Drawing on a rich tradition of African mythology, fantasy and history, this is the story of a lost child, an extraordinary hunter, and a mystery with many answers . . . *Perfect for fans of Pratchett, George R. R. Martin and Octavia Butler* 'The kind of novel I never realized I was missing until I read it. A dangerous, hallucinatory, ancient Africa, which becomes a fantasy world as well-realized as anything Tolkien made' Neil Gaiman ***** Tracker is a hunter. Known throughout the thirteen kingdoms as one who has a nose, he always works alone. But he breaks his own rule when, hired to find a lost child, he finds himself part of a group of hunters, each stranger and more dangerous than the last. As the mismatched gang follow the boy's scent from perfumed citadels to enchanted darklands, Tracker starts to wonder: Who really is this mysterious boy? Why do so many people want to stop him from being found? And, most important of all, who is telling the truth and who is lying? Marlon James weaves a breathtaking tapestry - at once ancient and startlingly modern - exploring the fundamentals of truth, limits of power, excesses of ambition, and our need to understand them all. Chronicling the same events but telling a very different story - who will you believe? Read THE DARK STAR

Dark One, Book 1

Story of a saga video games... If the Dark Souls series managed to seduce players and journalists, it was mainly by word of mouth. It was such a great success that Dark Souls 2 was named "Game of the Year" 2014 by the vast majority of gaming magazines and websites. To date, this saga is one of the most important in the gaming industry. The odd thing is that these games are well known for their difficulty and their cryptic universe. This publication narrates the epic success story, but also describes its gameplay mechanics and its specific lore across more than 300 pages. Characters, plots and the scenario of the three Souls (Demon's Souls, Dark Souls and Dark Souls II) are deciphered by Damien Mecheri and Sylvain Romieu, who spent a long year studying these dense and enigmatic games down to the smallest detail. The serie Dark Souls and her spiritual father Demon's Souls will not have secrets for you anymore! EXTRACT In May 2014, Hidetaka Miyazaki succeeded Naotoshi Zin as president of FromSoftware, after the studio was purchased by Kadokawa Shoten. This was a highly significant promotion for the person who had led the company's most successful project, Dark Souls. And yet, he did not lose from view what had attracted him to the field: an insatiable creative drive. In spite of his new status within the studio, one of the conditions he requested and was granted was to remain creative director of his new project: Bloodborne. This allowed him to successfully design this spiritual successor to the first Souls game, while also assuming his new responsibilities. Given his drive to work and create, it is not surprising how quickly Miyazaki moved up through the ranks. ABOUT THE AUTHORS

Passionate about films and video games, Damien Mecheri joined the writers team of Gameplay RPG in 2004, writing several articles for the second special edition on the Final Fantasy saga. He continued his work with the team in another publication called Background, before continuing the online adventure in 2008 with the site Gameweb.fr. Since 2011, he has come aboard Third Éditions with Mehdi El Kanafi and Nicolas Courcier, the publisher's two founders. Damien is also the author of the book Video Game Music: a History of Gaming Music. For Third Éditions, he is actively working on the "Level Up" and "Année jeu vidéo" collections. He has also written or co-written several works from the same publisher: The Legend of Final Fantasy X, Welcome to Silent Hill: a journey into Hell, The Works of Fumito Ueda: a Different Perspective on Video Games and, of course, the first volume of Dark Souls: Beyond the Grave. Curious by nature, a dreamer against the grain and a chronic ranter, Sylvain Romieu is also a passionate traveler of the real and the unreal, the world and the virtual universes, always in search of enriching discoveries and varied cultures. A developer by trade, he took up his modest pen several years ago to study the characteristics and richness of the marvelously creative world of video games. He writes for a French video game site called Chroniques-Ludiques, particularly on the topic of RPGs, his preferred genre.

