Children of Earth and Sky

Guy Gavriel Kay, bestselling author of the groundbreaking novels *Under Heaven* and *River of Stars*, once again visits a world that evokes one that existed in our own past, this time the tumultuous period of Renaissance Europe - a world on the verge of war, where ordinary lives play out in the grand scheme of kingdoms colliding. From the small coastal town of Senjan, notorious for its pirates, a young woman sets out to find vengeance for her lost family. That same spring, from the wealthy city-state of Seressa, famous for its canals and lagoon, come two very different people: a young artist traveling to the dangerous east to paint the Grand Khalif at his request - and possibly to do more - and a fiercely intelligent, angry woman, posing as a doctor's wife in her role of a spy. The trading ship that carries them is commanded by the clever younger son of a merchant family - with ambivalence about the life he's been born to live. And farther east a boy trains to become a soldier in the elite infantry of the khalif - to win glory in the war everyone knows is coming. As these lives entwine, their fates - and those of many others - will hang in the balance, when the khalif sends out his massive army to take the great fortress that is the gateway to the western world . . .

Children of the Earth and Sky

Depicts traditional lifestyles in five different tribes of North American Indians through vignettes set in a time almost two hundred years ago, when they still had much of the continent to themselves.

Black Sun

Includes "Book club favorites reader's guide.

Why the Sun and the Moon Live in the Sky

Sun and Moon must leave their earthly home after Sun invites the Sea to visit.

Earth & Sky

Seventeen-year-old Skylar has been haunted for as long as she can remember by fleeting yet powerful sensations that something is horribly wrong. But despite the visions of disaster that torment her, nothing ever happens, and Sky's beginning to think she's crazy. Then she meets a mysterious, otherworldly boy named Win and discovers the shocking truth her premonitions have tapped into: that our world no longer belongs to us. For thousands of years, life on Earth has been at the mercy of alien scientists who care nothing for humans and are using us as the unwitting subjects of their time-manipulating experiments. Win belongs to a rebel faction seeking to put a stop to it, and he needs Skylar's help to save the world and keep the very fabric of reality together. Megan Crewe's latest tale takes readers on a mind-bending journey through time with a cast of unforgettable characters.

Zion Earth Zen Sky

I am Japanese but was born and raised in rural central Utah. At first, my parents were afraid that our involvement with the Church would weaken our grounding in Japanese tradition. As it turned out, it only reinforced my interest in animism, Buddhism, and other aspects of Japanese culture. As a scholar of Japanese culture, I have discovered that Latter-day Saint culture and Mahayana Buddhist culture are similar in many ways, and that the paths to the building up of Zion, on the one hand, and to Zen enlightenment, on the other, are one and the same. The genius of both faith traditions lies in how they push the abstract ideas of salvation down into the world of material practice. Raking sand in a Zen garden reminds us that mortality is similarly a "high maintenance" situation, where constant service is required if we are to grasp our purpose here on earth.

