My Son's a Queer (but What Can You Do?)

When Rob was twelve, they attempted a full-blown Disney parade in their house for their Grandma. As Rob donned wigs and played Mary Poppins, Ariel, Mickey Mouse and Belle, their Dad doubled as Stage Manager, Sound Technician and Goofy. Unfortunately, Dad missed all his cues and pushed all the floats in the wrong direction. Mum mistook Aladdin for Ursula. The costumes went awry. And Ariel's bubble gun didn't work properly. Grandma had a nice time, though. My Son's a Queer (But What Can You Do?) is the joyous, chaotic, autobiographical story of actor, writer and social-media sensation Rob Madge as they set out to recreate that parade - and this time, nobody, no, nobody is gonna rain on it. It was first performed at London's Turbine Theatre in June 2021, directed by Luke Sheppard, with music by Pippa Cleary - and starring Rob Madge as Rob Madge, alongside hilarious home movies of the Madge family (plus Granny Grimble). This edition features the complete text of the play, including links to and transcriptions of the video footage, colour photographs and extra bonus content from the RDM* Productions Archive. It concludes with an afterword by Mum and Dad about the joys to be found in championing the creativity of children - and why playing Tinkerbell, with a smile, might be the best thing you can do for your kids, and for yourselves. * Robert Dennis Madge

A Life in Three Acts

With honesty, humour and occasional anger, performer Bette Bourne tells the playwright Mark Ravenhill about his brave and flamboyant life. Crafted from transcripts of a series of long, private conversations, actor Bette Bourne reminisces and replays scenes from his life from a postwar childhood, a stint as a classical actor in the late 60s, to living in a drag commune in Notting Hill and being an active member of the Gay Liberation Front. Bette then talks about his touring with the New York based Hot Peaches cabaret group and founding his own cabaret troop, Bloodlips, which redefined the term gay theatre by creating their very own unique celebration of dramatic and colourful homosexuality. The piece, in three parts, marks a different series of events in Bette's life to reveal both a portrait of a pioneering, radical individual and a historical document of the struggles and achievements of gay liberation.

From digital-display dresses to remote control couture, this book exposes the revolutionary interface between contemporary fashion and technology. As twenty-first century fashion makes a dramatic departure from traditional methods, designers no longer turn to the past for inspiration, but look to the hi-tech future. The result is techno fashion, the new wave of intelligent clothing that fuses fashion with communication technology, electronic textiles, and sophisticated design innovations that express new ideas about appearance, construction and wearability. Born out of the collaboration between fashion designers, researchers and scientists, this new dialogue could be the most significant design innovation in fashion's history, or indicate its eventual demise. Either way, techno fashion promises to forever disrupt the historical narrative of fashion evolution. Through interviews with designers ranging from innovators such as Hussein Chalayan and Tristan Webber to mavericks like Alexander McQueen, Bradley Quinn examines the impact of this new direction. The fusion of design and technology introduced by Yohji Yamamoto, Rei Kawakubo and Issey Miyake has created another direction for clothing, creating a new breed of designer-cum-scientist who redefines the way we dress, communicate, and even respond to environmental changes. As technology begins to shape fashion's future, it redefines the boundaries between clothing, body and machine, forever transforming the ethics and lifestyles traditionally designated by codes of dress.

Another Country is set in an English public school in the early 1930's where future leaders are being prepared for their roles in the ruling class. Two of the central characters are outsiders: Guy Bennett is coming to terms with homosexuality and Tommy Judd is a committed Marxist. Judd wants to abolish the whole system of British life; Bennett wants a successful career within it. The school and the system have traditional ways of dealing with rebels.

Caroline Evans analyses the work of experimental designers, the images of fashion photographers, and the spectacular fashion shows that developed in the final decade of the twentieth century to arrive at a new understanding of fashion's dark side and what it signifies? Drawing on a variety of literary and theoretical perspectives - from Marx to Benjamin - Evans argues that fashion plays a leading role in constructing images and meanings during periods of rapid change. She shows persuasively that fashion stands at the very centre of the contemporary, where it voices some of Western culture's deepest concerns.

Fashion at the Edge

Sociologist Ashley Mears takes us behind the brightly lit runways and glossy advertisements of the fashion industry in this insider's study of the world of modeling. Mears, who worked as a model in New York and London, draws on observations as well as extensive interviews with male and female models, agents, clients, photographers, stylists, and others, to explore the economics and politics—and the arbitrariness—behind the business of glamour. Exploring a largely hidden arena of cultural production, she shows how the right "look" is discovered, developed, and packaged to become a prized commodity. She examines how models sell themselves, how agents promote them, and how clients decide to hire them. An original contribution to the sociology of work in the new cultural economy, *Pricing Beauty* offers rich, accessible analysis of the invisible ways in which gender, race, and class shape worth in the marketplace.

This lively survey of 150 years of fashion covers everything from Haute Couture to the High Street, and developing fabric technology from silk to fleece. How have our ideas about hygiene and comfort influenced the direction of style? How does our dress create our identity and status? Details of dandies, flappers, and punks are contained within a clear overview of the period which will make you look at your clothes in a different light.

The Key to Nicholas Street

New York, Paris, London, Milan, Tokyo. This familiar list of cities conjures up the image of high fashion. This book examines the powerful relationship between metropolitan modernity and fashion culture. The authors look at the significance of certain key sites in fashion's world order and at transformations in the connections between key cities. The status of fashion capital has now become a goal for urban boosters and planners, part of the wider promotion of the 'cultural economy' of major cities. In a rapidly changing global fashion system, new centres like Shanghai are making claims to join the ranks of Fashion's World Cities. In chapters ranging from Los Angeles to Moscow and Dakar to Mumbai, Fashion's World Cities explores the relationship between major metropolises and the production, consumption and mythologizing of fashion.
