State of Democracy in South Asia

"This report seeks to shift the locus of discourse on democracy away from the global North to 'most of the world'. It does so by examining democratic experience in South Asia - a region marked by poverty, illiteracy, complex diversities, and multiple and overlapping structures of social hierarchy-and by daring to ask not just what democracy has done to South Asia but also what South Asia has done to democracy. Based on the first - ever social scientific survey of political opinions and attitudes across the five countries in the region-Bangladesh, India, Nepal, Pakistan, and Sri Lanka-the report offers a fresh analysis of the promise of democracy for the ordinary people, its institutional slippages, obstacles in its functioning, and its mixed outcomes. The report combines public opinion data with expert assessment, case studies, and dialogue with democracy activists."--BOOK JACKET.

Information Democracy and South Asia

This volume offers a collection of lucid, theoretically stimulating articles that explore and analyse the institutions and values which are salient in understanding political practices in South Asia. Combining a wide range of theoretical and empirical approaches, and blending the work of experts long established in their respective fields with refreshing and innovative approaches by younger scholars, this collaborative and cross-disciplinary endeavour facilitates a deeper understanding of the subcontinent's diverse and complex political and democratic practices in the 21st century.

Democratization in South Asia

This book reflects the crisis of development, the associated crises of state and its impact on regional cooperation in South Asia. The resulting political and social unrest, violence and militarisation of state structures are considered in detail. The contributors to this volume focus on the depth of the crises and articulate alternatives available and sustainable in the South Asian context -- the common heritage, the renewable resource base and the available stock of knowledge which enlarges the range of technological options.

Non-traditional Security

Democracy in Southeast Asia seems to be in crisis. The contributors to this volume argue that this is a crisis of democratic governance. They look into its causes, consequences and prospects, comparing themes of democratic governance in Southeast Asia such as political culture, civil society, political parties and institutions and human rights

The Challenge in South Asia

Grounded in the Weberian tradition, *Islam and Democracy in South Asia: The Case of Bangladesh* presents a critical analysis of the complex relationship between Islam and democracy in South Asia and Bangladesh. The book posits that Islam and democracy are not necessarily incompatible, but that the former has a contributory role in the development of the latter. Islam came to Bengal largely by Sufis and missionaries through peaceful means and hence a moderate form of this religion got rooted in the society. Both militant Islam and militant secularism are equal threats to democracy and pluralism. Like democracy, political Islam has many faces. Political Islam adhering to democratic norms and practices, what the authors call "democratic Islamism," unlike "militant Islamism," is not anti-democratic. The book shows that the suppression of democracy and human rights creates avenues for the consolidation of militant Islamism, orthodox Islam, and "Islamic" terrorism, while the "fair play" of democracy results in the decline of anti-democratic form of political Islam.

The Crisis of Democratic Governance in Southeast Asia

This book engages with the concept, true value, and function of democracy in South Asia against the background of real social conditions for the promotion of peaceful development in the region. In the book, the issue of peaceful social development is defined as the conditions under which the maintenance of social order and social development is achieved – not by violent compulsion but through the negotiation of intentions or interests among members of society. The book assesses the issue of peaceful social development and demonstrates that the maintenance of such conditions for long periods is a necessary requirement for the political, economic, and cultural development of a society and state. Chapters argue that, through the post-colonial historical trajectory of South Asia, it has become commonly understood that democracy is the better, if not the best, political system and value for that purpose. Additionally, the book claims that, while democratization and the deepening of democracy have been broadly discussed in the region, the peace that democracy is supposed to promote has been in serious danger, especially in the 21st century. A timely survey and re-evaluation of democracy and peaceful development in South Asia, this book will be of interest to academics in the field of South Asian Studies, Peace and Conflict Studies and Asian Politics and Security.

Islam and Democracy in South Asia

A comparative and historical study of the interplay between democratic politics and authoritarian states in South Asia.