Beyond the Sky and the Earth

In the tradition of *Iron and Silk* and *Touch the Dragon*, Jamie Zeppa's memoir of her years in Bhutan is the story of a young woman's self-discovery in a foreign land. It is also the exciting début of a new voice in travel writing. When she left for the Himalayan kingdom of Bhutan in 1988, Zeppa was committing herself to two years of teaching and a daunting new experience. A week on a Caribbean beach had been her only previous trip outside Canada; Bhutan was on the other side of the world, one of the most isolated countries in the world known as the last Shangri-La, where little had changed in centuries and visits by foreigners were restricted. Clinging to her bags full of chocolate, hair conditioner and Immodium, she began the biggest challenge of her life, with no idea she would fall in love with the country and with a Bhutanese man, end up spending nine years in Bhutan, and begin a literary career with her account of this transformative journey. At her first posting in a remote village of eastern Bhutan, she is plunged into an overwhelmingly different culture with squalid Third World conditions and an impossible language. Her house has rats and fleas and she refuses to eat the local food, fearing the rampant deadly infections her overly protective grandfather warned her about. Gradually, however, her fear vanishes. She adjusts, begins to laugh, and is captivated by the pristine mountain scenery and the kind students in her grade 2 class. She also begins to discover for herself the spiritual serenity of Buddhism. A transfer to the government college of Sherubtse, where the housing conditions are comparatively luxurious and the students closer to her own age, gives her a deeper awareness of Bhutan's challenges: the lack of personal privacy, the pressure to conform, and the political tensions. However, her connection to Bhutan intensifies when she falls in love with a student, Tshewang, and finds herself pregnant. After a brief sojourn in Canada to give birth to her son, Pema Dorji, she marries Tshewang and makes Bhutan her home for another four years. Zeppa's personal essay about her culture shock on arriving in Bhutan won the 1996 CBC/Saturday Night literary competition and appeared in the magazine. She flew home to accept the prize, where people encouraged her to pursue her writing. Her letters from Bhutan also featured on CBC's *Morningside*. The book that grew out of this has been published in Canada and the United States to ecstatic reviews, followed by British, German, Dutch, Italian and Spanish editions. Although cultural differences finally separated Jamie and Tshewang in 1997 while she was writing the book and she returned to Canada, she will always feel at home in Bhutan. Zeppa shares her compelling insights into this land and culture, but *Beyond the Sky and the Earth* is more than a travel book. With rich, spellbinding prose and bright humour, it describes a personal journey in which Zeppa acquires a deeper understanding of what it means to leave one's home behind, and undergoes a spiritual transformation.

Dreams of Earth and Sky

In this sequel to *The Scientist as Rebel* (2006), Freeman Dyson—whom *The Times* of London calls “one of the world’s most original minds”—celebrates openness to unconventional ideas and “the spirit of joyful dreaming” in which he believes that science should be pursued. Throughout these essays, which range from the creation of the Royal Society in the seventeenth century to the scientific inquiries of the Romantic generation to recent books by Daniel Kahneman and Malcolm Gladwell, he seeks to “break down the barriers that separate science from other sources of human wisdom.” Dyson discusses twentieth-century giants of physics such as Richard Feynman, J. Robert Oppenheimer, Paul Dirac, and Steven Weinberg, many of whom he knew personally, as well as Winston Churchill’s pursuit of nuclear weapons for Britain and Wernher von Braun’s pursuit of rockets for space travel. And he takes a provocative, often politically incorrect approach to some of today’s most controversial scientific issues: global warming, the current calculations of which he thinks are probably wrong; the future of biotechnology, which he expects to dominate our lives in the next half-century as the tools to design new living creatures become available to everyone; and the flood of information in the digital age. Dyson offers fresh perspectives on the history, the philosophy, and the practice of scientific inquiry—and even on the blunders, the wild guesses and wrong theories that are also part of our struggle to understand the wonders of the natural world.

Earth is My Mother, Sky is My Father

Explores the circularity of Navajo thought through studies of sandpaintings, chantway myths, and stories reflected in the constellations.

Orphans of the Sky

Ancient myths told of a place called Earth, but the modern world knew it was nonsense. Science knew the Ship was all the Universe, and as long as the sacred Converter was fed, lights would glow and air would flow through the miles of metal corridors. Hugh never questioned these truths until a despised mutie showed him the Control Room and he learned the true nature of the Ship and its mission.

Between Earth and Sky

With grace and drama, Abenaki poet and author Joseph Bruchac retells ten Native American legends of awe-inspiring landscapes. These wise stories, together with Thomas Locker's luminous paintings, evoke the sacred places above, below, and within us all. Copyright © Libri GmbH. All rights reserved.

Strangers From The Sky

The planets Earth and Vulcan experience a mysterious first contact in this fascinating *Star Trek* novel featuring the crew of the U.S.S. Enterprise. Years before the formal first contact between Earth and another planet's inhabitants, a Vulcan space vessel crash landed in the South Pacific, forcing humanity to decide whether to offer the hand of friendship, or the fist of war. Complicating matters is a second visitation: a group of people from two hundred years in the future, who serve on a starship called Enterprise. Discover the astonishing truth about this heretofore unknown first contact and the nightmares that plague Admiral James T. Kirk. Dreams of his dead comrades, of his earliest days aboard the U.S.S. Enterprise, and of a forgotten past in which he somehow changed the course of history and destroyed the Federation before it began.

