Crossing the Line

A RADIO 4 BOOK OF THE WEEK 'A love letter to police officers and the most vulnerable people they protect and serve' CHRISTIE WATSON, author of THE LANGUAGE OF KINDNESS 'Extraordinary . . . urgent and compelling. We all have lessons to learn from this book' SIMON MAYO There is much more to policing than tackling crime. Every one of us will need the help of an officer at some point in our

lives, often when we're at our most vulnerable. Yet how much do we really know about the realities of policing? Using real life stories from his twenty-five years of service with the Metropolitan Police, John Sutherland invites us beyond the cordon tape to bear witness to all he has seen. In doing so, he offers a hopeful vision for how we can tackle some of the biggest challenges facing society today. Includes a new Afterword on policing during the Covid-19 pandemic

A Life on the Line

When the author was a kid, a big white sleek ambulance squatted like a lion in the driveway next door, always ready to go, and sometimes it did, roaring down the street. Today he is a MICA Flight Paramedic with decades of varied experience in 'a life of extremes' in an Australian ambulance service. He does shifts at base on-call, and teaches another generation of paramedics now. Loves his job. A list of well-known events that includes Victoria's Black Saturday Fires and the 2005 Bali Bombing - he was trying to get married when that call came in - mark two dark extremes. Technical matters - trauma treatment decisions, and the limits of aviation, for example - are explained. And this book includes the little things like the time the supermarket aisle was alive with the sound of music from an ex-patient's kid's lips: 'Thanks for looking after Daddy.' Darren couldn't have put it better himself, and it made his heart sing. This book tells what is like to be Darren Hodge on the end of a line, what it is like to be a paramedic. Open, honest reports, warts and all, this memoir is an unflinching account of how it feels, say, to pluck people from imminent death. And there are some laughs on the way...

Life, on the Line

"One of America's great chefs" (Vogue) shares how his drive to cook immaculate food won him international renown-and fueled his miraculous triumph over tongue cancer. In 2007, chef Grant Achatz seemingly had it made. He had been named one of the best new chefs in America by Food & Wine in 2002, received the James Beard Foundation Rising Star Chef of the Year Award in 2003, and in 2005 he and Nick Kokonas opened the conceptually radical restaurant Alinea, which was named Best Restaurant in America by Gourmet magazine. Then, positioned firmly in the world's culinary spotlight, Achatz was diagnosed with stage IV squamous cell carcinoma-tongue cancer. The prognosis was grim, and doctors agreed the only course of action was to remove the cancerous tissue, which included his entire tongue. Desperate to preserve his quality of life, Grant undertook an alternative treatment of aggressive chemotherapy and radiation. But the choice came at a cost. Skin peeled from the inside of Grant's mouth and throat, he rapidly lost weight, and most alarmingly, he lost his sense of taste. Tapping into the discipline, passion, and focus of being a chef, Grant rarely missed a day of work. He trained his chefs to mimic his palate and learned how to cook with his other senses. As Kokonas was able to attest: The food was never better. Five months later, Grant was declared cancer-free, and just a few months following, he received the James Beard Foundation Outstanding Chef in America Award. Life, on the Line tells the story of a culinary trailblazer's love affair with cooking, but it is also a book about survival, about nurturing creativity, and about profound friendship. Already much- anticipated by followers of progressive cuisine, Grant and Nick's gripping narrative is filled with stories from the world's most renowned kitchens-The French Laundry, Charlie Trotter's, el Bulli- and sure to expand the audience that made Alinea the number-one selling restaurant cookbook in America last year. Watch a Video

