Intro

There are 7 human Covs, present in the alpha-and betacoronavirus genera

CoV particles are pleomorphic with a helical nucleocapsid

CoV-2 entry is driven by interactions between Spike and angiotensin-converting enzyme 2 (ACE2): subsequent protease cleavage drives fusion

Acquisition of polybasic cleavage site in CoV-2 spike may increase viral transmissibility

The 2019-nCoV genome was annotated to possess -14 ORFs encoding 27 proteins

Programed ribosomal frameshifting generates two polyproteins encoding the replicase proteins

Structural proteins are made from a nested set of sub- genomic mRNAs with shared 5 and 3' sequences

Sub-genomic RNA transcription is discontinuous and is facilitated by shared transcription regulatory sequences

The CoV replicase requires functional integration of RNA polymerase, capping, and proofreading activities

Loss of ExoN activity dramatically increases the sensitivity of Cols to RNA mutagens

However... the mutants adapt over multiple passages to stabilize populations and prevent lethal mutagenesis

nsp14 is a bimodular protein composed of ExoN and N7-MTase domains

CoVs form interconnected double membrane vesicles where viral replication and transcription occur

Integral membrane replicase proteins function in vesicle biogenesis and recruitment of factors necessary for viral transcription and amplification

Proximity labeling has been used to characterize the RTC- proximal proteome in the beta-coronavirus MHV

Accessory genes are genera/species specific and are usually dispensable for viral replication in vitro

but required in vivo

CoV-2 and SARS may have a similar set of accessory genes, with some differences among the interferon antagonists

Assembly of nucleocapsids into virions occurs in ER/golgi

SARS pathogenesis is linked to delayed IFN-I signaling and subsequent immune toxicity

Neutralizing antibody titers and the memory B cell response are short lived in SARS-recovered patients

(Some) Key open basic science questions

Virology Lectures 2023 #7: Transcription and RNA Processing - Virology Lectures 2023 #7: Transcription and RNA Processing by MicrobeTV 8,066 views 1 year ago 1 hour, 9 minutes - Transcription, the synthesis of mRNAs from DNA, is required during reproduction of all DNA viruses. In this lecture, we discuss ...

The Deadliest Being on Planet Earth – The Bacteriophage - The Deadliest Being on Planet Earth – The Bacteriophage by Kurzgesagt – In a Nutshell 32,912,641 views 5 years ago 7 minutes, 9 seconds - A war has been raging for billions of years, killing trillions every single day, while we don't even notice. This war involves the ...

What's New in Molecular Virology? - What's New in Molecular Virology? by American Society for Microbiology 1,070 views 1 year ago 41 minutes - We are just back from the **Molecular Virology**, Workshop in West Palm Beach. This is a terrific meeting that is organized by the ...

Virology Lectures 2024 #4: Structure of viruses - Virology Lectures 2024 #4: Structure of viruses by MicrobeTV 2,634 views 1 month ago 1 hour, 5 minutes - Viral particles must not only protect the genome in its journey among hosts, but also come apart under the right conditions to ...

Viruses: Molecular Hijackers - Viruses: Molecular Hijackers by Professor Dave Explains 1,541,095 views 6 years ago 10 minutes, 2 seconds - Most of us know about viruses, and that they spread disease. But what is a virus exactly? Is it alive? How does it infect a host?

Intro

Criteria For Being Alive Bacterium

viruses were discovered by studying plants

diseases were transmitted through sap

transmission occurs even after filtration

Rod-Shaped Viruses (Tobacco Mosaic Virus)

Icosahedral Viruses (Adenovirus)

Viruses Can Have Membranous Envelopes (Influenza)

all viruses carry their own genetic material

the capsid encloses the genetic material

that's all there is to viral structure

How does a virus replicate?

viruses can have specificity

The Lytic Cycle

The Lysogenic Cycle

other viruses rely on envelope proteins to enter

HIV is a retrovirus

viroids are naked RNA molecules

prions are infectious protein particles

cellular life — viruses

PROFESSOR DAVE EXPLAINS

Introduction to Virology and Viral Classification - Introduction to Virology and Viral Classification by Professor Dave Explains 146,420 views 3 years ago 7 minutes, 47 seconds - There are two main types of pathogens we will be focusing on in this series. The first was bacteria, and we just wrapped up a good ...

pathogenic bacteria

mosaic disease in tobacco plants

bacteria get stuck

bacteriophage a virus that infects bacteria

Biology Series

genetic material (RNA or DNA)

the virus needs ribosomes and enzymes and other crucial cellular components

the cell makes copies of the virus

viruses are obligate intracellular parasites

viruses can be categorized by the types of cells they infect

How big are viruses?

structure of a virion
the capsid protects the nucleic acid
capsid + nucleic acid = nucleocapsid
the envelope is a lipid bilayer
naked viruses viruses without an envelope