Pi in the Sky

Joss is the seventh son of the Supreme Overlord of the Universe, and all he gets to do is deliver pies. That's right: pies. Of course these pies actually hold the secrets of the universe between their buttery crusts, but they're still pies. Joss comes from a family of overachievers, and is happy to let his older brothers shine. But when Earth suddenly disappears, Joss is tasked with the not-so-simple job of bringing it back. With the help of an outspoken girl from Earth named Annika, Joss embarks on the adventure of a lifetime and learns that the universe is an even stranger place than he'd imagined.

Fevered Star

"The great city of Tova is shattered. The sun is held within the smothering grip of the Crow God's eclipse, but a comet that marks the death of a ruler and heralds the rise of a new order is imminent. As sea captain Xiala is swept up in the chaos and currents of change, she finds an unexpected ally in the former Priest of Knives. For the Clan Matriarchs of Tova, tense alliances form as far-flung enemies

gather and the war in the heavens is reflected upon the earth. And for Serapio and Naranpa, both now living avatars, the struggle for free will and personhood in the face of destiny rages. How will Serapio stay human when he is steeped in prophecy and surrounded by those who desire only his power? Is there a future for Naranpa in a transformed Tova without her total destruction?"--

Why the Sky Is Far Away

This ancient African Pourquoi tale explains why people today must grow and harvest their own food.

Wizards

Jerrell Landish is a thief, clever, creative, and conniving to the extreme. His legendary exploits force him to use the name Jace just to remain inconspicuous. When he accepts a contract to acquire a secret, enchanted amulet, he discovers the item has already been stolen. To satisfy the leader of the Thieves' Guild, he must track down the amulet and complete the ultimate objective: Assassinate Wizard Lord Taladain, a man with the power of a god. Rhoa is an acrobat, diminutive, agile, and daring. Armed with the Eye of Obscurance, she sets out to accomplish the unthinkable. Haunted by a troubled past, she cannot escape a single, all-consuming desire. She would risk anything to see Lord Taladain dead. Taladain's daughter, Narine, is a princess who recently graduated as a master wizardess. However, her father and brother seek nothing but power - one would use her to strengthen his position, the other views her as a threat to his future. Can she navigate troubled waters with danger lurking at every turn? Eye of Obscurance is the first entry in Fate of Wizards, a fantasy epic filled with magic, adventure, and intrigue, perfect for fans of Robert Jordan, Brandon Sanderson, and Michael J. Sullivan.

The Ring of Sky

The Shogun has deemed that any Christian or foreigner now discovered outside the bounds of an official trading port will be instantly put to death. For Jack, Nagasaki is within reach, but the Shogun's samurai are closing in with the help of Jack's old school rival, Kazuki, who has a score to settle. Will Jack make it to the city alive?

Beyond the Sky: You and the Universe

So you want to go into space? WHY?! (No, really - it's sort of a terrible idea. We humans are perfectly designed for life on Earth. We can walk around, breathe, drink water, eat vegetables, read books, not get poisoned or crushed to death when we go outside - it's lovely right where we are.) Not convinced? GOOD! People have been dreaming about space travel for centuries - there's something amazing about the idea of leaving our planet behind and setting out to explore the Universe - there's so much we still don't know. UK and Ireland's best-loved comedian Dara "Briain takes you on a journey from the safety of your comfiest chair to the furthest reaches of space (and beyond!)

Eagle in the Sky

An action-packed story of love, duty and destiny, by global sensation Wilbur Smith. 'A master storyteller' - Sunday Times 'Wilbur Smith is one of those benchmarks against whom others are compared' - The Times 'No one does adventure quite like Smith' - Daily Mirror The higher you fly, the harder you fall . . . From a young age it's clear that David Morgan is a 'bird', a natural pilot, most at home in the air. His family want him to take over the family business, but David is determined to follow his destiny, and joins the South African Air Force, where he is commended for his skills. When he meets Debra, a beautiful young Israeli writer, David once again feels the pull of destiny. He joins the Israeli Defence Force and finds himself caught up in the country's struggles. But when the war separates him from Debra, David feels his two destinies pulling him apart. Can he become the man he always dreamed of being, without losing the woman he's fighting for?