My Life on the Line

"Football gave Ryan O'Callaghan a scholarship to Cal and the chance to earn millions in the NFL, but it also afforded him something far more important: a place to hide. As a closeted gay man, his helmet and pads became tools of deception...O'Callaghan, who retired in 2011 after four seasons, eventually found the courage to live his truth in retirement. His memoir offers an unsparing look at the nexus of sexuality and football." --Sports Illustrated "O'Callaghan came out as gay in 2017 after retiring from the league in 2011. Fearing condemnation while hiding his sexual orientation during a football career that spanned six seasons, O'Callaghan said he had regular suicidal thoughts while growing addicted to painkillers and he had elaborately planned his own death for retirement. In My Life On the Line, co-authored by Outsports co-founder Cyd Zeigler, O'Callaghan...credits then-Kansas City Chiefs executive Scott Pioli and Dr. Susan Wilson for saving his life once he came out to them." --USA Today "In a new book due out in September, O'Callaghan discusses his life story, including the treatment he received from former teammates after coming out." --Boston Globe "Former Patriots lineman Ryan O'Callaghan spent his entire career hiding his sexuality from his teammates, his friends and his family. He is now sharing that

battle in his new book, *My Life On The Line*." --CBS Boston (WBZ TV) "O'Callaghan believes the NFL is moving in the right direction with social issues, albeit slowly...O'Callaghan is part of that change. And that change saved his life." --Boston Globe, feature on Ryan O'Callaghan "As one of the few openly gay former U.S. players, O'Callaghan's goal became making it easier for future athletes to be open about their sexuality and gender identity well before they enter professional sports." --Reuters "O'Callaghan is one of only a few openly gay former NFL players...In his upcoming memoir, *My Life on the Line: How the NFL Damn Near Killed Me and Ended Up Saving My Life*, O'Callaghan candidly discusses his addictions, mental health and struggles with his sexuality." --Washington Blade Ryan O'Callaghan's plan was always to play football and then, when his career was over, kill himself. Growing up in a politically conservative corner of California, the not-so-subtle messages he heard as a young man from his family and from TV and film routinely equated being gay with disease and death. Letting people in on the darkest secret he kept buried inside was not an option: better death with a secret than life as a gay man. As a kid, Ryan never envisioned just how far his football career would take him. He was recruited by the University of California, Berkeley, where he spent five seasons, playing alongside his friend Aaron Rodgers. Then it was on to the NFL for stints with the almost-undefeated New England Patriots and the often-defeated Kansas City Chiefs. Bubbling under the surface of Ryan's entire NFL career was a collision course between his secret sexuality and his hidden drug use. When the league caught him smoking pot, he turned to NFL-sanctioned prescription painkillers that quickly sent his life into a tailspin. As injuries mounted and his daily intake of opioids reached a near-lethal level, he wrote his suicide note to his parents and plotted his death. Yet someone had been watching. A member of the Chiefs organization stepped in, recognizing the signs of drug addiction. Ryan reluctantly sought psychological help, and it was there that he revealed his lifelong secret for the very first time. Nearing the twilight of his career, Ryan faced the ultimate decision: end it all, or find out if his family and football friends could ever accept a gay man in their lives.

A Life on the American Frontiers: Collected Works of Henry Schoolcraft

This carefully created collection presents works of Henry Schoolcraft. This book has been designed and formatted to the highest digital standards and adjusted for readability on all devices. Contents: *Memoirs & Explorations: Narrative of an Expedition Through the Upper Mississippi to Itasca Lake* *Personal Memoirs of a Residence of Thirty Years with The Indian Tribes On The American Frontiers* *Scenes and Adventures in the Semi-Alpine Region of the Ozark Mountains of Missouri and Arkansas* *Ethnographical & Historical Works: The American Indians The Myth of Hiawatha and Other Oral Legends The Indian Fairytale Book* Henry Rowe Schoolcraft (1793 – 1864) was an American geographer, geologist, and ethnologist, noted for his early studies of Native American cultures, as well as for his 1832 expedition to the source of the Mississippi River. He is also noted for his major six-volume study of Native Americans published in the 1850s.

A Life on the Lines

During much of his early career, from 1944 through to the early 1960s, Richard Hardy took hundreds of pictures of life on the railways and the men he knew and worked with on a daily basis, using his trusty Brownie 620 box camera. These unique behind the scenes images form a fascinating and hugely evocative portrayal of Britain at the height of the era of steam, during the time of the 'Big Four', and after 1947 when the sprawling nationalised network known as British Railways came of age. The second edition contains many new unseen photos which capture the railways in wartime, providing a valuable social record of the nation at war. In addition there is a sequence of rare photographs of French engines, railways and railwaymen, offering a superb contrast to the British rail network (it quickly becomes evident that the British rail system ran on tea, whereas the French system ran on wine). Great characters are the unifying theme of the pictures, and they include famous figures associated with the railways, such as the poet John Betjeman. This wonderfully illustrated book sets Richard's personal photographs and text alongside a carefully collated selection of ephemera, artworks and photographs drawn from the National Railway Museum in York. Collectively these images and artefacts tell the stories of the great brotherhood of railwaymen, brilliantly evoking the speed, heat and dust of the footplate.

