From the New York Times bestselling author of *The Unhoneymooners* and the “delectable, moving” (*Entertainment Weekly*) *My Favorite Half-Night Stand* comes a modern love story about what happens when your first love reenters your life when you least expect it... Sam Brandis was Tate Jones’s first: Her first love. Her first everything. Including her first heartbreak. During a whirlwind two-week vacation abroad, Sam and Tate fell for each other in only the way that first loves do: sharing all of their hopes, dreams, and deepest secrets along the way. Sam was the first, and only, person that Tate—the long-lost daughter of one of the world’s biggest film stars—ever revealed her identity to. So when it became clear her trust was misplaced, her world shattered for good. Fourteen years later, Tate, now an up-and-coming actress, only thinks about her first love every once in a blue moon. When she steps onto the set of her first big break, he’s the last person she expects to see. Yet here Sam is, the same charming, confident man she knew, but even more alluring than she remembered. Forced to confront the man who betrayed her, Tate must ask herself if it’s possible to do the wrong thing for the right reason... and whether “once in a lifetime” can come around twice. With Christina Lauren’s signature “beautifully written and remarkably compelling” (Sarah J. Maas, New York Times bestselling author) prose and perfect for fans of Emily Giffin and Jennifer Weiner, *Twice in a Blue Moon* is an unforgettable and moving novel of young love and second chances.

### Dead Man Series Collection 1: Dead Man Mysteries Books 1, 2 and 3

Vast legions of gods, mages, humans, dragons and all manner of creatures play out the fate of the Malazan Empire in this first book in a major epic fantasy series from Steven Erikson. The Malazan Empire simmers with discontent, bled dry by interminable warfare, bitter infighting and bloody confrontations with the formidable Anomander Rake and his Tiste Andii, ancient and implacable sorcerers. Even the imperial legions, long inured to the bloodshed, yearn for some respite. Yet Empress Laseen's rule remains absolute, enforced by her dread Claw assassins. For Sergeant Whiskeyjack and his squad of Bridgeburners, and for Tattersail, surviving cadre mage of the Second Legion, the aftermath of the siege of Pale should have been a time to mourn the many dead. But Darujhistan, last of the Free Cities of Genabackis, yet holds out. It is to this ancient citadel that Laseen turns her predatory gaze. However, it would appear that the Empire is not alone in this great game. Sinister, shadowbound forces are gathering as the gods themselves prepare to play their hand... Conceived and written on a panoramic scale, *Gardens of the Moon* is epic fantasy of the highest order--an enthralling adventure by an outstanding new voice. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

### The Blue Moon

### The Blue Moon

The year is 1862. Prospectors swarm over the Sierra Nevada, hunting for gold, desperadoes roam the range, and the Indians are on the warpath. Dr. Henry Lockhart is so busy setting broken bones that he hasn't any time for women. Just as well. There's hardly a woman worth thinking about in the entire Nevada Territory. Then Erica James appears out of nowhere. Erica is different. She wears running shoes, totes around a contraption she calls a 'video camera,' and says she's from the future. From 1989, to be exact.

### RAFFERTY & LLEWELLYN SERIES BOXED SETS BOOKS 1-4

**WATERSPELL:** The Complete Series Making a place for yourself in a world where you don't belong takes courage. So does moving in with a warlock. Especially one who is a cauldron of seething anger on his worst days ... half mad on his best ... who is thinking, perhaps, of killing you. And you can almost understand why he would do it. But you'll fight to stay alive. Because maybe ... just maybe ... you've found the place where you belong: On his world, in his magic, saving the warlock from himself. **WATERSPELL:** The Complete Series (all four books) tells the story of the lost traveler, Carin, who is drawn into the schemes of a hot-tempered, emotionally damaged wizard. Does he view her as nothing more than an expendable weapon in his fight to save his world from lethal alien plagues? Or will Lord Verek find himself wavering, when it comes time to dispose of his fiery water-sylph? Praise for the Books of Waterspell: "An impressively immersive quality in Deborah J. Lightfoot's writing draws you in and keeps you there as the pages turn ... engaging the enduring interest and sympathy of the reader as they follow the twists and turns of the plot. Lightfoot creates a detailed and convincing world in which to set her story." —Martin Dukes "First off there's the writing itself, the quality of the prose, the effortless way that Lightfoot sets the stage and calls the shots, with none of the ponderous, overblown verbiage that weighs down so much high fantasy. Then there are the characters, each determined to leap off the page. But what most sets this book apart is its wild premise, an inspired bit of imagination." —Brian T. Marshall "An extremely well written fantasy story ... flows well with a very readable style that holds your interest throughout. The world building is solid and intriguing, the magical aspects well drawn