The Shambing Dead

Do zombies scare the stuffing out of you? I'm not talking the slow ones that mindlessly stumble around moaning and tripping over their own feet. Those are easy enough to avoid if you keep alert and don't let them swarm you. I'm talking fast zombies. Ones that will run you down, tear you to pieces, and eat you for supper. Ones that keep coming no matter what damage you do to them. Did any such creatures ever exist, except in people's imaginations? Unfortunately, the answer is yes. This seventh volume of the Harbinger of Doom saga reveals the truth about them. Their origin. And the terrible threat that they pose. BOOKS BY GLENN G. THATER THE HARBINGER OF DOOM SAGA: GATEWAY TO NIFLEHEIM THE FALLEN ANGLE KNIGHT ETERNAL DWELLERS OF THE DEEP BLOOD, FIRE, AND THORNGODS OF THE SWORD THE SHAMBLING DEAD MASTER OF THE DEAD SHADOW OF DOOM WIZARD'S TOLL VOLUME 11+ (forthcoming) HARBINGER OF DOOM (Combines Gateway to Nifleheim and The Fallen Angle into a single volume) THE HERO AND THE FIEND (A novelette set in the Harbinger of Doom universe) THE GATEWAY (A novella length version of Gateway to Nifleheim) THE DEMON KING OF BERGHER (A short story set in the Harbinger of Doom universe)

The Dark That Destroys

An alliance against evil. A dark power that would destroy it. One will succeed, the other will fail. Although Mina and Ajoon escaped the clutches of evil, Petrah failed. And died. But death is not the end for the likes of Petrah. Not for a man whose father is the God of Darkness. Summoned from the deadlands by a necromancer serving the emperor of Korin, Petrah draws breath once again. And finds himself a new ally in his fight against his brother: Xantecor, emperor of Korin. Petrah convinces the emperor to take action. Together, they venture to the capital of Meerjurmeh for a meeting of the minds between the three allies: Korin, Meerjurmeh and the Northern Kingdom. If the nations can rally in time to preempt Aman's attack, they might have a chance to defeat him. Aman has a plan of his own, and that's to assassinate the heads of state of all three nations. If the heads topple, so does his enemy. Thus begins a game of cat and mouse, where the allies of good must stop their enemy in their tracks or suffer a crushing blow that will destroy them. Petrah won't allow Aman to win his fight. But as Petrah's about to find out, fate has an ace up its sleeve, and Petrah stands at the losing end. Learn the outcome of this perilous race against time in the chilling seventh installment of THE LIGHT OF DARKNESS series.

The Most Mysterious Places on Earth

Just what makes a locale one of the world's most mysterious places is a subject open to debate. But if Bigfoot, UFOs, and chain-rattling ghosts all appear in one particular location, time and again, along with a fantastic range of other bizarre phenomena, then this is highly suggestive that the place is truly weird and mysterious in the extreme. Readers will learn startling truths of these amazing, paranormal locations and uncanny hot spots. Included are eerie haunts scattered across the United States, Russia, Canada, and just about everywhere in between, including such infamous locales as Death Valley, the Bermuda Triangle, Loch Ness, and even the New York City subway. Also addressed are the various theories that have been posited to explain why such places have become so infinitely weird in the first place. This is a wild tour of the world and its many rich cultures and folklore that reveals the top twenty-five places on Earth that are...well...incredibly weird and mysterious.

Manifesting Spirits

Manifesting Spirits is an exploration of contemporary trance and physical mediumship at a private spiritualist home-circle called the Bristol Spirit Lodge. Located in a garden on the outskirts of Bristol, the Lodge is a wooden shed specially constructed for the purposes of mediumship development and spirit communication. Through a combination of ethnographic observations in seances - including his own experiences of mediumship development - and interviews with spirits and their mediums, Hunter delves into a sub-urban world of trance states, ectoplasm, spirit lights and discarnate entities. Issues relating to altered states of consciousness, personhood, performance and the efficacy of ritual are examined in order to make sense of the processes by which spirits become manifest in social reality. A large part

of Manifesting Spirits is given over to a broader discussion of anthropology's evolving attitudes toward the 'paranormal' as a component of the 'life-worlds' of many people across the globe, and argues for the development of a non-reductive anthropological approach to the paranormal, and mediumship in particular. This emerging framework - referred to as 'ontological flooding' does not attempt to explain away the existence of spirits in terms of functional, cognitive or pathological theories (as most mainstream theorists tend to do), but rather embraces a processual perspective that emphasises complexity and multiple interconnected processes underlying spirit possession performances and experiences.