A Life on the Line

Extreme Sport distinguishes the life of Helmut Linzbichler. For decades he's pursued ultrarunning, mountain climbing, climbing and skiing with a passion. He is the oldest European to stand on top of Everest, climbed all Seven Summits, ran 135 miles through Death Valley in the Badwater Ultramarathon.

rathon, and 2,600 miles across the USA in the Transamerica run. Exploring his own limits physical as well as mental - is this Austrian's lifeblood. To what extent is his childhood responsible for his longing for extremes? Was sport just a way for him to be noticed, a replacement for the father's love he never experienced? Is his adventurous lifestyle more than anything else an escape after the death of his pregnant wife? How did Helmut's life change as a result of his cancer diagnosis and nearly losing his life on Everest? "Adventure Unlimited" tells of intense passions and of striving toward seemingly unreachable goals. It's a story of powerful successes, but also of dealing with defeat and calamity. True to the motto "Life is way too short for someday," Helmut Linzbichler knows from his own experience: It is never too late to live your dreams - no matter how old you are.

Adventure Unlimited: A Life on the Edge

Recounting the adventures of seven decades, Jim Whittaker claims he is a man blessed often by fortune. Yet his is a life of both planned ascents and unplanned falls, in the mountains and in the world of business, and in his personal life. He believes in rising above life's reverses.

A Life on the Edge

Kevin Twaddle was a footballer who was always prepared to take a risk on the park but it was off it where he really gambled. The former Hearts, Motherwell and St Johnstone winger speaks openly for the first time about his secret betting addiction that saw him blow more than a million pounds and wrecked his football career. Kevin tells his harrowing story of what his punting did to his family, how it killed relationships, destroyed his bond with his daughter and almost caused his parents to split up. He talks about his addiction and how it led to him stealing, going to loan sharks, left him facing jail and considering the ultimate gamble - suicide - before he finally got his life back on the straight and narrow. Kevin, who has since gone on to play pool for Scotland, has now not had a bet for more than six years, holds a prominent position in Gamblers Anonymous and also uses his experiences to help the Professional Footballers Association (Scotland) to educate today's footballers on the pitfalls of gambling. This is the harrowing and moving story on how one man's life fell apart spectacularly because of his addiction to gambling and how, after hitting rock bottom, he finally managed to conquer his demons.

Life on the Line

'A warts-and-all memoir of an ex-cop from probationer days on. Fascinating' IAN RANKIN 'A humane but unflinching look at the sharp end of contemporary policing' LUKE JENNINGS 'I loved this book. Gritty and gripping, moving and shocking, this brilliant police memoir shows that life on the force really is different for girls' ERIN KELLY Welcome to London. Population: 8.7 million. And it's your job to keep them safe. A no-holds-barred account of life on the front line of policing, On the Line follows PC Alice Hearn throughout ten years in the Met, from rookie to constable. As she deals with violent criminals, heart-breaking domestic situations, petty crime, life, death, and everything in between, she builds up a portrait of a living, complex city, and what it means to look after it. 'COMPELLING' Sunday Express 'EXTRAORDINARY' Mail on Sunday 'I've never read such an authentic and interesting account of what it's like to be a female police officer' LOUISE VOSS 'Deeply moving and inspiring' JANE CASEY 'Alice Vinten is the real deal - all the thrills of a crime novel, only true' MEL MCGRATH 'Heartbreaking, funny and, most of all, honest' LISA CUTTS 'Compelling, honest and moving' LAURA WILSON