and versatile and characterisation is energetic so that you are immediately invested in their future. All in all a marvellous addition to the fantasy genre and I would recommend it for lovers of magical mystical tales.” —Liz Wilkins “Waterspell blew my expectations out of the ballpark. What a brilliant and unforgettable story! I devoured it ... literally consumed by the originality and depth Deborah brings to her characters. She provides a strong balance between action, adventure, fantasy, and romance and Carin's combination of pride and vulnerability make her a fabulous character! Quite frankly, I am just astounded by the emotions this book stirred in me. It is simply extraordinary.” —Lady Vigilante “If you like epic fantasy that sweeps you to amazing, immersive worlds and while following intriguing characters, be sure to add this series to your to-read list.” —Once Upon a YA Book “The story just keeps getting bigger and bigger.” —Book Briefs Book 1: The Warlock Book 2: The Wysard Book 3: The Wisewoman Book 4: The Witch

I could not put this book down and have told all of my friends to get a copy to read. I can't wait for the rest of the series!!! It was a fun refreshing take on magic and creatures. The characters are so captivating. I am glad to see a magic related series that is more female based and has more of the "Supernatural" feel to it. - L. Coffing Added to my collection of urban fantasy beautifully written – Tevin I've read other things by this author, but this one stands head and shoulders above the others! Fast paced, fascinating characters, twists and turns, loved it all and am so happy I could dive right into the second. Keep them coming - don't want to go into withdrawals! – Tami Cowles This is a well-structured and exciting tale, with a magical system that any Fantasy lover would die for. This inspiring first novel shows a promising start to a series and kept a firm grasp on my attention throughout. Trials of Magic makes for an addictive read. Many times, I even found myself shouting at the characters, praying either for their safety or for them to succeed in their endeavors. A true work of fiction with great artistic flair. There is a lot of heart embedded within these pages. Trials of magic is a five-star read and a real credit to Mr. Thomas Carpenter. – Dax Munro TRA I've always enjoyed coming-of-age novels and this one is fantastic. Designed to inspire the fledgling scriptwriter, this book combines analytical essays on the work of three successful television writers with interviews and complete scripts printed in correct professional format. The writers Marion Hargrove (Maverick, The Waltons), Joseph Dougherty (thirtysomething), and Michael Kozoll (Hill Street Blues) are used as examples of professionals who developed a personal voice and a distinctive style while serving as staff writers for existing prime-time television programs. Douglas Heil theorizes that students of television scriptwriting need to engage in "close study of exemplary," and the three full scripts he offers are useful models of humane and entertaining drama. The book is of value not only to aspiring scriptwriters but also to those readers with a general interest in media history.

### Blood Moon

The history of the world has been changed by evil more often than by good. This time courage alone nor hot lead alone nor cold steel alone can fix the problem. All of the threads of the recent past have now been pulled together, but to what end? Once again, the world is about to change and nothing can stop it. The question now is, can John Thomas Rourke guide his family toward their own survival and into yet another new world?

### The Dominion War: Book 3

He didn't start this fight, but he's going to end it. Former Marine and professional assassin Reed Montgomery is facing the fallout of total betrayal. The shadowy organization he used to work for murdered one of his dearest friends, framed him for the homicide of a Georgia lawmaker, and destroyed the trust of the woman he loves. Reed is now torn between a fight to rebuild that trust and a burning desire for vengeance. Every move feels like a step through a dark hallway littered with deathtraps. He doesn't know who he's fighting, he still doesn't understand why he was framed, and for each answered question, two more are born. As Reed traces the truth through a maze of lies, deceit, and decades-old secrets, he begins to understand that there are far greater forces at work than the criminals who wrote his paychecks. The real story behind Reed's disastrous life began before he was born, and it strikes much closer to home than he could have ever imagined. The only way forward is total war. In this gritty third installment of the Reed Montgomery Series, Logan Ryles keeps the punches flying as Reed embraces a fight to understand his past. The break-neck action that made you love Overwatch and Hunt to Kill is escalated to a new level, making Total War an adventure you don't want to miss!

