Revival

The Book of Mormon is one of the Best Books in the Whole World, in spite of its Exaggerations and Fairy Tales, being the Second Best-Selling Book in the Whole World, just after the Holy Bible, which also has its own Exaggerated Fairy Tales - such as the Noah's Ark Story, the Exodus, the Samson Story, and King Nebuchadnezzar's Solid Gold Statue Story, which was only Mentioned in the Book of Daniel, which has no Confirmation in any other Ancient Literature, in spite of News Reporters supposedly coming to Worship it from all other Nations under Heaven! (See Daniel 3, KJV.) However, the Primary Purpose for Writing and Publishing all such Stories was to Help Spread the Good News that was Taught by Jesus Christ, whom many Educated People would say was just another Mythical Jewish Fable, which made it Possible for the Jews to SELL X-amount of Jewish Books, which have Sold hundreds of Billions of Copies for Trillions of Dollars! After all, Thanks to that "Holy Bible," there are Millions of Related Books, including the Book of Mormon, which Relies on Biblical Believers for its Sales: beCause the Book of Mormon could not Stand alone on its own Strength, which is also True of "The New MAGNIFIED Version (NMV) of The Book of MORMON," which Depends on the Information that is found in the Revised Standard Version of the Book of Mormon, which has been Updated several times since it was first Published during March of 1830, by Joseph Smith Junior, who has a rather Dark Mysterious History on the Internet, which alone is enough to Debunk the Unholy Church of Jesus Christ of Latter-day Sinners. However, in spite of the Weaknesses of Joseph Smith Junior, X-amount of Faithful Believers in the Book of Mormon would Gladly DIE for it, if they were put to the Test of their Faith, like the

Martyrs of Ancient Times. Indeed, even the 8 Witnesses, who Testified to their Dying Days that they had Seen the Gold Plates of Nephi, and Knew for a Fact that the Book of Mormon is Truly the Words of God, all Denied the Authenticity of Joseph Smith Junior, himself, whom they Forsook as an Impostor. However, Unfortunately for them, they did not get to Read "The New MAGNIFIED Version of The Book of MORMON," or else they would have also Denied the Authenticity of "The Book of Mormon": beCause the NMV presents more than a thousand Ridiculous Contradictions and Undeniable Exaggerations! However, at the same Time, the NMV of the Book of Mormon presents Profound Truths that cannot be Discovered in any other Book on the Earth! Indeed, it reads like an Inspired Book that came straight out of Heaven, itself, from the Holy Throne of Almighty God! Yes, it is as if God is Speaking, himself - that is, if you have Spiritual Ears that can Hear! Therefore, this Version is far more Inspired by God than any of the others, and it even puts the Holy Bible to Open Shame with its Great Provable Truths! Therefore, it is just a Matter of Time when it will no doubt be Recognized by Intelligent Well-Educated People as one of the Greatest Books ever Written, in spite of being as Fictitious as the Original Book of Mormon. In Fact, all of the Latter-day Saints will Love it! Guaranteed! But, the Latter-day Sinners will just Naturally HATE it, even as Wicked Muslims will just Naturally Hate the Selected King of The Worldwide People's Revolution, just for pointing out the Weaknesses of the Unholy Koran and its Hypocritical Author, who Instructed his Soldiers to Sodomize the Surviving Boys and Teenagers of their Enemies, after their Battles were Won, which made him a Spiritual Sodomite of the Lowest Class, whose Name is other known as General MuhamMAD, who could neither Read nor Write, who Died with SEVERE PAINS, who no doubt went Straight to HELL! At least we Hope so: beCause his Evil Words have Caused the Needless Deaths of tens of Millions of People!

BK OF MORMON STORIES FOR BIG K

Miracles, premonitions, visits from the dearly departed: these are the subjects of the short stories that lend Parting the Veil its name. They are based on actual events. Even the tale of Ida, a Sunday school organist, and how one day she put all her underclothing in the wash and pranced naked through the spin cycle, thinking no one would ever know. The ensuing comedy confirms that God sees everything.

The New MAGNIFIED Version of The Book of MORMON --- Volume 2!

Beginning with a handful of members in 1830, the church that Joseph Smith founded has grown into a world-wide organization with over 12 million adherents, playing prominent roles in politics, sports, entertainment, and business. Yet they are an oddity. They are considered wholesome, conservative, and friendly on one hand, and clannish, weird, and self-righteous on the other. *Mormonism: A Very Short Introduction* explains who Mormons are: what they believe and how they live their lives. Written by Richard Lyman Bushman, an eminent historian and practicing Mormon, this compact, informative volume ranges from the history of the Church of Jesus Christ of Latter-day Saints to the contentious issues of contemporary Mormonism. Bushman argues that Joseph Smith still serves as the Mormons' Moses. Their everyday religious lives are still rooted in his conceptions of true Christianity. They seek revelation to solve life's problems just as he did. They believe the authority to seal families together for eternity was restored through him. They understand their lives as part of a spiritual journey that started in a "council in heaven" before the world began just as he taught. Bushman's account also describes the tensions and sorrows of Mormon life. How are Mormons to hold on to their children in a world of declining moral standards and rampant disbelief? How do rational, educated Mormons stand up to criticisms of their faith? How do single Mormons fare in a church that emphasizes family life? The book also examines polygamy, the various Mormon scriptures, and the renegade fundamentalists who tarnish the LDS image when in fact they're not members. In a time when Mormons such as Mitt Romney and Harry Reid are playing prominent roles in American society, this engaging introduction enables readers to judge for themselves how Mormon teachings shape the character of believers. About the Series: Oxford's Very Short Introductions series offers concise and original introductions to a wide range of subjects--from Islam to Sociology, Politics to Classics, Literary Theory to History, and Archaeology to the Bible. Not simply a textbook of definitions, each volume in this series provides trenchant and provocative--yet always balanced and complete--discussions of the central issues in a given discipline or field. Every Very Short Introduction gives a readable evolution of the subject in question, demonstrating how the subject has developed and how it has influenced society. Eventually, the series will encompass every major academic discipline, offering all students an accessible and abundant reference library. Whatever the area of study that one deems important or appealing, whatever the topic that fascinates the general reader, the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable.

