[#abstract body photography 1968-1977](#) [#fragmented human form images](#) [#1970s experimental photography](#) [#conceptual body art photography](#) [#deconstructed human figure photos](#)

Explore a fascinating collection of abstract body photography from 1968-1977, capturing fragmented human form images that pushed the boundaries of visual representation. These 1970s experimental photography works delve into the deconstruction of the human figure, offering conceptual body art photography that reflects the innovative spirit of the era. Discover thought-provoking compositions that defined a significant period in artistic and photographic history, exploring the human form through a unique and unconventional lens.