### The Helwinter Gate

The roots of Japan's aggressive, expansionist foreign policy have often been traced to its concern over acute economic vulnerability. Michael A. Barnhart tests this assumption by examining the events leading up to World War II in the context of Japan's quest for economic security, drawing on a wide array of Japanese and American sources. Barnhart focuses on the critical years from 1938 to 1941 as he investigates the development of Japan's drive for national economic self-sufficiency and independence and the way in which this drive shaped its internal and external policies. He also explores American economic pressure on Tokyo and assesses its impact on Japan's foreign policy and domestic economy. He concludes that Japan's internal political dynamics, especially the bitter rivalry between its army and navy, played a far greater role in propelling the nation into war with the United States than did its economic condition or even pressure from Washington. *Japan Prepares for Total War* sheds new light on prewar Japan and confirms the opinions of those in Washington who advocated economic pressure against Japan.

### Tunnel Through the Stars

*On War* is a treatise about a military art which Prussian officer Carl Philipp Gottlieb von Clausewitz had been working on for 15 years. It is commonly believed that Clausewitz's treatise had a greater impact on military leaders of the late XIX and XX centuries than any other book. In reality, this book is an overturn in the war theory. The work is notable for its brightness, narration details as well as hard criticism of many war events. The author dedicates a special place in his work to politics, its influence on the war events, the dependence how the war finishes on powers and weaknesses of particular politicians and military leaders. There is a good reason why his famous phrase "the war is the continuation of the politics, but with other, strong arm methods" is still relevant.

### On War

Patterson explores how modern men and women respond to the threat of new warfare with new capacities for imagining aggression and death. This is an unflinching history of the locationless terror that so many people feel today.

### Horsemen's War

Bernard Cornwell's epic story of the making of England continues in this eleventh installment in the bestselling Saxon Tales series—"like Game of Thrones, but real" (The Observer)—the basis of the hit Netflix television series The Last Kingdom. His blood is Saxon His heart is Viking His battleground is England "Perhaps the greatest writer of historical adventure novels today" (Washington Post), Bernard Cornwell has dazzled and entertained readers and critics with his page-turning bestsellers. Of all his protagonists, however, none is as beloved as Uhtred of Bebbanburg. And while Uhtred might have regained his family's fortress, it seems that a peaceful life is not to be – as he is under threat from both an old enemy and a new foe. The old enemy comes from Wessex where a dynastic struggle will determine who will be the next king. And the new foe is Sköll, a Norseman, whose ambition is to be King of Northumbria and who leads a frightening army of wolf-warriors, men who fight half-crazed in the belief that they are indeed wolves. Uhtred, believing he is cursed, must fend off one enemy while he tries to destroy the other. In this new chapter of the Saxon Tales series—a rousing adventure of courage, treachery, duty, devotion, majesty, love and battle, as seen through the eyes of a warrior straddling two worlds—Uhtred returns to fight once again for the destiny of England.

### War of the Wolf

In February 1943, German forces surrendered to the Red Army at Stalingrad and the tide of war turned. By May 1945 Soviet soldiers had stormed Berlin and brought down Hitler's regime. Total War follows the fortunes of these fighters as they liberated Russia and the Ukraine from the Nazi invader and fought their way into the heart of the Reich. It reveals the horrors they experienced - the Holocaust, genocide and the mass murder of Soviet POWs - and shows the Red Army, brutalized by war, taking its terrible revenge on the German civilian population. For the first time Russian veterans are candid about the terrible atrocities their own army committed. But they also describe their struggle to raise themselves from the abyss of hatred. Their war against the Nazis - which in large part brought the Second World War in Europe to an end - is a tarnished but deeply moving story of sacrifice and redemption.

