The Columbia Sourcebook of Mormons in the United States

This anthology offers rare access to key original documents illuminating Mormon history, theology, and culture in the United States from the nineteenth century to today. Brief introductions describe the theological significance of each text and its reflection of the practices, issues, and challenges that have defined and continue to define the Mormon community. These documents balance mainstream and peripheral thought and religious experience, institutional and personal perspective, and theoretical and practical interpretation, representing pivotal moments in LDS history and correcting decades of misinformation and stereotype. The authors of these documents, male and female, not only celebrate but speak critically and question mainline LDS teachings on sexuality, politics, gender, race, polygamy, and other issues. Selections largely focus on the Salt Lake–based LDS tradition, with a section on the post–Joseph Smith splintering and its creation of a variety of similar yet different Mormon groups. The documents are arranged chronologically within specific categories to capture both the historical and doctrinal development of Mormonism in the United States.

Mormonism

"Mormonism, or the Church of Jesus Christ of Latter-day Saints, is America's most successful--and most misunderstood--home grown religion. Avoiding the textbook, narrative approach of most introductions, this volume instead poses well over a hundred commonly asked questions--and some not so common!--and provides thoughtful, short essays in response. The question and answer format means enhanced readability; perfect for casual browsing or in-depth study. General topics include theology, culture, history, scripture, and practice. Questions range from the straightforward ("What circumstances gave rise to Mormonism?"), to the controversial ("Why do Mormons Accept the Book of Abraham as scripture if Egyptologists have discredited it?") to the exotic ("What is Kolob?"; "Is the Garden of Eden in Missouri?")"--

A Voice in the Wilderness

In April 1888, Andrew Jenson, Danish immigrant and convert to the Mormon faith, received an unexpected invitation from church leaders to speak at their general conference. Jenson was an outsider to this conference tradition, a layman whose only standing before the main body of Latter-day Saints came from a contracted position with the Church Historian's Office. Forty-two years later, in April 1930, Jenson offered his twenty-eighth and final general conference sermon. He had become the voice of institutional record keeping in his over forty-year career as an Assistant Church Historian. His sermons demonstrated the growth and expansion of the Mormon general conference tradition in the twentieth century, as they placed the Latter-day Saint story front and center for church members to learn from and celebrate. In addition, Jenson urged conference goers to keep better personal and institutional records and believed he was often the solitary advocate for church record keeping and historical preservation. *A Voice in the Wilderness* presents all twenty-eight of Andrew Jenson's general conference sermons, with introductions and annotations that set them within their historical and religious contexts. His speeches capture a unique period in Mormon history, one of institutional change, accommodation, and growth. This study of Jenson's sermons uncovers the richness and diversity that thrives just beneath the surface of official ecclesiastical discourse.

Mormon Faith in America

Examines the history, cultural, social, and political influence of the Mormon faith in the United States.

Mormon Women's History

Mormon Women's History: Beyond Biography demonstrates that the history and experience of Mormon women is central to the history of Mormonism and to histories of American religion, politics, and culture. Yet the study of Mormon women has mostly been confined to biographies, family histories, and women's periodicals. The contributors to *Mormon Women's History* engage the vast breadth of sources left by Mormon women—journals, diaries, letters, family histories, and periodicals as well as art, poetry, material culture, theological treatises, and genealogical records—to read between the lines, reconstruct connections, recover voices, reveal meanings, and recast stories. *Mormon Women's History* presents women as incredibly inter-connected. Familial ties of kinship are multiplied and stretched through the practice and memory of polygamy, social ties of community are overlaid with ancestral ethnic connections and local congregational assignments, fictive ties are woven through shared interests and collective memories of violence and trauma. Conversion to a new faith community unites and exposes the differences among Native Americans, Yankees, and Scandinavians. Lived experiences of marriage, motherhood, death, mourning, and widowhood are played out within contexts of expulsion and exile, rape and violence, transnational immigration, establishing "civilization" in a wilderness, and missionizing both to new neighbors and far away peoples. Gender defines, limits, and opens opportunities for private expression, public discourse, and popular culture. Cultural prejudices collide with doctrinal imperatives against backdrops of changing social norms, emerging professional identities, and developing ritualization and sacralization of lived religion. The stories, experiences, and examples explored in *Mormon Women's History* are neither comprehensive nor conclusive, but rather

suggestive of the ways that Mormon women's history can move beyond individual lives to enhance and inform larger historical narratives.