Modes of Viral Categorization 1 Nucleic Acid Type (RNA or DNA)

Virus Shapes

proteins enable binding to host cell receptors

Viral Classification/Nomenclature

Criteria for Classification 1 Morphology (size and shape of virion, presence of envelope)

Naming Viruses

PROFESSOR DAVE EXPLAINS

Motor Vehicle courses - lecturer Keith Johnson - Motor Vehicle courses - lecturer Keith Johnson by Ayrshire College 1,611 views 2 years ago 1 minute, 28 seconds - Start Here, Go Anywhere! Check out our courses starting in January 2022: <https://www1.ayrshire.ac.uk/home/winter-start-courses/> Fundamentals of Electric Vehicle (Part - 1) | Electrical Workshop - Fundamentals of Electric Vehicle (Part - 1) | Electrical Workshop by Skill Lync 5,277 views 2 years ago 2 hours, 25 minutes - Watch the recorded session **of**, our free Bootcamp featuring the first course on our **Fundamentals of**, Electric **Vehicle**, Master's ...

Agenda

Why Electric Vehicles

Energy Density

Lack of Infrastructure

How Eevee Is Reliable for Ct Mobility

Hours per Liter

Ic Engine Vehicles

Integrated Starter Generators
Hybrid Electric Vehicle
Efficiency
What Is Total Cost of Ownership
Are Evs Affordable to Customers
How Is Cost Calculated
How Do I Calculate My Total Cost of Ownership
Total Cost of Ownership
What Is an Electric Vehicle
Electric Vehicle Architecture
Electric Traction Motor
Electric Traction Motors
Why on Board Charger
Thermal Cooling System
Thermal Losses
Energy Flow
What Is Energy Flow
The Energy Flow outside the Vehicle
Self-Discharge
Self Discharge
Calculation of Battery to Wheels Efficiency
What Is a Motor Efficiency Curve
Driving Pattern
Driving Cycle
Battery to Wheel Efficiency
Fundamental Concepts
Vehicle Mechanics and the Vehicle Dynamics
Importance of Simulation
Day 2 Agenda
On Board and off-Board Charges
Electric Power Steering
What Is the Simulation Software Used in Ev
What Is the Difference between Ev and Heb
What Is the Power Plant
On-Board Power Plant
Reliability of Ev
How To Build Career in Eb and Bghb
Which Circuit Is Used in Bms
Which Software Is Used in Vms
Communication Protocol
Communication Protocols
Which Skilling Course Would Go Well for Graduating Control Systems
How Long Will It Take To Implement the Charging Station in India
Can Automation Engineer Have Scope
Can We Decrease the Charging Time
Fast Charging Battery
Inspire Science Grades K-2: Learn About Automotive Engineers - Inspire Science Grades K-2: Learn About Automotive Engineers by McGraw Hill PreK-12 5,850 views 3 years ago 25 seconds - School can set you up for amazing life adventures. Learn about **cars**, and how to be an **Automotive**, Engineer from Riley, as well as ...
Lec 01 | Intro to Vehicle Dynamics - Lec 01 | Intro to Vehicle Dynamics by HowDynamic 5,202 views 1 year ago 13 minutes, 20 seconds - After watching this video, you will 1. Walk away with a very high-level understanding **of vehicle**, dynamics. 2. Understand the main ...
Torsen Differential, How it works ? - Torsen Differential, How it works ? by Lesics 8,769,016 views 9 years ago 5 minutes, 22 seconds - The working **of**, Torsen differential is elaborately explained in this video with help **of**, animation. Like us on Facebook ...
Internal Components of a Torsen
Principle of Worm Gear Worm Wheel
Driving Scenarios

Advantage of the Torsen

Intro to Racecar Engineering: 01 Getting Started - Intro to Racecar Engineering: 01 Getting Started by mechanicaldesign101 137,301 views 6 years ago 24 minutes - Robert "Smitty" Smith walks us through the **basic principles of**, racecar design. This is the first **of**, a series **of**, videos developed for ...

Kinematics vs. Kinetics Kinematics

Holonomic Constraints Holonomic constraints are constraints on the configuration: Assume a particle in three dimensions (r,y,z) ER We can constrain the particle to the x/y plane via

Non-Holonomic Constraints Non-Holonomic constraints are constraints on the velocity

Holonomic vs. Non-Holonomic Systems

Coordinate Systems

Kinematics of a Rigid Body A rigid body refers to a collection of infinitely many infinitesimally small mass which are rigidly connected, ie, their relative position remains unchanged over time. It's motion can be compactly described by the motion of an arbitrary reference point C of the body plus the relative motion of all other points with respect to C.

Instantaneous Center of Rotation At each time instancete R there exists a particular reference point called instantaneous center of rotation for which volt - Each point of the rigid body performs a pure rotation about