Pebble in the Sky

One moment Joseph Schwartz is a happily retired tailor in Chicago, 1949. The next he's a helpless stranger on Earth during the heyday of the first Galactic Empire. Earth, as he soon learns, is a backwater, just a pebble in the sky, despised by all the other 200 million planets of the Empire because its people dare to claim it's the original home of man. And Earth is poor, with great areas of radioactivity ruining much of its soil--so poor that everyone is sentenced to death at the age of sixty. Joseph Schwartz is sixty-two. This is young Isaac Asimov's first novel, full of wonders and ideas, the book that launched

the novels of the Galactic Empire, culminating in the Foundation series. This is Golden Age SF at its finest. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Glow

Sixteen years ago, Waverly and Kieran were the first children born in space. Now a perfect couple, they are the pride and joy of the whole spaceship. They represent the future. The ship is their entire world. They have never seen a stranger before. Old Earth is crumbling, and the crew is hoping to reach (and colonise) New Earth within fifty years. Along with their allies on the second spaceship - who set off a year before them and whom they have never met. One day, Kieran proposes to Waverly. That same morning, the 'allies' attack - and Kieran and Waverly are separated in the cruellest way possible. Will they ever see each other again?

The Scientist as Rebel

From Galileo to today's amateur astronomers, scientists have been rebels, writes Freeman Dyson. Like artists and poets, they are free spirits who resist the restrictions their cultures impose on them. In their pursuit of nature's truths, they are guided as much by imagination as by reason, and their greatest theories have the uniqueness and beauty of great works of art. Dyson argues that the best way to understand science is by understanding those who practice it. He tells stories of scientists at work, ranging from Isaac Newton's absorption in physics, alchemy, theology, and politics, to Ernest Rutherford's discovery of the structure of the atom, to Albert Einstein's stubborn hostility to the idea of black holes. His descriptions of brilliant physicists like Edward Teller and Richard Feynman are enlivened by his own reminiscences of them. He looks with a skeptical eye at fashionable scientific fads and fantasies, and speculates on the future of climate prediction, genetic engineering, the colonization of space, and the possibility that paranormal phenomena may exist yet not be scientifically verifiable. Dyson also looks beyond particular scientific questions to reflect on broader philosophical issues, such as the limits of reductionism, the morality of strategic bombing and nuclear weapons, the preservation of the environment, and the relationship between science and religion. These essays, by a distinguished physicist who is also a prolific writer, offer informed insights into the history of science and fresh perspectives on contentious current debates about science, ethics, and faith.

Heir to the Sky

"As heir to a kingdom of floating continents, Kali has spent her life bound by limits: by her duties as a member of the royal family, by a forced betrothal to the son of a nobleman, and by the edge of the only world she's ever known a small island hovering above a monster-ridden earth, long since uninhabited by humans. When Kali falls off the edge of her kingdom and miraculously survives, she is shocked to discover there are still humans on the earth. Determined to get home, Kali entrusts a rugged monster-hunter named Griffin to guide her across a world overrun by chimera, storm dragons, basilisks and other terrifying creatures. But the more time she spends on earth, the more dark truths she begins to uncover about her home in the sky, and the more resolute she is to start burning for herself."--Page [4] of cover.

The Blue Sky

A boy's nomadic life in Mongolia is under threat in a novel that "captures the mountains, valleys and steppes in all their surpassing beauty and brutality" (Minneapolis Star-Tribune). In the high Altai Mountains of northern Mongolia, a young shepherd boy comes of age, tending his family's flocks on the mountain steppes and knowing little of the world beyond the surrounding peaks. But his nomadic way of life is increasingly disrupted by modernity. This confrontation comes in stages. First, his older siblings leave the family yurt to attend a distant boarding school. Then the boy's grandmother dies, and with her his connection to the old ways. But perhaps the greatest tragedy strikes when his dog, Arsylang—"all that was left to me"—ingests poison set out by the boy's father to protect his herd from wolves. "Why is it so?" Dshurukawaa cries out in despair to the Heavenly Blue Sky, to be answered only by the wind. Rooted in the oral traditions of the Tuvan people, *The Blue Sky* weaves the timeless story of a boy poised on the cusp of manhood with the story of a people on the threshold. "Thrilling. . . . Tschinag makes it easy for his readers to fall into the beautiful rhythms of the Tuvans' daily life." —Los Angeles Times Book Review "In this pristine and concentrated tale of miraculous survival and

