

Doctor Who The Dominators

[#Doctor Who The Dominators](#) [#classic Doctor Who](#) [#Dominator](#)s TV serial [#Patrick Troughton Doctor Who](#) [#Quarks Doctor Who](#)

The Dominators is a classic Doctor Who serial starring Patrick Troughton as the Second Doctor. This adventure features the warlike Dominators, an alien race, and their robotic servants, the Quarks, as they invade the peaceful planet Dulkis. The Doctor and his companions must thwart their plans for universal conquest and prevent the exploitation of the planet's resources, highlighting themes of pacifism versus aggression within the iconic science fiction universe.

Doctor Who, the Dominators

The Doctor Who Programme Guide is the complete guide to every Doctor Who story shown on television. The stories are listed in order of broadcasting, starting with the first episode broadcast in 1963. Each entry includes the storyline, the cast list, and the names of the producer, script editor, writer and director, and the details of novelizations, video and audio cassette releases. This indispensable guide first appeared over twenty years ago, and immediately established itself as the single, most important reference work about Doctor Who. "THE bible to an entire generation of [Doctor Who] fans on both sides of the Atlantic." --Andrew Pixley, Celestial Toyroom "A real treat for Doctor Who buffs." --David McDonnell, Starlog "It sits invaluablely upon every fan's bookshelf and is a constant source of reference." --Gary Russell, Doctor Who Monthly "A remarkable work of...dedicated scholarship." --Barry Letts, Producer, Doctor Who

The Dominators

It's the same every year; the credits have only just starting rolling on the Doctor Who Christmas Special and someone will claim they know more about the Whoniverse than anyone else in the household. But now you can test their claim... with Doctor Who: The Ultimate Quiz Book! With 600 questions covering every aspect of the TV show including Doctors, companions, enemies, monsters, planets and much more, this enjoyable quiz is the perfect addition for any Who fan's bookshelf.

The Doctor Who Programme Guide

When cultures such as ours toss Jesus out one door, He comes in – albeit disguised – through another. That's why author Jim Papandrea turned to Star Wars, Star Trek, The Matrix, Terminator, Spider-Man, Batman, Dr. Who, and half-a-dozen other modern shows, discovering in each one powerful images

of Christ and salvation. Nor is that surprising. In stories of alternative universes, people always need rescuing; somebody needs to save the day; and sometimes the whole world cries out for a savior . . . which is just what a hero is. About the heroes of some of the most popular sci-fi stories of all time, author Papandrea here answers questions that concern Christians who are also Trekkies, Whovians, Matrix Dwellers, or aficionados of popular science fiction: What kind of "Christ-figure" is the hero of this story, and what does that say about the show's vision of Christ, humanity and salvation? In the interest of being scientific, Papandrea even gives each hero a Numerical Orthodoxy Score based on the description of Christ in the Nicene Creed, Christianity's common definition of orthodoxy. Included herein are astute Christian analyses of: Batman * Captain * America * Doctor Who * The Fifth Element * I, Robot * Iron Man * LOST * The Matrix * Planet of the Apes * Pleasantville * Spider-Man * Star Trek * Star Wars * Superman * The Terminator * The Time Machine * Tron * Wonder Woman Here you'll read about: The pervasive Christian imagery in Doctor Who Star Trek's predicted "death of God" Free-will: the stumbling block in the first Matrix The crucifixion of Spider-Man Why Wonder Woman is an image of a gnostic savior The meaning of salvation in Star Wars (It masquerades as Christian) How Superman's life begins as a parallel of Moses. I, Robot: the religious reason why the robot is called "Sonny" Whether, in any Christian sense, Neo is The One? Captain American and Iron-Man: one defends the innocent, the other brings justice to the guilty The tomb scene in the Fifth Element: it's not the resurrection we need Matter vs. Spirit in Tron: gnostic to the core The anti-Christian bias of Planet of the Apes Why the Force in Star Wars is no analogy to Grace or the Holy Spirit The Star Wars Christ figure: Obi-Wan? Luke? Or even, ultimately, Darth Vader What Heaven is understood to be in the LOST universe Time travel as incarnation in The Terminator: a compelling analogy Regeneration as resurrection in Doctor Who: Is it Christ-like? How Pleasantville reverses the dynamism of the Fall The baptismal significance of the plane crash in LOST Pleasantville: a twisted version of Eden The incarnation of the Christ-figure in Planet of the Apes Tron's parallels between Christianity and the Roman Empire . . . and much more about other science fiction and superhero shows! Christians who enjoy popular culture will greet this fun book with interest and acclaim.

