This guided meditation is 45 minutes long and should be listened to while laying down relaxing.

Remember ...

concentrate on your breathing

moving through the source life connecting with a sparkling riveting vivacious energy of well-being purifying each and every cell throughout your entire body

releasing any tension that you may be holding

drifting into complete relaxation and harmony with your physical body

moving in and through your entire body enhancing your organs

moving into your third eye chakra

move on the line towards the future

connecting your heart chakra with your throat

moving into the root chakra

moving down through your feet and into the earth connecting with the heart

wraps itself around the earth protecting and loving the consciousness

breathing back into the consciousness of your awareness