anguished loss, Tschinag evokes the nurturing warmth of a family within the circular embrace of a yurt as an ancient way of life lived in harmony with nature becomes endangered.” —Booklist

River of Stars

In his critically acclaimed novel *Under Heaven*, Guy Gavriel Kay told a vivid and powerful story inspired by China's Tang Dynasty. Now, the international bestselling and multiple award-winning author revisits that invented setting four centuries later – a world inspired this time by the glittering, decadent Song Dynasty.

Between Sea and Sky

In a near future where a series of environmental disasters has left much of the country underwater, Pearl lives on a floating oyster farm with her father and younger sister, Clover. Following her mum's death several years earlier, Pearl refuses to set foot on land, believing her illness was caused by the poisons in the ground. Meanwhile, Clover dreams of school, friends and a normal life. Then Nat comes to spend the summer at the sea farm while his scientist mum conducts some experiments. Leaving behind the mainland, with its strict rules and regulations, he brings with him a secret. But when the sisters promise to keep his secret safe, little do they realize that they may be risking everything... A thrilling and thought-provoking ecological adventure from the author of the highly acclaimed *WHERE THE WORLD TURNS WILD*. Perfect for fans of *THE EXPLORER*, *THE LAST WILD* and *WHERE THE RIVER RUNS GOLD*. PRAISE FOR *WHERE THE WORLD TURNS WILD*: "A sense of the natural world's curative power runs through this adventurous story like a seam of gold." - Guardian "Some books are excellent story-telling, and some books broaden your knowledge and mind, and some just ought to be written and this book is all three. I loved it." - Hilary McKay, author of *THE SKYLARKS' WAR* "A brilliant adventure that pulls you headlong into Juniper and Bear's world, where survival depends upon finding the wild." - Gill Lewis, author of *A STORY LIKE THE WIND* "An absorbing, thought-provoking debut tapping into pertinent ecological themes." - The Bookseller "Wondrous, warm-hearted, wildly exhilarating [...] The world is familiar and frightening, the relationships between characters beautifully rendered - Nicola Penfold is an author to watch." - Nizrana Farook, author of *THE GIRL WHO STOLE AN ELEPHANT*

Instructions for the Netherworld

The book presents a complete edition of the texts, their translation and some fundamental keys for their interpretation, in an attempt at updating our current knowledge on Orphic ideas about the soul and the Afterlife stated in those texts

Mother Earth, Father Sky

A young woman comes of age in this epic saga. "Harrison expertly frames dramatic events with depictions of prehistoric life in the Aleutian Islands" (*The New York Times Book Review*). It's 7056 BC, a time before history. On the first day that Chagak's womanhood is acknowledged within her Aleut tribe, she unexpectedly finds herself betrothed to Seal Stalker, the most promising young hunter in the village. A bright future lies ahead of Chagak—but in one violent moment, she loses her entire way of life. Left with her infant brother, Pup, and only a birdskin parka for warmth, Chagak sets out across the icy waters on a quest for survival and revenge. *Mother Earth, Father Sky* is the first book of the Ivory Carver Trilogy, which also includes *My Sister the Moon* and *Brother Wind*.