Darklore

Darklore is a journal of exceptional observations, hidden history, the paranormal and esoteric science. Featuring contributions from Daniel Pinchbeck, Loren Coleman, Nick Redfern, Robert Schoch, Blair Blake, Michael Grosso, Lynn Picknett & Clive Prince and many others.

Infinite Energy Technologies

Clean, sustainable energy solutions from the geniuses of our past and the visionaries of our future • Explores five great but nearly forgotten minds of the past--John Worrell Keely, Nikola Tesla, Viktor Schauburger, Royal Raymond Rife, and T. Townsend Brown--and their revolutionary discoveries • Reveals information from leading experts on cold fusion, zero-point energy, power from water, antigravity, and the free-energy potential of the Searl Effect Generator As the global need for clean, renewable energy grows and the shortage of viable large-scale solutions continues, it is time to look to the geniuses of our past and the visionaries of our future for answers. Taking inspiration from Albert Einstein's statement that "Problems cannot be solved by the same level of thinking that created them," Finley Eversole explains that the key to a pollution- and poverty-free future of infinite energy lies not in pursuing one single method, but in investigating all the possibilities--in uniting as a world in creative pursuit of global transformation. Exploring five nearly unknown geniuses of our past--John Worrell Keely, Nikola Tesla, Viktor Schauburger, Royal Raymond Rife, and T. Townsend Brown--and their revolutionary discoveries about free energy, electricity, water vortex motion, electric ray and super-microscope technology, and antigravity, this book helps to restore their long-suppressed scientific legacies and bring us one step closer to the destiny they foresaw. Eversole has gathered research from leading experts on cold fusion, zero-point energy, power from water, and the free-energy potential of the Searl Effect Generator to reveal technologies that work with Nature's laws and that, if fully implemented, could establish sustainable energy systems in a single generation.

What Happens Next?

This fascinating book uncovers the history behind urban legends and explains how the contemporary iterations of familiar fictional tales provide a window into the modern concerns—and digital advancements—of our society. What do ghost hunting, legend tripping, and legendary monsters have in common with email hoaxes, chain letters, and horror movies? In this follow-up to *Libraries Unlimited's Tales, Rumors, and Gossip: Exploring Contemporary Folk Literature in Grades 7–12*, author Gail de Vos revisits popular urban legends, and examines the impact of media—online, social, and broadcast—on their current iterations. *What Happens Next? Contemporary Urban Legends and Popular Culture* traces the evolution of contemporary legends from the tradition of oral storytelling to the sharing of stories on the Internet and TV. The author examines if the popularity of contemporary legends in the media has changed the form, role, and integrity of familiar legends. In addition to revisiting some of the legends highlighted in her first book, de Vos shares new tales in circulation which she sees as a direct result of technological advancements.

