The MARKETING OF NATIONS

The world's leading marketing guru provides a blueprint for successfully "marketing" a nation--a strategy that any country can undertake to jump-start economic growth. With examples from Japan, China, Latin America, and Eastern Europe, "The Marketing of Nations" shows how leaders can identify their best opportunities and prevail in the international marketplace.

The Marketing of Nations

From the world's leading marketing guru, Philip Kotler, together with co-authors Somkid Jatusripitak and Suvit Maesincee, comes a new framework for successfully building national wealth by marketing to the world. With the rise of the global marketplace, no nation can afford to focus solely on a healthy domestic economy; its leaders must also develop policies-based on a mission and a vision -- to guide their day-to-day efforts to grow the nation's economy. The Marketing of Nations is the first book in its field to connect macroeconomic public policy with the microeconomic behavior of industries, firms, and consumers, and the first to apply strategic planning to the building of national wealth. Step by step, the authors show how managers, corporate strategists, and government policymakers and planners can determine the pathways that will best achieve economic development in the context of world markets. Within this strategic framework, nations can assess their strengths and weaknesses, identify their best opportunities, and implement competitive global policies and strategies designed to achieve long-run national prosperity. With plentiful case material on Japan, the Four Tigers, China, India, Southeast Asia, Latin America, and Eastern Europe, the authors provide the first comprehensive synthesis of economic, political, and cultural factors that affect economic progress in all nations, both industrial and developing. Rather than relying on any one set of forces that drive growth, the authors present a broad spectrum of potential stimulants to economic progress so readers can better anticipate arguments and counter-arguments favoring one course of economic development or another. This path-blazing work is the first to provide operational and management guidance to government and business leaders. It is also the first to bridge the typically large gap between what government officials set as policies at the national level and the actual workings of the business system at the local level. The Marketing of

Nations shows that national policies must be grounded in a deep understanding of the actual behavior of producers, distributors, and consumers in the marketplace. The authors present their materials in a clear four-part package. They begin with an exploration of the challenge of economic development, and then proceed to the means of formulating a strategic national vision. Next they discuss development of policies, infrastructures, and institutional frameworks, and finally they demonstrate how the nation and the company must work together to achieve prosperity.

Marketing Places

Today's headlines report cities going bankrupt, states running large deficits, and nations stuck in high debt and stagnation. Philip Kotler, Donald Haider, and Irving Rein argue that thousands of "places" -- cities, states, and nations -- are in crisis, and can no longer rely on national industrial policies, such as federal matching funds, as a promise of jobs and protection. When trouble strikes, places resort to various palliatives such as chasing grants from state or federal sources, bidding for smokestack industries, or building convention centers and exotic attractions. The authors show instead that places must, like any market-driven business, become attractive "products" by improving their industrial base and communicating their special qualities more effectively to their target markets. From studies of cities and nations throughout the world, Kotler, Haider, and Rein offer a systematic analysis of why so many places have fallen on hard times, and make recommendations on what can be done to revitalize a place's economy. They show how "place wars" -- battles for Japanese factories, government projects, Olympic Games, baseball team franchises, convention business, and other economic prizes -- are often misguided and end in wasted money and effort. The hidden key to vigorous economic development, the authors argue, is strategic marketing of places by rebuilding infrastructure, creating a skilled labor force, stimulating local business entrepreneurship and expansion, developing strong public/private partnerships, identifying and attracting "place compatible" companies and industries, creating distinctive local attractions, building a service-friendly culture, and promoting these advantages effectively. Strategic marketing of places requires a deep understanding of how "place buyers" -- tourists, new residents, factories, corporate headquarters, investors -- make their place decisions. With this understanding, "place sellers" -- economic development agencies, tourist promotion agencies, mayor's offices -- can take the necessary steps to compete aggressively for place buyers. This straightforward guide for effectively marketing places will be the framework for economic development in the 1990s and beyond.

Kotler On Marketing

Since 1969, Philip Kotler's marketing text books have been read as the marketing gospel, as he has provided incisive and valuable advice on how to create, win and dominate markets. In KOTLER ON MARKETING, he has combined the expertise of his bestselling textbooks and world renowned seminars into this practical all-in-one book, covering everything there is to know about marketing. In a clear, straightforward style, Kotler covers every area of marketing from assessing what customers want and need in order to build brand equity, to creating loyal long-term customers. For business executives everywhere, KOTLER ON MARKETING will become the outstanding work in the field. The secret of Kotler's success is in the readability, clarity, logic and precision of his prose, which derives from his vigorous scientific training in economics, mathematics and the behavioural sciences. Each point and chapter is plotted sequentially to build, block by block, on the strategic foundation and tactical superstructure of the book.

Democracy in Decline is an examination by the 2father of modern marketing2 into how a long cherished product (democracy) is failing the needs of its consumers (citizens). Philip Kotler identifies 14 shortcomings of today's democracy and confronts this gloomy outlook with some potential solutions and a positive message; that a brighter future awaits if we can come together and save democracy from its decline. Encouraging readers to join the conversation, exercise their free speech and get on top of the issues that affect their lives regardless of nationality or political persuasion. Suitable for students across a broad range of courses including Political Science, Politics, Political Marketing and Critical Management/Sociology. An accompanying website invites those interested to help find and publish thoughtful articles that aid our understanding of what is happening and what can be done to improve democracies around the world.

