

Mathematics And The Life Sciences Selected Lectures Canadian Mathematical Congress August 1975 1st

[#mathematics life sciences #canadian mathematical congress #1975 lectures #mathematical biology #interdisciplinary science](#)

This volume compiles selected lectures from the Canadian Mathematical Congress in August 1975, offering a vital historical perspective on the critical intersections between mathematics and the life sciences. It features pioneering discussions and research presented at this significant event, capturing the state of mathematical biology and interdisciplinary science at that time.
