. Though scattered all over the country their concentration is mainly in the northern and central region. Originally they lived at unapproachable places where the land was infertile with limited means of living resources. They were simple, poor, and backward. Their economic hardships and encounter with the non-tribal at times made them violent, criminal, and rebellious. After independence several efforts have been made through five year plans and reservation policy etc. for their social and economic emancipation yet after more than five decades they have not been able to come at par with the rest of the society. Some other aspects of tribal society viz. India's nomadic tribes, vanishing tribes, residence system, reservation policy and development aspects have been discussed in the separate chapters. Separate chapters have been devoted on tribes of Rajasthan and tribal development programmes. At the end of the book (in the appendix) two chapters have been added. One on the nature and subject matter of anthropology and second on some anthropological concepts with a view to enrich the readers. Readers interested in various aspects of the tribal studies will find the book informative and useful.