Forgotten Civilization

• Updated throughout with recent developments and additional illustrations • Reveals how solar outbursts caused the end of the last ice age, unleashed catastrophe upon ancient advanced civilizations, and led to six millennia of a Solar-Induced Dark Age • Includes evidence from solar science, geology, oceanic circulation patterns, the Sphinx, the underground cities of Cappadocia, the Easter Island rongorongo glyphs, and the Göbekli Tepe complex in Turkey In this newly revised and expanded edition, updated throughout with recent developments, geologist Robert Schoch builds upon his revolutionary theory that the origins of the Sphinx date back much further than 2500 BCE and examines scientific evidence of the catastrophe that destroyed early high culture nearly 12,000 years ago. Combining evidence from multiple scientific disciplines, Schoch makes the case that the abrupt end of the last ice age, circa 9700 BCE, was due to an agitated Sun. Solar outbursts unleashed electrical/plasma discharges upon Earth, triggering dramatic climate change as well as increased earthquake and volcanic activity, fires, high radiation levels, and massive floods. Schoch explains how these events impacted the civilizations of the time, set humanity back thousands of years, and led to six millennia of a Solar-Induced Dark Age (SIDA). Applying the SIDA framework to ancient history, he explores how many megalithic monuments, petroglyphs, indigenous traditions, and legends fall logically into place, including the underground cities of Cappadocia, the Easter Island rongorongo glyphs, and the Göbekli Tepe complex in Turkey. He also reveals that our Sun is a much more unstable star than previously believed, suggesting that history could repeat itself with a solar outburst powerful enough to devastate modern society. Weaving together a new view of the origins and antiquity of civilization and

the dynamics of the planet we live on, Schoch maintains we must heed the megalithic warning of the past and collectively prepare for future events.

Crimes of Reason

Crimes of Reason brings together expanded and updated versions of some of Braude's best previously published essays, along with new essays written specifically for this book. Although the essays deal with a variety of topics, they all hover around a set of interrelated general themes. These are: the poverty of mechanistic theories in the behavioral and life sciences, the nature of psychological explanation and (at least within the halls of the Academy) the unappreciated strategies required to understand behavior, the nature of dissociation, and the nature and limits of human abilities. Braude's targets include memory trace theory, inner-cause theories of human behavior generally, Sheldrake's theory of morphogenetic fields, widespread but simplistic views on the nature of human abilities, multiple personality and moral responsibility, the efficacy of prayer, and the shoddy tactics often used to discredit research on dissociation and parapsychology. Although the topics are often abstract and the issues deep, their treatment in this book is accessible, and the tone of the book is both light and occasionally combative.

The Message of the Sphinx

NATIONAL BESTSELLER • Two Egypt experts posit a revolutionary theory: The Sphinx and other great Egyptian monuments are older than common history books tell us and are arranged in such a way as to send us a message from the silent past. Guardian of the ancient mysteries, the keeper of secrets . . . For thousands of years the Great Sphinx of Egypt has gazed toward the east, its eyes focused on eternity, reading a message in the stars that mankind has long forgotten. And today as our civilization stands poised at the end of a great cycle, it is a message that beckons insistently to be understood. All the clues are in place. Geology and archeo-astronomy have already indicated that the lion-bodied Sphinx may be vastly older than Egyptologists currently believe, dating not from 2500 B.C., but from 10,500 B.C.—the beginning of the astrological Age of Leo. And we now know that the three pyramids of Giza, standing on high ground half a mile to the west of the Sphinx, are in fact a precise map of the three stars of Orion's belt, formed in fifteen million tons of solid stone. Are these monuments trying to tell us something? And, if so, what? In *The Message of the Sphinx*, Robert Bauval and Graham Hancock present a tour de force of historical and scientific detective work that unravels the millennial code embodied in these structures. Using sophisticated computer simulations of ancient skies, they unravel the riddle of the Sphinx, and they present a startling new theory concerning the enigmatic Pyramid Texts and other archaic Egyptian scriptures. Their discoveries lead the authors to this question: Does mankind have a rendezvous with destiny—a rendezvous not in the future, but in the distant past, at a precise place and time? The secrets can be kept no longer. *The Message of the Sphinx* brings them to light.

The Literary World

"This book provides a thorough overview of the ancient use of psychedelic drugs for ritual and spiritual purposes offering the interested general reader a useful single source of information on the whole subject area"--Author's preface to the 1997 ed.

Darklore

Stories are embedded in the world around us; in metal, in brick, in concrete, and in wood. In the very earth beneath our feet. Our history surrounds us and the tales we tell, true or otherwise, are always rooted in what has gone before. The spirits of place are the echoes of people, of events, of ideas which have become imprinted upon a location, for better or for worse. They are the *genii loci* of classical Roman religion, the disquieting atmosphere of a former battlefield, the comfort and familiarity of a childhood home. Twelve authors take us on a journey; a tour of places where they themselves have encountered, and consulted with, these Spirits of Place.