The Dynamics of Conflict and Peace in Contemporary South Asia

Human Rights, Democracy and Governance is one of the volumes of the series titled 'Imagine a New South Asia', presented by ActionAid International Asia. These volumes are based on the study by INSA-Imagine a New South Asia-a citizens' initiative to promote more regional cooperation for a collective future with a common vision for all the countries of this region. This volume emphasizes on unity in South Asia based on liberty and fraternity. It acknowledges that the countries of this region are still enmeshed in post-colonial struggles of identity, which makes the idea of such a unity appear ra.

Democracy and Authoritarianism in South Asia

The book...is a significant attempt to study the methodologies adopted by the South Asian countries, while implementing local democratic institutions in their respective countries.

Democratic Transition in Asia

This title will be available in its entirety in Open Access. By providing various fascinating first-hand accounts of how citizens negotiate their rights in the context of weak state institutions, Citizenship and Democratization in Southeast Asia offers a unique bottom-up perspective on the evolving character of public life in democratizing Southeast Asia.

Human Rights, Democracy and Governance

In reaction to British imperialism during the 19th and 20th centuries, Indian Muslims and Hindus imagined and invented their separate and distinct religious communities and communal nationalisms. These were institutionalized in the subcontinent's political systems by the British government in collaboration with Indian politicians. Stern argues that this production of communalism has been crucial in structuring the composition and organization of South Asia's politically dominant classes, and that they, in turn, have been crucial in determining parliamentary democracy's growth or atrophy on the subcontinent. In what became India, the overwhelmingly Hindu National Congress formed a coalition of professionals and landed peasants, later joined by industrialists, that was friendly to the development of parliamentary democracy. In its western provinces, Pakistan's legacy from British government was a ruling coalition of landlords and civilian and military bureaucrats that has continued to impede the development of parliamentary democracy. Until 1971, this coalition equated parliamentary democracy with the loss of their dominance to Pakistan's Bengali majority. Only among them, in Pakistan's eastern province, now Bangladesh, was there a politically dominant coalition of classes that was friendly to the development of parliamentary democracy. It had the ironic effect in Pakistan of entrenching the west's anti-democratic coalition. Dogged by the legacies of twenty-four years as Pakistan's subordinate province, disorganization among its dominant classes and a vanished rural base, the development of parliamentary democracy in Bangladesh has been slow and uneven.

Local Democracy in South Asia

This introductory textbook provides students with a fundamental understanding of the social, political, and economic institutions of six South Asian countries: Afghanistan, Bangladesh, India, Nepal, Pakistan, and Sri Lanka. It adopts a broad theoretical framework and evaluates the opportunities and constraints facing South Asia's states within the context of democracy. Key features include: An introduction to the region. The history and political development of these South Asian states, including evaluations of their democratic trajectories. The management of conflict, economic development, and extremist threats. A comparative analysis of the states. Projections concerning democracy taking into consideration the opportunities and constraints facing these countries. This textbook will be an indispensable teaching tool for courses on South Asia. It includes pedagogical features such as political chronologies, political party descriptions, text boxes, a glossary, and suggestions for further reading. Written in an accessible style and by experts on South Asian politics, it offers students of South Asian politics a valuable introduction to an exceedingly diverse region.

Democracy and Dictatorship in South Asia

This book brings ethnographies of everyday power and ritual into dialogue with intellectual studies of theology and political theory. It underscores the importance of academic collaboration between scholars of religion, anthropology, and history in uncovering the structures of thinking and action that make politics work. The volume weaves important discussions around sovereignty in modern South Asian history with debates elsewhere on the world map. South Asia's colonial history – especially India's twentieth-century emergence as the world's largest democracy – has made the subcontinent a critical arena for thinking about how transformations and continuities in conceptions of sovereignty provide a vital frame for tracking shifts in political order. The chapters deal with themes such as sovereignty, kingship, democracy, governance, reason, people, nation, colonialism, rule of law, courts, autonomy, and authority, especially within the context of India, Bangladesh, and Pakistan. The book will be of great interest to scholars and researchers in politics, ideology, religion, sociology, history, and political culture, as well as the informed reader interested in South Asian studies.

An Introduction to South Asian Politics

Combining theoretical and empirical insights, this book provides an in-depth analysis of South Asia's transition in the areas of democracy, political economy and security since the end of the Cold War. It provides a close scrutiny to the state of democracy and political economy in India, Pakistan and Bangladesh.