### The Shattered Sea Series 3-Book Bundle

Warfare in the first half of the 20th century was fundamentally and irrevocably altered by the birth and subsequent development of air power. This work assesses the role of air power in changing the face of battle on land and sea. Utilizing late-1990s research, the author demonstrates that the phenomenon of air power was both a cause and a crucial accelerating factor contributing to the theory and practice of total war. For instance, the expansion of warfare to the homefront was a direct result of bombing and indirectly due to the extent of national economic mobilization required to support first rate air power status. In addition, the move away from the principle of total war with the onset of the Cold War and the replacement of air power by ICBMs is thoroughly examined. This work should provide students of international history, war studies, defence and strategic studies with an insight into 20th-century warfare.

### The Martian Chronicles

This book outlines the lives and achievements of one hundred entertainers and athletes, mostly Americans, who served their nations well, both in times of war and in times of peace. It spans the period from the Spanish American War, 1898, up to 2020, but concentrates most heavily on World War II. The book was initiated in response to an apparent difference noted between the reactions of entertainers and athletes to the events of September 11, 2001, and those following the attack on Pearl Harbor on December 7, 1941. It began as an effort to understand who those earlier people were, what they did, and why; to identify the one hundred who did the most during World War II; and to rank them in accordance with their achievements. This proved to be an impossible task since there was no way to identify the one hundred, and there was no common basis for comparison: some were truly heroic, some were wounded and some killed, while others simply served to the best of their abilities. The best that could be done was to categorize the men and women selected and subjectively rank them with their peers. Over time, this effort expanded to be more inclusive: touching lightly upon the Spanish

American War, World War I, the Korean War, Vietnam, the war on terror, and upon more recent events. Some of those presented herein served before becoming famous, some after; some volunteered and some were drafted, while others served as civilians in their chosen fields. Two became presidents of the United States. Three won the Congressional Medal of Honor. Aside from their service, however, these were truly remarkable men and women whose stories deserve to be told if for no other reason than to give us a glimpse into the kinds of people who made the United States the greatest nation in the history of the world.

## Empire

Imperialism as we knew it may be no more, but Empire is alive and well. It is, as Michael Hardt and Antonio Negri demonstrate in this bold work, the new political order of globalization. Their book shows how this emerging Empire is fundamentally different from the imperialism of European dominance and capitalist expansion in previous eras. Rather, today's Empire draws on elements of U.S. constitutionalism, with its tradition of hybrid identities and expanding frontiers. More than analysis, Empire is also an unabashedly utopian work of political philosophy.

## Heterotopia and the City

Heterotopia, literally meaning 'other place', is a rich concept in urban design that describes a space that is on the margins of ordered or civil society, and one that possesses multiple, fragmented or even incompatible meanings. The term has had an impact on architectural and urban theory since it was coined by Foucault in the late 1960s but it has remained a source of confusion and debate since. Heterotopia and the City seeks to clarify this concept and investigates the heterotopias which exist throughout our contemporary world: in museums, theme parks, malls, holiday resorts, gated communities, wellness hotels and festival markets. With theoretical contributions on the concept of heterotopia, including a new translation of Foucault's influential 1967 text, *Of Other Space* and essays by well-known scholars, the book comprises a series of critical case studies, from Beaubourg to Bilbao, which probe a range of (post)urban transformations and which redirect the debate on the privatization of public space. Wastelands and terrains vagues are studied in detail in a section on urban activism and transgression and the reader gets a glimpse of the extremes of our dualized, postcivil condition through case studies on Jakarta, Dubai, and Kinshasa. Heterotopia and the City provides a collective effort to reposition heterotopia as a crucial concept for contemporary urban theory. The book will be of interest to all those wishing to understand the city in the emerging postcivil society and post-historical era. Planners, architects, cultural theorists, urbanists and academics will find this a valuable contribution to current critical argument.

First comes the red rain: a strange, scarlet downpour from a cloudless sky that spreads across cities, nations, and the entire globe. In a matter of panicked hours, every living thing on earth succumbs to swift, bloody death. With only wits, weapons, and a bicycle, Emily must undertake a grueling journey

## Sanctuary

"The exciting conclusion to the two-part Nomad series." A new world arises from the ashes of the old... But the fight for survival has only begun. In the Day of the Nomad, oceans flooded the continents, the earth split open and poured darkness into the skies. A mass extinction event as the Earth hadn't witnessed in more than two hundred and fifty million years, the planet flung into a radical new orbit around the Sun. Jessica Rollins survived, hidden away in a mountaintop in Italy, and has made radio contact with other survivor groups scattered around the wrecked globe--but the destruction is only just beginning. The key to humanity's survival may lie in a backpack she recovered from her father, in the data he collected more than thirty years before as Harvard's preeminent astrophysicist. Information he died trying to protect. His final words to her circle around and around in her head..."survive, no matter what." But at what cost? And what is...Sanctuary?