The Long Trip

V. 2: [A collection of] "four uncanny tales by the renowned medievalist and writer. At once true to their source and powerfully reimagined for a visual medium, Leah Moore and John Reppion's subtly crafted adaptations give a new lease of life to these classic stories of watchful guardians, architectural puzzles and ill-advised academic exploration." -- Back cover.

Spirits of Place

Society darling Persephone Dimitriou wants nothing to do with her mother's ambitions. She's biding her time until she's able to leave the ultra-modern city of Olympus and start her doctorate degree. The one thing she never planned on? Her mother ambushing her with an engagement to Zeus--a man with more than a few dead wives in his past. Persephone will do anything to escape that fate...even flee the sparkling upper city and make a devil's bargain with a man she once believed was a myth. Hades has spent his life in the shadows, and he has no intention of stepping into the light. Not even for the woman who flees into his territory as if the very hounds of hell are on her heels. But when he finds that Persephone can offer a little slice of the revenge he's spent his entire life craving? It's all the excuse he needs to agree to help her--for a price. She'll be his for the summer, and then he'll see her safely out of Olympus and away from her mother and Zeus. Hades and Persephone's deal might seem simple enough, but they both quickly realize it's anything but. With every breathless night spent with Hades, Persephone wonders at her ability to leave him behind. And Hades? Now that he has a taste for Persephone, he's willing to go to war with Olympus itself to keep her...

Ghost Stories of an Antiquary, Vol. 1

George and Steve accidentally eat all of Betsy's honeycomb for her Earth Day presentation about bees and resolve to find a way to replace the honeycomb before Betsy returns from dance class.

Neon Gods

In the course of their investigations into Leonardo da Vinci and the Turin Shroud, Lynn Picknett and Clive Prince found clues in the work of the great Renaissance artist that pointed to the existence of a secret underground religion. More clues were found in a twentieth-century London church. These were the beginnings of a quest through time and space that led the authors into the mysterious world of

secret societies and such bodies as the Freemasons, the Knights Templar and the Cathars and finally back to the ideas and beliefs of the first century AD and a devastating new view of the real character and motives of the founder of Christianity and the roles of John the Baptist and Mary Magdalene. They reveal nothing less than a secret history, preserved through the centuries but encoded in works of art and even in the great Gothic cathedrals, whose revelation could shake the foundations of the Church.

Nox Arcana Songbook

Edited with a Foreword by Shelley Marmor To say Christopher S. Hyatt, Ph.D. will not ever have mass appeal is an understatement. If anything, the masses detest him en masse. And rightfully so. His radical approach to self-transformation doesn't come sugarcoated or gift wrapped. Rather, Dr. Hyatt exposes every hypocrisy and forces his readers to face themselves as they are--not as they wish to be. In the world of Dr. Hyatt we formulate our ideas of ourselves and the world around us based on accumulated lies (aka traditions) taught to us since childhood. As a result, each person comes to believe in a fictitious I solely based on the liars in our lives regurgitating their lies onto us. "We are all handicapped by our traditions and conclusions," according to Dr. Hyatt. Heroically, and luckily for many of us, he does offer a way out. Though he passed away in 2008, his take-no-prisoners approach to self-actualization lives on. The articles contained in this book--some selected by Dr. Hyatt himself--are written by authors who carry the torch of the Doctor's great work, including Chic and Tabatha Cicero, Peter Conte, Jack S. Willis, Daniel Pineda, Nicole Laliberte, and Dr. Hyatt's son. Some of the articles are written by his friends and colleagues: Israel Regardie, Lon Milo DuQuette, David Cherubim, James Wasserman, S. Jason Black, Robert Brazil, Wayne Saalman, Robert Anton Wilson, and Timothy Leary. This book is a treasure trove of sanity wrapped in the garment of madness.