Globalization and Non-traditional Security in South Asia

This book explores the theoretical and empirical relationship between democracy and governance in the Asia-Pacific region. Examining a variety of country cases and themes addressing the theoretical tension between governance and democracy, it illuminates how this impacts political and civil societies across the region. Analysing the character, structure and current trajectories of politics in the Asia-Pacific, democratic or otherwise, this book demonstrates that the role of civil society, political society and governance has significantly differed in practice from what has been commonly assumed within the international community. The book includes both theoretical investigations tracing the modern development of the concepts of governance, development and democratization as well as regional and country-specific observations of major issues, presenting comprehensive country-level studies of China, Singapore, Thailand, Cambodia, the Philippines, Myanmar, Fiji and the Solomon Islands. Presenting fascinating insight into non-democratic governance, civil society and the rule of law in illiberal contexts, Governance and Democracy in the Asia-Pacific will prove to be of great use to students and scholars of Asian politics and society, as well as international and comparative politics.

South Asian Sovereignty

South Asia has had a tumultuous and varied experience with constitutional democracy that predates the recent rise in populism (and its study) in established democracies. And yet, this region has remained largely ignored by constitutional studies and democracy scholars. This book addresses this gap and presents a contribution to the South Asia-centric literature on the topic of the stability and resilience of constitutional democracies. Chapters deal not only with relatively well known South Asian countries such as India, Bangladesh, Pakistan, and Sri Lanka, but also with countries often ignored by scholars, such as Bhutan, Nepal, Maldives, and Afghanistan. The contributions consider the design and functioning of an array of institutions and actors, including political parties, legislatures, the political executive, the bureaucracy, courts, fourth branch / guarantor institutions (such as electoral commissions), the people, and the military to examine their roles in strengthening or undermining constitutional democracy across South Asia. Each chapter offers a contextual and jurisdictionally-tethered account of the causes behind the erosion of constitutional democracy, and some examine the resilience of constitutional institutions against democratic erosion.

South Asia in Transition

This book is an in-depth empirical study of four Asian and African attempts to create democratic, decentralised local governments in the late 1980s and 1990s. The case studies of Ghana, Cote d'Ivoire, Karnataka (India) and Bangladesh focus upon the enhancement of participation; accountability between people, politicians and bureaucrats; and, most importantly, on whether governmental performance actually improved in comparison with previous forms of administration. The book is systematically comparative, and based upon extensive popular surveys and local fieldwork. It makes an important contribution to current debates in the development literature on whether 'good governance' and decentralisation can provide more responsive and effective services for the mass of the population - the poor and disadvantaged who live in the rural areas.

Governance and Democracy in the Asia-Pacific

This handbook offers a comprehensive analysis of the processes and actors contributing to auto-cratization in South Asia. It provides an enhanced understanding of the interconnectedness of the different states in the region, and how that may be related to autocratization. The book analyzes issues of state power, the support for political parties, questions relating to economic actors and sustainable economic development, the role of civil society, questions of equality and political culture, political mobilization, the role of education and the media, as well as topical issues such as the Covid pandemic, environmental issues, migration, and military and international security. Structured in five sections, contributions by international experts describe and explain outcomes at the national level in India, Pakistan, Bangladesh and Sri Lanka. The final section analyzes conditions for democracy and autocratization and how they are affected by the interplay of political forces at the international level in this region. India – building an ethnic state? Pakistan – the decline of civil liberties Bangladesh – towards one-party rule Sri Lanka – the resilience of the ethnic state How to comprehend autocratization in South Asia – three broad perspectives This innovative handbook is the first to describe and to explain ongoing trends of autocratization in South Asia, demonstrating that drivers of political change also work across boundaries. It is an important reference work for students and researchers of South Asian Studies, Asian Studies, Area Studies and Political Science. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

Constitutional Resilience in South Asia

Human Rights, Democracy and Governance is one of the volumes of the series titled, *Imagine a New South Asia*, presented by ActionAid International Asia. This volume emphasizes on unity in South Asia based on liberty and fraternity. The chapters assess and analyse the state of affairs in areas of human rights, democracy, governance, political trends and the rise of regionalism in different South Asian countries, and suggest measures to strengthen ties.