Democracy in Decline

With one side of the political aisle proposing increasingly more socialistic and anti-capitalistic ideas, the other side has been quick to defend our country's great economic model, with good reason. Capitalism--spanning a spectrum from laissez faire to authoritarian--shapes the market economies of all the wealthiest and fastest-growing nations. But does that mean it is perfect as is, and that we would not all benefit from an honest evaluation and reconstruction of the free market system that has shaped our country's way of economic growth?The truth is, trouble is cracking capitalism's shiny veneer. In the US, Europe, and Japan, economic growth has slowed down. Wealth is concentrated in the hands of a few; natural resources are exploited for short-term profit; and good jobs are hard to find. In *Confronting Capitalism*, business expert Philip Kotler explains 14 major problems undermining capitalism, including:

- Persistent and increasing poverty
- Automation's effects on job creation
- High debt burdens
- Steep environmental costs
- Boom-bust economic cycles
- And more

But this landmark book does not stop with merely revealing the problems. It also delivers a heartening message: We can turn things around! Movements toward shared prosperity and a higher purpose are reinvigorating companies large and small, while proposals abound on government policies that offer protections without stagnation. Kotler identifies the best ideas, linking private and public initiatives into a force for positive change, and offers suggestions for returning to a healthier, more sustainable capitalism that works for all.

Confronting Capitalism

This edition of the bestselling marketing management text reflects the recent trends and developments in global marketing. It provides coverage of how the World Wide Web and e-commerce are dramatically altering the marketing landscape.

An Ingredient Brand is exactly what the name implies: an ingredient or component of a product that has its own brand identity. This is the first comprehensive book that explains how Ingredient Branding works and how brand managers can successfully improve the performance of component marketing. The authors have examined more than one hundred examples, analyzed four industries and developed

nine detailed case studies to demonstrate the viability of this marketing innovation. The new concepts and principles can easily be applied by professionals. In the light of the success stories of Intel, GoreTex, Dolby, TetraPak, Shimano, and Teflon it can be expected that component suppliers will increasingly use Ingredient Branding strategies in the future.

At the beginning of the 21st century, headlines report how cities are going bankrupt, states are running large deficits and nations are stuck in high debt and stagnation. This text argues that thousands of places are in crisis and can no longer rely on national policies for protection. The authors show how places in Asia can become attractive products by effectively communicating their special qualities and attracting investment.

Marketing Asian Places

Marketing guru Philip Kotler and global marketing strategist Milton Kotler show you how to survive rough economic waters. With the developed world facing slow economic growth, successfully competing for a limited customer base means using creative and strategic marketing strategies. *Market Your Way to Growth* presents eight effective ways to grow in even the slowest economy. They include how to increase your market share, develop enthusiastic customers, build your brand, innovate, expand internationally, acquire other businesses, build a great reputation for social responsibility, and more. By engaging any of these pathways to growth, you can achieve growth rates that your competitors will envy. Proven business and marketing advice from leading names in the industry. Written by Philip Kotler, the major exponent of planning through segmentation, targeting, and position followed by "the 4 Ps of marketing" and author of the books *Marketing 3.0*, *Ten Deadly Marketing Sins*, and *Corporate Social Responsibility*, among others. Milton Kotler is Chairman and CEO of Kotler Marketing Group, headquartered in Washington, DC, author of *A Clear-sighted View of Chinese Marketing*, and a frequent contributor to the China business press.

Market Your Way to Growth

This book turns social marketing into a step-by-step process so that anyone can plan and execute an effective social marketing campaign. Actual cases and research efforts richly support each of the eight steps in the process. Included in the text are more than 25 in-depth cases, about 100 examples of social marketing campaigns, and ten research highlights to represent the scope of research methodologies. The appendix includes worksheets for each step to complete a marketing plan for students and practitioners. The methodologies in this text have been classroom tested and refined by students who prepared marketing campaigns using this eight step planning process.

Social Marketing

Successful social marketing holds the power to change the world. *Social Marketing: Behavior Change for Good*, 7th Edition is the definitive guide for designing and implementing memorable social marketing campaigns. Readers will be able to understand the problems faced by Asian companies, and to apply useful conceptual tools to formulate effective strategies in solving them.

Rethinking Marketing

The Internet, globalization, and hypercompetition are dramatically reshaping markets and changing the way business is done. The problem, says internationally renowned marketer Philip Kotler and his coauthors Dipak C. Jain and Suvit Maesincee, is that marketing has not kept pace with the markets. In today's world, customers are scarce-not products-and classic marketing needs to be deconstructed, redefined, and broadened to reflect this new reality. Marketing Moves describes the next transformational imperative for marketing-and for any organization competing in our customer-ruled, technology-driven marketplace. It calls for a fundamental rethinking of corporate strategy to enable the ongoing creation and delivery of superior value for customers in both the marketplace and the marketspace. And it appoints marketing as the lead driver in shaping and implementing this new strategy. The means for accomplishing this lies in a radically new marketing paradigm the authors call holistic marketing -a dynamic concept derived from the electronic connectivity and interactivity among companies, customers, and collaborators. This new paradigm combines the best of traditional marketing with new digital capabilities to build long-term, mutually satisfying relationships and co-prosperity among all key stakeholders. Outlining a framework for implementing holistic marketing that calls for integrating customer demand management, internal and external resource allocation, and network collaboration-the authors show how holistic marketing can enable companies to:

- Identify new value opportunities for renewing their markets
- Efficiently create the most promising new value offerings
- Deliver products, services, and experiences that more precisely match individual customer requirements
- Consistently operate at the highest level of product quality, service, and speed

Thought-provoking and practical, Marketing Moves shows how to build a complete marketing platform primed for the challenges and opportunities of a customer-centric world.