Earth Heroes

When faced with climate change, the biggest threat that our planet has ever confronted, it's easy to feel as if nothing you do can really make a difference . . . but this book proves that individual people can

change the world. With twenty inspirational stories celebrating the pioneering work of a selection of Earth Heroes from all around the globe, from Greta Thunberg and David Attenborough to Yin Yuzhen and Isatou Ceesay, each tale is a beacon of hope in the fight for the future of our planet, proving that one person, no matter how small, can make a difference. Featuring Amelia Telford, Andrew Turton and Pete Ceglinski, Bittu Sahgal, Chewang Norphel, David Attenborough, Doug Smith, Ellen MacArthur, Greta Thunberg, Isabel Soares, Isatou Ceesay, Marina Silva, Melati and Isabel Wijsen, Mohammed Rezwan, Renée King-Sonnen, Rok Rozman, Sheila Watt-Cloutier, Stella McCartney, William Kamkwamba, Yin Yuzhen and Yvon Chouinard. Featuring illustrations by Jackie Lay.

Alien Intrusion

Most people at one time or another have probably been curious to know, "What could account for all of those strange objects in the sky that many credible witnesses see?" Or, what about the modern mystery of alien abductions and stories of visitations by beings claiming to be from other planets or star systems? Are aliens really making contact with human beings? Is it important anyway? At last, an easy-to-understand book traces the history of this strange phenomenon utilizing the research of many of the "heavyweights" of UFOlogy -- and it's been making sense to a lot of people. This is a book for everyone. The author's research and conclusions will surprise you and challenge your thinking, not just about UFOs, but about the nature of life itself. This is a landmark volume that brings together the most important evidences, coming to conclusions far more sinister -- yet profound -- than most could imagine. - Publisher.

A specialist guide to night-sky photography will help you capture your own gorgeous images of the heavens. Commentary on the science, astronomy, and photography accompany stunning images organized by theme: Symbols of all nations and religions embraced by one sky of endless beauties UNESCO World Heritage Sites at night The Universe revealed through constellations, sky motions, atmospheric phenomenon, Aurora, and other wonders Images highlighting the beauty of dark skies away from light-polluted urban areas Celestial events, from great comets to spectacular eclipses Astro-tourism destinations, like ancient astronomical monuments and modern observatories

House of Earth and Blood

A #1 New York Times bestseller! Sarah J. Maas's brand-new CRESCENT CITY series begins with House of Earth and Blood: the story of half-Fae and half-human Bryce Quinlan as she seeks revenge in a contemporary fantasy world of magic, danger, and searing romance. Bryce Quinlan had the perfect life—working hard all day and partying all night—until a demon murdered her closest friends, leaving her bereft, wounded, and alone. When the accused is behind bars but the crimes start up again, Bryce finds herself at the heart of the investigation. She'll do whatever it takes to avenge their deaths. Hunt Athalar is a notorious Fallen angel, now enslaved to the Archangels he once attempted to overthrow. His brutal skills and incredible strength have been set to one purpose—to assassinate his boss's enemies, no questions asked. But with a demon wreaking havoc in the city, he's offered an irresistible deal: help Bryce find the murderer, and his freedom will be within reach. As Bryce and Hunt dig deep into Crescent

City's underbelly, they discover a dark power that threatens everything and everyone they hold dear, and they find, in each other, a blazing passion—one that could set them both free, if they'd only let it. With unforgettable characters, sizzling romance, and page-turning suspense, this richly inventive new fantasy series by #1 New York Times bestselling author Sarah J. Maas delves into the heartache of loss, the price of freedom—and the power of love.

The Earth Under Sky Bear's Feet

This collectable boxed set edition includes all three books in N. K. Jemisin's incredible NYT bestselling and three-time Hugo award-winning Broken Earth Trilogy. This complete collection would be a great gift for any occasion and includes *The Fifth Season*, *The Obelisk Gate*, and *The Stone Sky*. This is the way the world ends for the last time... A season of endings has begun. It starts with the great red rift across the heart of the world's sole continent, spewing ash that blots out the sun. It starts with death, with a murdered son and a missing daughter. It starts with betrayal, and long dormant wounds rising up to fester. This is the Stillness, a land long familiar with catastrophe, where the power of the earth is wielded as a weapon. And where there is no mercy. The Broken Earth trilogy *The Fifth Season* *The Obelisk Gate* *The Stone Sky*