The Story of Religion in America

Written primarily for undergraduate classes in American religious history and organized chronologically, this new textbook presents the broad scope of the story of religion in the American colonies and the United States. While following certain central narratives, including the long shadow of Puritanism, the competition between revival and reason, and the defining role of racial and ethnic diversity, the book tells the story of American religion in all its historical and moral complexity. To appeal to its broad range of readers, this textbook includes charts, timelines, and suggestions for primary source documents that will lead readers into a deeper engagement with the material. Unlike similar history books, *The Story of Religion in America* pays careful attention to balancing the story of Christianity with the central contributions of other religions.

Contemporary Mormonism

Outlines the history and teachings of the Church of Jesus Christ of Latter-day Saints; describes Mormon religious and family life; and discusses missionaries, genealogy, race, ethnicity, class, gender, and other issues, and Salt Lake City.

The Story of the Mormons, from the Date of Their Origin to the Year 1901

The Religious, Social, and Political History of the Mormons, Or Latter-Day Saints ... [By Charles Mackay.] Containing ... Memoirs of ... Joseph Smith. Edited, with Important Additions, by Samuel M. Smucker

Excerpt from The Foundations of Mormonism: A Study of the Fundamental Facts in the History and Doctrines of the Mormons From Original Sources Controversial writings seldom accomplish much good; but judicial investigations, which discover and disclose facts, in a spirit of justice and courtesy, are worthy of, and usually receive a fair hearing. This book is a judicial essay in the domain of candid history. The author has discovered and here brought together matter from original documents bearing on the origin and history of all branches of the Mormon Church. The authenticity and very existence of some of these documents have been denied. The facts and verbiage of others, which have been given to the public, have been so garbled as to misrepresent the originals and utterly mislead those reading them. The facts herewith presented are such that they must be either accepted or disproved - a simple denial, no matter how earnest or conscientious will not suffice. Owing to the active propaganda of Mormonism there has been a pressing demand for such a work as this. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Mormon Americana

The Genealogy Annual is a comprehensive bibliography of the year's genealogies, handbooks, and source materials. It is divided into three main sections. FAMILY HISTORIES-cites American and international single and multifamily genealogies, listed alphabetically by major surnames included in each book. GUIDES AND HANDBOOKS-includes reference and how-to books for doing research on specific record groups or areas of the U.S. or the world. GENEALOGICAL SOURCES BY STATE-consists of entries for genealogical data, organized alphabetically by state and then by city or county. The Genealogy Annual, the core reference book of published local histories and genealogies, makes finding the latest information easy. Because the information is compiled annually, it is always up to date. No other book offers as many citations as The Genealogy Annual; all works are included. You can be assured that fees were not required to be listed.

Origin, Rise, and Progress of Mormonism

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.

The Foundations of Mormonism

Fifteen Years' Residence With the Mormons

Descriptive bibliography of every known book produced by Mormons in support of the Church of Jesus Christ of Latter-day Saints during the period 1830-1847. Also includes some author biographies.

What it Means to be a Mormon

With over 100 million copies in print, the Book of Mormon has spawned a vast religious movement, but it remains little discussed outside Mormon circles. Now Terry L. Givens offers a full-length treatment of this influential work, illuminating the varied meanings and tempestuous impact of this uniquely American scripture. Givens examines the text's role as a divine testament of the Last Days and as a sacred sign of Joseph Smith's status as a modern-day prophet. He assesses its claim to be a history of the pre-Columbian peopling of the Western Hemisphere, and later explores how the Book has been defined as a cultural product--the imaginative ravings of a rustic religion-maker. Givens further investigates its status as a new American Bible or Fifth Gospel, one that displaces, supports, or, in some views, perverts the canonical Word of God. Finally, Givens highlights the Book's role as the engine behind what may become the next world religion. The most wide-ranging study on the subject outside Mormon presses, *By the Hand of Mormon* will fascinate anyone curious about a religious people who, despite their numbers, remain strangers in our midst.

The Mormon's Own Book

The Inside of Mormonism