On the Line

The gripping account of six young doctors enlisted to fight COVID-19, an engrossing, eye-opening book in the tradition of both Sheri Fink's Five Days at Memorial and Scott Turow's One L. In March 2020, soon-to-graduate medical students in New York City were nervously awaiting "match day" when they would learn where they would begin their residencies. Only a week later, these young physicians learned that they would be sent to the front lines of the desperate battle to save lives as the coronavirus plunged the city into crisis. Taking the Hippocratic Oath via Zoom, these new doctors were sent into iconic New York hospitals including Bellevue and Montefiore, the epicenters of the epicenter. In this powerful book, New York Times journalist Emma Goldberg offers an up-close portrait of six bright yet inexperienced health professionals, each of whom defies a stereotype about who gets to don a doctor's white coat. Goldberg illuminates how the pandemic redefines what it means for them to undergo this trial by fire as caregivers, colleagues, classmates, friends, romantic partners and concerned family members. Woven together from in-depth interviews with the doctors, their notes, and Goldberg's own

extensive reporting, this page-turning narrative is an unforgettable depiction of a crisis unfolding in real time and a timeless and unique chronicle of the rite of passage of young doctors.

Life on the Line Young Doctors Come of Age in a Pandemic

Pierre-Étienne Fortin led a life and plied a career at the heart of Canada's early history. He was an adventurer, an amateur scientist, an early (if ambiguous) conservationist and a Conservative politician from 1867 to 1888. He was a doctor on Grosse-Île amid the horrors of the 1847 typhus epidemic, led a mounted police troop during the infamous Montreal riots of 1849 and, as commander of the armed schooner *La Canadienne*, policed the Gulf of St. Lawrence from 1852 to 1867, when thousands of New Englanders and Nova Scotians swarmed over the fishing grounds. His official life as magistrate and mid-level bureaucrat often exemplified tensions of early nationhood: those between elites and colonists; and those arising from the nationalistic impulse to impose law and order on the wilderness. The interests, issues and sympathies at work on Fortin in the founding period remain compelling today: job creation versus environmental protection, free trade with the U.S., the exploitation of Canadian fisheries, relations with aboriginal peoples, and the political status of Quebec within confederation.

Life on the Line

When Darren Hodge was a kid, a big, white, sleek ambulance squatted like a lion in the driveway next door, always ready to go, and sometimes it did, roaring down the street. Today, he is a MICA Flight Paramedic with decades of varied experience in 'a life of extremes' in an Australian ambulance service. He does shifts at base on-call, and teaches another generation of paramedics now. He loves his job. A list of well-known events that includes Victoria's Black Saturday Fires and the 2005 Bali Bombing - he was trying to get married when that call came in - marks two dark extremes. Technical matters - trauma treatment decisions, and the limits of aviation, for example, are explained. And this book includes the little things like the time the supermarket aisle was alive with the sound of music from an ex-patient's kid's lips: 'Thanks for looking after Daddy.' Darren couldn't have put it better himself, and it made his heart sing.

A Life on the Line

"I would soon learn that showing up at the border with a can of liquid karate and a less-than-Ron-Jeremy-sized whacky stick was like arriving at the Battle of Hastings with a spork." "The border attracts a fundamentally different clientele from the airport. Going to an airport is a big deal for most people. They put on pants. They bring a passport. They know where they are going. They expect a bit of scrutiny. If they arrive at the airport in, say, Seoul with an AK-47 or buck-assed naked, someone is likely to notice and say, 'Er, come with me, sir.'" "Officers who believe their clients are innocent children will never allow child rapists into a home with Canadian children. And that's as important as semantics ever get." "So much cocaine was coming up the US-5 from Mexico that BC, 10,000 kilometres from the nearest coca plant, was becoming a net EXPORTER of cocaine." "You can't fix people's attitudes. If people are stupid and ignorant, they've probably been that way for a long time. They think it's okay, and they don't want to change. If anyone's going to change that, it might be a spouse or a minister; it sure as shit won't be you." "People were coming through the lane with fucking pianos strapped to the roofs of their vans, insisting they had 'Nothing to declare.' Chutzpah doesn't begin to cover it." "He is now the Vice-Chair of the Board of Governors for the University of Ottawa, a perfect settling perch for members of the Laurentian Elite who have fucked things up in the civil service too much to be of use to even a Liberal government. On his University of Ottawa bio-page, the word 'border' is misspelled." "Bosses hated arming, not because they had analyzed it dispassionately and found it made no sense, but because they were cloistered academics who did not like things that made loud noises." "Taking a dime was taking a dollar was taking a million. Lying about whether or not a guy had booze on his breath when you pulled him in for an ASD was the same as lying about a confession to murder. Breaking the laws you were sworn to protect was shit behaviour, any way you cut it." "Drug traffickers do not threaten unreceptive people who have done nothing to suggest a willingness to compromise their integrity, or an opening for blackmail. They know those people will go to the police." "First, we completed the Minnesota Multiphasic Personality Inventory. This was a multiple-choice exam which, luckily, had an interpretation guide available on Amazon. I bought one, and it helped me understand certain valuable things. Like, when they ask about flowers, that's code for 'gay.' And when they ask about 'enjoying fire,' that's not hot cocoa by the fireplace, that's setting fire to your own house and jerking off till the bucketheads get there." "Andy was searching an old country music star's bus one time, when the star asked him,

