Financial Accounting

This text is for introductory courses in financial accounting taught from a more traditional 'preparer' approach. In the first three chapters is integrated a specially designed accounting cycle tutorial programme, and the aim throughout is to aid students' retention and success.

Financial Accounting

Success in Accounting begins here! The technical details you need to know and decision-making processes you need to understand, with plain-language explanations and unlimited practice. Financial Accounting is an engaging resource that focuses on current accounting theory and practice in Australia, within a business context. It emphasises how financial decision-making is based on accurate and complete accounting information and uses case studies to illustrate this in a practical way. The new 7th edition is accurate and up to date, guided by extensive technical review feedback and incorporating the latest Australian Accounting Standards. It also provides updated coverage of some of the most significant current issues in accounting such as ethics, information systems and sustainability.

Financial Accounting helps readers "nail" the accounting cycle! Financial Accounting helps readers "nail" the accounting cycle up front in order to increase success and retention later on. The concepts and mechanics readers learn in the critical 'accounting cycle' chapters are used consistently and repetitively--and with clear-cut details and explanations--throughout the remainder of the text, minimizing confusion. This edition features a new user-oriented approach along with many new problems, exercises, and analysis questions.

Financial & Managerial Accounting Ch 14-24 (Managerial Chapters)

The Demo Docs System of instruction replicates the classroom experience by providing more "I get it" moments outside of class. We've talked to tons of POA instructors and our editors have even taken the accounting course (numerous times!) to figure out the following issue in this course that is consistent: Students understand (or "get it") right after you do a problem in class, but as soon as they leave class, with each passing hour, their ability to do the problems again and complete their homework diminishes to the point of them either having to come to office hours to get help, or they just quit and get behind in the course. On top of this, you can end up getting behind in the course as well, in order to keep everyone on track. The Demo Docs system helps to recreate the "I get it" moments outside of class—keeping both you and the students on track.

Financial Accounting, 6/E

No prior accounting or business knowledge is needed to successfully complete this book. The book pays very careful attention to making accounting information interesting and relevant to the reader. A number of infographics, worked-out examples, charts, and illustrations visually reinforce material.
