How could Fiesta Texas improve Physics Day?

Draw a free body diagram for the following

Calculate the period of the boat Show formula & calculation box in your final answer & unit

If the boat were to become disconnected from the pendulum set up when it was 20 feet in the air and assume it is traveling at 14 mis, how far will the boat travel away from the ride? Show formula & calculation box in your final answer & unit

What is a vector? Scalar? Give 2 examples of each. Vector: measurement that have magnitude and direction Ex: Displacement, velocity Scalar: measurement that have only magnitude Ex: Distance, speed 2 What is the total distance for a round trip from HHS to Fiesta Texas and back to HHS if we used the same route going there and coming - home? Defend your answer

What is a vector? Scalar? Give 2 examples of each. Vector: measurement that have magnitude and direction Ex: Displacement, velocity Scalar: measurement that have only magnitude Ex: Distance, speed 2 What is the total distance for a round trip from HHS to Fiesta Texas and back to HHS if we used the same route going there and coming home? Defend your answer Add all miles together 107.25 (one-way) x 2=214.5 round try

Estimate the average speed of a school bus on this road trip.

How far is San Marcos from Pflugerville if it takes you ! hf 22 minutes with an average speed of 53.1 mph. Answers in miles and kilometer. SHOW YOUR WORK

Calculate your PE at Superman: Krypton Coaster's highest point (see data table). Show formula & calculation box in your final answer

How much of Superman: Krypton Coaster's energy was lost? Show formula & calculation box in your final answer & unit

Superman: Krypton Coaster's loop is called a "clothoid (or klothoid)" loop. How is this shape different from a traditional loop you might see in a Hot Wheels track? Draw a diagram to support your answer. According to the law of conservation of energy, the energy in a system will always remain constant. Using this law, find the velocity v at the bottom of THE RATTLER'S first hill. Show formula & calculation box in your final answer & unit

Why is this called negative work? because acceleration is negative

Describe where centripetal force occurs on this ride

Did Scream! & you ever achieved freefall? Defend your answer using 3 different reasons. NO! 1 air resistance 2 friction between ride and ride stand 3 ride has breaks