'Whatcha all looking for, anyway?' 'Contraband.' 'Why, we's a country band.'" "People who show up at the border often have classical DSM-IV symptoms. They are disoriented. They are delusional. They are panicked. They engage in risky behaviour. Ask any officer who has spent six or more months at a border crossing, and they'll tell you: there isn't enough Prozac in the world for these people."

A Life on the Line

We are often told that mean welfare is what the public wants. Whether or not that's true, this book encourages us to at least be honest about what that entails. It explores how diverse welfare users navigate the personal and practical hurdles of Australia's so-called social security system, where benefits are deliberately meagre and come with strings attached. Based on ethnographic fieldwork in a region of Sydney known for ethnic diversity and socio-economic disadvantage, Emma Mitchell brings her own experience of belonging to a poor family long reliant on welfare to her research. This book shows the different cultural resources that people bring to welfare encounters with a sensitivity and subtlety that are often missing in both sympathetic and cynical accounts of life on welfare.

Making a Life on Mean Welfare

Reprint of the original, first published in 1871. The publishing house Anatiposi publishes historical books as reprints. Due to their age, these books may have missing pages or inferior quality. Our aim is to preserve these books and make them available to the public so that they do not get lost.

Anecdotes of a Life on the Ocean

You're going about your daily routine when you suddenly feel an odd squirming in your chest. You quickly realize that it is your heart, flopping around like a fish out of water. What do you do? You probably panic! Maybe you also experience dizziness, nausea, or shortness of breath, or maybe you have no other symptoms at all. But it's still very scary because... it's your heart! This is how chronic atrial fibrillation starts for many of us, and those who develop it often have little to no prior medical history to speak of. Once the demon a-fib has set in, though, we soon find our lives redirected down a dark uncharted path, our days consumed by vain attempts to divine the elusive origins of this mysterious malady as we desperately seek a panacea that can give us back our "normal"... or at least some way to weaken the grasp that this unwelcome beast now has on our lives. Through it all, we put on performances of a lifetime for the rest of the world, acting as though all is well while coping as best we can with this invisible disorder... one that he who has never suffered through it cannot possibly understand. Try as we might, though, our lives and relationships will surely end up the worse for wear. Within the pages of this book lies one man's personal account of how this condition impacted his life, how he managed to overcome it, the valuable knowledge that was acquired along the way, and the permanent marks that the journey has left on his subsequent existence. This medical autobiography is written in an informal first-person conversational style with accounts and information presented in such a way that it should be easy for just about everyone to understand and relate to.

A Life on Hold

A young man from a troubled background chooses to help a young mute girl rather than spend time in jail. When she is kidnapped, his search takes him on many adventures in the Alaskan interior.