Doctor Who: The Ultimate Quiz Book

Since its inception in November 1963, the British science fiction television series Doctor Who has exerted an enormous impact on the world of science fiction (over 1,500 books have been written about the show). The series follows the adventures of a mysterious "Time Lord" from the distant planet Gallifrey who travels through time and space to fight evil and injustice. Along the way, he has visited Rome under the rule of Nero, played backgammon with Kublai Khan, and participated in the mythic gunfight at the O.K. Corral. Predating the Star Trek phenomenon by three years, Doctor Who seriously dealt with continuing characters, adult genre principles and futuristic philosophies. Critical and historical examinations of the ideas, philosophies, conceits and morals put forth in the Doctor Who series, which ran for 26 seasons and 159 episodes, are provided here. Also analyzed are thematic concepts, genre antecedents, the overall cinematography and the special effects of the long-running cult favorite. The various incarnations of Doctor Who, including television, stage, film, radio, and spin-offs are discussed. In addition, the book provides an extensive listing of print, Internet, and fan club resources for Doctor Who.

Mutually Assured Domination

Science fiction constitutes one of the largest and most widely read genres in literature, and this reference provides bibliographical data on some 20,000 science fiction, fantasy, and horror fiction books, as well as nonfiction monographs about the literature. A companion to Reginald's Science Fiction and Fantasy Literature, 1700-1974 (Gale, 1979), the present volume is alphabetically arranged by approximately 10,000 author names. The entry for each individual work includes title, publisher, date and place published, number of pages, hardbound or paperback format, and type of book (novel, anthology, etc.). Where appropriate, entries also provide translation notes, series information, pseudonyms, and remarks on special features (such as celebrity introductions). Includes indexes of titles, series, awards, and "doubles" (for locating volumes containing two novels). Annotation copyright by Book News, Inc., Portland, OR.

From Star Wars to Superman

Are you a big fan of Doctor Who? Have you watched all of the series from years gone by through to the present day? Can you name the various actors who have played the Doctor from William Hartnell

to Matt Smith? If you can tell a Hath from the Heavenly Host and a Sontaran from a Slitheen, you are certain to enjoy this fun new quiz book? What was the title of episode one of the first Doctor story, The Daleks? Who played The Siren in the eleventh Doctor story, The Curse of the Black Spot? What companion has appeared in the most episodes of Doctor Who since its return in 2005? The answers to these brain-teasers and more can all be found inside The Doctor Who Quiz Book. As the iconic series celebrates 50 years of production, have a go at the 500 questions in this book to find out how much you really know about the Doctor. This is a must-have tribute for Doctor Who fans of all ages.

A Critical History of Doctor Who on Television

Fleeing an erupting volcano, the TARDIS enters an unknown place outside of time and space, where Doctor Who, Jamie, and Zoe encounter a fictional world

Science Fiction and Fantasy Literature, 1975-1991

It's a trivia quiz! It's an episode guide! It's bigger on the inside than the outside! Test your knowledge of the most popular, enduring science-fiction series in the world with this comprehensive Doctor Who trivia quiz. With more than 1000 questions, covering every period in the program's five-decade history, it's the ultimate challenge for fans of television's #1 cult classic. In these pages, you'll find questions like: Who knitted the Fourth Doctor's trademark scarf? "The Doctor's Daughter" guest star Georgia Moffett is the real-life daughter of what former Doctor Who star? What alien race built the Genesis Ark? The first episode of Doctor Who was broadcast just one day after what real-life tragedy? How many holes are there inside the lock on the TARDIS door? Dalek creator Terry Nation co-produced what iconic 1980s U.S action series? Are you ready to put your Time Lord expertise on trial? Can you be the Master of Doctor Who minutiae? Only time will tell.... Don J. Krouskop is a critic, film/TV historian, screenwriter, and rabid Doctor Who fan. He lives with his wife, four dogs, and four cats in Columbus, Ohio.