## Emotion, Place and Culture

Recent years have witnessed a rapid rise in engagement with emotion and affect across a broad range of disciplines in the humanities and social sciences, with geographers among others making a significant contribution by examining the emotional intersections between people and places. The book is divided into five sections covering the themes of remembering, understanding, mourning, belonging, and enchanting.

## The End of Nature

One of the earliest warnings about climate change and one of environmentalism's lodestars 'Nature, we believe, takes forever. It moves with infinite slowness,' begins the first book to bring climate change to public attention. Interweaving lyrical observations from his life in the Adirondack Mountains with insights from the emerging science, Bill McKibben sets out the central developments not only of the environmental crisis now facing us but also the terms of our response, from policy to the fundamental, philosophical shift in our relationship with the natural world which, he argues, could save us. A moving elegy to nature in its pristine, pre-human wildness, *The End of Nature* is both a milestone in environmental thought, indispensable to understanding how we arrived here.

## Corpus

How have we thought "the body"? How can we think it anew? The body of mortal creatures, the body politic, the body of letters and of laws, the "mystical body of Christ"—all these (and others) are incorporated in the word *Corpus*, the title and topic of Jean-Luc Nancy's masterwork. *Corpus* is a work of literary force at once phenomenological, sociological, theological, and philosophical in its multiple orientations and approaches. In thirty-six brief sections, Nancy offers us at once an encyclopedia and a polemical program—reviewing classical takes on the "corpus" from Plato, Aristotle, and Saint Paul to Descartes, Hegel, Husserl, and Freud, while demonstrating that the mutations (technological, biological, and political) of our own culture have given rise to the need for a new understanding of the body. He not only tells the story of this cultural change but also explores the promise and responsibilities that such a new understanding entails. The long-awaited English translation is a bold, bravura rendering. To the title essay are added five closely related recent pieces—including a commentary by Antonia Birnbaum—dedicated in large part to the legacy of the "mind-body problem" formulated by Descartes and the challenge it poses to rethinking the ancient problems of the corpus. The last and most poignant of these essays is "The Intruder," Nancy's philosophical meditation on his heart transplant. The book also serves as the opening move in Nancy's larger project called "The deconstruction of Christianity."

## The Settlers

"Jason Gurley will be a household name one day." – Hugh Howey Book 1 of The Movement Trilogy  
Earth is on the brink of ruin. Great storms destroy cities. Rising seas reshape the continents. Afraid for its survival, mankind constructs a fleet of space stations in orbit, and steps off-world. Among the humans fighting for their future are Micah Sparrow, a widower who uncovers a plot to return mankind to the dark ages; Tasneem Kyoh, who undergoes life-extension treatments and begins the search for humanity's next home; and David Dewbury, a prodigy who believes he knows where that home might be. But in space, the rules aren't the only things that have changed. Man himself has changed, and with the Earth in tatters behind him, man turns his attention to the one thing left to destroy: himself. The Settlers is the explosive first book in Jason Gurley's Movement Trilogy, the epic story of man's small step into space, and the great leaps humanity must make to save its own future.

## The Man Who Ended the World

When Steven Glass's third grade teacher asked his class what they wanted to be when they grew up, Steven's classmates shouted the usual answers: "A fireman!" "A teacher!" "The President!" When his turn came, Steven said, "When I grow up I'm going to be the last man on Earth." Warning signs don't come much clearer than that.

## Muddy Matterhorn

From an aging body's slow disintegration to the deconstruction of the alphabet, McHugh's expansive collection challenges our roles within society.

## The Essay Film After Fact and Fiction

Nora M. Alter reveals the essay film to be a hybrid genre that fuses the categories of feature, art, and documentary film. Like its literary predecessor, the essay film draws on a variety of forms and approaches; in the process, it fundamentally alters the shape of cinema. The Essay Film After Fact and Fiction locates the genre's origins in early silent cinema and follows its transformation with the advent of sound, its legitimation in the postwar period, and its multifaceted development at the turn of the millennium. In addition to exploring the broader history of the essay film, Alter addresses the innovative ways contemporary artists such as Martha Rosler, Isaac Julien, Harun Farocki, John Akomfrah, and Hito Steyerl have taken up the essay film in their work.