A Life on the Line

To live, every being must put out a line, and in life these lines tangle with one another. This book is a study of the life of lines. Following on from Tim Ingold's groundbreaking work *Lines: A Brief History*, it offers a wholly original series of meditations on life, ground, weather, walking, imagination and what it means to be human. In the first part, Ingold argues that a world of life is woven from knots, and not built from blocks as commonly thought. He shows how the principle of knotting underwrites both the way things join with one another, in walls, buildings and bodies, and the composition of the ground and the knowledge we find there. In the second part, Ingold argues that to study living lines, we must also study the weather. To complement a linealogy that asks what is common to walking, weaving, observing, singing, storytelling and writing, he develops a meteorology that seeks the common denominator of breath, time, mood, sound, memory, colour and the sky. This denominator is the atmosphere. In the third part, Ingold carries the line into the domain of human life. He shows that for life to continue, the things we do must be framed within the lives we undergo. In continually answering to one another,

these lives enact a principle of correspondence that is fundamentally social. This compelling volume brings our thinking about the material world refreshingly back to life. While anchored in anthropology, the book ranges widely over an interdisciplinary terrain that includes philosophy, geography, sociology, art and architecture.

The Life of Lines

A Sunday Times top-five bestseller 'This is a remarkable book . . . profound and deeply moving . . . It has as much to tell us about mental illness as it does about policing' Alastair Stewart John Sutherland joined the Met in 1992, having dreamed of being a police officer since his teens. Rising quickly through the ranks, he experienced all that is extraordinary about a life in blue: saving lives, finding the lost, comforting the broken and helping to take dangerous people off the streets. But for every case with a happy ending, there were others that ended in desperate sadness, and in 2013 John suffered a major breakdown. Blue is his memoir of crime and calamity, of adventure and achievement, of friendship and failure, of serious illness and slow recovery. With searing honesty, it offers an immensely moving and personal insight into what it is to be a police officer in Britain today.

Blue

With a new afterword, Why You Are Here: A speech on the opening of the COP26 climate summit As a young man, I felt I was out there in the wild, experiencing the untouched natural world - but it was an illusion. The tragedy of our time has been happening all around us, barely noticeable from day to day - the loss of our planet's wild places, its biodiversity. I have been witness to this decline. A Life on Our Planet contains my witness statement, and my vision for the future - the story of how we came to make this, our greatest mistake, and how, if we act now, we can yet put it right. We have the opportunity to create the perfect home for ourselves and restore the wonderful world we inherited. All we need is the will to do so.

Life on the Leicester Line

We have reached a pivotal moment for fishing, with seventy-five percent of the world's fish stocks either fully exploited or overfished. If nothing is done to stop the squandering of fish stocks the life of the oceans will face collapse and millions of people could starve. Fish is the aspirational food for Western society, the healthy, weight-conscious choice, but those who eat and celebrate fish often ignore the fact that the fishing industry, although as technologically advanced as space travel, has an attitude to conservation 10,000 years out of date. Trawling on an industrial scale in the North Sea takes 16 lbs of dead marine animals to produce just 1lb of sole. Regulation isn't working, fishermen must cheat or lose money, dolphins and other wildlife (seabirds, turtles, sharks) are killed unnecessarily and fish stocks are collapsing despite the warnings. The End of the Line looks at the problem and proves that we, as consumers, have to change if the situation is to improve.

A Life on Our Planet

One of a series of top-quality fiction for schools, this is a story in which two boys overhear a plot for murder and try to stop it, but nobody will believe them. The result is a chase on a train from Liverpool Street and across the Fens.

The End Of The Line

Bill Guy's biography of Labor legend Clyde Cameron takes the reader from shearing shed to cabinet room, telling the story of the Australian 'left', its history and its challenges for the future. Cameron's life spans four-fifths of the ALP's history and many of the great political events of Australia since World War II.

Run for Your Life

Pilots relate their combat experiences in Vietnam with tales of bravery and sacrifice, demonstrating that pilots were engaged in combat as often as ground troops

A Life on the Left

For over two decades Dr. Des Sinclair and his wife Ros have traveled throughout Africa, Australia, South America, and Asia. He has seen three people raised from the dead: he has been released from prison in extraordinary circumstances; he has preached the gospel in the face of fierce opposition, particularly from Muslim groups. Thrown out by his father at the age of eleven, he has since been abused, imprisoned, tortured, even sentenced to death yet in obedience to the perceived call of God he has pressed on. Life on the Line is his amazing story.