Doctor Who

From 1963 to 1989, the BBC television program Doctor Who followed a time-traveling human-like alien called "The Doctor" as he sought to help people, save civilizations and right wrongs. Since its 2005 revival, Doctor Who has become a pop culture phenomenon surpassing its "classic" period popularity and reaching a larger, more diverse audience. Though created as a family program, the series has dramatized serious themes in philosophy, science, religion, and politics. Doctor Who's thoughtful presentation of a secular humanist view of the universe stands in stark contrast to the flashy special effects central to most science fiction on television. This examination of Doctor Who from the perspective of philosophical humanism assesses the show's careful exploration of such topics as justice, ethics, good and evil, mythology and knowledge.

Dominators, Cynics, and Wallflowers

This collection of fresh essays addresses a broad range of topics in the BBC science fiction television series Doctor Who, both old (1963-1989) and new (2005-present). The book begins with the fan: There are essays on how the show is viewed and identified with, fan interactions with each other, reactions to changes, the wilderness years when it wasn't in production. Essays then look at the ways in which the stories are told (e.g., their timeliness, their use of time travel as a device, etc.). After discussing the stories and devices and themes, the essays turn to looking at the Doctor's female companions and how they evolve, are used, and changed by their journey with the Doctor.

The Ultimate Doctor Who Quiz Book

Contains material originally published in single magazine form as Doctor Who: Prisoners of Time #1-12.

Doctor Who

You're going to need a bigger sofa... Doctor Who's biggest and most comprehensive monster guide yet, The Monster Vault takes you on the ultimate tour of the Whoniverse, discovering and cataloguing every wonderful and terrifying creature the Doctor has ever encountered. From the notorious Daleks, to evil Stenza warrior Tzim-Sha and the ancient Thijarians, The Monster Vault features in-depth profiles on each monster, showing the Doctor's most dangerous enemies in their natural habitat and unveiling their secret histories. You will also discover how monsters were created and designed, behind-the-scenes secrets, unseen details from the original scripts, case studies and rare artwork. This lavish and visually

stunning book provides an unrivalled wealth of information, allowing you to explore the rich history of Doctor Who and expand your knowledge and understanding of characters old and new.

The Wibbly-Wobbly, Timey-Wimey Trivia Quiz: An Unauthorized Doctor Who Companion

Science has always been part of Doctor Who. The first episode featured scenes in a science laboratory and a science teacher, and the 2020 season's finale highlighted a scientist's key role in Time Lord history. Hundreds of scientific characters, settings, inventions, and ethical dilemmas populated the years in between. Behind the scenes, Doctor Who's original remit was to teach children about science, and in the 1960s it even had a scientific advisor. This is the first book to explore this scientific landscape from a broad spectrum of research fields: from astronomy, genetics, linguistics, computing, history, sociology and science communication through gender, media and literature studies. Contributors ask: What sort of scientist is the Doctor? How might the TARDIS translation circuit and regeneration work? Did the Doctor change sex or gender when regenerating into Jodie Whittaker? How do Doctor Who's depictions of the Moon and other planets compare to the real universe? Why was the program obsessed with energy in the 1960s and 1970s, Victorian scientists and sciences then and now, or with dinosaurs at any time? Do characters like Missy and the Rani make good scientist role models? How do Doctor Who technical manuals and public lectures shape public ideas about science?

The Humanism of Doctor Who

The Whoniverse is a never-before-seen history of the Human Race – from the formation of Earth round the Racnoss eggs, and the creation of life by the destruction of the last Jagaroth spaceship, through to the eventual expansion of the sun and end of the world and beyond – to New Earth, and Utopia... Along the way, The Whoniverse also explores the untold histories of other planets and other lifeforms as they have interacted with humanity. We examine the Daleks and Cybermen, the Time Lords and the Sontarans, the Ice Warriors, Silurians, Weeping Angels, and many many more... We visit Gallifrey and Skaro, Mondas and Telos, Mars and Sontar, to explore how their histories have coincided with the Time Lords, and with our own. With full-colour illustrations, maps, charts and photography throughout, The Whoniverse is a dramatic retelling of the uprisings, wars and battles that formed Doctor Who's universe, and an astonishing compendium of the races that live within it. It is the definitive, essential companion to this universe, and any other.