## Rethinking Technologies

Grounded on the assumption that the relationship between the arts and the sciences is dictated by technology, the essays in Rethinking Technologies explore trends in contemporary thought that have been changing our awareness of science, technology, and the arts.

## Sinner

An Entertainment Weekly Top 10 Romance of 2018! I'm not a good man, and I've never pretended to be. I don't believe in goodness or God or any happy ending that isn't paid for in advance. In fact, I've got my own personal holy trinity: in the name of money, sex, and Macallan 18, amen. So when the gorgeous, brilliant Zenny Iverson asks me to teach her about sex, I want to say yes, I really do. Unfortunately, there are several reasons to say no--reasons that even a very bad man like myself can't ignore. 1. She's my best friend's little sister. 2. She's too young for me. Like way too young. 3. She's a nun. Or about to be anyway. But I want her. I want her even with my best friend and God in the way, I want to teach her and touch her and love her, and I know that makes me something much worse than a very bad man. It makes me a sinner. And it's those very sins that are about to save me... \*\*\*Sinner is a standalone companion to Priest about Father Bell's brother Sean. You do not have to read Priest or Midnight Mass to read Sinner\*\*\*

## Contemporary Ukraine on the Cultural Map of Europe

The concept of a 'return to Europe' has been integral to the movement for Ukrainian national rebirth since the nineteenth century. While the goal of a more fully reformed politics remains elusive, numerous expressions of Ukrainian culture continue to develop in the European spirit. This wide-ranging book explores Ukraine's European cultural connection, especially as it has been reestablished since the country achieved independence in 1991. The contributors discuss many aspects of Ukraine's contemporary culture - history, politics, and religion in Part I; literary culture in Part II; and language, popular culture, and the arts in Part III. What emerges is a fascinating picture of a young country grappling with its divided past and its colonial heritage, yet asserting its voice and preferences amid the diverse and at times conflicting realities of the contemporary political scene. Europe becomes a powerful point of reference, a measure against which the situation in post-independence Ukraine is gauged and debated. This framework allows for a better understanding of the complexities deeply ingrained in the social fabric of Ukrainian society.

## Figures of Dissent

How can the relation between cinema and politics be thought today? This question was the starting point for 'Figures of Dissent', a project consisting of an extensive series of discussions, dialogues and screenings that were organized by Debysere over the course of four years. Some of the thoughts and doubts that have been simmering as a result of these encounters were expressed in the form of letters. This manuscript assembles six of those letters, addressed to fellow filmmakers, artists, producers and theorists. They are six tentative forms of study that blend various impressions, associations and digressions in an attempt to make sense of this conundrum that has been haunting the past century: how does the art of moving shadows pertain to the realities of political struggle?

