The Lazy Genius Way

NEW YORK TIMES BESTSELLER • Being a Lazy Genius isn't about doing more or doing less. It's about doing what matters to you. “I could not be more excited about this book.”—Jenna Fischer, actor and cohost of the Office Ladies podcast The chorus of “shoulds” is loud. You should enjoy the moment, dream big, have it all, get up before the sun, track your water consumption, go on date nights, and be the best. Or maybe you should ignore what people think, live on dry shampoo, be a negligent PTA mom, have a dirty house, and claim your hot mess like a badge of honor. It's so easy to feel overwhelmed by the mixed messages of what it means to live well. Kendra Adachi, the creator of the Lazy Genius movement, invites you to live well by your own definition and equips you to be a genius about what matters and lazy about what doesn't. Everything from your morning routine to napping without guilt falls into place with Kendra's thirteen Lazy Genius principles, including: • Decide once • Start small • Ask the Magic Question • Go in the right order • Schedule rest Discover a better way to approach your relationships, work, and piles of mail. In this groundbreaking how-to book, style expert George Brescia shows you how to transform yourself from the inside out. Change Your Clothes, Change Your Life reveals the true power your clothing has to affect your life, showing how this second skin impacts your job prospects, your romantic life, your income, and even your deepest sense of self. Translating his styling methods into a philosophy anyone can apply on her own, Brescia also delivers tips and tricks of the trade to help convert even the most hapless dresser into a happy and educated shopper. Because the goal is to have you not only looking great, but feeling more confident, too. From major closet overhauls to a whole new philosophy on color, this is a comprehensive manual for anyone who's ever looked at her closet in despair. Colour Me Beautiful

The aim of the study was to enlighten the knowledge of color and its application in selection of clothes. Any color in a dress looks nice if it is appropriate to the wearer's skin tone and it looks becoming. The colors should be right for day wear and evening wear. This particular book will be presenting findings of both Day and Evening Wear. Color is one of the most important elements in Fashion. Fashion is color; color is fashion, giving feeling and emotion to every changing trend and is an essential part of our everyday life. Color is perhaps the first element that we register when we view something for the first time. Color is usually first to attract us to clothing. Color selection in clothes is very personal and each of us has a color or colors in which we think we look best. It was observed by the researcher through the pilot study that the age group between 20 to 30 years in women is very crucial, they have their own wardrobe demands, their choices in color selection are random and based on trends and mostly on others opinion. They need color guidance for day wear and evening wear. However, this reference is applicable to women above 30 years of age as well. Hence, under the study, 'A STUDY OF COLOR SELECTION FOR CLOTHING AS PER SKIN- TONE'(Reference of Skin-Tones taken from Donna Fujji's Skin Tone palette of 10 Warm and 10 Cool skin colors).I have tried to give proper color palette for each of the seven identified skin tone from the sample size of 500 women with a vocabulary of 101 colors (Reference taken from Jean Allen's 29 basic and 101 Color Vocabulary) which were matched with Pantone Shade Cards and same were dyed in cotton and silk fabrics for this study by the Researcher. 22 One of the main objectives of this research is to address misconceptions that women have regarding skin tones and suitable colors for clothing for day wear and evening wear and provide an opportunity of enhancement of self-image. Since the study is based on skin tones of the women, firstly each of the 500 women's skin tone was identified with skin tone scale and with the data analysis seven skin tones were identified on the majority ratio. Here the Hair color and color of eyes being constant as black brown. The second aspect was the vocabulary of color; it was matched with Pantone Shade Cards then dyeing them in exact shade in cotton and silk fabrics. This book hopes to provide suggestions, information and an opportunity to every woman in India to enhance self-image, look beautiful and attractive in the colors she wears