Doctor Who in Time and Space

Travel with the Doctor in this essential companion for the modern Doctor Who era. Since its return to British television in 2005, through its 50th anniversary in 2013, to its historic casting of actress Jodie Whittaker in the title role, Doctor Who continues to be one of the most popular series in Britain and all over the world. *Who Is The Doctor 2* is a guide to the new series of Doctor Who starring Matt Smith, Peter Capaldi, and Jodie Whittaker. Every episode in series 7 to 11, as well as the 50th anniversary specials, is examined, analyzed, and discussed in thoughtful detail, highlighting the exhilarating moments, the connections to Doctor Who lore, the story arcs, the relationships, the goofs, the accumulated trivia and much, much more. Designed for die-hard Whovians and Who newbies alike, *Who Is The Doctor 2* explores time and space with the Doctor and chronicles the imagination that has made Doctor Who an iconic part of culture for over 50 years.

Doctor Who

Fifty Key Figures in Science Fiction is a collection of engaging essays on some of the most significant figures who have shaped and defined the genre. Diverse groups within the science fiction community are represented, from novelists and film makers to comic book and television writers. Important and influential names discussed include: Octavia Butler, George Lucas, Robert Heinlein, Gene Roddenberry, Stan Lee, Ursula K. Le Guin, H.G. Wells. This outstanding reference guide charts the rich and varied landscape of science fiction and includes helpful and up-to-date lists of further reading at the end of each entry. Available in an easy to use A-Z format, *Fifty Key Figures in Science Fiction* will be of interest to students of Literature, Film Studies, and Cultural Studies.

Doctor Who: The Monster Vault

Blake's 7, Terry Nation's science fiction tale of cosmic freedom fighters, became a hit series in Great Britain when it premiered in 1978. Eight years later, the show quickly became a cult program in America.

A dramatization of futuristic outlaw heroes who defend the innocent from both alien and human conquering forces, the series might better be said to be equal parts Robin Hood and The Magnificent Seven. The series defied traditional genre elements of science fiction television, and developed the concept of the continual "story arc" years before such shows as Babylon 5 and Deep Space Nine. This book provides a critical history and episode guide for Blake's 7, including commentaries for all 52 episodes. Also included are analytical essays on the show, dealing with such topics as themes, imagery and story arc; a consideration of the series as a futuristic Robin Hood myth; cinematography and visual effects; and an overview of Blake's 7 in books, comics and videos. A detailed appendix lists the genre conventions found in the series. The author also includes information about Blake's 7 fan clubs and Internet sites.

Doctor Who-Guide 1/3

Delivers brief biographies of four actors who have all played the famous character Doctor Who.

Doctor Who and Science

Doctor Who is the world's longest-running science fiction television series, and has had children hiding behind sofa's since it was first broadcast in 1963. Eleven actors have played the famous Time Lord, starting with William Hartnell, and it has been a career landmark for all of them. Indeed, no other role in television history is as iconic, demanding, or as anticipated by its legions of fans as that of the famous time traveller with two hearts. Find out: * Who was a bouncer for The Rolling Stones before taking control of the Tardis. * Who was nearly blown up in the Second World War aboard HMS Hood. * Who had a fondness for woolly hats and had a grandson who would become Harry Potter's nemesis. * Who played a transvestite barmaid before becoming a Doctor Who heart-throb. Go back in time and read the human story behind a TV legend.

Doctor Who: The Whoniverse

In this third volume of essays adapted from the acclaimed blog TARDIS Eruditorum you'll find a critical history of the Jon Pertwee years of Doctor Who. TARDIS Eruditorum tells the ongoing story of Doctor Who from its beginnings in the 1960s to the present day, pushing beyond received wisdom and fan dogma to understand that story not just as the story of a geeky sci-fi show but as the story of an entire line of mystical, avant-garde, and radical British culture. It treats Doctor Who as a show that really is about everything that has ever happened, and everything that ever will. This volume focuses on the first years of Doctor Who in colour: the five glam-rock tinged years of Jon Pertwee, looking at its connections with environmentalism, J.G. Ballard, neopaganism, and Monty Python. Every essay on the Pertwee era has been revised and expanded from its original form, along with seven brand new essays exclusive to this collected edition, including a look at whether Torchwood makes any sense with the history of Doctor Who, how the TARDIS works, and just what happens when Jo Grant, as played by Katy Manning, meets the eccentric Time Lady Iris Wildthyme, as played by Katy Manning. On top of that, you'll learn: Whether The Rise and Fall of Ziggy Stardust and the Spiders from Mars is the greatest Doctor Who story of the early 1970s. How Doctor Who is related to the prophetic works of William Blake. Why this entire series has secretly been about a very ugly yellow sofa.