Democracy And Authoritarianism In South Asia

Southeast Asia, an economically dynamic and strategically vital region, seemed until recently to be transiting to more democratic politics. This progress has suddenly stalled or even gone into reverse, requiring that analysts seriously rethink their expectations and theorizing. The Routledge Handbook of Southeast Asian Democratization provides the first book-length account of the reasons for democracy's declining fortunes in the region today. Combining theory and case studies, it is structured in four major sections: Stunted Trajectories and Unhelpful Milieus Wavering Social Forces Uncertain Institutions Country cases and democratic guises This interdisciplinary reference work addresses topics including the impact of belief systems, historical records, regional and global contexts, civil society, ethnicity, women, Islam, and social media. The performance of political institutions is also assessed, and the volume offers a series of in-depth case studies, evaluating the country records of particular democratic, hybrid, and authoritarian regimes from a democratization perspective. Bringing together nearly 30 key international experts in the field, this cutting-edge Handbook offers a comprehensive and fresh investigation into democracy in the region This timely survey will be essential reading for scholars and students of Democratization and Asian Politics, as well as policymakers concerned with democracy's setbacks in Southeast Asia and the implications for the region's citizens.

Democracy and Decentralisation in South Asia and West Africa

What is the relevance of civil society to people empowerment, effective governance, and deepening democracy? This book addresses this question by examining the activities and public participation of

non-governmental organizations (NGOs) in the areas of religion, ethnicity, gender and the environment. Examples are taken from Indonesia, Malaysia, the Philippines, Singapore, Thailand and Vietnam. State regimes' attempts to co-opt the concept or reject it as alien to "Asian values" have apparently not turned out as expected. This is evident from the fact that many Southeast Asian citizens are inspired by the civil society concept and now engage in public discourse and participation. The experience of civil society in Southeast Asia shows that its impact -- or lack of impact -- on democratization and democracy depends on a variety of factors not only within civil society itself, but also within the state.

Routledge Handbook of Autocratization in South Asia

Focuses on the globalization-democratization nexus and shows how governance is being restructured and democracy sometimes deepened in this new global era.

Human Rights, Democracy and Governance

This volume examines the countries in Southeast Asia that have conducted multi-party elections.

Routledge Handbook of Southeast Asian Democratization

South Asia is one of the most volatile regions of the world, and India's complex democratic political system impinges on its relations with its South Asian neighbours. Focusing on this relationship, this book explores the extent to which domestic politics affect a country's foreign policy. The book argues that particular continuities and disjunctures in Indian foreign policy are linked to the way in which Indian elites articulated Indian identity in response to the needs of domestic politics. The manner in which these state elites conceive India's region and regional role depends on their need to stay in tune with domestic identity politics. Such exigencies have important implications for Indian foreign policy in South Asia. Analysing India's foreign policy through the lens of competing domestic visions at three different historical eras in India's independent history, the book provides a framework for studying India's developing nationhood on the basis of these idea(s) of 'India'. This approach allows for a deeper and a more nuanced interpretation of the motives for India's foreign policy choices than the traditional realist or neo-liberal framework, and provides a useful contribution to South Asian Studies, Politics and International Studies.

Civil Society in Southeast Asia

This book is one of the first in-depth and systematic studies on the functioning and aspiring federations of South Asia. It examines how federal dynamics in India, Pakistan, Nepal, and Sri Lanka are impinged on by the nature of their specific constitutions; their societal, political and cultural fabrics; composition of power elites and ruling classes; structures of political economy and market; electoral and party systems; mass media; and information technology. The authors offer a comparative, analytical, conceptual, and theoretical framework to understand patterns and trends as also experiences of and possibilities for federalism in South Asia. They highlight divergences and similarities, successes and key challenges, while indicating federalism's wider regional relevance in the discourse on democracy and governance. The book concludes that the multicultural character of these societies — beset with ethnic and regional conflicts, separatist and military undercurrents — makes federal political solutions the only viable route. Providing a wealth of material, this will deeply interest scholars, students and teachers of comparative politics, political science, federal studies, area studies as well as those interested in political structures and processes in South Asia.