The Broken Earth Trilogy

Winner of the 2023 Hugo Award for Best Series! Adrian Tchaikovsky's award-winning novel *Children of Time*, is the epic story of humanity's battle for survival on a terraformed planet. Who will inherit this new Earth? The last remnants of the human race left a dying Earth, desperate to find a new home among the stars. Following in the footsteps of their ancestors, they discover the greatest treasure of the past age—a world terraformed and prepared for human life. But all is not right in this new Eden. In the long years since the planet was abandoned, the work of its architects has borne disastrous fruit. The planet is not waiting for them, pristine and unoccupied. New masters have turned it from a refuge into mankind's worst nightmare. Now two civilizations are on a collision course, both testing the boundaries of what they will do to survive. As the fate of humanity hangs in the balance, who are the true heirs of this new Earth?

Children of Time

Everyone knows his or her favourite colour, the foods we most enjoy, and which season of *The Sopranos* deserves the most stars on Netflix. But what does it really mean when we like something? How do we decide what's good? Is it something biological? What is the role of our personal experiences in shaping our tastes? And how do businesses make use of this information? Comprehensively researched and singularly insightful, *You May Also Like* delves deep into psychology, marketing and neuroscience to answer these complex and fascinating questions. From the tangled underpinnings of our food choices, to the discrete dynamics of the pop charts and our playlists, to our non-stop procession of 'thumbs' and 'likes' and 'stars,' to our insecurity before unfamiliar works of art, the book explores how we form our preferences - and how they shape us. It explains how difficult it is, even for experts, to pinpoint exactly what makes something good or enjoyable, and how the success of companies like Netflix, Spotify and Yelp! depends on the complicated task of predicting what we will enjoy. Like *Traffic*, this book takes us on a fascinating and consistently surprising intellectual journey that helps us better understand how we perceive and appreciate the world around us.

You May Also Like

For the first time in one collection, the two internationally bestselling novels of *The Sarantine Mosaic*, one of Guy Gavriel Kay's most loved works. Sailing to Sarantium Sarantium is the golden city: holy to the faithful, exalted by the poets, jewel of the world, and heart of an empire. Artisan Caius Crispus receives a summons from the emperor and sets off on a journey toward the Imperial City. But before Crispin can reach Sarantium, with its taverns and gilded sanctuaries, chariot races and palaces, he must pass through a land of pagan ritual and mysterious danger. Sailing to Sarantium, the first volume of the brilliant *Sarantine Mosaic*, weaves an utterly compelling story of the allure and intrigue of a magnificent city and the people drawn into its spell. Lord of Emperors Having finally achieved his journey to fabled Sarantium, Crispin the mosaicist wants nothing more than to confront the challenges of his art high on the scaffolding of destiny—but in Sarantium no man may easily withdraw from the turmoil of court and city, or forget that the presence of the half-world is always close by. To the Imperial City there comes another voyager, this time from the east. Rustem of Kerakek, a physician, must find his own balance of

family and ambition, healing and death, as he, too, is drawn into the deadly webs of Sarantium. In this concluding volume of the Sarantine Mosaic, Lord of Emperors merges page-turning adventure with a deeply moving meditation on art and power, and the eternal human struggle to leave a legacy.

The Sarantine Mosaic

Ted took a big deep breath then fired up the engines. The rocket's boosters rumbled into action like a hungry bear belly. "No adventure can start without a countdown " shouted Ted over the roar of the engines. 5 ... 4 ... 3 ... 2 ... 1 ... BEAR BLAST OFF In this richly illustrated book, astronomer Elizabeth Avery takes children and their parents on an educational and exciting journey through space. In these captivating pages, a bear named Ted takes off for a trip through the solar system with his best friend--a flower named, aptly, Fleur. The pair explore our moon, and from there they head out to places no being from Earth has yet visited: our neighboring planets Mars and Venus, more distant locales like Jupiter and Saturn, and even the source of all Earth's energy, the Sun. At each stop in this winning adventure, the pair learns basic scientific facts that are presented at a level that early readers can grasp. The result is a trip that is simultaneously instructive and entertaining, an interplanetary romp that will inspire kids to follow their scientific dreams.