Doctor Who - A Companion

23 November 1963: The first ever episode of Doctor Who – An Unearthly Child – is broadcast. 21 July 1969 - Silence Will Fall 23 August 2014: Deep Breath is Peter Capaldi's first full episode as the Twelfth Doctor. 3 March 2472 - The Master tracks down the Doomsday Weapon For over half a century, Doctor Who has entertained and enthralled fans with the time-travelling adventures of the Doctor. From the first glimpse of a police telephone box in a Totter's Lane junkyard to the fall of the Time Lords' home planet, Gallifrey, Doctor Who has provided a near-inexhaustible list of indelible memories. Doctor Who: 365 is a unique and captivating chronicle of those moments – flashes of drama or humour, terror or joy, for each and every day of the year. Revisiting classic battles, thrilling escapes, iconic characters, game-changing plot twists and more, Justin Richards creates a fascinating portrait of the world's longest running science fiction series, and an essential addition to any Doctor Who fan's collection.

Who Is The Doctor 2

Over 3,000 questions from across space and time - the ultimate challenge for any Doctor Who fan. For over fifty years, Doctor Who has been one of the nation's favourite programmes. Now you can discover just how much you know about it. Straightforward or fiendish, easy or horrendously difficult, all 3000 questions in this book have one thing in common - a certain traveller through time and space. From Ace to Zoe and Axons to Zygons, it covers every single one of the almost 250 Doctor Who stories that have been broadcast since 1963. So put on your brainy specs, pour yourself a nice glass of carrot juice and prepare to discover if you have the knowledge to graduate from Time Lord Academy...

Fifty Key Figures in Science Fiction

This book argues that Doctor Who, the world's longest-running science fiction series often considered to be about distant planets and monsters, is in reality just as much about Britain and Britishness. Danny Nicol explores how the show, through science fiction allegory and metaphor, constructs national identity in an era in which identities are precarious, ambivalent, transient and elusive. It argues that Doctor Who's projection of Britishness is not merely descriptive but normative—putting forward a vision of what the British ought to be. The book interrogates the substance of Doctor Who's Britishness in terms of individualism, entrepreneurship, public service, class, gender, race and sexuality. It analyses the show's response to the pressures on British identity wrought by devolution and separatist currents in Scotland and Wales, globalisation, foreign policy adventures and the unrelenting rise of the transnational corporation.

A History and Critical Analysis of Blake's 7, the 1978–1981 British Television Space Adventure

Over the past half-century Doctor Who has defined science fiction television. The women in the series--from orphans and heroic mothers to seductresses and clever teachers--flourish in their roles yet rarely surmount them. Some companions rescue the Doctor and charm viewers with their technical brilliance, while others only scream for rescue. The villainesses dazzle with their cruelty, from the Rani to Cassandra and Missy. Covering all of the series--classic and new--along with Class, K9, Torchwood, The Sarah Jane Adventures, novels, comics and Big Finish Audio adventures, this book examines the women archetypes in Doctor Who.

Fame: The Cast of Doctor Who

The entertainment world lost many notable talents in 2018, including movie icon Burt Reynolds, "Queen of Soul" Aretha Franklin, celebrity chef and food critic Anthony Bourdain, bestselling novelist Anita Shreve and influential Chicago blues artist Otis Rush. Obituaries of actors, filmmakers, musicians, producers, dancers, composers, writers, animals and others associated with the performing arts who died in 2018 are included. Date, place and cause of death are provided for each, along with a career recap and a photograph. Filmographies are given for film and television performers.

The Doctors Who's Who - The Story Behind Every Face of the Iconic Time Lord: Celebrating its 50th Year

'I'm the Doctor. I'm a Time Lord. I'm from the planet Gallifrey in the constellation of Kasterborous. And I'm the man who's going to save your life.' He's made a mark on almost every era of history, and he's touched millions of lives across space and time. In these pages you'll find just some of the stories behind those brief encounters, each of them addressing the question that must never, ever be answered: 'Doctor Who?' This is the story of an impossible life – of a man who borrowed a spaceship, travelled through time and continually saved the universe - as told by the Doctor's friends, by his enemies, and by the man himself. Letters, journals, trial records, secret government files and the occasional bit of tabloid journalism reveal the never-before-told story of Gallifrey's last Time Lord.