Life on the Line

The #1 Sunday Times and International Bestseller from 'the most influential public intellectual in the Western world right now' (New York Times) What are the most valuable things that everyone should know? Acclaimed clinical psychologist Jordan Peterson has influenced the modern understanding of personality, and now he has become one of the world's most popular public thinkers, with his lectures on topics from the Bible to romantic relationships to mythology drawing tens of millions of viewers. In an era of unprecedented change and polarizing politics, his frank and refreshing message about the value of individual responsibility and ancient wisdom has resonated around the world. In this book, he provides twelve profound and practical principles for how to live a meaningful life, from setting your house in order before criticising others to comparing yourself to who you were yesterday, not someone else today. Happiness is a pointless goal, he shows us. Instead we must search for meaning, not for its own sake, but as a defence against the suffering that is intrinsic to our existence. Drawing on vivid examples from the author's clinical practice and personal life, cutting edge psychology and philosophy, and lessons from humanity's oldest myths and stories, 12 Rules for Life offers a deeply rewarding antidote to the chaos in our lives: eternal truths applied to our modern problems.

Life on the Line

In the spring of 2010, Harvard Business School's graduating class asked HBS professor Clay Christensen to address them—but not on how to apply his principles and thinking to their post-HBS careers. The students wanted to know how to apply his wisdom to their personal lives. He shared with them a set of guidelines that have helped him find meaning in his own life, which led to this now-classic article. Although Christensen's thinking is rooted in his deep religious faith, these are strategies anyone can use. Since 1922, Harvard Business Review has been a leading source of breakthrough ideas in management practice. The Harvard Business Review Classics series now offers you the opportunity to make these seminal pieces a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world.

12 Rules for Life

A Sunday Times Top 10 Bestseller As one of the best biographers of her generation, Claire Tomalin has written about great novelists and poets to huge success: now, she turns to look at her own life. This enthralling memoir follows her through triumph and tragedy in about equal measure, from the disastrous marriage of her parents and the often difficult wartime childhood that followed, to her own marriage to the brilliant young journalist Nicholas Tomalin. When he was killed on assignment as a war correspondent she was left to bring up their four children - and at the same time make her own career. She writes of the intense joys of a fascinating progression as she became one of the most successful literary editors in London before discovering her true vocation as a biographer, alongside overwhelming grief at the loss of a child. Writing with the élan and insight which characterize her biographies, Claire Tomalin sets her own life in a wider cultural and political context, vividly and frankly portraying the social pressures on a woman in the Fifties and Sixties, and showing 'how it was for a European girl growing up in mid-twentieth-century England ... carried along by conflicting desires to have children and a worthwhile working life.'

How Will You Measure Your Life? (Harvard Business Review Classics)

A memoir chronicling Shirley MacLaine's remarkable experiences filming Wild Oats in the Canary Islands and the extraordinary memories her time there brought forth of a past life on the lost continent of Atlantis

A Life of My Own

Moving to New York to pursue creative ambitions, four former classmates share decades marked by love, loss, addiction, and haunting elements from a brutal childhood.

Above the Line

A taut, gritty tale about two boys who live on a run-down housing estate near a railway line. When you live life on the line, it doesn't take much to come off the rails. Simon and Darren look out for each other - always have done. Especially these last few years, since Darren's dad died and his mum took up with Milo. Since Si's kid brother got so ill. Since girls, drugs and gangs became a part of life, and messing about on the railway line has turned into more than just playing stupid games. But sometimes even your best mate can't protect you from what life has in store further down the tracks...

A Little Life

On his first day as a cashier at Dream Grocers, Daniel imagines that the worst he'll have to deal with on the job are the occasional grumpy customers and long days on his feet. But in just one week's time, reality changes entirely as the COVID-19 pandemic creates a frenzied panic throughout Daniel's home state of Colorado. Now, he's suddenly being called a hero just for showing up at his job, and he isn't sure how to feel about that. As the uncertainty and paranoia around the virus spread rapidly, Daniel tries to stay afloat and not let the irate hordes of customers bring him down. He learns more than he ever expected to about humanity's response to fear, observing most prominently the way that some people look down on the very workers they deem "essential."