Southeast Asian Responses to Globalization

Until the 1990s, secularism was understood largely as exclusion of religion from the public domain. However, in the last two decades, the world has witnessed the return of religion as a medium and subject of national, regional, and global politics. With such a shift, the previously unquestioned Western values of modernity and secularism find themselves at loggerheads with the increasing assertion of religious identity, which results in difference-based conflicts. This antagonism also gives rise to a vibrant, religiously pluralistic civil society and speaks of a post-secular turn in modern Southeast Asian democracies. *Secularism, Religion, and Democracy in Southeast Asia* tries to understand the rise of religion in modern democracies and how everyday economic, social, and political conditions aid this post-secular phenomenon in Southeast Asia. Setting itself apart from most studies of religion in

Southeast Asia through its regional focus, this volume explores the ideas, practices, state responses, and anxieties related to the religious–secular divide in this geopolitical region.

The Politics of Elections in Southeast Asia

This book offers a regional analysis of the impact of fake news – misinformation, malinformation and disinformation – on electoral democracy and freedom of expression in Southeast Asia, which has taken place in the middle of a global health pandemic. The book maps the impact of social media and the internet on democracy in the members of the Association of Southeast Asian Nations that have already been in the throes of democratic regression for some time. Including an analysis of countries that do not have national elections, the chapters provide detailed information on the extent of internet and social media penetration in each country, the laws that are deployed to reel in its political potential for critics and demonstrate the impact on democracy or the prospects for democracy. Collectively, contributors note that disinformation is a serious problem in the region that negatively impacts elections and how governments' attempts to deal with the phenomenon inevitably lead to the targeting of dissenting voices and opposition as anti-state fake news. The deleterious impact on democracy and freedom of expression, facilitated by a citizenry that is prone to manipulation of facts, appears to be the standard modus operandi in the regional authoritarian complex. This book is the first to undertake a regional analysis of disinformation in Southeast Asia and is a significant contribution to the literature on democracy, elections and disinformation. It will be of interest to researchers in the fields of Political Science and Asian Politics, in particular Southeast Asian Politics.

India in South Asia

This volume provides an introduction to the politics of the five key southeast Asian states - Malaysia, Singapore, Indonesia, Thailand and the Philippines - and is intended as a textbook for undergraduate and graduate students taking courses on this subject. Using a comparative politics and political economy perspective, the author focuses in particular on the degree of democracy in the five countries, arguing that in all the countries considered democracy is, to varying degrees, imperfect. The book synthesises a wide range of scholarship, and presents the material in a concise and accessible way.

Federalism in South Asia

Across South Asia in the last two decades, there has been widespread emphasis on governance reforms aiming to reduce poverty through Millennium Development Goals (MDGs). The recent development agenda has had great impact over the region, and this book finds that it largely widens the gap between the rich and poor, which combined with rising inflation, contributes to political instability. The book analyses the discourses of development agenda and governance crisis and provides a survey of the region by not only focusing on India, Pakistan and Bangladesh but also on the smaller countries in the region, such as Bhutan. Explaining three components of the development agenda as criteria for economic development – poverty reduction, governance reforms and civil society participation through liberal democracy – this book explores the consequences of the neo-liberal democracy and recent development agenda coupled with governance reforms. This work argues that the political economy of South Asia is largely derived from experiences of historical colonialism and recent changes driven by contemporary rise of India as a global power after the triumph of new-liberal democracy and market capitalism in the post-cold war era. It proposes a strengthening of the instruments of endogenous governance and people's participation in South Asian countries to reduce poverty through MDGs and other development goals in combination with top-down and bottom up approaches. Offering an understanding of governance and development in the context of the South Asia, this book will be of interest to academics in the fields of Political Economics, International Development Studies, Political Science, and Governance Studies, as well as policy makers.

Secularism, Religion, and Democracy in Southeast Asia

Although India and Pakistan were part of a single state until liberation from British colonial rule in 1947, the former has since emerged as the world's largest "democracy, whereas the latter has been under military control for most of its history. In this thought-provoking volume, Asma Barlas explores the complex and delicate issue of democracy in