Tardis Eruditorum - An Unofficial Critical History of Doctor Who Volume 3

Travel through space and time with this guide to 50 years of Doctor Who Doctor Who has been a television phenomenon since it began 50 years ago on November 23, 1963. But of all the hundreds of televised stories, which are the ones you must watch? Featuring 50 stories from all eleven Doctors, Who's 50 is full of behind-the-scenes details, exhilarating moments, connections to Who lore, goofs, interesting trivia and much, much more. Who's 50 tells the story of this global sensation: its successes, its tribulations and its triumphant return.

From what it means to be human, when it's best to run and the best approach to filling your pockets, this book contains nothing less than the tao of Doctor Who - 3651D4 hot tips on life and how to live it!

Doctor Who - The Official Quiz Book

The Quechua people of southern Peru are both agriculturalists and herders who maintain large herds of alpacas and llamas. But they are also weavers, and it is through weaving that their cultural traditions are passed down over the generations. Owing to the region's isolation, the textile symbols, forms of clothing, and technical processes remain strongly linked to the people's environment and their ancestors. Heckman's photographs convey the warmth and vitality of the Quechua people and illustrate how the land is intricately woven into their lives and their beliefs. Quechua weavers in the mountainous regions near Cuzco, Peru, produce certain textile forms and designs not found elsewhere in the Andes. Their textiles are a legacy of their Andean ancestors. Andrea Heckman has devoted more than twenty years to documenting and analyzing the ways Andean beliefs persist over time in visual symbols embedded in textiles and portrayed in rituals. Her primary focus is the area around the sacred peak of Ausangate, in southern Peru, some eighty-five miles southeast of the former Inca capital of Cuzco. The core of this book is an ethnographic account of the textiles and their place in daily life that considers how the form and content of Quechua patterns and designs pass stories down and preserve traditions as well as how the ritual use of textiles sustain a sense of community and a connection to the past. Heckman concludes by assessing the influences of the global economy on indigenous Quechua, who maintain their own worldview within the larger fabric of twentieth-century cultural values and hence have survived everything from Latin American militarism to a tidal wave of post-modern change.

Doctor Who: A British Alien?

Weaving together concerns about environmental and social justice, Teaching as Activism brings together constructive demands for change and theoretical debate. Written by activists who also teach, the essays challenge the current pedagogical literature with proposals that would bring discussion of social and environmental responsibility into postsecondary science, the classroom, and the community. With backgrounds in feminist science and indigenous knowledges critiques, the contributors emphasize the importance of appreciating indigenous knowledges, recognizing our bias about how knowledge is presently produced, and integrating science with a human spiritual connection to nature. The goals are to question the legacies of colonialism, capitalism, and globalization and create a more inclusive interdisciplinary education. Contributors include Elisabeth Abergel (Glendon College), Marie Battiste (University of Saskatchewan), Vanaja Dhruvarajan (University of Winnipeg), Margrit Eichler (University of Toronto), Leesa Fawcett (York University), Ursula M. Franklin (University of Toronto), Marianne Gosztanyi Ainley (University of Northern British Columbia and University of Victoria), Moira Grant (University of Ontario Institute of Technology), Bob Jickling (Lakehead University), Ann Matthews (University of Toronto), Heather Menzies (Carleton University), Natasha S Myers (Massachusetts Institute of Technology), Njoki N. Wane (University of Toronto), and Barbara Waterfall (Wilfrid Laurier University).

Women in Doctor Who

Tiermann's World: a planet covered in wintry woods and roamed by sabre-toothed tigers and other savage beasts. The Doctor is here to warn Professor Tiermann, his wife and their son that a terrible danger is on its way. The Tiermanns live in luxury, in a fantastic, futuristic, fully-automated Dreamhome, under an impenetrable force shield. But that won't protect them from the Voracious Craw. A gigantic and extremely hungry alien creature is heading remorselessly towards their home. When it gets there everything will be devoured. Can they get away in time? With the force shield cracking up, and the Dreamhome itself deciding who should or should not leave, things are looking desperate... Featuring the Tenth Doctor and Martha as played by David Tennant and Freema Agyeman in the hit Doctor Who series from BBC television.

Obituaries in the Performing Arts, 2018

With plots and quotes from every Doctor Who adventure transmitted from 1963 to 1996, this is the bible of the TV show. Also included are cast listings, critical analyses, and trivia.
