Do you know what research is?

Research is a learning and sharing process.

Start learning about your topic using books, websites and videos.

And don't take any notes.

The next step is to IDENTIFY a specific topic.

Now you're ready for Step 3: GATHER.

A few things to remember: • Take notes in your own words

Gathered all the information you need?

Ask your teacher what options you have to demonstrate your research.

For this step, your notes are raw material

How about a metaphor? Notes — Research Project

Step 5 means it's time to SHARE what you've created!

When the sharing is over, it's time for Step 6: REFLECT.

Consider these questions: • What were the easiest and hardest parts?

And speaking of next time ... Remember these 6 steps to the Research Process and you'll be fine!

Quantitative Research Designs: Descriptive non-experimental, Quasi-experimental or Experimental?

Introduction to Nursing Research - Introduction to Nursing Research by DeanLEX Teach 14,337 views 6 years ago 4 minutes, 33 seconds - Introduction to **Nursing Research**, lecture for NRES1 This lecture covers the following introductory concepts: 1. Definition of ...

Nursing research is defined as the systematic, objective process of analyzing phenomena of importance to nursing

Nursing research includes all studies concerning nursing practice, nursing education, and nursing administration.

It is important to gain an understanding of what scientific research is all about, and why this method

of gaining knowledge is valuable to nurses.

Sources of Nursing Knowledge

Quantitative and Qualitative Research

Quantitative research would be concerned with the level of pain that these people were experiencing and how to reduce it.