Parting the Veil

Mormonism is one of the fastest growing, most misunderstood, and most debated religions of recent times. Even the simple act of defining WHAT Mormonism is (or should be) has been filled with controversy. The author reconstructs the signal events of early Mormonism as perceived from INSIDE the faith.

Having been cruelly abused by her mother until the age of sixteen, a young woman numbs the pain with drugs and loses herself until she finds God through the Mormon Church.

Beyond the Fairy Tale (Simply Put)

Illustrated Stories from the Book of Mormon: Volume 9 retells the history contained in 3 Nephi 8 through Mormon 3. In this volume, you learned of the many calamities that occurred at the time of Christ's death and of the most glorious events in the Book of Mormon, when Jesus Christ personally visited the Americas. His personal ministry among the descendants of Lehi fulfilled a prophecy that had been made by many prophets that had come before. Christ truly loves all the sheep of his fold and visited them in the Americas after his death and resurrection. Christ ordained twelve Apostles among his followers in the Americas, healed the sick, blessed the children, and taught of repentance and resurrection. There was peace, righteousness, and prosperity for several generations. Some of the people began to choose evil again and divided themselves into Nephites and Lamanites, and eventually even the Nephites began to be wicked. Mormon, a righteous prophet and military leader, begins the conclusion of his compilation of the records of his people — called the Book of Mormon — as he sees the wickedness and violence around him increasing. Each page includes vivid illustration to help maintain interest and increase understanding for young readers of these important scriptures. A dramatized audio read-along is also included in this e-book to further bring the scriptures to life.

This volume concentrates on polygamy and little known polyandry which is hidden from rank and file Mormons. Historical evidence proves the Mormon Church has rewritten its own history through lies, suppression, omission and interpolation; such that the truth is so well hidden from members; unless they look outside the Church for information; they will never know of the continued conspiracy to deceive them. Contains over 120 pages of appendices, including complete lists and analysis of all the wives and families of Joseph Smith, Brigham Young and Heber C. Kimball, highlighting polyandrous relationships and children born into those unions; plus details of over a hundred children born post 1890 to polygamous wives of General Authorities who violated their own canonised Manifesto after they had covenanted to stop the practice. Fairytales for Children

George MacDonald wrote fairy tales for both children and adults to demonstrate the essential role of the imagination in apprehending spiritual truths. He explained: "... undefined, yet vivid visions of something beyond, something which eye has not seen nor ear heard, have far more influence than any logical sequences whereby the same things may be demonstrated to the intellect." Roland Hein undertakes to show how MacDonald's tales contain such visions, helping readers to experience for themselves glimpses of "something beyond" and catch exciting insights into eternal truths.

American's War Against Human Rights and Justice

Illustrated Stories from the Book of Mormon: Volume 8 retells the history contained in Alma 57 through 3 Nephi 8. In this volume you will continue to see the sadness that comes from disobedience to God's commandments and the wars caused by the hatred of the Lamanites towards the Nephites. As the time of Christ's birth grows nearer, both the righteousness of some and wickedness of some grows greatly. Samuel the Lamanite prophesies of the coming of Christ, and as prophesied the glorious day arrives! Unfortunately, the wondrous signs are soon forgotten and the people grow wicked as the time of Christ's death draws near. The Book of Mormon (French edition)

Who's Your Hero?

The fourth in 'The Mormon Delusion' series tracks the Mormon 'Missionary Lesson Manual' as taught to investigators, and lesson by lesson, exposes and explains the truth behind the false teachings. At every stage, unsuspecting investigators are taught a fictional account of Mormon history and teachings by faithful missionaries who themselves have no idea they are teaching provable fiction. This book exposes the underlying truth behind Joseph Smith's original fraudulent claims and modern-day fictional Mormon teachings. Evidence from within Mormon Church history and Mormon so-called scripture proves conclusively that the Mormon Church continues in a conspiracy to deceive its own members, missionaries and their investigators alike. At the end of a journey through this book there will be nothing left for an investigator to take to the Lord in prayer in order to obtain an answer as to whether what the Mormon Church teaches is true. Common sense and reason alone will be enough to determine the truth of the matter.
