Solutions Manual

Introduction to Managerial Accounting by Folk/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison and Noreen. However, this is not simply a briefer book with chapters removed; it has been rethought and retooled to meet the needs demanded by the market: a more accessible, yet thorough student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course, cost accounting/cost management. Faculty and students alike will find this new text has retained the hallmark features of the Garrison/Noreen text: author-written supplements; excellent readability; terrific examples; thorough, relevant, and balanced end of chapter material. In sum, this is a book instructors can count on!

Provides solutions for all the end-of-chapter assignments.

Solutions Manual

This Managerial Accounting Solutions Manual provides answers to all Basic and Involved Problems found in the textbook. The Managerial Accounting book covers a range of managerial and cost accounting topics related to planning, directing, and controlling functions. Costing methods, operating and capital budgets, tools for analysis, performance evaluation, decision-making processes, and reporting techniques are all covered in depth. This material is customary for most managerial accounting courses, and is foundational for all accountants and business people.