## The Lacanian Review 6

The Lacanian Review (TLR) is a semiannual English-language journal of psychoanalysis, with bilingual (French - English) presentations of texts by Jacques Lacan and Jacques-Alain Miller. TLR publishes writing from prominent international figures of the Lacanian Orientation, featuring new theoretical developments in psychoanalysis, testimonies of the pass, dialogues with other discourses, and articles on contemporary culture, politics, art and science. Each issue explores a theme intersecting the symptoms of our era and emerging work in the New Lacanian School (NLS) and the World Association of Psychoanalysis (WAP). In issue 6 of The Lacanian Review (TLR), there is not a moment to lose. The acceleration of culture and the vertiginous pressure of the drive seem to collapse the instant to see, the time to understand and the moment to conclude. The urgent subject of the now cannot catch up to rapid cycles of political upheaval and social media streams turned into torrents of data. Production overflows consumption in a tidal wave of imaginary cacophony. How does psychoanalysis today respond to urgent times? For its 6th issue, The Lacanian Review (TLR) tasks the signifier, Urgent!, to orient the work of the New Lacanian School (NLS) in examining the urgent cases that occupy our clinic in preparation for the 2019 NLS Congress in Tel Aviv: ¡URGENT! Tracing the edge of the latest Lacan, Bernard Seynhaeve (President of the NLS) curated a series of newly established texts by Jacques Lacan and Jacques-Alain Miller, translated by Russell Grigg, appearing in the first ever bilingual featured section of TLR. Four lessons from the seminars of Jacques-Alain Miller frame this issue. TLR 6 draws heavily from the work of the current Analysts of the School to explore four new fundamental concepts of psychoanalysis: Pass, Real Unconscious, Urgent Cases, and Satisfaction. Interviews with Angelina Harari (President of the WAP), Ricardo Seldes (Director of Pausa), and Lee Edelman (Professor of English Literature at Tufts University) elaborate fundamental concepts across the work of the School One, the clinic of applied analysis, and literary theory in dialogue with psychoanalysis. A groundbreaking orientation text by Éric Laurent from the 2018 Congress of the World Association of Psychoanalysis (WAP) will be published for the first time in English, along with clinical cases exploring transference and psychosis. And finally, approaching the problem of temporality in psychoanalysis, this issue spans Freudian time-management to the logic of the cut in the Lacanian Orientation. TLR is published by the New Lacanian School ([amp-nls.org](http://amp-nls.org)) and distributed by the Lacanian Compass Bookshop ([lacaniancompass.com](http://lacaniancompass.com)) and Eurl Huysmans ([ecf-echoppe.com](http://ecf-echoppe.com)).

## Unpopular Culture

This collection includes eighteen essays that introduce the concept of unpopular culture and explore its critical possibilities and ramifications from a large variety of perspectives. Proposing a third term that operates beyond the dichotomy of high culture and mass culture and yet offers a fresh approach to both, these essays address a multitude of different topics that can all be classified as unpopular culture. From David Foster Wallace and Ernest Hemingway to Zane Grey and fan fiction, from Christian Rock and Country to Black Metal, from Steven Seagal to Genesis (Breyer) P-Orridge, from The Simpsons to The Real Housewives, from natural disasters to 9/11, from thesis hatements to professional sports, these essays find the unpopular across media and genres, and they analyze the politics and the aesthetics of an unpopular culture (and the unpopular in culture) that has not been duly recognized as such by the theories and methods of cultural studies.

### The Materiality of Magic

In the last two decades we have had many books and proceedings of conferences on the history, formulas and incantations of magic in antiquity, both in East and West, but this is the first book of its kind that focuses on the material aspects of magic, such as gems, rings, drawings, grimoires, amulets and figurines. In recent years scholars have focused not only on the discourse and practices of magic in antiquity, but also on its practitioners, literary stereotypes and historical shifts. Much less attention, however, has been paid to the material that was used by the magicians for their curses and incantations. Yet there is no magic without materiality. The practice of magic required a specialist expertise that knew how to handle material such as lead, gold, stones, papyrus, figurines or voodoo dolls. That is why we present new insights on the materiality of magic by studying both the materials used for magic as well as the books in which the expertise was preserved.--Publisher.

From time immemorial, travel has been a pursuit of passion, from adventurers of old seeking gold or new lands, to today's spiritual and pleasure seekers who follow in the footsteps of Elizabeth Gilbert. Some see travel as a form of light-hearted escapism while others believe it has the power to open your mind, forcing you to confront your demons, and discover your true self. The author belongs to this second category of traveler. His memoir follows his excursions to Patagonia, the Amazon, Costa Rica, Baltimore, Vienna, Kilimanjaro, Dublin, and beyond. He uses his wanderlust to examine his motives

and desires, and explore his ambivalence about commitment. He ponders his personal life, his acting career, and his impulse to leave home, all building toward one of the most significant moments of his life: his wedding day. His message about the transformative power of travel is universal, and his exploration of the nature and passion of relationships, both fleeting and enduring, strikes a chord with every man and woman who has ever wondered at the vicissitudes of the human heart.

Andrew Ranulf Blankenship is a stylish nonconformist with wry wit, a classic Mustang, and a massive library. He's also a recovering alcoholic and a practicing warlock. Andrew has long known that magic is a brutal game requiring blood sacrifice and a willingness to confront death, but years of peace and comfort have left him more concerned with maintaining false youth than with seeing to his own defense.