Life on the Line

'Firefighters are a unique breed. It takes a certain kind of individual to enter a burning building to rescue someone they have never met before.' A third-generation firefighter, Leigh Hosi-Pickett has seen it all in his twenty-five years in the job. He's battled infernos and pulled people from the wreckage of twisted metal. He's experienced pain and trauma in the discharge of his duty, and been supported by the laughter and strength of character you find within every fire station. A family away from home, firefighters share intimate trust and healthy mutual banter - a spark of light often desperately needed amongst the darkness. Leigh shares his deeply personal story and the funniest, most eye-opening and moving experiences from a life lived amongst the smoke. A celebration of the everyday heroism of our Fire Service, *Up In Smoke* is a clear-eyed and honest record of the many sacrifices made for us all in the line of duty. 'A real insight into the commitment of our firefighters' Nick Knowles 'Highly inspiring and impossible to put down' Nazir Afzal OBE

Life on the Grocery Line

Blood, Bones, & Butter meets *A Devil in the Kitchen* in this funny, fierce, and poignant memoir by world-renowned chef, restaurateur, and *Top Chef* judge Barbara Lynch, recounting her rise from a hard-knocks South Boston childhood to culinary stardom.

Up In Smoke - Stories From a Life on Fire

The sacred Flower of Life pattern, the primary geometric generator of all physical form, is explored in even more depth in this volume, the second half of the famed Flower of Life workshop. The proportions of the human body, the nuances of human consciousness, the sizes and distances of the stars, planets and moons, even the creations of humankind, are all shown to reflect their origins in this beautiful and divine image. Through an intricate and detailed geometrical mapping, Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third-dimensional existence. From the pyramids and mysteries of Egypt to the new race of Indigo children, Drunvalo presents the sacred geometries of the Reality and the subtle energies that shape our world. We are led through a divinely inspired labyrinth of science and stories, logic and coincidence, on a path of remembering where we come from and the wonder and magic of who we are. Finally, for the first time in print, Drunvalo shares the instructions for the Mer-Ka-Ba meditation, step-by-step techniques for the re-creation of the energy field of the evolved human, which is the key to ascension and the next dimensional world. If done from love, this ancient process of breathing prana opens up for us a world of tantalizing possibility in this dimension, from protective powers to the healing of oneself, of others and even of the planet. Embrace the expanded vision and understanding that Drunvalo offers

to the world. Coincidences abound, miracles flourish and the amazing stories of mysteries unveiled arise as the author probes the Ancient Secrets of the Flower of Life.

Out of Line

This revealing, introspective look at an athlete's intense drive to succeed in football also explores the adjustment to life after the final whistle. John "Hog" Hannah was a two-time All-American for the Crimson Tide under Bear Bryant. Hannah starred for the Patriots from 1973 to 1985 and was one of the most beloved New England Patriots players of all time. In his autobiography, the greatest offensive lineman in the history of the sport candidly discusses the price of dominating the trenches. Hannah also recounts his battles on the field against the Raiders and Dolphins and off the field with Patriots management. An introspective man who found religion later in life, Hannah describes the forces that shaped his drive to succeed and his addiction to control anything that threatened to separate him from perpetuating the "glory of greatness." Reflecting on how this mind-set proved detrimental beyond his playing days—leading to the breakup of his first marriage, his estrangement from his children, and an egomaniacal approach in the business world, he shares how he ultimately found God. *Offensive Conduct* is both an inside look at the world of college and pro football in the 1970s and 1980s and a chronicle of the ups and downs of a driven, successful athlete.

The Ancient Secret of the Flower of Life, Volume 2

In *Crossing the Line*, former BBC journalist and best-selling author Martin Dillon recalls his courageous journalistic career spent 'on the edge' during the worst years of the modern Troubles. Following his childhood on Belfast's Falls Road and his wandering teenage years, Dillon's move into the world of journalism was soon to lead him down paths of extreme danger, putting himself in harm's way to reveal the shocking truths of the emerging conflict in his native city. His extraordinary story reveals encounters with a roll-call of major political figures, paramilitaries, and Irish literary greats. Dillon's memoir is as compelling as it is incisive; a riot of revelations on the political and sectarian conflict that rocked Belfast during the 1970s and '80s. Dillon's aptitude and ambition gave him unparalleled access to the worlds of politics, sectarian violence, literature and media – *Crossing the Line* exposes the complex and oftentimes devastating thread that joins them.
